#### NEW ISSUE BOOK-ENTRY ONLY

RATINGS: Moody's: "MIG 1" S&P: "SP-1+" (See "RATINGS" herein)

In the opinion of Greenberg Traurig, LLP, Bond Counsel, assuming continuing compliance with certain tax covenants, under existing statutes, regulations, rulings and court decisions, interest on the Series 2018 Notes is excludable from gross income for federal income tax purposes. Further, interest on the Series 2018 Notes is not an item of tax preference for purposes of the alternative minimum tax imposed on individuals. See "TAX MATTERS" herein for a description of the federal alternative minimum tax, including alternative minimum tax on corporations for taxable years beginning before January 1, 2018, and certain other federal tax consequences of ownership of the Series 2018 Notes. Bond Counsel is further of the opinion that, under State of Colorado statutes as presently enacted and construed, such interest is excluded from taxable income and alternative minimum taxable income for State of Colorado income tax purposes. See "TAX MATTERS" herein.

# \$600,000,000 STATE OF COLORADO General Fund Tax And Revenue Anticipation Notes Series 2018

# **Dated: Date of Delivery**

#### Maturity Date: June 26, 2019

The Series 2018 Notes are being issued for the purpose of funding anticipated cash flow shortfalls in the State's General Fund in the State's July 1, 2018 - June 30, 2019 Fiscal Year and paying the costs of issuing the Series 2018 Notes, as described herein.

The Series 2018 Notes will be issued in fully registered form and registered initially in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York, the securities depository for the Series 2018 Notes. Beneficial Ownership Interests in the Series 2018 Notes, in non-certificated book-entry-only form, may be purchased in integral multiples of \$5,000 by or through participants in the DTC system. Beneficial Ownership Interests will be governed as to receipt of payments, notices and other communications, transfers and various other matters with respect to the Series 2018 Notes by the rules and operating procedures applicable to the DTC book-entry system as described herein.

The principal of and interest on the Series 2018 Notes, at the rates per annum specified below, is payable on the maturity date of the Series 2018 Notes specified above. The Series 2018 Notes are not subject to redemption prior to maturity.

Principal Amount	<b>Interest Rate</b>	Price	<b>Reoffering Yield</b>	CUSIP No.*,©
\$200,000,000	4.000%	102.290%	1.518%	196729 CG0
200,000,000	4.000	102.284	1.525	196729 CG0
200,000,000	5.000	103.202	1.530	196729 CH8

The Series 2018 Notes are special, limited obligations of the State payable solely from and secured by a pledge of Pledged Revenues consisting of cash income or other cash receipts duly credited to the General Fund for Fiscal Year 2018-19 that are subject to appropriation for Fiscal Year 2018-19 and not credited to the General Fund as of the date of issuance of the Series 2018 Notes, unexpended proceeds, if any, of the Series 2018 Notes and any parity obligations that may be issued hereafter and, to the extent permitted by law, proceeds of internal borrowing from other State funds, all as described herein. The Series 2018 Notes do not constitute a debt, indebtedness or multiple fiscal year financial obligation of the State or any political subdivision thereof within the meaning of any applicable provision of the constitution or laws of the State.

# An investment in the Series 2018 Notes involves risk. Prospective investors are urged to read this Official Statement in its entirety, giving particular attention to the matters discussed in "INVESTMENT CONSIDERATIONS," in order to obtain information essential to the making of an informed investment decision.

The Series 2018 Notes are offered when, as and if issued, subject to the approving opinion of Greenberg Traurig, LLP, Denver, Colorado, as Bond Counsel. Certain legal matters will be passed upon for the State by the Attorney General of the State and by Ballard Spahr LLP, Denver, Colorado, as special counsel to the State. It is expected that the Series 2018 Notes will be available for delivery through the facilities of DTC on or about July 19, 2018. North Slope Capital Advisors, Denver, Colorado, is acting as Financial Advisor to the State.

Dated: July 12, 2018

<sup>\*</sup> The State takes no responsibility for the accuracy of any CUSIP numbers, which are included solely for the convenience of owners of the Bonds.

# NOTICES

This Official Statement does not constitute an offer to sell the Series 2018 Notes in any jurisdiction to any person to whom it is unlawful to make such offer in such jurisdiction. No dealer, salesman or other person has been authorized by the State, the State Treasurer or the Financial Advisor to give any information or to make any representation other than those contained herein and, if given or made, such other information or representation must not be relied upon as having been authorized by the State or any other person.

The information and expressions of opinion in this Official Statement are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create the implication that there has been no change in the matters described in this Official Statement since the date hereof.

The information in this Official Statement has been obtained from officers, employees and records of the State and other sources believed to be reliable, but this Official Statement is not to be construed as the promise or guarantee of the State, the State Treasurer or the Financial Advisor.

The order and placement of materials in this Official Statement, including the appendices, are not to be deemed a determination of relevance, materiality or importance, and this Official Statement, including the appendices, must be considered in its entirety. The captions and headings in this Official Statement are for convenience only and in no way define, limit or describe the scope or intent, or affect the meaning or construction, of any provisions or sections of this Official Statement. The offering of the Series 2018 Notes is made only by means of this entire Official Statement.

This Official Statement is submitted in connection with the initial offering and sale of the Series 2018 Notes and may not be reproduced or used, in whole or in part, for any other purpose.

The Series 2018 Notes have not been recommended by any federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have neither confirmed the accuracy nor determined the adequacy of this Official Statement. Any representation to the contrary is unlawful.

# CAUTIONARY STATEMENTS REGARDING PROJECTIONS, ESTIMATES AND OTHER FORWARD LOOKING STATEMENTS IN THIS OFFICIAL STATEMENT

This Official Statement, including but not limited to the material set forth in "BORROWABLE RESOURCES," "DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS," "APPENDIX A -THE STATE GENERAL FUND," "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST" and "APPENDIX E—STATE PENSION SYSTEM," contains statements relating to future results that are "forward looking statements." When used in this Official Statement, the words "estimate," "anticipate," "forecast," "project," "intend," "propose," "plan," "expect" and similar expressions identify forward looking statements. The achievement of certain results or other expectations contained in forward looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements described to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. The State Treasurer does not plan to issue any updates or revisions to those forward looking statements if or when its expectations or events, conditions or circumstances on which these statements are based occur.

#### **Relating to**

# \$600,000,000 State Of Colorado General Fund Tax And Revenue Anticipation Notes Series 2018

#### INTRODUCTION

This Official Statement, which includes the cover page, inside cover, prefatory information and the appendices, furnishes information in connection with the issuance and sale by the State of Colorado (the "**State**") of its \$600,000,000 State of Colorado General Fund Tax and Revenue Anticipation Notes, Series 2018 (the "**Series 2018 Notes**"). See "THE SERIES 2018 NOTES" and "THE STATE."

This introduction is not a summary of this Official Statement. It is only a summary description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of Series 2018 Notes to potential investors is made only by means of the entire Official Statement.

This Official Statement contains information that was either not available or differs from that contained in the Preliminary Official Statement dated June 29, 2018, including, without limitation, the interest rates, prices, reoffering yields, CUSIP numbers, original purchasers of and the purchase price paid by the original purchasers for the Series 2018 Notes. Accordingly, prospective investors should read this Official Statement in its entirety.

#### **Authority and Purpose**

The Funds Management Act of 1986 (the "**Funds Management Act**"), being Title 24, Article 75, Part 9, Colorado Revised Statutes, as amended ("**C.R.S.**"), authorizes the State Treasurer to issue and sell notes from time to time payable from the anticipated revenues of any one or more funds or groups of accounts to which State moneys are credited in order to accomplish any of the purposes of such Act, including the alleviation of cash flow shortfalls in any such fund or group of accounts.

The Funds Management Act provides a means of compensating for the fluctuations in revenues and expenditures that occur in the State's General Fund, which is the State's principal operating fund, during the "Fiscal Year" (July 1-June 30), and result in temporary cash flow shortfalls in the General Fund. The Series 2018 Notes are being issued for the purpose of funding anticipated cash flow shortfalls in the General Fund in the Fiscal Year beginning July 1, 2018, and ending June 30, 2019 ("**Fiscal Year 2018-19**"), and paying the costs of issuing the Series 2018 Notes. See "APPLICATION OF PROCEEDS OF THE SERIES 2018 NOTES."

#### The Series 2018 Notes

*Authorization.* The Series 2018 Notes are issued under the authority of the Constitution of the State of Colorado (the "State Constitution") and laws of the State, particularly the Funds Management Act and the Supplemental Public Securities Act, being Title 11, Article 57, Part 2, C.R.S. (the "Supplemental Public Securities Act"); and pursuant to a resolution (the "Authorizing Resolution")

adopted by the Treasurer of the State (the "State Treasurer"). See "THE SERIES 2018 NOTES—Authorization."

*General Provisions.* The Series 2018 Notes will be dated the date of issuance and delivery to the original purchasers thereof (the "Closing Date") and will mature on June 26, 2019 (the "Maturity Date"). Interest on the Series 2018 Notes, at the rates per annum set forth on the cover page hereof (computed on the basis of a 360-day year of twelve 30-day months), will accrue from the Closing Date and will be payable on the Maturity Date. The Series 2018 Notes are not subject to redemption prior to maturity. See "THE SERIES 2018 NOTES—General Provisions."

**Book-Entry-Only System.** The Series 2018 Notes will be issued in fully registered form (i.e., registered as to payment of both principal and interest) and registered initially in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"), which will serve as securities depository for the Series 2018 Notes. Ownership interests in the Series 2018 Notes ("Beneficial Ownership Interests"), in non-certificated book-entry-only form, may be purchased in integral multiples of \$5,000 by or through participants in the DTC system ("DTC Participants"). Beneficial Ownership Interests will be recorded in the name of the purchasers thereof ("Beneficial Owners") on the books of the DTC Participants from whom they are acquired, and will be governed as to the receipt of payments, notices and other communications, transfers and various other matters with respect to the Series 2018 Notes by the rules and operating procedures applicable to the DTC book-entry system as described in "THE SERIES 2018 NOTES—General Provisions" and "APPENDIX F—DTC BOOK-ENTRY SYSTEM." As used in this Official Statement, the term "Owners" of the Series 2018 Notes means the persons or entities in whose names the Series 2018 Notes (such Owner initially being Cede & Co. or such other nominee as may be designated by DTC), and does not mean the Beneficial Owners.

*Security and Sources of Payment.* The Series 2018 Notes are special, limited obligations of the State payable solely from and secured by a pledge of the "Pledged Revenues," consisting of the following, which the State Treasurer believes will be sufficient for the repayment of the Series 2018 Notes:

- Any cash income or other cash receipts duly credited to the General Fund for Fiscal Year 2018-19 that are subject to appropriation for Fiscal Year 2018-19 and not yet credited to the General Fund as of the Closing Date ("**Current General Fund Revenues**"). Current General Fund Revenues are comprised generally of receipts from corporate and individual income taxes, sales and use taxes, certain excise taxes, insurance taxes, federal funds, interest on investments of certain State funds and revenues from pari-mutuel wagering, courts, charges for services and other sources.
- Unexpended proceeds, if any, of the Series 2018 Notes and any additional general fund tax and revenue anticipation notes issued pursuant to the Funds Management Act and in accordance with the Authorizing Resolution that are payable from and secured by a pledge of all or any portion of the Pledged Revenues on parity with the Series 2018 Notes ("Additional Notes").
- To the extent permitted by law, proceeds of internal borrowing from other State funds ("**Borrowable Resources**").

Pursuant to the Authorizing Resolution, a restricted account within the General Fund (the "**Note Payment Account**") established by the State Controller (the "**State Controller**") is pledged to the Owners of the Series 2018 Notes and to the registered owners of any Additional Notes. The State

Treasurer covenants in the Authorizing Resolution to credit the Pledged Revenues to the Note Payment Account so that the amount therein will be sufficient to pay the principal of and interest on the Series 2018 Notes and any Additional Notes due on the Maturity Date, and to take certain measures required by the Authorizing Resolution if and to the extent that the Note Payment Account contains less than the required amount. The Owners of the Series 2018 Notes will be equally and ratably secured by a first lien on the Note Payment Account and the moneys and investments deposited therein, which lien will be on parity with the lien thereon in favor of the registered owners of any Additional Notes that may be issued hereafter.

The Series 2018 Notes do not constitute a debt, indebtedness or multiple fiscal year financial obligation of the State within the meaning of any applicable provision of the State Constitution or State statutes. The Owners and Beneficial Owners of the Series 2018 Notes may not look to any source other than the Pledged Revenues for payment of the Series 2018 Notes.

See generally "THE SERIES 2018 NOTES—Security and Sources of Payment—Additional Notes," "STATE FINANCIAL INFORMATION—State Funds—The General Fund," "BORROWABLE RESOURCES," "APPENDIX A—THE STATE GENERAL FUND" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

#### Legal and Tax Matters

Greenberg Traurig, LLP, Denver, Colorado, is serving as bond counsel ("**Bond Counsel**") in connection with the issuance of the Series 2018 Notes and will deliver its opinion substantially in the form appended to this Official Statement. Certain legal matters will be passed upon for the State by the Attorney General of the State and by Ballard Spahr LLP, Denver, Colorado, as special counsel to the State. See "LEGAL MATTERS."

In the opinion of Greenberg Traurig, LLP, Bond Counsel, assuming continuing compliance with certain tax covenants, under existing statutes, regulations, rulings and court decisions, interest on the Series 2018 Notes is excludable from gross income for federal income tax purposes. Further, interest on the Series 2018 Notes is not an item of tax preference for purposes of the alternative minimum tax imposed on individuals. See "TAX MATTERS" herein for a description of the federal alternative minimum tax, including alternative minimum tax on corporations for taxable years beginning before January 1, 2018, and certain other federal tax consequences of ownership of the Series 2018 Notes. Bond Counsel is further of the opinion that, under State of Colorado statutes as presently enacted and construed, such interest is excluded from taxable income and alternative minimum taxable income for State of Colorado income tax purposes. See "TAX MATTERS" herein.

# **Continuing Disclosure**

In accordance with the exemption set forth in paragraph (d)(3) of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended ("**Rule 15c2-12**"), no undertaking to report annual financial information or operating data as set forth in the final Official Statement, or audited financial statements, will be provided by the State in connection with the Series 2018 Notes because the Series 2018 Notes have a stated maturity of less than 18 months. However, the State Treasurer does undertake in the Authorizing Resolution to provide notice of certain enumerated events if they occur, as described in "THE SERIES 2018 NOTES—Security and Sources of Payment—*Note Payment Account*" and "CONTINUING DISCLOSURE."

For a discussion of the recent compliance by the State and certain State departments and agencies that utilize the State's credit with the various continuing disclosure undertakings of such entities, see

"CONTINUING DISCLOSURE—Compliance With Other Continuing Disclosure Undertakings— MCDC Settlement Order with the Securities and Exchange Commission."

#### **State Economic and Demographic Information**

This Official Statement contains economic and demographic information about the State prepared by Development Research Partners, Inc. for use by the State. See "APPENDIX D—CERTAIN STATE ECONOMIC AND DEMOGRAPHIC INFORMATION." Development Research Partners, Inc. has consented to the inclusion of such information in this Official Statement. The State does not assume responsibility for the accuracy, completeness or fairness of such information. The information in such Appendix has been included in the Official Statement in reliance upon the authority of Development Research Partners, Inc. as experts in the preparation of economic and demographic analyses. Potential investors should read such Appendix in its entirety for information with respect to the economic and demographic status of the State.

#### **Additional Information**

Brief descriptions of the Series 2018 Notes, the State, the Authorizing Resolution, the Funds Management Act and certain other statutes, reports, documents and instruments are included in this Official Statement. The descriptions of the statutes, reports, documents or other instruments included herein do not purport to be comprehensive or definitive and are qualified in their entirety by reference to each such statute, report, document or other instrument. Copies of the Authorizing Resolution and certain other documents referred to herein may be obtained from North Slope Capital Advisors (the "**Financial Advisor**"), 730 17th Street, Suite 900, Denver, CO 80202, Attention: Nick Taylor, telephone number (303) 953-4101.

#### **Investment Considerations**

An investment in the Series 2018 Notes involves risk. Prospective investors are urged to read this Official Statement in its entirety, giving particular attention to the matters discussed in "INVESTMENT CONSIDERATIONS," in order to obtain information essential to the making of an informed investment decision.

#### **Forward Looking Statements**

See the preliminary notices in this Official Statement regarding forward-looking statements.

#### Miscellaneous

The cover page, inside cover, prefatory information and appendices to this Official Statement are integral parts hereof and must be read together with all other parts of this Official Statement.

Information contained in this Official Statement has been obtained from officers, employees and records of the State and from other sources believed to be reliable, but this Official Statement is not to be construed as the promise or guarantee of the State, the State Treasurer or the Financial Advisor. The information herein is subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create the implication that there has been no change in the matters described in this Official Statement since the date hereof. So far as any statements made in this Official Statement involve matters of opinion, forecasts, projections or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact.

This Official Statement shall not be construed as a contract or agreement between the State and the Owners or Beneficial Owners of the Series 2018 Notes.

# **APPLICATION OF PROCEEDS OF THE SERIES 2018 NOTES**

The Series 2018 Notes are being issued for the purpose of funding anticipated cash flow shortfalls in the General Fund in Fiscal Year 2018-19 and paying the costs of issuing the Series 2018 Notes.

Timing differences between revenue collections and disbursements have caused the State to engage in interfund borrowing and the issuance of General Fund tax and revenue anticipation notes from time to time in order to meet the obligations of the General Fund in a timely manner. Without interfund borrowing or the issuance of the Series 2018 Notes, the State forecasts that the General Fund would incur cumulative cash shortfalls in Fiscal Year 2018-19. The proceeds of the Series 2018 Notes, or approximately \$615,385,000, will be deposited in the General Fund and used both to alleviate cash flow shortfalls and finance the State's daily operations in anticipation of taxes and other revenues to be received later in Fiscal Year 2018-19. The costs and expenses relating to the issuance and sale of the Series 2018 Notes, including underwriting discount, are approximately \$167,000.

See "THE SERIES 2018 NOTES—Authorization," "STATE FINANCIAL INFORMATION— State Funds—The General Fund," "BORROWABLE RESOURCES," "UNDERWRITING," "APPENDIX A—THE STATE GENERAL FUND" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

### **THE SERIES 2018 NOTES**

The following is a summary of certain provisions of the Series 2018 Notes during such time as the Series 2018 Notes are subject to the DTC book-entry system. Reference is hereby made to the Authorizing Resolution in its entirety for the detailed provisions pertaining to the Series 2018 Notes, including provisions applicable upon discontinuance of participation in the DTC book-entry system.

#### Authorization

The Series 2018 Notes are being issued under the authority of the State Constitution and State laws, particularly the Funds Management Act and the Supplemental Public Securities Act, and pursuant to the Authorizing Resolution.

The Funds Management Act authorizes the State Treasurer to issue and sell notes from time to time payable from the anticipated revenues of any one or more funds or groups of accounts to which State moneys are credited to accomplish any of the purposes of such Act, including the alleviation of cash flow shortfalls in any such fund or group of accounts. The aggregate principal amount of outstanding notes payable from any fund or group of accounts is limited to 50% of the amount of revenues of such fund or group of accounts anticipated but not yet credited to the fund or group of accounts for the applicable Fiscal Year, excluding the proceeds of notes or other borrowing credited to such fund or group of accounts and any income from the investment of revenues or the proceeds of such borrowings. It is forecast that approximately \$12,100 million in revenues (excluding the proceeds of the Series 2018 Notes or other borrowings and investment income of revenues and such proceeds) will be credited to the General Fund for Fiscal Year 2018-19, thereby imposing a limit of approximately \$6,050 million in General Fund notes for Fiscal Year 2018-19. See "APPENDIX A—THE STATE GENERAL FUND—General Fund Cash Flow" and "Additional Notes" below.

#### **General Provisions**

The Series 2018 Notes will be issued in fully registered form (i.e., registered as to payment of both principal and interest) and registered initially in the name of Cede & Co., as nominee of DTC, which will serve as securities depository for the Series 2018 Notes. Beneficial Ownership Interests in the Series 2018 Notes, in non-certificated book-entry-only form, may be purchased in integral multiples of \$5,000 by or through DTC Participants. Such Beneficial Ownership Interests will be recorded in the name of the Beneficial Owners on the books of the DTC Participants from whom they are acquired, and will be governed as to payment of principal and interest and the receipt of notices and other communications, transfers and various other matters with respect to the Series 2018 Notes by the rules and operating procedures applicable to the DTC book-entry system as described in "APPENDIX F—DTC BOOK-ENTRY SYSTEM."

The Series 2018 Notes will be dated as of the Closing Date, mature on the Maturity Date and bear interest at the rates per annum (computed on the basis of a 360-day year consisting of twelve 30-day months) specified on the cover page of this Official Statement. Interest on the Series 2018 Notes will accrue from the Closing Date and will be payable on the Maturity Date. The principal of and interest on the Series 2018 Notes will be payable by the State Treasurer, as paying agent for the Series 2018 Notes, on the Maturity Date to Cede & Co., as the Owner of the Series 2018 Notes, for subsequent credit to the accounts of the Beneficial Owners. See "APPENDIX F—DTC BOOK-ENTRY SYSTEM." Interest on the Series 2018 Notes will cease to accrue on the Maturity Date.

The Deputy Treasurer will serve as the registrar for the Series 2018 Notes, subject to the provisions of the DTC book-entry system.

Neither the State, the State Treasurer, the Deputy Treasurer, the Chief Financial Officer of the Department of the Treasury, the State Controller nor the Financial Advisor has any responsibility or obligation to any Beneficial Owner with respect to (i) the accuracy of any records maintained by DTC or any DTC Participant, (ii) the distribution by DTC or any DTC Participant of any notice that is permitted or required to be given to the Owners of the Series 2018 Notes under the Authorizing Resolution, (iii) the payment by DTC or any DTC Participant of any amounts received under the Authorizing Resolution with respect to the Series 2018 Notes, (iv) any consent given or other action taken by DTC or its nominee as the owner of Series 2018 Notes or (v) any other related matter.

#### No Redemption prior to Maturity

The Series 2018 Notes are not subject to redemption prior to the Series 2018 Notes Maturity Date.

#### **Security and Sources of Payment**

*Limited Obligations.* The Series 2018 Notes are special, limited obligations of the State payable solely from the Pledged Revenues, which the State Treasurer believes will be sufficient for the repayment of the Series 2018 Notes. The State pledges to the payment of principal of and interest on the Series 2018 Notes on the Maturity Date. The Series 2018 Notes do not constitute a debt, indebtedness or multiple fiscal year financial obligation of the State within the meaning of any applicable provision of the State Constitution or State statutes. The Owners and Beneficial Owners of the Series 2018 Notes to any source other than the Pledged Revenues for payment of the Series 2018 Notes.

*The Pledged Revenues.* The Pledged Revenues consist of (i) Current General Fund Revenues, (ii) the unexpended proceeds, if any, of the Series 2018 Notes and any Additional Notes and (iii) Borrowable Resources.

*Current General Fund Revenues.* Current General Fund Revenues are comprised of any cash income or other cash receipts duly credited to the General Fund for Fiscal Year 2018-19 that are subject to appropriation for Fiscal Year 2018-19 and not yet credited to the General Fund as of the Closing Date. Current General Fund Revenues include, generally, receipts from corporate and individual income taxes, sales and use taxes, certain excise taxes, insurance taxes, interest on investments of certain State funds and revenues from pari-mutuel wagering, courts, charges for services and other sources.

Current General Fund Revenues do not include the proceeds of the Series 2018 Notes or Additional Notes or certain moneys that are legally required to be paid to other funds, including, among others: (i) those moneys or revenues that are required to be credited to the Old Age Pension Fund and the State Education Fund, except to the extent determined to be in excess of the requirements of such funds and transferred to the General Fund; and (ii) moneys received from the federal government that are not subject to appropriation or are restricted to a particular purpose or use. In addition, the Series 2018 Notes are not payable from General Fund or other State revenues that are subject to accrual to the General Fund in any Fiscal Year after Fiscal Year 2018-19. See "APPENDIX A—THE STATE GENERAL FUND" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

**Borrowable Resources.** The Pledged Revenues also include Borrowable Resources, being, to the extent permitted by law, proceeds of internal borrowing from other State funds. These State funds consist of over 600 funds and accounts of the State other than the General Fund. See "BORROWABLE RESOURCES" for a more detailed discussion of the State funds constituting the Borrowable Resources.

*Note Payment Account.* The Note Payment Account of the General Fund is created pursuant to the Authorizing Resolution and is to be held by the State Treasurer on behalf of the State and used solely to pay the Series 2018 Notes and any Additional Notes. The Note Payment Account is pledged to the payment of the principal of and interest on the Series 2018 Notes and any Additional Notes on the Maturity Date, and the Owners of the Series 2018 Notes and the registered owners of any Additional Notes are equally and ratably secured by an exclusive first lien on the Note Payment Account and the moneys deposited therein. Moneys held in the Note Payment Account may be commingled for investment purposes with other moneys in the General Fund but are not available for the payment of other General Fund expenditures or interfund transfers.

In order to provide for the payment of the principal of and interest on the Series 2018 Notes and any Additional Notes, the State Treasurer covenants to credit Pledged Revenues to the Note Payment Account in such amount as will cause the balance in the Note Payment Account on June 15, 2019, to be at least equal to the principal of and interest on the Series 2018 Notes and any Additional Notes due on the Maturity Date.

If on June 15, 2019, the balance in the Note Payment Account is less than the amount required, the State Treasurer covenants to: (i) give notice of such deficiency to the Municipal Securities Rulemaking Board (the "**MSRB**") via its Electronic Municipal Market Access ("**EMMA**") system and to DTC or any successor depository; and (ii) until the balance in the Note Payment Account satisfies such requirement, (a) credit to the Note Payment Account all Current General Fund Revenues then available and thereafter received, and (b) borrow (to the extent permitted by law) for credit to the Note Payment Account from other State funds. Such notice is to be given by electronic transmission unless the designated recipient thereof has otherwise requested the State Treasurer to use another means of transmission. In the event the designated recipient does not utilize electronic transmission and has not

otherwise requested a specific means of transmission from the State Treasurer, such notice is to be by first-class mail, postage prepaid.

The State Treasurer covenants that moneys in the Note Payment Account not immediately needed will be invested only in investments maturing on or before the Maturity Date and authorized by (i) the Funds Management Act, (ii) Title 24, Article 36, C.R.S., or (iii) to the extent applicable, Title 24, Article 75, Part 6, C.R.S. Investment earnings on moneys held in the Note Payment Account are to be retained in the Note Payment Account until the balance therein equals or exceeds the principal of and interest due on the Series 2018 Notes and Additional Notes, if any, on the Maturity Date. See "FINANCIAL INFORMATION—Investment and Deposit of State Funds" and "APPENDIX A—THE STATE GENERAL FUND—Investment Policies—Investment of the State Pool."

The State Treasurer covenants to prepare, on or about the 25th day of October 2018, January 2019 and April 2019, written projections of Current General Fund Revenues, Current General Fund Expenditures, General Fund balances and legally available amounts in other State funds for each month remaining in the Current Fiscal Year, which projections are to be based on the quarterly revenue projections approved by the Governor's Office of State Planning and Budgeting ("**OSPB**") or any successor in function. See "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations" and "APPENDIX A—THE STATE GENERAL FUND—Revenue Estimation; OSPB Revenue and Economic Forecasts."

If at any time such projections show that Current General Fund Revenues will be insufficient to permit the required credits to the Note Payment Account, the State Treasurer covenants in the Authorizing Resolution to: (i) immediately give notice of such determination to the MSRB (via EMMA) and to DTC or any successor securities depository; and (ii) until there has been credited to the Note Payment Account an amount equal to the amount by which the required credits are projected to be insufficient, (a) credit all Current General Fund Revenues then available and thereafter received to the Note Payment Account to the extent required, and (b) transfer from other State funds (to the extent permitted by law) for credit to the Note Payment Account to the extent required. The State Treasurer also covenants in the Authorizing Resolution to make no repayment of moneys transferred from any other funds of the State unless after taking into account the amount of the repayment, the amount credited to the Note Payment Account will equal or exceed the principal and interest due on the Series 2018 Notes on the Maturity Date. See also "CONTINUING DISCLOSURE." For a discussion of the anticipated cash flow to the General Fund, the sources thereof and the procedures to be followed for and the limitations on interfund borrowing, see INFORMATION—State generally **"STATE** FINANCIAL Funds—The General Fund." "BORROWABLE RESOURCES" and "APPENDIX A—THE STATE GENERAL FUND."

#### **Additional Notes**

Subject to the limitation on the amount of General Fund notes that may be issued pursuant to the Funds Management Act as discussed in "Authorization" above, the Authorizing Resolution authorizes the State Treasurer to issue Additional Notes payable from and secured by a pledge of all or a portion of the Pledged Revenues on parity with (but not superior to) the pledge in favor of the Owners of the Series 2018 Notes. The Additional Notes may have such details as the State Treasurer may determine; provided, however, that the Additional Notes are required to be (i) non-redeemable prior to the Maturity Date, (ii) due and payable as to both principal and interest on the Maturity Date and (iii) payable from the Note Payment Account. The State Treasurer currently does not anticipate issuing any Additional Notes, but reserves the right to do so.

#### **Defaults and Remedies**

Each of the following constitutes an "Event of Default" under the Authorizing Resolution:

- Payment of the principal of or interest on any of the Series 2018 Notes is not made on the Maturity Date;
- The balance credited to the Note Payment Account on June 15, 2019, is less than the principal and interest due on the Series 2018 Notes and Additional Notes, if any, on the Maturity Date; or
- The State fails to observe or perform any condition, agreement or covenant contained in the Authorizing Resolution or the Series 2018 Notes and such failure continues for 15 days after receipt of written notice by the State Treasurer from any Owner of the Series 2018 Notes.

Upon the occurrence of any Event of Default, the Authorizing Resolution provides that any Owner of the Series 2018 Notes may: (i) sue or commence an action or proceeding to collect sums due and owing on the Series 2018 Notes or to enforce and protect such Owner's rights under the Authorizing Resolution and the Series 2018 Notes; (ii) compel, to the extent permitted by law, by mandamus or otherwise, the performance by the State of any covenant in the Authorizing Resolution or the Series 2018 Notes; or (iii) examine the books and records of the State and require the State Treasurer to account for all moneys and investments constituting the Pledged Revenues as if the State Treasurer were the trustee of an express trust. Neither principal of nor interest on the Series 2018 Notes may be accelerated as a consequence of any Event of Default.

If on the Maturity Date the moneys in the Note Payment Account are not sufficient to pay the principal of and interest on the Series 2018 Notes and Additional Notes, if any, the State Treasurer is to ratably apply the moneys in the Note Payment Account to the payment of the principal and interest then due and unpaid upon the Series 2018 Notes and Additional Notes, if any, without preference or priority of principal over interest or of interest over principal, or of any Series 2018 Note or Additional Notes, if any, over any other Series 2018 Note or Additional Notes, if any, according to the amounts due, respectively, for principal and interest to the persons entitled thereto without any discrimination or preference.

#### **Tax Covenant**

The State Treasurer covenants in the Authorizing Resolution for the benefit of the Owners of the Series 2018 Notes that the State Treasurer will not take any action or omit to take any action with respect to the Series 2018 Notes, the proceeds thereof or other funds of the State if such action or omission would (i) cause the interest on the Series 2018 Notes to lose its exclusion from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "**Code**"), (ii) cause interest on the Series 2018 Notes to lose its exclusion from alternative minimum taxable income as defined in Section 55(b)(2) of the Code except to the extent such interest is required to be included in the adjusted current earnings adjustment applicable to corporations under Section 56 of the Code in calculating corporate alternative minimum taxable income or (iii) cause interest on the Series 2018 Notes to lose its exclusion from gross income under present State law. This covenant is to remain in full force and effect notwithstanding the payment in full of the Series 2018 Notes until the date on which all obligations of the State Treasurer in fulfilling such covenant under the Code and State law have been met. See also "TAX MATTERS."

# **INVESTMENT CONSIDERATIONS**

An investment in the Series 2018 Notes involves certain investment risks that are discussed throughout this Official Statement. Each prospective investor should make an independent evaluation of all information presented in this Official Statement in order to make an informed investment decision. Particular attention should be given to the factors described below that, among others, could affect the payment of the principal of and interest on the Series 2018 Notes.

#### **Limited Obligations**

The Series 2018 Notes are special, limited obligations of the State payable solely from and secured by a pledge of the Pledged Revenues, consisting of (i) Current General Fund Revenues, (ii) the unexpended proceeds, if any, of the Series 2018 Notes and any Additional Notes and (iii) Borrowable Resources. The State has not pledged its General Fund, taxing power or revenues, other than the Pledged Revenues, to the payment of the Series 2018 Notes. The Series 2018 Notes do not constitute a debt, indebtedness or multiple fiscal year financial obligation of the State or any political subdivision thereof within the meaning of any applicable provision of the State Constitution or State laws, and no governmental entity has pledged its faith and credit for the payment of the Series 2018 Notes. If an Event of Default under the Authorizing Resolution should occur, the State may not have sufficient Pledged Revenues to pay the principal of and/or the interest on the Series 2018 Notes. See "THE SERIES 2018 NOTES—Security and Sources of Payment—Defaults and Remedies."

#### **Budgets and Revenue Forecasts**

The State Constitution requires that expenditures for any Fiscal Year not exceed revenues for such Fiscal Year. In addition, Section 24-75-201.1(1)(d), C.R.S., provides that for each Fiscal Year, a portion of the unrestricted General Fund year-end balance is to be retained as a reserve (the "**Unappropriated Reserve**"), and Section 24-75-201.1, C.R.S., provides that General Fund appropriations for each Fiscal Year, with certain exceptions, may not exceed specified amounts, as discussed in "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations—*Revenues and Unappropriated Amounts—Expenditures; The Balanced Budget and Statutory Spending Limitation.*"

The State relies on revenue estimation as the basis for budgeting and establishing aggregate funds available for expenditure for its appropriation process. By statute, the OSPB is responsible for developing the General Fund revenue estimate. The most recent OSPB revenue forecast was issued on June 20, 2018 (the "**OSPB June 2018 Revenue Forecast**"), and is included in its entirety in this Official Statement. See "STATE FINANCIAL INFORMATION," "APPENDIX A—THE STATE GENERAL FUND—Revenue Estimation; OSPB Revenue and Economic Forecasts" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST." The Colorado Legislative Council also prepares quarterly revenue forecasts which are released on the same dates as the OSPB revenue forecasts. On Tuesday, June 12, 2018, the Governor announced the Director, Henry Sobanet, of OSPB is leaving his position after 20 years of service to the State, and that Lauren Larson will serve as the state's new Director of OSPB. Larson currently serves as Director of State Operations in the Office of Lt. Gov. and Chief Operating Officer Donna Lynne.

The State's Fiscal Year budgets are not prepared on a cash basis, but rather are prepared using the modified accrual method of accounting in accordance with the standards promulgated by the Governmental Accounting Standards Board ("GASB"), with certain statutory exceptions. The State could experience temporary and cumulative cash shortfalls as the result of differences in the timing of the actual receipt of revenues and payment of expenditures by the State compared to the inclusion of such revenues

and expenditures in the State's Fiscal Year budgets on a modified accrual basis, which does not take into account the timing of when such amounts are received or paid. If an unanticipated cash shortfall were to occur in late Fiscal Year 2018-19, it may adversely affect the State's ability to repay the Series 2018 Notes. See "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations," "APPENDIX A—THE STATE GENERAL FUND—Revenue Estimation; OSPB Revenue and Economic Forecasts" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

The OSPB June 2018 Revenue Forecast projects that General Fund revenues in Fiscal Year 2017-18 will increase by \$1,350 million, or 13.1%, over Fiscal Year 2016-17, and that General Fund revenues in Fiscal Year 2018-19 will increase by \$471 million, or 4.1%, over Fiscal Year 2017-18. The OSPB June 2018 Revenue Forecast indicates that the State ended Fiscal Year 2016-17 with reserves of \$30.2 million above the Unappropriated Reserve requirement, and will end Fiscal Years 2017-18 and 2018-19 with reserves of \$536.7 million and \$130.6 million, respectively above the applicable Unappropriated Reserve requirement. During the 2018 legislative session, the reserve requirement was increased to 7.25 percent beginning in FY 2018-19. These figures are based on revenue and budget information available when the OSPB June 2018 Revenue Forecast was completed and are subject to change in subsequent OSPB revenue forecasts based on new information on revenue and expenditures.

The next OSPB revenue forecast will be released in September of 2018. General Fund revenue projections in this and subsequent OSPB revenue forecasts may be materially different from the OSPB June 2018 Revenue Forecast. If a revenue shortfall is projected for Fiscal Year 2018-19 and subsequent forecasted years, budget cuts and/or actions to increase the amount of money in the General Fund will be necessary to ensure a balanced budget. A revenue shortfall in Fiscal Year 2018-19 may adversely affect the State's ability to repay the Series 2018 Notes. See "STATE FINANCIAL INFORMATION -Budget Process and Other Considerations," "APPENDIX A—THE STATE GENERAL FUND -Revenue Estimation; OSPB Revenue and Economic Forecasts" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

Prospective investors are cautioned that any forecast is subject to uncertainties, and inevitably some assumptions used to develop the forecasts will not be realized, and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between forecasted and actual results, and such differences may be material. No representation or guaranty is made herein as to the accuracy of the forecasts. See the preliminary notices in this Official Statement regarding forward-looking statements.

#### **Additional Notes**

The Authorizing Resolution permits the State to issue Additional Notes upon satisfaction of certain conditions provided therein and in the Funds Management Act. If Additional Notes are issued, they would be payable from and secured by a pledge of the Pledged Revenues on parity with the pledge securing the Series 2018 Notes and could therefore adversely impact the investment security for the Series 2018 Notes. The State Treasurer currently does not anticipate issuing any Additional Notes, but reserves the right to do so. See "THE SERIES 2018 NOTES—Authorization—Additional Notes."

# Loss of Tax Exemption

As discussed in "TAX MATTERS," the interest on the Series 2018 Notes could become includable in gross income for federal income tax purposes and/or become includable in Colorado taxable income or Colorado alternative minimum taxable income as a result of a failure of the State to comply with certain covenants contained in the Authorizing Resolution.

#### **Future Changes in Laws**

Various State laws and constitutional provisions apply to the operations of and availability and appropriation of funds by the State. There is no assurance that there will not be any changes in, interpretation of or addition to such laws that would have a material adverse effect, directly or indirectly, on the affairs of the State, the availability of and appropriation of funds by the State or the ability of the State to repay the Series 2018 Notes. See also "LITIGATION, GOVERNMENTAL IMMUNITY AND SELF-INSURANCE—Current Litigation" for a discussion of certain pending litigation the outcome of which could potentially have a material adverse impact on the State's finances.

#### THE STATE

#### **General Profile**

Colorado became the 38th state of the United States of America when it was admitted to the union in 1876. Its borders encompass 103,718 square miles of the high plains and the Rocky Mountains, with elevations ranging from 3,315 to 14,433 feet above sea level. The current population of the State is approximately 5.5 million. The State's major economic sectors include agriculture, professional and business services, manufacturing, technology, tourism, energy production and mining. Considerable economic activity is generated in support of these sectors by government, wholesale and retail trade, transportation, communications, public utilities, finance, insurance, real estate and other services. See also "APPENDIX C—STATE OF COLORADO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2017" and "APPENDIX D—CERTAIN STATE ECONOMIC AND DEMOGRAPHIC INFORMATION" for additional information about the State.

# Organization

The State maintains a separation of powers utilizing three branches of government: executive, legislative and judicial. The executive branch comprises four major elected officials: the Governor, State Treasurer, Attorney General and Secretary of State. The chief executive power is allocated to the Governor, who has responsibility for administering the budget and managing the executive branch. The State Constitution empowers the State legislature, known as the General Assembly, to establish up to 20 principal departments in the executive branch. Most departments of the State report directly to the Governor; however, the Departments of Treasury, Law and State report to their respective elected officials, and the Department of Education reports to the elected State Board of Education. The elected officials serve four year terms. The current term of such officials commenced in January of 2015 (following the general election held in November of 2014) and will expire on the second Tuesday in January of 2019. No elected executive official may serve more than two consecutive terms in the same office.

The General Assembly is bicameral, consisting of the 35-member Senate and 65-member House of Representatives. Senators serve a term of four years and representatives serve a term of two years. No senator may serve more than two consecutive terms, and no representative may serve more than four consecutive terms. The State Constitution allocates to the General Assembly legislative responsibility for, among other things, appropriating State moneys to pay the expenses of State government. The General Assembly meets annually in regular session beginning no later than the second Wednesday of January of each year. Regular sessions may not exceed 120 calendar days. Special sessions may be convened by proclamation of the Governor or by written request of two-thirds of the members of each house to consider only those subjects for which the special session is requested.

#### STATE FINANCIAL INFORMATION

#### The State Treasurer

The State Constitution provides that the State Treasurer is to be the custodian of public funds in the State Treasurer's care, subject to legislative direction concerning safekeeping and management of such funds. The State Treasurer is the head of the statutorily created Department of the Treasury (the "**State Treasury**"), which receives all State moneys collected by or otherwise coming into the hands of any officer, department, institution or agency of the State (except certain institutions of higher education). The State Treasurer deposits and disburses those moneys in the manner prescribed by law. Every officer, department, institution and agency of the State (except for certain institutions of higher education) charged with the responsibility of collecting taxes, licenses, fees and permits imposed by law and of collecting or accepting tuition, rentals, receipts from the sale of property and other moneys accruing to the State from any source is required to transmit those moneys to the State Controller. The State Treasurer and the State Controller may authorize any department, institution or agency collecting or receiving State moneys to deposit such moneys to a depository to the State Treasurer's credit in lieu of transmitting such moneys to the State Treasury.

The State Treasurer has discretion to invest in a broad range of interest bearing securities described by statute. See "Investment and Deposit of State Funds" under this caption and "APPENDIX A—THE STATE GENERAL FUND—Investment of the State Pool." All interest derived from the deposit and investment of State moneys must be credited to the General Fund unless otherwise expressly provided by law.

#### **Tax and Revenue Anticipation Notes**

The Funds Management Act authorizes the State Treasurer, on behalf of the State, to issue and sell notes payable from the anticipated revenues of any one or more funds or groups of accounts to meet temporary cash flow shortfalls. Since 1984, with the exception of each of Fiscal Years 1990-91, 1991-92 and 1998-99, the State has issued tax and revenue anticipation notes, such as the Series 2018 Notes, pursuant to the Funds Management Act in order to fund cash flow shortfalls in the General Fund. For each of Fiscal Years 1990-91, 1991-92 and 1998-99, the State funded cash flow shortfalls by use of Borrowable Resources. All tax and revenue anticipation notes issued by the State have been paid in full when due. See also "THE SERIES 2018 NOTES."

#### SB 17-267

The State constitutionality of Senate Bill 17-267 adopted by the General Assembly in 2017, portions of which are described below, is currently being challenged in Denver District Court. The impact of such challenge on the future application of SB 17-267 is unknown as of the date hereof.

#### **Taxpayer's Bill of Rights**

*General.* Article X, Section 20 of the State Constitution, entitled the Taxpayer's Bill of Rights and commonly known as "**TABOR**," imposes various fiscal limits and requirements on the State and its local governments, excluding "enterprises," which are defined in TABOR as government-owned businesses authorized to issue their own revenue bonds and receiving less than 10% of their annual revenues in grants from all State and local governments combined. Certain limitations contained in TABOR may be exceeded with prior voter approval.

TABOR provides a limitation on the amount of revenue that may be kept by the State in any particular Fiscal Year, regardless of whether that revenue is actually spent during the Fiscal Year. This revenue limitation is effected through a limitation on "fiscal year spending" as discussed hereafter. Any revenue received during a Fiscal Year in excess of the limitations provided for in TABOR must be refunded to the taxpayers during the next Fiscal Year unless voters approve a revenue change.

TABOR also requires prior voter approval for the following, with certain exceptions: (i) any new State tax, State tax rate increase, extension of an expiring State tax or State tax policy change directly causing a net revenue gain to the State; or (ii) the creation of any State "multiple fiscal year direct or indirect ... debt or other financial obligation."

Thirdly, TABOR requires the State to maintain an emergency reserve equal to 3% of its fiscal year spending (the "**TABOR Reserve**"), which may be expended only upon: (i) the declaration of a State emergency by passage of a joint resolution approved by a two-thirds majority of the members of both houses of the General Assembly and subsequently approved by the Governor; or (ii) the declaration of a disaster emergency by the Governor. The annual Long Appropriation Bill (the "**Long Bill**") designates the resources that constitute the TABOR Reserve, which historically have consisted of portions of various State funds plus certain State real property. The amounts of the TABOR Reserve for Fiscal Years 2017-18 and 2018-19 have been estimated in the OSPB June 2018 Revenue Forecast to be \$408.8 million and \$429.5 million, respectively.

*Fiscal Year Revenue and Spending Limits; Referendum C. Fiscal Year Revenue and Spending Limits; Referendum C.* As noted above, unless otherwise approved by the voters, TABOR limits annual increases in State revenues and fiscal year spending, with any excess revenues required to be refunded to taxpayers. Fiscal year spending is defined as all expenditures and reserve increases except those for refunds made in the current or next Fiscal Year or those from gifts, federal funds, collections for another government, pension contributions by employees and pension fund earnings, reserve transfers or expenditures, damage awards or property tax sales.

The maximum annual percentage change in State fiscal year spending is limited by TABOR to inflation (determined as the percentage change in U.S. Bureau of Labor Statistics Consumer Price Index for Denver, Boulder and Greeley, all items, all urban consumers, or its successor index) plus the percentage change in State population in the prior calendar year, adjusted for revenue changes approved by voters after 1991, being the base year for calculating fiscal year spending. TABOR provides for an automatic decrease in the State fiscal year spending limit when State TABOR revenues decline without a corresponding automatic increase in State fiscal year spending limit when State TABOR revenues increase. This can result in what is commonly referred to as the "ratchet down effect" whenever there is a decline in TABOR revenues. The ratchet down effect occurs because each year's TABOR limit is calculated based on the lesser of the prior year's TABOR revenues or the prior year's TABOR limit. In a year in which the State's TABOR revenues are below the existing TABOR limit, the lesser amount is required to be used to calculate the following year's TABOR limit. Unlike this automatic reduction, the only means of increasing the TABOR limit is with the approval of State voters. The State experienced the ratchet down effect when TABOR revenues declined by 13.1% between Fiscal Years 2000-01 and 2002-03, followed by an increase of 8.0% in Fiscal Year 2003-04.

Several measures were passed by the General Assembly during the 2005 legislative session in an effort to relieve State budget challenges, including statutory changes designed to mitigate the ratchet down effect of TABOR on the State's finances. One of two measures that were referred by the General Assembly to a statewide vote in November of 2005, designated "Referendum C," was approved by State voters and thereafter codified as Sections 24-77-103.6 and 106.5, C.R.S. The immediate impact of Referendum C was to preclude any ratchet down effect on the State beginning in Fiscal Years 2005-06. It

also authorized the State to retain and spend any amount in excess of the TABOR limit in Fiscal Years 2005-06 through 2009-10. For Fiscal Years 2010-11 and thereafter, Referendum C created an Excess State Revenues Cap, or "ESRC," as a voter-approved revenue change under TABOR that now serves as the limit on the State's fiscal year revenue retention. The base for the ESRC was established as the highest annual State TABOR revenues received in Fiscal Years 2005-06 through 2009-10. This amount, being the revenues received in Fiscal Year 2007-08, is then adjusted for each subsequent Fiscal Year for inflation, the percentage change in State population, the qualification or disqualification of enterprises and debt service changes, each having their respective meanings under TABOR and other applicable State law. However, per SB 17-267, the ESRC for Fiscal Year 2018-19 is to be an amount equal to (i) the ESRC for Fiscal Year 2017-18 calculated as provided above (ii) less \$200 million. For subsequent fiscal years, the ESRC is to be calculated as provided above utilizing the ESRC for Fiscal Year 2018-19 as the base amount.

SB 17-267, also (i) replaces the Hospital Provider Fee with the Healthcare Affordability and Sustainability Fee, which fee will be exempt from TABOR as it will be collected by a new enterprise created by SB 17-267 within the Department of Health Care Policy and Financing; (ii) exempts retail marijuana from the 2.9% State sales tax, which will result in less revenue subject to TABOR in Fiscal Years 2018-19 and thereafter; and (iii) extends and expands the income tax credit for business personal property taxes paid, which is projected to reduce income tax collections in Fiscal Years 2018-19 and thereafter, but will be offset in part by the distribution of a portion of the special sales tax on retail marijuana sales to the General Fund on an ongoing basis.

As a result of Referendum C, the State was able to retain the following amounts in excess of the previously applicable TABOR limit: \$1.116 billion in Fiscal Year 2005-06, \$1.308 billion in Fiscal Year 2006-07 and \$1.169 billion in Fiscal Year 2007-08. TABOR revenues did not exceed the TABOR limit in either of Fiscal Years 2008-09 or 2009-10. TABOR revenues exceeded the TABOR limit by \$0.771 billion in Fiscal Year 2010-11, \$1.473 billion in Fiscal Year 2011-12, \$1.860 billion on Fiscal Year 2012-13 and \$2.125 billion in Fiscal Year 2013-14, although no refunds were required because such revenues were below the applicable ESRC. TABOR revenues exceeded the TABOR limit by \$2.384 billion in Fiscal Year 2014-15, resulting in the State being \$169.7 million above the applicable ESRC and triggering a refund.

The OSPB June 2018 Revenue Forecast states that TABOR revenues came in \$436.2 million below the ESRC in Fiscal Year 2016-17 and is projected to be below the ESRC by \$63.1 million in Fiscal Year 2017-18 and \$27.8 million in Fiscal Year 2018-19. TABOR revenue is expected to exceed the ESRC by \$10.8 million in Fiscal Year 2019-20.

SB 17-267 also changed the TABOR refund mechanisms. Under prior law, the means by which revenues in excess of the ESRC could be refunded to taxpayers included: (i) a sales tax refund to all taxpayers, (ii) the earned income tax credit to qualified taxpayers and (iii) a temporary income tax rate reduction, the particular refund mechanism used to be determined by the amount that needs to be refunded. Per SB 17-267, beginning with Fiscal Year 2018-19, there is added as the first refund mechanism the amount reimbursed by the State Treasurer to county treasurers in the year of the TABOR refund for local property tax revenue losses attributable to the property tax exemptions discussed in "SOURCE OF PAYMENT OF PROGRAM LOANS—Ad Valorem Property Taxation Procedure—*Homestead Exemption.*" See also "APPENDIX A—THE STATE GENERAL FUND—General Fund Overview."

Referendum C also creates the "General Fund Exempt Account" within the General Fund, to which there is to be credited moneys equal to the amount of TABOR revenues in excess of the TABOR limit that the State retains for a given Fiscal Year pursuant to Referendum C. Such moneys may be

appropriated or transferred by the General Assembly for the purposes of: (i) health care; (ii) public elementary, high school and higher education, including any related capital construction; (iii) retirement plans for firefighters and police officers if the General Assembly determines such funding to be necessary; and (iv) strategic transportation projects in the Colorado Department of Transportation Strategic Transportation Project Investment Program.

*Voter Approval to Retain and Spend Certain Marijuana Taxes Associated with Proposition AA*. At the general election held on November 3, 2015, the State's voters authorized the State to retain and spend \$66.1 million in sales and excise taxes on the sale of marijuana and marijuana products ("**Marijuana Taxes**") authorized by Proposition AA approved by the State's voters in November of 2013 that otherwise would have been subject to a required refund to taxpayers in Fiscal Year 2015-16 pursuant to TABOR. HB 15-1367, which referred the measure (Proposition BB) to the State's voters, also provides for the allocation of the retained amount for public school capital construction, for various purposes such as law enforcement, youth programs and marijuana education and prevention programs and for use by the General Fund for any purpose. For more information on how these amounts are treated in the General Fund, see the discussion in "General Fund and State Education Fund Budget" in the OSPB June 2018 Revenue Forecast. SB 17-267 increased the special sales tax on retail marijuana sales from 10% to 15% effective July 1, 2017.

*Effect of TABOR on the Series 2018 Notes.* Voter approval under TABOR is not required for the issuance of the Series 2018 Notes as they are both issued and payable within the same Fiscal Year and as such do not constitute a "multiple fiscal year direct or indirect debt or other financial obligation" within the meaning of TABOR. Further, the revenue and spending limits of TABOR are not expected to affect the ability of the State to collect and spend the Pledged Revenues for the payment of the principal of and interest on the Series 2018 Notes and any Additional Notes.

# **State Funds**

*The General Fund.* The principal operating fund of the State is the General Fund. All revenues and moneys not required by the State Constitution or statutes to be credited and paid into a special State fund are required to be credited and paid into the General Fund. The General Fund is discussed in detail in "APPENDIX A—THE STATE GENERAL FUND."

*Other Funds.* The State also maintains a large number of statutorily created special funds for which specific revenues are designated for specific purposes. Some of these special funds are considered Borrowable Resources available to pay the principal of and interest on the Series 2018 Notes and on education loan anticipation notes issued by the State. See "BORROWABLE RESOURCES" and "DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS—Note Issues of the State."

#### **Budget Process and Other Considerations**

**Phase I (Executive).** The budget process begins in June of each year when State departments reporting to the Governor prepare both operating and capital budgets for the Fiscal Year beginning 13 months later. In August, these budgets are submitted to the OSPB, a part of the Governor's office, for review and analysis. The OSPB advises the Governor on departmental budget requests and overall budgetary status. Budget decisions are made by the Governor following consultation with affected departments and the OSPB. Such decisions are reflected in the first budget submitted in November for each department to the Joint Budget Committee of the General Assembly (the "JBC"), as described below. In January, the Governor makes additional budget recommendations to the JBC for the budget of all branches of the State government, except that the elected executive officials, the judicial branch and the legislative branch may also make recommendations to the JBC for their own budgets.

Phase II (Legislative). The JBC, consisting of three members from each house of the General Assembly, develops the legislative budget proposal embodied in the Long Bill, which is introduced in and approved by the General Assembly. Following receipt of testimony by State departments and agencies, the JBC marks up the Long Bill and directs the manner in which appropriated funds are to be spent. The Long Bill includes: (i) General Fund appropriations, supported by general purpose revenue such as taxes; (ii) General Fund Exempt appropriations primarily funded by TABOR-exempt or excess TABOR revenues retained under Referendum C; (iii) cash fund appropriations supported primarily by grants, transfers and departmental charges for services; (iv) reappropriated amounts funded by transfers and earnings appropriated elsewhere in the Long Bill; and (v) estimates of federal funds to be expended that are not subject to legislative appropriation. The Long Bill usually is reported to the General Assembly in March or April with a narrative text. Under current practice, the Long Bill is reviewed and debated in party caucuses in each house. Amendments may be offered by each house, and the JBC generally is designated as a conference committee to reconcile differences. The Long Bill always has been adopted prior to commencement of the Fiscal Year in July. Specific bills creating new programs or amending tax policy are considered separately from the Long Bill in the legislative process. The General Assembly takes action on these specific bills, some of which include additional appropriations separate from the Long Bill. The Long Bill for Fiscal Year 2018-19 (HB 18-1322) was adopted by the General Assembly in April of 2018.

*Phase III (Executive)*. The Governor may approve or veto the Long Bill or any specific bills. In addition, the Governor may veto line items in the Long Bill or any other bill that contains an appropriation. The Governor's vetoes are subject to override by a two-thirds majority of each house of the General Assembly. The Long Bill for Fiscal Year 2018-19 was approved and signed by the Governor in April of 2018.

*Phase IV (Legislative).* During the Fiscal Year for which appropriations have been made, the General Assembly may increase or decrease appropriations through supplemental appropriations. Any supplemental appropriations are considered amendments to the Long Bill and are subject to the line item veto of the Governor.

**Revenues and Unappropriated Amounts.** For each Fiscal Year, a statutorily defined amount of unrestricted General Fund year-end balances is required to be retained as a reserve (as previously defined, the "**Unappropriated Reserve**"), which may be used for possible deficiencies in General Fund revenues. Unrestricted General Fund revenues that exceed the required Unappropriated Reserve, based upon revenue estimates, are then available for appropriation, unless they are obligated by statute for another purpose. In response to economic conditions and their effect on estimated General Fund revenues, the General Assembly periodically modifies the required amount of the Unappropriated Reserve. Set forth in the following table are the Unappropriated Reserve requirements for Fiscal Years 2011-12 and thereafter. See also "APPENDIX A—THE STATE GENERAL FUND—General Fund Overview."

	Unappropriated
<u>Fiscal Years</u>	<b>Reserve Requirement</b> <sup>1, 2, 3</sup>
2011-12	4.0%
2012-13 and 2013-14	5.0
2014-15	6.5
2015-16	5.6
2016-17	6.0
2017-18	6.5
2018-19 and thereafter	7.25

# State of Colorado Unappropriated Reserve Requirement

<sup>1</sup> The Unappropriated Reserve requirement, which is codified as Section 24-75-201.1(1)(d), C.R.S., is a percentage of the amount appropriated for expenditure from the General Fund in the applicable Fiscal Year. Per HB 16-1419 and SB 16-218, for Fiscal Year 2015-16 only, the percentage is of the amount subject to the appropriations limit minus the amount of income tax revenue required by to be diverted to a reserve fund to fund severance tax refunds resulting from the ruling of the Colorado Supreme Court on April 25, 2016, in BP America Production Company v. Colorado Department of Revenue. See "General Fund Overview" table in "APPENDIX A—THE STATE GENERAL FUND—General Fund Overview," and the section of the OSPB June 2018 Revenue Forecast captioned "CASH FUND REVENUE FORECAST—Severance Tax Revenue." <sup>2</sup> Per SB 15-251, in Fiscal Years 2015-16 through 2017-18, General Fund appropriations for lease-purchase agreement payments made in connection with certificates of participation sold to fund certain capital projects were made exempt from the reserve calculation requirement. See "DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS—The State, State Departments and Agencies."

<sup>3</sup> Per SB 18-276, the Unappropriated Reserve requirement was increased to 7.25% starting with Fiscal Year 2018-19. The legislation also removed the exemption of General Fund appropriations for lease purchase agreement payments made in connection with certificates of participation from the reserve calculation requirement.

The OSPB June 2018 Revenue Forecast indicates that the State ended Fiscal Year 2016-17 with reserves of \$30.2 million above the Unappropriated Reserve requirement, and will end Fiscal Years 2017-18 and 2018-19 with reserves of \$536.7 million and \$130.6 million, above the applicable Unappropriated Reserve requirement, respectively. During the 2018 legislative session, the reserve requirement was increased to 7.25 percent beginning in FY 2018-19. These figures are based on revenue and budget information available when the OSPB June 2018 Revenue Forecast was completed and are subject to change in subsequent OSPB revenue forecasts based on new information on revenue and expenditures.

See also generally "APPENDIX A—THE STATE GENERAL FUND—General Fund Overview—Revenue Estimation; OSPB Revenue and Economic Forecasts" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

*Expenditures; The Balanced Budget and Statutory Spending Limitation.* The State Constitution mandates that expenditures for any Fiscal Year may not exceed available resources for such Fiscal Year. Total unrestricted General Fund appropriations for each Fiscal Year are limited as provided in Section 24-75-201.1, C.R.S. For the Fiscal Years 2009-10 and thereafter, total General Fund appropriations are limited to: (i) such moneys as are necessary for reappraisals of any class or classes of taxable property for property tax purposes as required by Section 39-1-105.5, C.R.S., plus (ii) an amount equal to 5% of Colorado personal income (as reported by the U.S. Bureau of Economic Analysis for the calendar year preceding the calendar year immediately preceding a given Fiscal Year).

Excluded from this appropriations limit are: (i) any General Fund appropriation that, as a result of any requirement of federal law, is made for any new program or service or for any increase in the level of

service for any existing program beyond the existing level of service; (ii) any General Fund appropriation that, as a result of any requirement of a final State or federal court order, is made for any new program or service or for any increase in the level of service for an existing program beyond the existing level of service; or (iii) any General Fund appropriation of any moneys that are derived from any increase in the rate or amount of any tax or fee that is approved by a majority of the registered electors of the State voting at any general election.

The limitation on the level of General Fund appropriations may be exceeded for a given Fiscal Year upon the declaration of a State fiscal emergency by the General Assembly, which may be declared by the passage of a joint resolution approved by a two-thirds majority vote of the members of both houses of the General Assembly and approved by the Governor.

See "Taxpayer's Bill of Rights" above for a discussion of fiscal year spending and revenue limits imposed on the State by TABOR and changes to these limits as the result of the approval of Referendum C.

*Fiscal Year Spending and Emergency Reserves.* Through TABOR, the State Constitution imposes restrictions on increases in fiscal year spending without voter approval and requires the State to maintain the TABOR Reserve. See "Taxpayer's Bill of Rights" under this caption for a discussion of the effects of the State Constitution on the State's financial operations.

# **Fiscal Controls and Financial Reporting**

No moneys may be disbursed to pay any appropriations unless a commitment voucher has been prepared by the agency seeking payment and submitted to the central accounting system, which is managed by the Office of the State Controller, a division of the Department of Personnel & Administration. The State Controller is the head of the Office of the State Controller. The State Controller or his delegate have statutory responsibility for reviewing each commitment voucher submitted to determine whether the proposed expenditure is authorized by appropriation, whether the appropriation contains sufficient funds to pay the expenditure and whether the prices are fair and reasonable. All payments from the State Treasury are made by warrants checks signed by the State Controller and countersigned by the State Treasurer, or by electronic funds transfer. The signature of the State Controller on a warrant or check is full authority for the State Treasurer to pay the warrant or check upon presentation.

The State Controller is appointed by the Executive Director of the Department of Personnel & Administration. Except for certain institutions of higher education which have elected to establish their own fiscal rules, the State Controller has statutory responsibility for coordinating all procedures for financial administration and financial control in order to integrate them into an adequate and unified system, conducting all central accounting and issuing warrants or checks for payment of claims against the State. The State Controller prepares a Comprehensive Annual Financial Report, or "CAFR," in accordance with generally accepted accounting principles ("GAAP") applicable to governmental entities, with certain statutory exceptions for budget compliance and reporting. The State's CAFR for Fiscal Year 2015-16 (the "Fiscal Year 2016-17 CAFR") is appended to this Official Statement and includes the most current annual financial statements for the State.

The State implemented a new integrated financial system in July 2014 and has been experiencing various issues, including the labor allocation process which continues to utilize the State's legacy payroll system. The longer time period to complete labor allocation, the first time closing in the new system and developing financial statement reports caused delays in closing the books and producing the State's financial statements. This resulted in delays in the release of the State's CAFRs for Fiscal Years 2014-15

and 2015-16 and the inability of the State to timely submit its audited financial statements for posting on EMMA as required by various continuing disclosure undertakings entered into by the State, the State Treasurer and certain State departments and agencies that utilize the State's credit. See "CONTINUING DISCLOSURE—Compliance With Other Continuing Disclosure Undertakings."

#### **Basis of Accounting**

For a detailed description of the State's basis of accounting, see Note 1F to the financial statements in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement.

# **Basis of Presentation of Financial Results and Estimates**

The financial reports and financial schedules contained in this Official Statement are based on principles that may vary based on the requirements of the report or schedule. The cash flow schedules include all financial activity reported specifically in the General Purpose Revenue Fund on a cash basis, while the Fund level financial statements and revenue estimates are primarily prepared on the modified accrual basis of accounting. Revenue estimates are prepared for those revenues that are related primarily to the general taxing powers of the State and to a lesser degree include intergovernmental transactions, charges for services and receipts from the federal government. The General Fund as defined in the financial statements includes revenues and expenditures for certain special cash receipts that are related to fees, permits and other charges rather than to the general taxing power of the State. See also "APPENDIX A—THE STATE GENERAL FUND—General" for a discussion of the distinction between the statutory General Fund and the GAAP General Fund.

# **Financial Audits**

Financial and post-performance audits of all State agencies are performed by the State Auditor (the "**Auditor**") through the Auditor's staff as assisted by independent accounting firms selected solely by the Auditor. The Auditor is an employee of the legislative branch and is appointed for a term of five years by the General Assembly based on the recommendations of the Legislative Audit Committee of the General Assembly. The present Auditor has been appointed to a term expiring on June 30, 2021. The Legislative Audit Committee is comprised of members of both houses of the General Assembly and has responsibility to direct and review audits conducted by the Auditor.

The Office of the State Auditor, being the State's independent auditor, has not been engaged to perform and has not performed since the date of its report included herein, any procedures on the financial statements presented in the Fiscal Year 2016-17 CAFR, nor has the State Auditor performed any procedures relating to this Official Statement.

#### **Investment and Deposit of State Funds**

The State Treasurer is empowered by Articles 36 and 75 of Title 24, C.R.S., as well as other State statutes, to invest State funds in certain public and non-public fixed income securities. In making such investments, the State Treasurer is to use prudence and care to preserve the principal and to secure the maximum rate of interest consistent with safety and liquidity. The State Treasurer is also required to formulate investment policies regarding the liquidity, maturity and diversification appropriate to each fund or pool of funds in the State Treasurer's custody available for investment. In accordance with this directive, the State Treasurer has developed standards for each portfolio to establish the asset allocation, the level of liquidity, the credit risk profile, the average maturity/duration and performance monitoring measures appropriate to the public purpose and goals of each State fund.

The State Treasurer is also authorized to deposit State funds in national or state chartered banks and savings and loan associations having a principal office in the State and designated as an eligible public depository by the State Banking Board or the State Commissioner of Financial Services, respectively. To the extent that the deposits exceed applicable federal insurance limits, they are required to be collateralized with eligible collateral (as defined by statute) having a market value at all times equal to at least 100% of the amount of the deposit that exceeds federal insurance (102% for banks).

See also Notes 3 and 4 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement and "APPENDIX A—THE STATE GENERAL FUND—Investment of the State Pool."

#### **BORROWABLE RESOURCES**

The Pledged Revenues include, to the extent permitted by law, any Borrowable Resources, which consist of over 600 State funds and accounts other than the General Fund. By constitutional or statutory provision and judicial decision, certain State funds, such as the Public School Permanent Fund, the State Education Fund, the Highway Users Tax Fund and the TABOR Emergency Reserve Fund, are not Borrowable Resources. Borrowable Resources are considered to be moneys in the State pool, and as such are invested as described in "APPENDIX A—THE STATE GENERAL FUND—Investment of the State Pool."

The ability of the State Treasurer to pay the Series 2018 Notes from Borrowable Resources will depend upon the availability of funds in the State Treasury that are eligible for investment. See "APPENDIX A—THE STATE GENERAL FUND—General Fund Cash Flow." In addition, the availability of Borrowable Resources may be affected by the State's statutory obligation to assure the timely payment of certain school district bonds and lease obligations pursuant to Section 22-41-110, C.R.S., commonly referred to as the "State Intercept Act."

The following tables set forth the actual and estimated Borrowable Resources for Fiscal Years 2017-18 and 2018-19. The estimates in the tables are based on various assumptions made by the State Treasurer's office, which are subject to uncertainties. Inevitably, some assumptions used to develop the forecasted amounts will not be realized, and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between the forecasted amounts in the tables and the amounts ultimately realized, and such differences may be material. See also the preliminary notices in this Official Statement regarding forward-looking statements. See also "STATE FINANCIAL INFORMATION - Fiscal Controls and Financial Reporting."

# State of Colorado Actual and Estimated Borrowable Resources Fiscal Year 2017-18<sup>1, 2, 3</sup>

# DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS

#### The State, State Departments and Agencies

The State Constitution prohibits the State from incurring debt except for limited purposes, for limited periods of time and in inconsequential amounts. The State courts have defined debt to mean any obligation of the State requiring payment out of future years' general revenues. The State currently has, and upon issuance of the Series 2018 Notes will have, no outstanding general obligation debt.

The State is authorized to and has entered into lease-purchase agreements in connection with various public projects, some of which have been financed by the sale of certificates of participation in the revenues of the related lease-purchase agreements. The obligations of the State to make lease payments under such agreements each Fiscal Year are contingent upon annual appropriations by the General Assembly. See Notes 11 and 12 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of the outstanding lease-purchase agreements entered into by the State as of June 30, 2017, as well as the aggregate minimum lease payments due under such lease-purchase agreements entered into by the State for Fiscal Years 2016-17 and thereafter. See also Note 21 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of lease-purchase agreements entered into by the State for Fiscal Years 2016-17 and thereafter. See also Note 21 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of lease-purchase agreements entered into by the State after June 30, 2017, but before publication of the Fiscal Year 2016-17 CAFR.

In addition to lease-purchase agreements, the State is authorized to enter into lease or rental agreements for buildings and/or equipment, all of which contain a stipulation that continuation of the lease is subject to funding by the General Assembly. Historically, these agreements have been renewed in the normal course of business and are therefore treated as non-cancelable for financial reporting purposes. In addition, these agreements generally are entered into through private negotiation with lessors, banks or other financial institutions rather than being publicly offered. See Notes 10 and 12 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of the outstanding lease/rental agreements entered into by the State as of June 30, 2017, as well as the aggregate minimum payment obligations under such agreements in Fiscal Years 2016-17 and thereafter.

The Colorado Department of Transportation ("**CDOT**") financed the relocation and consolidation of its main headquarters and District 1 Regional headquarters facilities into a single building by the sale on December 29, 2016, of \$70 million in principal amount of certificates of participation in an annually renewable lease-purchase agreement entered into by CDOT in connection with the new facility. CDOT also sold \$58,665,000 in principal amount of certificates of participation on April 26, 2017, for the purpose of funding the costs, or reimbursing CDOT for the prior payment of the costs, of the acquisition, construction, improvement and equipping of CDOT's Pueblo and Greeley Headquarters Buildings and Aurora Platteville Maintenance Facilities.

State departments and agencies, including State institutions of higher education, also issue revenue bonds for business type activities, as well as bonds and/or notes for the purchase of equipment and construction of facilities and infrastructure. With the exception of the University of Colorado, which is governed by an elected Board of Regents, the institutions of higher education are governed by boards whose members are appointed by the Governor with the consent of the State Senate. See Notes 11, 12 and 21 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of such bonds and notes outstanding as of June 30, 2017, and of those issued after June 30, 2017, but before publication of the Fiscal Year 2016-17 CAFR. The revenue bonds and certificates of participation listed in such Notes have in most cases been publicly offered, while the notes payable listed in such Notes have generally been private financings directly with banks or other financial institutions. The State has contingent moral obligations to intercept revenue and make certain debt payments on notes and bonds issued by State school

districts in the event they fail to make a required payment to the holders of such notes and bonds. See Notes 19 and 21 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement.

See also the Statistical Section of the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a ten year history of the total outstanding debt and related debt service expenditures of the State.

#### **State Tax and Revenue Anticipation Notes**

Under State law, the State Treasurer is authorized to issue and sell notes payable from the anticipated revenues of any one or more State funds or groups of accounts to meet temporary cash flow shortfalls. Since Fiscal Year 1984-85, the State has issued tax and revenue anticipation notes, such as the State Series 2018 General Fund Notes, in order to fund cash flow shortfalls in the General Fund. For certain Fiscal Year 2003-04, the State has also funded cash flow shortfalls by use of Borrowable Resources. Since Fiscal Year 2003-04, the State has also issued education loan anticipation notes, such as the Series 2018 Notes, for local school districts in anticipation of local school district revenues to be collected at a later date. All tax and revenue anticipation notes previously issued by the State have been paid in full and on time.

See Notes 10 and 21 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a discussion of State tax and revenue anticipation notes outstanding as of June 30, 2017, and of such notes issued after June 30, 2017, but before publication of the Fiscal Year 2016-17 CAFR. The State plans to issue approximately \$310 million of Education Loan Program Tax and Revenue Anticipation Notes, Series 2018, in July of 2018.

See also the Statistical Section of the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a ten year history of the total outstanding debt and related debt service expenditures of the State.

#### **State Authorities**

A number of State authorities have issued financial obligations to support activities related to the special purposes of such entities. Such obligations do not constitute a debt or liability of the State and the State Treasurer has no responsibility for such issuances, although pursuant to Section 22-30.5-408, C.R.S., the State may, but is not obligated to, appropriate moneys to cure unreplenished draws on debt service reserve funds for certain bonds issued by the Colorado Educational and Cultural Facilities Authority to fund facilities for charter schools. Generally, State authorities are legally separate, independent bodies governed by their own boards, some including ex-officio State officials and/or members appointed by the Governor or ranking members of the General Assembly (in most cases with the consent of the State Senate).

#### **Pension and Post-Employment Benefits**

*General*. The State provides post-employment benefits to its employees based on their work tenure and earnings history through a defined benefit pension plan (as more particularly defined in "APPENDIX E—STATE PENSION SYSTEM," the "State Division Plan"). State employees hired after 2005 may, in lieu of participating in the State Division Plan, elect to participate in a defined contribution plan (the "State Division DC Plan"), although the majority of State employees participate in the State Division Plan. State employees may also elect to participate in a limited healthcare plan. Each plan is administered by the Public Employees' Retirement Association ("PERA"), which is a statutorily created legal entity that is separate from the State. PERA also administers plans for school districts,

local governments and other entities, each of which is considered a separate division of PERA and for which the State has no obligation to make contributions or fund benefits. The State does not participate in the federal Old-Age, Survivors and Disability Insurance (Social Security) program.

For a general description of the State Division Plan and PERA, see "APPENDIX E—STATE PENSION SYSTEM." For a detailed discussion of the State Division Plan, the State Division DC Plan, the limited healthcare plan and PERA, see Note 6, 7 and 8 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement, as well as PERA's Comprehensive Annual Financial Report for calendar year 2016 (the "**PERA 2016 CAFR**"). The information in the State's Fiscal Year 2016-17 CAFR regarding PERA is derived from PERA's Comprehensive Annual Financial Report for calendar year 2016, while the information in this Official Statement is derived from the PERA 2016 CAFR.

*The State Division Plan*. The State Division Plan is funded with contributions made by the State and by each participating State employee at rates that are established by statute. The State has consistently made all statutorily required contributions to the State Division Plan. Nevertheless, at December 31, 2016, the PERA 2016 CAFR reports that the State Division Plan had an unfunded actuarial accrued liability of approximately \$11.6 billion and a funded ratio of only 54.6%. This UAAL would amortize over a 65-year period based on contribution rates as of the date of calculation and scheduled employer contributions, as well as an investment rate of return on Plan assets and discount rate on actuarially accrued liabilities of 7.25%. The PERA Board revised the actuarial investment assumption rate from 7.50% to 7.25% effective for the 2016 actuarial valuation, which contributed to the increase in the State's pension liability.

The actuarial value of assets for the State Division Plan uses an asset valuation method of smoothing the difference between the market value of assets and the actuarial value of assets to prevent extreme fluctuations that may result from short-term or cyclical economic and market conditions. Accordingly, the full effect of recent fluctuations in the assets of the State Division Plan as a result of economic and market conditions is not reflected in the aforementioned funded ratio. Based on the market value of assets of the State Division Plan, at December 31, 2016, the Plan had an unfunded accrued liability of approximately \$12.1 billion and a funded ratio of 52.7%.

The funding status of the State Division Plan summarized above reflect the implementation by PERA in 2014 of GASB Statement No. 67, "Financial Reporting for Pension Plans—An Amendment of GASB Statement No. 25" ("GASB 67"), which establishes new standards for financial reporting and note disclosure by defined benefit pension plans administered through qualified trusts, such as the State Division Plan, and note disclosure requirements for defined contribution pension plans administered through qualified trusts, such as the State Division DC Plan.

Because the State's annual contributions with respect to the State Division Plan are set by statute and funded in the State's annual budget, such contributions are not affected in the short term by changes in the actuarial valuation of the Plan assets or the funding ratio of the Plan.

See generally "APPENDIX E—STATE PENSION SYSTEM" for further information regarding the State Division Plan.

*The Health Care Trust Fund*. The State also currently offers other post-employment health and life insurance benefits to its employees. The post-employment health insurance to State employees is provided through PERA's Health Care Trust Fund, in which members from all divisions of PERA are eligible to participate. The Health Care Trust Fund is a cost-sharing, multiple employer plan under which PERA subsidizes a portion of the monthly premium for health insurance coverage for certain State retirees and the remaining amount of the premium is funded by the benefit recipient through an automatic

deduction from the monthly retirement benefit. The Health Care Trust Fund is funded by a statutory allocation of moneys consisting of portions of, among other things, the employer statutorily required contributions, the amount paid by members and the amount of any reduction in the employer contribution rates to amortize any overfunding in each Division's trust fund. At December 31, 2016, the Health Care Trust Fund had an unfunded actuarial accrued liability of approximately \$1.3 billion, a funded ratio of 17.4% and a 37-year amortization period. Because the Health Care Trust Fund is a cost-sharing, multiple employer plan, PERA's actuary has not determined the portion of the unfunded actuarial accrued liability that applies to each Division participant. The benefit provided by the Health Care Trust Fund is a fixed limited subsidy of the retiree's health care insurance premium payment, and the retiree bears all risk of medical cost inflation. See Notes 9 and 11 to the PERA 2016 CAFR for additional information regarding the Health Care Trust Fund.

Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB 68. GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" ("GASB 68"), which is related to GASB 67 but is applicable to the State, is effective for fiscal years beginning after June 15, 2014, and accordingly was first implemented in the State's Comprehensive Annual Financial Report for Fiscal Year 2014-15 (the "Fiscal Year 2014-15 CAFR"). GASB 68 revises and establishes new financial reporting requirements for most governments, such as the State, that provide their employees with pension benefits. GASB 68 requires cost-sharing employers participating in defined benefit plans to record their proportionate share of the unfunded pension liability. PERA reports that the State Division had an unfunded actuarial accrued liability of approximately \$10.2 billion as of December 31, 2015, and \$11.6 billion as of December 31, 2016.

The State reported a liability in the State's Fiscal Year 2016-17 CAFR of approximately \$17,854.1 million, for its proportionate share of the net pension liability, compared to a reported liability in the State's Fiscal Year 2015-16 CAFR of approximately \$10,252.1 million. Schedules presenting the State's proportionate share of the net pension liability for its retirement plan as of June 30, 2014 through 2017, and a ten year history of the State's contribution to PERA for the State and Judicial Divisions, are set forth in Note RSI-2 to the Required Supplementary Information in the State's Fiscal Year 2016-17 CAFR. See also Notes 6 - 8 in the State's Fiscal Year 2016-17 CAFR and "APPENDIX E—STATE PENSION SYSTEM" and particularly the section thereof entitled "Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB 68."

**Recent PERA Amendments**. During the 2018 legislative session, the General Assembly adopted Senate Bill 18-200, which amended PERA in an attempt to restore the system to full funding within 30 years. The revisions to PERA contained in SB 18-200, include, among other things, phasing-in a 2% increase in contribution rates for most employees; suspension of the cost of living adjustment for retires through 2019; re-defining salary and highest average salary; limiting future cost of living adjustments to 1.5% from 2.0%; adjusts employee and employer contribution rates; funding of unfunded PERA liability from political subdivisions terminating its affiliation with PERA; and a direct annual allocation of \$225 million from the general fund to PERA beginning with the State's Fiscal Year 2018-19.

*Effect of Pension Liability on the Series 2018 Notes.* The Series 2018 Notes are short-term obligations maturing on June 26, 2019, and the State's current pension liability is not expected to adversely affect the State's ability to pay the Series 2018 Notes. See also the discussion of the State's pension liability in Management's Discussion and Analysis in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement, and particularly the section thereof captioned "CONDITIONS EXPECTED TO AFFECT FUTURE OPERATIONS—Pension Plan Contributions."

#### LITIGATION, GOVERNMENTAL IMMUNITY AND SELF-INSURANCE

#### No Litigation Affecting the Series 2018 Notes

There is no litigation pending, or to the knowledge of the State threatened, either seeking to restrain or enjoin the issuance or delivery of the Series 2018 Notes or questioning or affecting the validity of the Series 2018 Notes or the proceedings or authority under which they are to be issued. There is also no litigation pending, or to the State's knowledge threatened, that in any manner questions the right of the State Treasurer to adopt the Authorizing Resolution and to secure the Series 2018 Notes in the manner provided in the Authorizing Resolution and the Funds Management Act.

#### **Governmental Immunity**

The Colorado Governmental Immunity Act, Article 10 of Title 24, C.R.S. (the "Immunity Act"), provides that public entities and their employees acting within the course and scope of their employment are immune from liability for tort claims under State law based on the principle of sovereign immunity, except for those specifically identified events or occurrences defined in the Immunity Act. Whenever recovery is permitted, the Immunity Act also generally limits the maximum amount that may be recovered. For incidents occurring on or after January 1, 2018 and before January 1, 2022: (a) for any injury to one person in any single occurrence, the sum of \$387,000; and (b) for any injury to two or more persons in any single occurrence, the sum of \$1,093,000, except that, in such instance, no person may recover in excess of \$387,000. These amounts are subject to adjustment on or before January 1, 2022, and every fourth year thereafter based on the consumer price index for Denver-Boulder-Greeley, or its successor index. In individual cases the General Assembly may authorize the recovery from the State of amounts in excess of these limits by legislative action initiated either directly by the General Assembly or upon recommendation of the State Claims Board. The Immunity Act does not limit recovery against an employee who is acting outside the course and scope of his/her employment. The Immunity Act specifies the sources from which judgments against public entities may be collected and provides that public entities are not liable for punitive or exemplary damages. The Immunity Act does not prohibit claims in Colorado state court against public entities or their employees based on contract and may not prohibit such claims based on other common law theories. However, the Immunity Act does bar certain federal actions or claims against the State or State employees sued in their official capacities under federal statutes when such actions are brought in state court. The Eleventh Amendment to the U.S. Constitution bars certain federal actions or claims against the State or its employees sued in their official capacities under federal statutes when such actions are brought in federal court.

Sovereign immunity of the State is waived in an action for injuries resulting from a prescribed fire started or maintained by the State or any of its employees on or after January 1, 2012. A prescribed fire is defined as the application of fire in accordance with a written prescription for vegetative fuels, but excluding a controlled burn used in farming industry to clear land of existing crop residue, kill weeds and weed seeds or to reduce fuel build-up and decrease the likelihood of a future fire.

#### **Self-Insurance**

In 1985, the General Assembly passed legislation creating a self-insurance fund, the Risk Management Fund, and established a mechanism for claims adjustment, investigation and defense, as well as authorizing the settlement and payment of claims and judgments against the State. The General Assembly also utilizes the self-insurance fund for payment of State workers' compensation liabilities. The State currently maintains self-insurance for claims arising on or after September 15, 1985, under the Immunity Act and claims against the State, its officials or its employees arising under federal law. See Notes 1G, 9, and 19 and General Fund Components (in Supplementary Information) in the State's

Fiscal Year 2016-17 CAFR appended to this Official Statement. Judgments awarded against the State for which there is no insurance coverage or that are not payable from the Risk Management Fund ordinarily require a legislative appropriation before they may be paid.

# **Current Litigation**

For a description of pending material litigation in which the State is a defendant, see Note 19 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement. The lawsuit described in Note 19 filed by the TABOR Foundation was amended on June 30, 2017 to challenge the State constitutionality of SB 17-267 described herein. The State believes that it has a reasonable possibility of favorable outcomes for the actions discussed in Note 19, but the ultimate outcome cannot presently be determined. Except as otherwise noted, no provision for a liability has been made in the financial statements related to the contingencies discussed in such Note.

#### RATINGS

Moody's Investors Service, Inc. ("**Moody's**") and S&P Global Ratings ("**S&P**") have assigned to the Series 2018 Notes the ratings set forth on the cover page of this Official Statement. No other ratings have been applied for.

A rating reflects only the views of the rating agency assigning such rating, and an explanation of the significance of such rating may be obtained from each such rating agency. The State has furnished to the rating agencies certain information and materials relating to the Series 2018 Notes, the State and its financial condition and operations, including certain information and materials which have not been included in this Official Statement. Generally, rating agencies base their ratings on such information and materials and on investigations, studies and assumptions by the rating agencies. There is no assurance that any of the ratings will continue for any given period of time or that any of the ratings will not be revised downward, suspended or withdrawn entirely by any such rating agency if, in its judgment, circumstances so warrant. Any such downward revision, suspension or withdrawal of any such rating may have an adverse effect on the market price of the Series 2018 Notes. The State has not undertaken any responsibility to oppose any such revision, suspension or withdrawal.

#### **CONTINUING DISCLOSURE**

#### Series 2018 Notes

In accordance with the exemption set forth in paragraph (d)(3) of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, which exemption applies to offerings of municipal securities having a stated maturity of 18 months or less, such as the Series 2018 Notes, the State Treasurer will not undertake to provide on an ongoing basis either audited annual financial statements or annual financial information or operating data of the type presented in this Official Statement. However, the State Treasurer will undertake in the Authorizing Resolution, for the benefit of the Owners and Beneficial Owners of the Series 2018 Notes, that during such time as any of the Series 2018 Notes are outstanding, the State Treasurer will provide to the MSRB: (a) notice of any actual or projected deficiency in the Note Payment Account, as discussed in "THE SERIES 2018 NOTES—Security and Sources of Payment—Note Payment Account"; and (b) in a timely manner, not in excess of ten Business Days after the occurrence of the event, notice of the occurrence of any of the events enumerated in Subsection (b)(5)(i)(C) of Rule 15c2-12 with respect to the Series 2018 Notes, including: (i) principal and interest payment delinquencies; (ii) nonpayment related defaults, if material; (iii) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the Series 2018 Notes; (iv) modifications to rights of owners of the Series 2018 Notes, if material; (v) defeasances; and (vi) rating changes; as well as the following events to the extent applicable to the Series 2018 Notes: (a) unscheduled draws on debt service reserves reflecting financial difficulties; (b) unscheduled draws on credit enhancements reflecting financial difficulties; (c) substitution of credit or liquidity providers, or their failure to perform; (d) Series 2018 Note calls, if material, and tender offers; (e) release, substitution or sale of property securing repayment of the Series 2018 Notes, if material; (f) bankruptcy, insolvency, receivership or similar event of the State; (g) the consummation of a merger, consolidation or acquisition involving the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and (h) appointment of a successor or additional trustee or the change of name of a trustee, if material.

The obligations of the State Treasurer pursuant to the undertaking are for the benefit of the Owners and Beneficial Owners of the Series 2018 Notes, and, if necessary, may be enforced by such Owners and Beneficial Owners by specific performance of such obligations by any judicial proceeding available. However, breach of the State Treasurer's obligations of the undertaking does not constitute an Event of Default under the Authorizing Resolution, and none of the rights and remedies provided in the Authorizing Resolution for Events of Default will be available to the Owners or Beneficial Owners of the Series 2018 Notes in the event of a breach of such continuing disclosure undertaking.

#### **Compliance With Other Continuing Disclosure Undertakings**

The State Treasurer has determined during the previous five years, the State Treasurer and certain other State departments or agencies have not complied in all material respects with other continuing disclosure undertakings entered into by such entities pursuant to Rule 15c2-12 in connection with municipal securities issued by or for the benefit of such entities by failing to file, or to file on a timely basis, on the EMMA website and its predecessor repositories, certain annual financial information, audited financial statements and/or notices of material events as required by those continuing disclosure undertakings.

In early 2013, the State Treasurer retained Digital Assurance Certification, LLC ("DAC Bond"), as its disclosure dissemination agent for the purpose of assisting it with auditing past compliance, making remedial filings and ensuring ongoing compliance with its continuing disclosure filing requirements with the MSRB of all information required in the continuing disclosure undertakings entered into by the Included Entities, and plans to implement other procedures intended to ensure future material compliance with such continuing disclosure undertakings.

In addition, consistent with its statutory authorization and as a result of the circumstances described above, the State Treasurer's office commenced, and is continuing to carry out, a comprehensive review of compliance by the State with the continuing disclosure undertakings entered into by the Included Entities for the purpose of determining whether there are other instances of material noncompliance with such continuing disclosure undertakings. Instances of material noncompliance discovered by the State Treasurer's office to date have been addressed by making appropriate corrective filings or taking other remedial actions, either directly or by DAC Bond, and may include corrective action and participation in the SEC's Municipal Continuing Disclosure Cooperation Initiative.

Due to various issues that were experienced by the State in connection with the implementation of a new integrated financial system as described in "STATE FINANCIAL INFORMATION—Fiscal Controls and Financial Reporting," the State's unaudited Basic Financial Statements for Fiscal Year

2014-15 and the State's Fiscal Year 2014-15 CAFR were not completed and released until late January 2016 and late April 2016, respectively. As a result, the State was unable to post its Fiscal Year 2014-15 audited financial statements on EMMA by December 31, 2015, as required by numerous continuing disclosure undertakings entered into by the Included Entities. Notice of such noncompliance was posted on EMMA on January 25, 2016, and the State's unaudited Basic Financial Statements for Fiscal Year 2014-15 and the State's Fiscal Year 2014-15 CAFR were subsequently posted on EMMA on February 1, 2016, and May 2, 2016, respectively. The State was also unable to post its Fiscal Year 2015-16 audited financial statements on EMMA by December 31, 2016, as required by such continuing disclosure undertakings. The State's unaudited Basic Financial Statements for Fiscal Year 2016-17 CAFR were posted on EMMA on January 16, 2017, and March 8, 2017, respectively. A notice of late filing was posted on EMMA on January 25, 2018, and February 8, 2018, respectively.

In addition to the State's financial statements for Fiscal Years 2014-15 and 2015-16 discussed above, certain operating data for the Department of Human Services for Fiscal Years 2014-15 and 2015-16 was not timely posted on EMMA (within 200 days of the end of the Fiscal Year) in connection with the Colorado State Department of Human Services (Division of State and Veterans Nursing Homes) Enterprise System Revenue Anticipation Warrants, Series 2002A. Notices of failure to file such information for Fiscal Years 2014-15 and 2015-16 were posted on EMMA on January 21, 2016, and January 19, 2017, respectively. The State's unaudited Basic Financial Statements and CAFRs for Fiscal Years 2014-15 and 2015-16 were eventually posted on EMMA as discussed above, and the operating data for the Department of Human Services for both Fiscal Years 2014-15 and 2015-16 was posted on EMMA on March 28, 2017.

The OSPB March 2016 revenue forecast was not timely posted on EMMA in connection with the State's Higher Education Federal Mineral Lease Certificates of Participation, Series 2014A. Both a notice of failure to timely file such revenue forecast, together with the revenue forecast, were posted on EMMA on May 17, 2016.

#### MCDC Settlement Order with the Securities and Exchange Commission

In March of 2014, the SEC announced its Municipal Continuing Disclosure Cooperation Initiative (the "**MCDC**") pursuant to which underwriters and municipal issuers could self-report instances where official statements of municipal issuers failed to report instances in which the issuer failed to comply in all material respects with its continuing disclosure undertakings. Pursuant to the MCDC, on or about November 26, 2014, the State Treasurer reported certain prior failures to the SEC.

In May of 2016, the State Treasurer, on behalf of CDOT, executed an Offer of Settlement (the "**Offer**") with the SEC under the MCDC, which Offer was accepted by the SEC on August 24, 2016, and became an order of the SEC (the "**Order**"). As described in the Order, CDOT participated in one negotiated offering in 2011 in which the final official statement stated in relevant part that during the past five years, CDOT had complied in all material respects with its continuing disclosure undertakings. Notwithstanding such statement, however, CDOT's audited financial statements for 2006, 2007, 2008, 2009 and 2010 were not filed until 2014 when it was discovered that such financial statements had not been filed previously with the Nationally Recognized Municipal Securities Information Repositories or the MSRB through the EMMA system, as applicable.

Pursuant to the Order, the State Treasurer has agreed to (i) within 180 days of the entry of the Order, establish written policies and procedures and undertake periodic training regarding continuing disclosure obligations, including designation of an individual or officer responsible for ensuring

compliance with such policies and procedures, (ii) within 180 days of the entry of the Order, comply with existing continuing disclosure undertakings, and, if not currently in compliance, update past delinquent filings, (iii) disclose in clear and conspicuous fashion the terms of the Offer in any official statement for an offering through the State Treasurer within five years of the institution of the proceedings, (iv) cooperate with any subsequent investigation by the SEC regarding false statements and/or material omissions and (v) not later than one year from the date of the institution of the proceedings, certify, in writing, compliance with the foregoing undertakings.

In a letter dated August 22, 2017 to the U.S. SEC, the State Treasurer stated that written policies and procedures and periodic training regarding continuing disclosure obligations to effect compliance have been implemented. The State Treasurer also stated that the State was in compliance with all continuing disclosure obligations, including updating past delinquent filings if the State Treasurer was not in compliance with its continuing disclosure obligations. The State's Annual Financial Information disclosure as of June 30, 2016 was posted to EMMA on March 8, 2017. The State Treasurer has and intends to continue to fully disclose in a clear and conspicuous fashion the terms of the settlement accompanying the Order in any final official statement for offering by the State Treasurer within 5 years of the institution of proceedings.

The State Treasurer has updated its continuing disclosure procedures in order to ensure filings are done in accordance with its continuing disclosure agreements.

Additional information concerning the matters discussed in this section may be obtained from the Colorado Attorney General's Office, 1300 Broadway, 6th Floor, Denver, Colorado 80203, Attention: Lori Ann F. Knutson, Esq., First Assistant Attorney General, telephone number (720) 508-6153.

#### LEGAL MATTERS

All legal matters incident to the validity and enforceability of the Series 2018 Notes, as well as the treatment of interest on the Series 2018 Notes for purposes of federal and State income taxation, are subject to the approving legal opinion of Greenberg Traurig, LLP, Denver, Colorado, as Bond Counsel. The substantially final form of the opinion of Bond Counsel is appended to this Official Statement. Certain legal matters will be passed upon for the State by the Office of the Attorney General of the State and by Ballard Spahr LLP, Denver, Colorado, as special counsel to the State in connection with the preparation of this Official Statement. Payment of legal fees to Bond Counsel and special counsel are contingent upon the sale and delivery of the Series 2018 Notes.

#### **TAX MATTERS**

The Internal Revenue Code of 1986, as amended, includes requirements which the State must continue to meet after the issuance of the Series 2018 Notes in order that the interest on the Series 2018 Notes be and remain excludable from gross income for federal income tax purposes. The State's failure to meet these requirements may cause the interest on the Series 2018 Notes to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Series 2018 Notes. The State Treasurer has covenanted in the Authorizing Resolution to take the actions required by the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Series 2018 Notes.

In the opinion of Bond Counsel, assuming the accuracy of certain representations and certifications of the State Treasurer and continuing compliance by the State Treasurer with the tax covenants referred to above, under existing statutes, regulations, rulings and court decisions, the interest on the Series 2018 Notes is excludable from gross income of the holders thereof for federal income tax

purposes. Interest on the Series 2018 Notes is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. Federal legislation enacted in 2017 eliminates alternative minimum tax for corporations for taxable years beginning after December 31, 2017. For taxable years beginning before January 1, 2018, corporations should consult their tax advisor regarding alternative minimum tax implications of owning the Series 2018 Notes.

In the opinion of Bond Counsel, interest on the Series 2018 Notes is excluded from Colorado taxable income and Colorado alternative minimum taxable income under Colorado income tax laws in effect as of the date of delivery of the Series 2018 Notes. Bond Counsel will express no opinion as to any other tax consequences regarding the Series 2018 Notes. Prospective purchasers of the Series 2018 Notes should consult their own tax advisors as to the status of interest on the Series 2018 Notes under the tax laws of any state other than the State.

Except as described above, Bond Counsel will express no opinion regarding the federal income tax consequences resulting from the receipt or accrual of the interest on the Series 2018 Notes, or the ownership or disposition of the Series 2018 Notes. Prospective purchasers of Series 2018 Notes should be aware that the ownership of Series 2018 Notes may result in other collateral federal tax consequences, including (i) the denial of a deduction for interest on indebtedness incurred or continued to purchase or carry the Series 2018 Notes, (ii) the reduction of the loss reserve deduction for property and casualty insurance companies by the applicable statutory percentage of certain items, including the interest on the Series 2018 Notes, (iii) the inclusion of the interest on the Series 2018 Notes in the earnings of certain foreign corporations doing business in the United States for purposes of a branch profits tax, (iv) the inclusion of the interest on the Series 2018 Notes in the passive income subject to federal income taxation of certain Subchapter S corporations with Subchapter C earnings and profits at the close of the taxable year and (v) the inclusion of interest on the Series 2018 Notes in the determination of the taxability of certain Social Security and Railroad Retirement benefits to certain recipients of such benefits. The nature and extent of the other tax consequences described above will depend on the particular tax status and situation of each owner of the Series 2018 Notes. Prospective purchasers of the Series 2018 Notes should consult their own tax advisors as to the impact of these other tax consequences.

Bond Counsel's opinions are based on existing law, which is subject to change. Such opinions are further based on factual representations made to Bond Counsel as of the date thereof. Bond Counsel assumes no duty to update or supplement its opinions to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention, or to reflect any changes in law that may thereafter occur or become effective. Moreover, Bond Counsel's opinions are not a guarantee of a particular result, and are not binding on the IRS or the courts; rather, such opinions represent Bond Counsel's professional judgment based on its review of existing law, and in reliance on the representations and covenants that it deems relevant to such opinion.

#### **Original Issue Premium and Discount**

Certain of the Series 2018 Notes ("**Discount Series 2018 Notes**") may be offered and sold to the public at an original issue discount ("**OID**"). OID is the excess of the stated redemption price at maturity (the principal amount) over the "issue price" of a Discount Series 2018 Note determined under Code Section 1273 or 1274 (i.e., for obligations issued for money in a public offering, the initial offering price to the public (other than to bond houses and brokers) at which a substantial amount of the obligation of the same maturity is sold pursuant to that offering). For federal income tax purposes, OID accrues to the owner of a Discount Series 2018 Note over the period to maturity based on the constant yield method, compounded semiannually (or over a shorter permitted compounding interval selected by the owner). The portion of OID that accrues during the period of ownership of a Discount Series 2018 Note (i) is interest excludable from the owner's gross income for federal income tax purposes to the same extent, and

subject to the same considerations discussed above, as other interest on the Series 2018 Notes, and (ii) is added to the owner's tax basis for purposes of determining gain or loss on the maturity, redemption, prior sale or other disposition of that Discount Series 2018 Note.

Certain of the Series 2018 Notes ("**Premium Series 2018 Notes**") may be offered and sold to the public at a price in excess of their stated redemption price (the principal amount) at maturity (or earlier for certain Premium Series 2018 Notes callable prior to maturity). That excess constitutes bond premium. For federal income tax purposes, bond premium is amortized over the period to maturity of a Premium Series 2018 Note, based on the yield to maturity of that Premium Series 2018 Note (or, in the case of a Premium Series 2018 Note callable prior to its stated maturity, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on that Premium Series 2018 Note), compounded semiannually (or over a shorter permitted compounding interval selected by the owner). No portion of that bond premium is deductible by the owner of a Premium Series 2018 Note. For purposes of determining the owner's gain or loss on the sale, redemption (including redemption at maturity) or other disposition of a Premium Series 2018 Note, the owner's tax basis in the Premium Series 2018 Note is reduced by the amount of bond premium that accrues during the period of ownership. As a result, an owner may realize taxable gain for federal income tax purposes from the sale or other disposition of a Premium Series 2018 Note is that the amount paid by the owner for that Premium Series 2018 Note.

Owners of Discount and Premium Series 2018 Notes should consult their own tax advisers as to the determination for federal income tax purposes of the amount of OID or bond premium properly accruable in any period with respect to the Discount or Premium Series 2018 Notes and as to other federal tax consequences, and the treatment of OID and bond premium for purposes of state and local taxes on, or based on, income.

#### **Changes in Federal and State Tax Law**

From time to time, there are legislative proposals suggested, debated, introduced or pending in Congress or in the State legislature that, if enacted into law, could alter or amend one or more of the federal tax matters, or state tax matters, respectively, described above including, without limitation, the excludability from gross income of interest on the Series 2018 Notes, adversely affect the market price or marketability of the Series 2018 Notes, or otherwise prevent the holders from realizing the full current benefit of the status of the interest thereon. It cannot be predicted whether or in what form any such proposal may be enacted, or whether, if enacted, any such proposal would affect the Series 2018 Notes. Prospective purchasers of the Series 2018 Notes should consult their tax advisors as to the impact of any proposed or pending legislation.

#### **IRS Audit Program**

The Internal Revenue Service (the "Service") has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. No assurances can be given as to whether or not the Service will commence an audit of the Series 2018 Notes. If an audit is commenced, the market value of the Series 2018 Notes may be adversely affected. Under current audit procedures, the Service will treat the State as the taxpayer and the owners may have no right to participate in such procedures. The State Treasurer has covenanted in the Authorizing Resolution not to take any action that would cause the interest on the Series 2018 Notes to lose its exclusion from gross income for federal income tax purposes. None of the State, the Financial Advisor or Bond Counsel is responsible for

paying or reimbursing any Owner or Beneficial Owner for any audit or litigation costs relating to the Series 2018 Notes.

#### **Information Reporting and Backup Withholding**

Interest paid on tax-exempt Series 2018 Notes such as the Series 2018 Notes is subject to information reporting to the Internal Revenue Service in a manner similar to interest paid on taxable obligations. This reporting requirement does not affect the excludability of interest on the Series 2018 Notes from gross income for federal income tax purposes. However, in conjunction with that information reporting requirement, the Code subjects certain non-corporate owners of Series 2018 Notes, under certain circumstances, to "backup withholding" at the rates set forth in the Code, with respect to payments on the Series 2018 Notes and proceeds from the sale of Series 2018 Notes. Any amount so withheld would be refunded or allowed as a credit against the federal income tax of such owner of Series 2018 Notes. This withholding generally applies if the owner of Series 2018 Notes (i) fails to furnish the payor such owner's social security number or other taxpayer identification number ("TIN"), (ii) furnished the payor an incorrect TIN, (iii) fails to properly report interest, dividends, or other "reportable payments" as defined in the Code, or (iv) under certain circumstances, fails to provide the payor or such owner's securities broker with a certified statement, signed under penalty of perjury, that the TIN provided is correct and that such owner is not subject to backup withholding. Prospective purchasers of the Series 2018 Notes may also wish to consult with their tax advisors with respect to the need to furnish certain taxpayer information in order to avoid backup withholding.

#### UNDERWRITING

The Series 2018 Notes will be purchased from the State by Wells Fargo Bank, National Association, and J.P. Morgan Securities, LLC (the "**Underwriters**"), pursuant to a competitive sale conducted by the State, for an aggregate purchase price of \$615,520,000, being the principal amount of the Series 2018 Notes plus an aggregate original issue premium of \$15,552,000 and less an aggregate underwriting discount of \$32,000.

#### FINANCIAL ADVISOR

North Slope Capital Advisors, Denver, Colorado, is acting as Financial Advisor to the State in connection with the issuance of the Series 2018 Notes, and in such capacity has assisted in the preparation of this Official Statement and other matters relating to the planning, structuring, rating and execution and delivery of the Series 2018 Notes. However, the Financial Advisor is not obligated to undertake, and has not undertaken, either to make an independent verification of or to assume responsibility for the accuracy or completeness of the information contained in this Official Statement. The Financial Advisor will act as an independent advisory firm and will not be engaged in underwriting or distributing the Series 2018 Notes.

#### MISCELLANEOUS

The cover page, inside cover, prefatory information and appendices to this Official Statement are integral parts hereof and must be read together with all other parts of this Official Statement. The descriptions of the documents, statutes, reports or other instruments included herein do not purport to be comprehensive or definitive and are qualified in the entirety by reference to each such document, statute, report or other instrument. During the offering period of the Series 2018 Notes, copies of the Authorizing Resolution and certain other documents referred to herein may be obtained from the Financial Advisor at North Slope Capital Advisors, 730 17th Street, Suite 900 Denver, CO 80202, Attention: Nick Taylor, telephone number (303) 953-4101. So far as any statements made in this Official Statement involve

matters of opinion, forecasts, projections or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact.

[Remainder of page intentionally left blank]

## **OFFICIAL STATEMENT CERTIFICATION**

The preparation and distribution of this Official Statement have been authorized by the State Treasurer. This Official Statement is hereby approved by the State Treasurer as of the date set forth on the cover page hereof.

By: <u>/s/ Ryan Parsell</u> Deputy Treasurer [This page intentionally left blank]

#### **APPENDIX A**

#### THE STATE GENERAL FUND

The Series 2018 Notes are being issued for the purpose of funding anticipated cash flow shortfalls in the State's General Fund in Fiscal Year 2018-19. The Series 2018 Notes are special, limited obligations of the State payable solely from the Pledged Revenues, which include, without limitation, Current General Fund Revenues. See generally "THE SERIES 2018 NOTES." This Appendix contains a discussion of the General Fund, including the estimated cash flows for the General Fund for Fiscal Year 2018-19. See also "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST."

#### **The General Fund**

The General Fund is the principal operating fund of the State. All revenues and moneys not required by the State Constitution or statutes to be credited and paid into a special State fund are required to be credited and paid into the General Fund. As required by recent changes in GAAP, the General Fund reported in the State's Fiscal Year 2010-11 CAFR and subsequent CAFRs includes a large number of statutorily created special State funds that do not meet the GAAP requirements to be presented as Special Revenue Funds. To make the distinction between the statutory General Fund and the GAAP General Fund, the CAFR refers to the statutory General Fund as the General Purpose Revenue Fund. The revenues in the General Purpose Revenue Fund are not collected for a specific statutory use but rather are available for appropriation for any purpose by the General Assembly. The following discussion of the General Fund represents the legal and accounting entity referred to in the State's Fiscal Year 2016-17 CAFR as the General Purpose Revenue Fund.

### **General Fund Revenue Sources**

The major revenue sources to the General Fund are individual and corporate income taxes and sales and use taxes. The State also imposes excise taxes on the sale of cigarettes, tobacco products and liquor, and receives revenues from a diverse group of other sources such as insurance taxes, pari-mutuel taxes, interest income, court receipts and gaming taxes. The following table sets forth the State's receipts from major revenue sources for the past five Fiscal Years, as well as current OSPB estimates for Fiscal Years 2017-18 and 2018-19. See also "Revenue Estimation; OSPB Revenue and Economic Forecasts" in this Appendix and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST," as well as the preliminary notices in this Official Statement regarding forward-looking statements.

<sup>1</sup> Historically, gaming revenue was reported by OSPB as a source of revenue to the General Fund. The "Other Revenues" in this table for Fiscal Years 2011-12 and 2012-13 have been restated to reflect a change in OSPB's reporting of gaming revenue to the General Fund that began with the OSPB September 2014 Revenue Forecast. Because revenue from gaming is transferred to the General Fund annually from a cash fund, the money is more appropriately reflected in "Transfers to the General Fund" in the General Fund overview table hereafter rather than as a General Fund revenue source in this table. This change does not affect the overall amount of "Total General Fund Revenue Available for Expenditure" in the General Fund overview table. <sup>2</sup> State voters approved Proposition AA in November of 2013, which included the imposition by the State of a sales tax of 10% on sales of retail marijuana and retail marijuana products effective January 2014. Per SB 17-

<sup>2</sup> State voters approved Proposition AA in November of 2013, which included the imposition by the State of a sales tax of 10% on sales of retail marijuana and retail marijuana products effective January 2014. Per SB 17-267, this tax is increased to 15% effective July 1, 2017. The revenue derived from this sales tax is shared by the State and local governments where such sales occur. Through Fiscal Years 2016-17, the entire State share of this revenue is first credited to the General Fund and then transferred to the Marijuana Tax Cash Fund. Per SB 17-267, for Fiscal Year 2017-18, 28.15% of the State share of this revenue, less \$30 million, is to be retained in the General Fund and then transferred to the Marijuana Tax Cash Fund. Per SB 17-267, for Fiscal Year 2017-18, 28.15% of the State share of this revenue, less \$30 million, is to be retained in the General Fund, 71.85% is to be transferred to the Marijuana Tax Cash Fund ent \$30 million is to be credited to the Public School Fund and distributed to rural school districts. Proposition AA also approved the imposition by the State of an excise tax of 15% on certain sales of unprocessed retail marijuana effective January 2014 that does not flow through the General Fund but is mostly credited directly to a cash fund for public school capital construction projects. See "STATE FINANCIAL INFORMATION—Taxpayers' Bill of Rights—*Voter Approval to Retain and Spend Certain Marijuana Taxes Associated with Proposition AA.*" <sup>3</sup> All individual and corporate income tax revenues are deposited to the General Fund other amount is diverted by law to the State Education Fund. See Note 12 to the table in "General Fund Overview" hereafter.

<sup>4</sup> Total includes receipt of a one-time payment of \$110.7 million from a settlement with tobacco companies related to the terms of the Tobacco Master Settlement Agreement. Source: Office of State Planning and Budgeting

#### **General Fund Overview**

The following table summarizes the actual revenues, expenditures and changes in fund balances for the General Fund for Fiscal Years 2012-13 through 2016-17, as well as the forecasts for Fiscal Years 2017-18 and 2018-19 from the OSPB June 2018 Revenue Forecast. The overview incorporates the budget under current law as of the publication of the OSPB June 2018 Revenue Forecast for Fiscal Years 2017-18 and 2018-19. Any new budget information will be incorporated in subsequent OSPB revenue forecasts. The format of the following table is used by the State in developing its annual budget, as discussed in "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations." See also "Revenue Estimation; OSPB Revenue and Economic Forecasts" in this Appendix and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST," as well as the preliminary notices in this Official Statement regarding forward-looking statements.

are Allocated <sup>14</sup>		435.9	132.7	48.8	30.2	536.7	130.6		

<sup>1</sup>This table is unaudited, although some of the figures reported in these columns are identified by the OSPB from the State's CAFRs which are audited for the applicable Fiscal Years.

<sup>2</sup> Historically, gaming revenue was reported by OSPB as a source of revenue to the General Fund. The amounts in these line items for Fiscal Year 2012-13 has been restated to reflect a change in OSPB's reporting of gaming revenue to the General Fund that began with the OSPB September 2014 Revenue Forecast. Because revenue from gaming is transferred to the General Fund annually from a cash fund, the money is more appropriately reflected in this table as a transfer to the General Fund rather than as General Fund revenue. This change does not affect the overall amount of Total General Fund Revenue Available for Expenditure.

<sup>3</sup> Total State appropriations during this period have been limited to such moneys as are necessary for reappraisals of any class or classes of taxable property for property tax purposes as required by Section 39-1-105.5, C.R.S., plus an amount equal to 5.0% of Colorado personal income.

<sup>4</sup> Current law requires TABOR refunds to be accounted for in the year the excess revenue is collected. No TABOR refunds are forecast for Fiscal Years 2017-18 or 2018-19. TABOR refunds of \$32.2 million are projected for Fiscal Years 2019-2020. See "STATE FINANCIAL INFORMATION—Taxpayers" Bill of Rights—*Fiscal Year Revenue and Spending Limits; Referendum C*" and "APPENDIX B—OSPB JUNE 2018 REVENUE FORECAST—Taxpayer's Bill of Rights: Revenue Limit."

<sup>5</sup> The amount shown in Fiscal Year 2014-15 reflects the amount that was set aside by HB 15-1367 in a special account to cover a potential TABOR refund relating to Proposition AA. HB 15-1367 also submitted to the State's voters at the November 3, 2015, general election the question of authorizing the State to retain and expend such amount. The question, designated Proposition BB, was approved by the voters and permitted the State to use the money for the uses specified in HB 15-1367. Consequently, a reversal of the \$58 million set aside is shown in Fiscal Year 2015-16. See "STATE FINANCIAL INFORMATION—Taxpayers' Bill of Rights—*Voter Approval to Retain and Spend Certain Marijuana Taxes Associated with Proposition AA*," as well as Note 4 to this table and Note 2 to the table in "General Fund Revenue Sources" above.

<sup>6</sup> This generally includes the Cigarette Rebate, which distributes money from a portion of State cigarette tax collections to local governments that do not impose their own taxes or fees on cigarettes; the Marijuana Rebate, which distributes 15% of the retail marijuana sales tax to local governments based on the percentage of retail marijuana sales in local areas; the Old Age Pension program, which provides assistance to low-income elderly individuals who meet certain eligibility requirements; the Property Tax, Heat and Rent Credit, which provides property tax, heating bill or rent assistance to qualifying low-income disabled or elderly individuals; and the Homestead Property Tax Exemption, which reduces property-tax liabilities for qualifying seniors and disabled veterans. The homestead exemption for qualified seniors was not affected by this suspension. See "SOURCE OF PAYMENT OF PROGRAM LOANS—Ad Valorem Property Taxation Procedure—*Homestead Exemption*."

<sup>7</sup> Section 24-75-219, C.R.S., requires certain transfers from the General Fund to the Highway Users Tax Fund and the Capital Construction Fund, commonly referred to as "228" transfers based on SB 09-228 which originally provided for the transfers. The amounts of the 228 transfers have been revised per HB 16-1416 and SB 17-262. The current required 228 transfers to the Highway Users Tax Fund are \$199.2 million in Fiscal Year 2015-16 and \$79.0 million in each of Fiscal Years 2016-17 and 2017-18, and the required 228 transfers to the Capital Construction Fund are \$49.8 million in Fiscal Year 2015-16 and \$52.7 million in Fiscal Year 2016-17. Currently there is no required 228 transfers to the Capital Construction Fund in Fiscal Year 2017-18. The amount of the capital construction transfers in Fiscal Years 2016-17 and 2017-18 also includes transfers of General Fund money in addition to the required 228 transfers. SB 18-001 resulted in \$495 million in FY 2019-20. Additional transfers may also occur contingent on potential ballot measures that may go before the voters.

<sup>8</sup>Annual General Fund transfers to the State Education Fund are required to be made in Fiscal Years 2013-14 through 2017-18 per SB 13-234.

<sup>9</sup> State law requires transfers of General Fund money to various State cash funds. Commencing in Fiscal Year 2013-14, this line item includes transfers of amounts credited to the General Fund from the retail marijuana sales tax to a cash fund. See Note 1 to the table in "General Fund Revenue Sources" above. However, for Fiscal Year 2015-16 only, \$40.0 million of the transfer to other funds amount is a transfer to public school capital construction related to the passage of Proposition BB. The Fiscal Years 2015-16 and 2016-17 amounts also include a diversion of income tax revenue out of the General Fund to a separate severance tax fund pursuant to SB 16-218, which was passed in response to the April 2016 Colorado Supreme Court's decision in *BP America Production Company v. Colorado Department of Revenue* that allows for taxpayers to claim additional severance tax deductions. The amount of the diverted revenue under SB 16-218 totaled \$56.8 million in Fiscal Year 2015-16 and \$53.8 million in Fiscal Year 2015-17. Due to the risk of lower than expected severance tax revenues in Fiscal Year 2017-18 and subsequent years, HB 18-1338 requires General Fund transfers to various severance tax cash funds to protect program funding. HB 18-1338 also requires an equivalent amount of future severance tax revenue to be diverted to the General Fund to repay these transfers. See also "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations—*Revenues and Unappropriated Amounts*" and the sections of the OSPB June 2018 Revenue Forecast captioned "CASH FUND REVENUE FORECAST—Severance Tax Revenue" and "GENERAL FUND AND STATE EDUCATION FUND BUDGET—General Fund Overview Table – Expenditures."

[Notes continued on next page]

<sup>10</sup> Spending by the Medicaid program above the appropriated amount, called "Medicaid Over expenditures," is usually the largest amount in this line.

<sup>11</sup> The Fiscal Year 2016-17 amount in this line is an atypically large amount, mostly due to a large reversion of Medicaid-related expenditures

<sup>12</sup> The Unappropriated Reserve requirement, codified as Section 24-75-201.1(1)(d), C.R.S., is a percentage of the amount appropriated for expenditure from the General Fund in the applicable Fiscal Year. For Fiscal Year 2015-16 only, the percentage is of the amount subject to the appropriations limit minus the amount of income tax revenue required by to be diverted to a reserve fund to fund severance tax refunds as discussed in Note 9 above. In Fiscal Years 2015-16 through 2017-18, General Fund appropriations for lease-purchase agreement payments made in connection with certificates of participation sold to fund certain capital projects were made exempt from the reserve calculation requirement. These appropriations amount to \$37.8 million in Fiscal Year 2015-16, \$46.0 million in Fiscal Year 2016-17 and \$48.1 million in Fiscal Year 2017-18. SB18-276 repealed the exemption of the lease-purchase agreement payments from the calculation of the reserve requirement. See "STATE FINANCIAL INFORMATION-Budget Process and Other Considerations-Revenues and Unappropriated Amounts" and "DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS-The State, State Departments and Agencies."

<sup>13</sup> In past years, all or a portion of the amount in excess of the statutory reserve was required by law to be credited to other State funds, primarily the State Education Fund. For example, all of the Fiscal Year 2012-13 excess was required to be transferred to the State Education Fund. All of the Fiscal Year 2013-14 excess, except for \$25 million that remained in the General Fund, was transferred to various other State funds in a specified order of priority per HB 14-1339, HB 14-1342 and SB 14-223. The amount remaining in the General Fund became part of the beginning reserve and funds available in Fiscal Year 2014-15. Under current law, all amounts remaining in the General Fund in excess of the statutory reserve in Fiscal Years 2016-17 through 2017-18 have or will become part of the beginning reserve and funds available in the following Fiscal Year. <sup>14</sup> The Fiscal Year 2017-18 and 2018-19 ending balances are projected to be above the required reserve level under current law.

#### **Revenue Estimation; OSPB Revenue and Economic Forecasts**

*Revenue Estimating Process.* The State relies on revenue estimation as the basis for establishing aggregate funds available for expenditure for its appropriation process. By statute, the OSPB is responsible for developing a General Fund revenue estimate. No later than June 20th prior to the beginning of each Fiscal Year, and no later than September 20th, December 20th and March 20th within each Fiscal Year, the Governor, with the assistance of the State Controller and the OSPB, is required to make an estimate of General Fund revenues for the current and certain future years. The revenue estimates are not binding on the General Assembly in determining the amount of General Fund revenues available for appropriation for the ensuing Fiscal Year. The revenue estimates may be subject to more frequent review and adjustment in response to significant changes in economic conditions, policy decisions and actual revenue flow.

The most recent OSPB Revenue Forecast was issued on June 20, 2018, and is included in this Official Statement as "APPENDIX B-OSPB JUNE 2018 REVENUE FORECAST." The OSPB June 2018 Revenue Forecast projects revenues for Fiscal Years 2017-18 through 2019-20. The amounts forecast for Fiscal Years 2017-18 and 2018-19 are summarized in "General Fund Revenue Sources" and "General Fund Overview" above in this Appendix.

The OSPB begins estimating revenue by obtaining macroeconomic forecasts for national and State variables. The national forecast for the OSPB June 2018 Revenue Forecast was provided by Moody's Analytics Economy.com. The OSPB forecasts the State economy using a model originally developed partly in-house and partly by consultants to the State.

The model of the State economy is updated quarterly. This model is comprised of numerous dynamic regression equations and identities. Moody's Analytics Economy.com's forecasts for national variables are inputs to many of the Colorado equations. The model of the State economy generates forecasts of key indicators such as employment, retail sales, inflation and personal income. These forecasts are then used as inputs to revenue forecasts for income tax receipts, corporate collections, sales tax receipts, etc.

The econometric model used to forecast General Fund revenue relies on the economic data estimated using the model of the State economy discussed above. The models used for forecasting General Fund revenues incorporate changes in policy, both State and federal, as well as changes in the economic climate and historical patterns. The General Fund models are comprised of regression equations for many of the revenue categories. There are three main categories of tax revenues: excise tax receipts, income tax receipts and other tax receipts. The General Fund models forecast the majority of the categories of General Fund receipts separately. For example, the model forecasts each type of income tax receipt (withholding, estimated payments, cash with returns and refunds) individually and then aggregates the numbers to arrive at a net individual income tax receipts forecast. However, for corporate income tax receipts and sales tax collections, the model forecasts only the aggregate amount for these revenues. For many of the smaller tax revenue categories, simple trend analyses are generally utilized to derive a forecast.

**Revenue Shortfalls.** The State's Fiscal Year budgets are prepared and surplus revenues are determined using the modified accrual basis of accounting in accordance with the standards promulgated by GASB, with certain statutory exceptions. As a result, although the Fiscal Year budgets are balanced and, based upon the current forecast, there is anticipated to be an Unappropriated Reserve, the State may experience temporary and cumulative cash shortfalls. This is caused by differences in the timing of the actual receipt of cash revenues and payment of cash expenditures by the State compared to the inclusion of such revenues and expenditures in the State's Fiscal Year budgets on an accrual basis, which does not take into account the timing of when such amounts are received or paid. Also, prior forecasts of General Fund revenue may have overestimated the amount the State would receive for the Fiscal Year.

Whenever the Governor's revenue estimate for the current Fiscal Year indicates that General Fund expenditures for such Fiscal Year, based on appropriations then in effect, will result in the use of one-half or more of the Unappropriated Reserve, the Governor is required to formulate a plan for the General Fund expenditures so that the Unappropriated Reserve as of the close of the Fiscal Year will be at least one-half of the required amount. The Governor is required by statute to notify the General Assembly of the plan and to promptly implement it by: (i) issuing an executive order to suspend or discontinue, in whole or in part, the functions or services of any department, board, bureau or agency of the State government; (ii) approving the action of other State officials to require that heads of departments set aside reserves out of the total amount appropriated or available (except the cash funds of the Department of Education); or (iii) after a finding of fiscal emergency by a joint resolution of the General Assembly approved by the Governor, taking such actions necessary to be utilized by each principal department and institution of higher education to reduce State personnel expenditures.

The next OSPB revenue forecast will be released in September of 2018. General Fund revenue projections in this and subsequent OSPB revenue forecasts may be materially different from the OSPB June 2018 Revenue Forecast if economic conditions change markedly. If a revenue shortfall is projected for Fiscal Year 2018-19 and subsequent forecasted years, which would result in a budgetary shortfall, budget cuts and/or actions to increase the amount of money in the General Fund will be necessary to ensure a balanced budget.

#### **Investment of the State Pool**

*General*. The investment of public funds by the State Treasurer is subject to the general limitations discussed in "STATE FINANCIAL INFORMATION—Investment and Deposit of State Funds." The State Treasurer has adopted investment policies further restricting the investment of State pool moneys, which includes the General Fund. The purpose of these investment policies is to limit investment risk by limiting the amount of the portfolio that may be invested in particular types of obligations, or in obligations of particular issuers or in particular issues, by imposing rating or financial criteria for particular types of investments. A minimum of 10% of the portfolio is required to be held in U.S. Treasury securities. Any reverse repurchase agreements may be for interest rate arbitrage only, and not for liquidity or leverage purposes. Each reverse repurchase agreement and the total investment it is arbitraged against must be closely matched in both dollar amount and term.

*Fiscal Years 2016-17 and 2017-18 Investments of the State Pool.* The following tables set forth the investment by category of the moneys in the State Pool as of the end of each month in Fiscal Years 2016-17 and 2017-18 for which information is available.

#### **General Fund Cash Flow**

General Fund cash flow deficits are attributable to several categories of loans and expenditures by the State throughout each Fiscal Year, including public school distributions, medical assistance and grants and contract purchased services. The State Treasurer has certain administrative powers to remedy negative cash balances, including the ability to issue tax and revenue anticipation notes in anticipation of the receipt of revenues in the General Fund and to use Borrowable Resources. The Governor also has authority to impose spending restrictions, and the General Assembly may defer certain payments from one Fiscal Year to the next, if necessary, to ensure that the General Fund will not end any Fiscal Year with a negative fund balance. See "THE SERIES 2018 NOTES—Authorization" and "STATE FINANCIAL INFORMATION—The State Treasurer."

The following tables present on a cash basis the actual and estimated cash flows of the General Fund for Fiscal Years 2017-18 and 2018-19 by total categories of receipts and disbursements. The tables are based on revenue and expenditure projections prepared on the modified accrual basis of accounting, with accounting adjustments made by the State Treasurer to arrive at a cash basis presentation, and should be read in conjunction with the information set forth above in this Appendix. See also "STATE FINANCIAL INFORMATION—Fiscal Controls and Financial Reporting."

Monthly cash flow projections for Fiscal Years 2017-18 and 2018-19 are based upon (i) the General Fund appropriations for Fiscal Years 2017-18 and 2018-19 adopted by the General Assembly, (ii) historical experience as adjusted to reflect economic conditions, (iii) statutory and administrative changes and anticipated payment dates for payrolls and (iv) the OSPB June 2018 Revenue Forecast discussed in "Revenue Estimation; OSPB Revenue and Economic Forecasts" above. Unforeseen events or variations from underlying assumptions may cause an increase or decrease in receipts and/or

disbursements from those projected for a given month, which may adversely affect the projections of estimated cash flows. Additionally, the timing of transactions from month to month may vary from the forecasts. Therefore, there are likely to be differences between the forecasted and actual results, and such differences may be material. See the preliminary notices in this Official Statement regarding forward-looking statements.

#### Summary

- Relative to the March projections, the FY 2017-18 forecast of recurring General Fund revenue sources is lower by \$80.3 million, or 0.7 percent. However, due to the receipt of a one-time \$110.7 million settlement payment with tobacco companies related to the terms of the Tobacco Master Settlement Agreement, the overall General Fund revenue forecast for FY 2017-18 is higher by \$30.3 million, or 0.3 percent. The forecast for FY 2018-19 is higher by \$131.9 million, or 1.1 percent.
- After a modest 3.1 percent increase in FY 2016-17, General Fund revenue is forecast to increase at a much stronger rate of 13.1 percent in FY 2017-18 due to a pickup in economic growth, a rebound in corporate income tax receipts, robust investment income gains, and the federal tax changes. General Fund revenue is projected to increase at a modest 4.1 percent rate in FY 2018-19 due primarily to slower income tax revenue growth.
- The General Fund reserve is projected to be \$536.7 million above the required statutory reserve amount of 6.5 percent of appropriations in FY 2017-18. During the 2018 legislative session, the reserve requirement was increased to 7.25 percent beginning in FY 2018-19. The General Fund reserve is projected to be \$130.6 million above the higher required reserve amount under this forecast and FY 2018-19's budgeted expenditures, including the transfer of \$495 million General Fund for transportation infrastructure pursuant to SB 18-001.
- Cash fund revenue is projected to decrease by 16.5 percent in FY 2017-18 as the Hospital Provider Fee is replaced with the Healthcare Affordability and Sustainability Fee program, which is a TABORexempt enterprise in accordance with SB 17-267. The forecast for FY 2017-18 is \$78.8 million, or 3.6 percent, higher compared with projections in March, largely due to higher-than-expected revenue to severance tax cash funds and to the large group of cash funds referred to as "other miscellaneous cash funds." FY 2018-19 cash fund revenue is expected to grow 6.0 percent.
- TABOR revenue is projected to be below the cap by \$63.1 million in FY 2017-18 and \$27.8 million in FY 2018-19. TABOR revenue is expected to exceed the cap by \$10.8 million in FY 2019-20. Under this forecast, the refund of the FY 2019-20 excess revenue will occur through senior homestead and disabled veterans property tax exemption expenditures in FY 2020-21.
- Colorado's economy continues to experience solid growth with expectations of ongoing expansion. Business confidence remains positive, while oil production remains near record levels. Colorado employment growth has accelerated moderately, highlighted by increases in the labor force participation rate and average hourly wages. Economic growth has been widespread across most industries. However, continued tight labor markets and rising home prices are expected to constrain growth throughout the forecast period.
- Most signs point to positive growth ahead, with a relatively low risk of recession in the near term. However, U.S. trade policy has generated some concern among U.S. producers who fear retaliatory tariffs may increase cost pressures. The potential disruption in supply chains and curtailment of business investment could cause the U.S. economy to slow. Although the expectations of investors, businesses, and households for future economic prospects currently remain positive, such expectations could reverse abruptly with the development of adverse events.

# The Economy: Issues, Trends, and Forecast

The following section discusses overall economic conditions in Colorado, nationally, and around the world. The economy has mostly performed as expected in recent months with continued expansion. The OSPB forecast for U.S. economic conditions has been slightly revised from the March 2018 Colorado Outlook, primarily to reflect stronger economic and employment growth in the first quarter of 2018. Colorado's forecasted employment growth has been revised upwards as well due to stronger-than-expected job gains in 2018. This section includes an analysis of:

- Economic and labor market conditions in Colorado (page 5)
- Economic and labor market conditions for the nation (page 17)
- International economic conditions (page 22)

*Trends and forecasts for key economic indicators* — A summary of key economic indicators with their recent trends and statistics, as well as forecasts, is provided at the end of this section. The summary of indicators is intended to provide a snapshot of the economy's performance and OSPB's economic projections, which are informed by the following analysis of the economy.

Summary – Colorado's economy continues to experience strong growth with expectations of ongoing expansion. Business confidence remains positive, while oil production (though not oil employment) remains near record levels. Year-to-date in 2018, Colorado employment growth has been strong, highlighted by increases in the labor force participation rate and in average hourly wages. Economic growth has been widespread, benefiting most industries. Though momentum is weak in the agricultural industry, rural economies have seen some relief in 2018 due to declining farm rental rates and modest increases in crop prices. In the overall economy, continued tight labor markets and rising home prices are expected to constrain growth.

Nationally, the economy continues to expand with most leading indicators suggesting ongoing growth. The unemployment rate and share of part-time workers continue to decline, while the quit rate suggests greater labor market confidence. Corporate earnings continue to strengthen and stock markets remain high. Business confidence is strong despite a marginal increase in economic policy uncertainty in response to U.S. trade policy. Importantly, the economy continues to shake off occasional market shocks, suggesting a strong foundation for continued growth.

*Economic risks* — With the U.S. economy poised to set a new record for its longest expansion, some analysts may be unusually cautious. Nonetheless, most signs point to positive growth ahead, with a relatively low risk of recession in the near term. Tighter monetary policy in response to increased inflation continues to be a concern; however, markets appear to have priced in the possibility of more frequent Federal Reserve rate hikes. U.S. trade policy has generated some concern among U.S. producers who fear retaliatory tariffs may increase cost pressures. U.S. economic growth could stumble under a global trade war as price increases and economic uncertainty curtail business investment and disrupt supply chains.

Global growth has slowed slightly in recent months, particularly in the Eurozone, as shifts in the political landscape threaten the union. Our forecasting process investigates areas of the economy which may indicate recession or unsustainability based on past recessions. For all forecasts, it is prudent to keep in mind that conditions with the ability to weaken growth are difficult to foresee. Although the expectations of investors, businesses, and households for future economic prospects currently remain positive, such expectations could reverse abruptly with the development of adverse events.

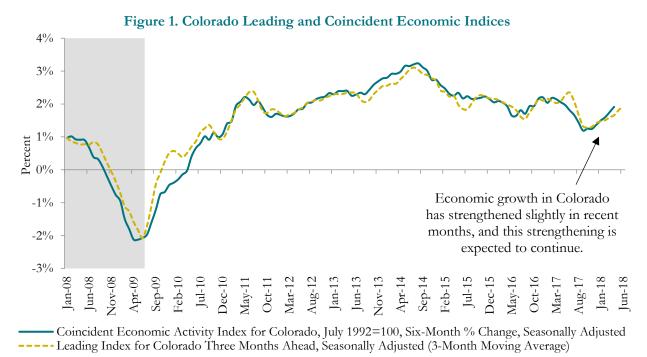

## **Colorado Economic Conditions**

*Indices that measure Colorado's economy show slightly stronger growth* – As shown in Figure 1, the Federal Reserve Bank of Philadelphia's monthly Leading Index for Colorado indicates modestly stronger growth for Colorado's economy in the near term. The Leading Index combines economic indicators which have been found to precede changes in overall economic momentum. These include housing permits, initial unemployment insurance claims, and delivery times from vendors to producers.

Another index of broad economic activity for Colorado shows that economic growth has accelerated slightly. The Federal Reserve Bank of Philadelphia's Coincident Economic Activity Index provides a broad, up-to-date measure of state economic activity

Economic indices that measure broad economic activity show continuing growth for Colorado.

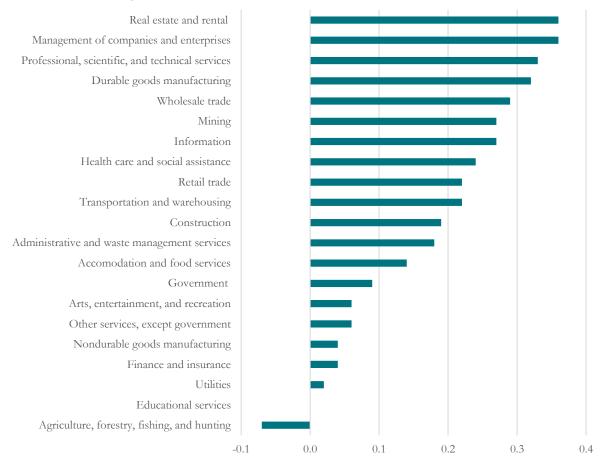

and matches growth in a state's gross domestic product (GDP) over time. It combines four state-level indicators to track current economic conditions: employment, average hours worked in manufacturing, the unemployment rate, and inflation-adjusted wage and salary disbursements. Movement in the Coincident Economic Activity Index is predicted by the Leading Index. To show this relationship, Figure 1 overlays the leading index, advanced three months ahead, with the coincident index.

\*Shaded areas represent recessions. Source: Federal Reserve Bank of Philadelphia

*Economic growth has been widespread across most sectors* – In 2017, Colorado's inflation-adjusted gross domestic product (GDP) increased 3.6 percent over the prior year. This ranks 2<sup>nd</sup> fastest among states in terms of growth, beat only by Washington, which experienced 4.4 percent growth. As shown in Figure 2, economic growth has been widespread with all but the agriculture and forestry and educational services sectors contributing to the overall growth rate. The strongest contributors to growth included real estate and rental, management, and professional and technical services. The mining and extraction, durable goods manufacturing, and health care sectors also performed well. Colorado has benefited from a relatively diverse industry mix, which helps insulate the state economy from fluctuations within particular industries.

# Figure 2. Sector Contributions to CO GDP Growth, 2017

*Expectations for the state economy remain high* – The Leeds Business Confidence Index, published by the University of Colorado at Boulder's Leeds School of Business, measures business expectations for the current and upcoming quarters. Figure 3 shows the index for business expectations for the overall state economy as well as for capital expenditures since the Great Recession and through the third quarter of 2018.

Businesses' expectations for the economy remain positive and supportive of continued growth. In recent quarters, expectations for Colorado's economic growth have remained high. This continues the rebound seen beginning in very late 2016, following slower economic conditions in 2015 and early- to mid-2016. Energy price improvements and a stronger global economy have contributed to the confidence reported since the first half of 2017.

Expectations for the economy are a key factor for future performance. When expectations are positive, businesses are more likely to hire and invest, which in turn facilitates economic growth. Currently, the Leeds Index suggests economic growth will remain positive in the near-term.

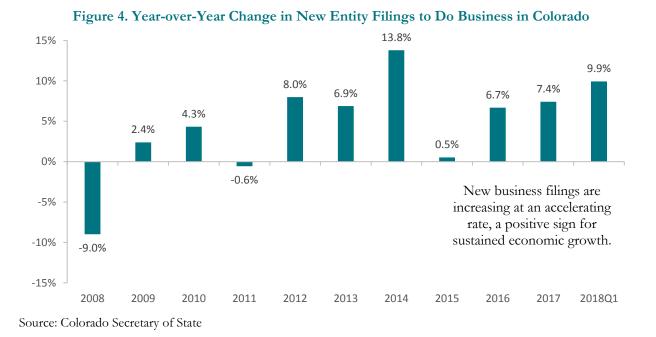

\* Readings above 50 indicate positive expectations, with higher readings signifying greater business confidence, while readings below 50 represent negative expectations. Shaded areas represent recessions. Source: CU Leeds School of Business, Business Research Division

*New business formation continues to grow, led by increases in limited liability companies* – Trends in business formation are important for assessing the economy's underlying momentum. Increased levels of business formation indicate that individuals are seeing more opportunities in the economy. Since most new jobs are created by new businesses, business formation is also an important indicator of future job growth.

Filings for new businesses continue to grow, which will help foster sustained economic and job growth in the near term. Data from the Colorado Secretary of State indicate that a total of 35,672 new business filings were recorded in the first quarter of 2018, the highest total of any quarter since the Great Recession. Filings for new companies were up 9.9 percent in the first quarter over the year before. This higher level of new business activity will

foster continued economic and employment growth for the state. However, when reviewing this data one should also consider the effect the 2017 federal Tax Cuts and Jobs Act may have had on business formation and restructuring as organizations look to minimize tax liability. To the extent that this has happened, it would increase the number of new entity filings above the number that would have occurred without the federal tax changes.

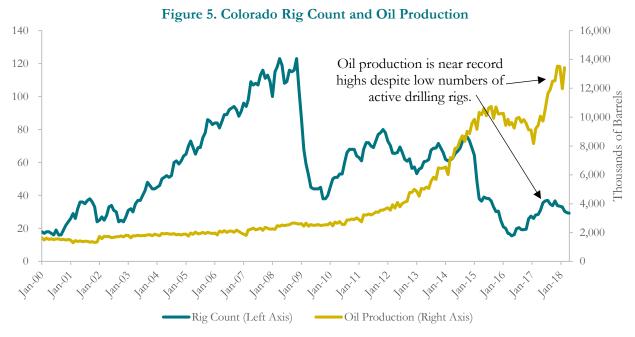

*Colorado oil production remains near record levels, but further growth is likely to be constrained by infrastructure bottlenecks* – Colorado oil production expanded significantly throughout 2017; December 2017 production was more than 48 percent higher than the year before. Much of this increase has been driven by higher prices caused by OPEC's (the Organization of the Petroleum Exporting Countries) production cuts,

Colorado oil production grew significantly in 2017, reaching record highs despite a low rig count. which went into effect in early 2017. While global oil demand continues to rise, and OPEC production limits remain in effect, pipeline limitations near the Cushing, Oklahoma distribution hub will likely constrain further growth of Coloradan oil production in the near term.

Since a shift to more efficient drilling techniques following the 2015-2016 industrial downturn, the current record levels of production are not reflected in the active rig count. Due to increasing productivity per rig, the active rig count remains only moderately above historical lows, as seen in Figure 5.

Source: U.S. Energy Information Administration, Baker Hughes

The regional manufacturing sector continues to expand rapidly – Manufacturing activity has been expanding since the fall of 2016, as improved global economic growth and higher oil and gas prices have outweighed the pressure of a strong dollar, which can dampen exports. The Federal Reserve Bank of Kansas City's 10th District Manufacturing Survey, which includes Colorado, reports that in April and May the composite index recorded its highest levels since the survey began in 2001. Expectations for future activity and hiring remain elevated as new orders outpace production capacity, resulting in order backlogs.

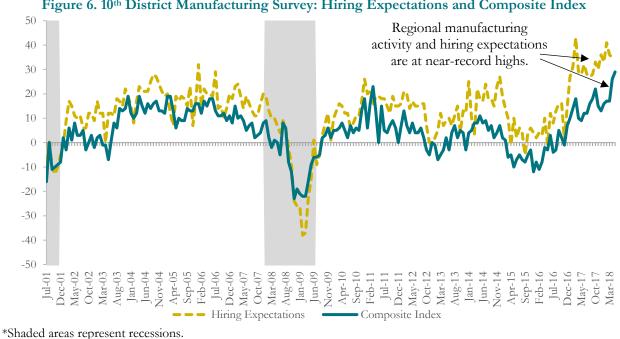

Figure 6. 10th District Manufacturing Survey: Hiring Expectations and Composite Index

Source: Federal Reserve Bank of Kansas City

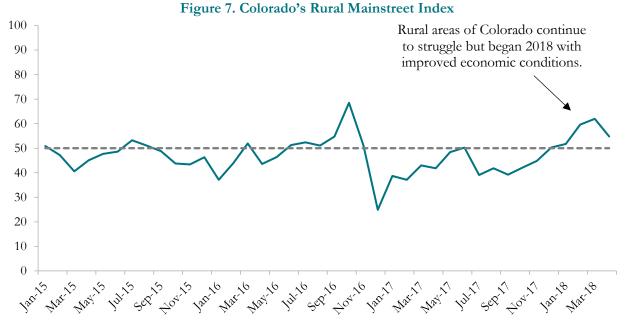

The manufacturing sector's employment outlook is also improving. The regional manufacturing survey index reports that six-month ahead employment expectations remain near record levels. Since the beginning of 2017, hiring expectations have remained higher than at any other point since the onset of the Great Recession.

*The Colorado agricultural industry experienced slight improvement in recent months* — Despite rising interest rates, farmland values remain stable; however, farm incomes continue to decline, but at a slowing rate. While crop prices remain low, moderate price increases and declining farmland rental rates could help improve farm cash flow and profitability.

Declining cropland rental rates and modest crop price increases are mitigating the decline in regional farm incomes. According to Colorado's Rural Mainstreet Index, published by Creighton University, the state's rural economies are experiencing expanding economic conditions this year for the first time since 2016, as shown in Figure 7. The Mainstreet Index measures economic activity in rural areas by surveying community banks on

current economic conditions and their economic outlooks. Index readings above 50 signify growth. Since a reading of 39.2 in September, the index climbed to a 17-month high of 62.0 in February before declining slightly to 54.8 in April.

Source: Creighton University

**Colorado home prices remain well above traditional measures of affordability** – Strong economic and population growth, in conjunction with low levels of housing construction, have resulted in significant increases in residential home prices in most parts of the state. Historically, home prices have averaged about 3.5 times an area's annual household income, a level often used to define housing affordability. In recent years, however, rapidly rising home prices have outpaced household income. Figure 8 shows the ratio of home prices to household income for each county in Colorado. Counties shown in darker blue have home prices that are further above annual household incomes. Note that while many counties are above the benchmark 3.5 level, housing is more affordable in eastern Colorado and far northwestern Colorado.

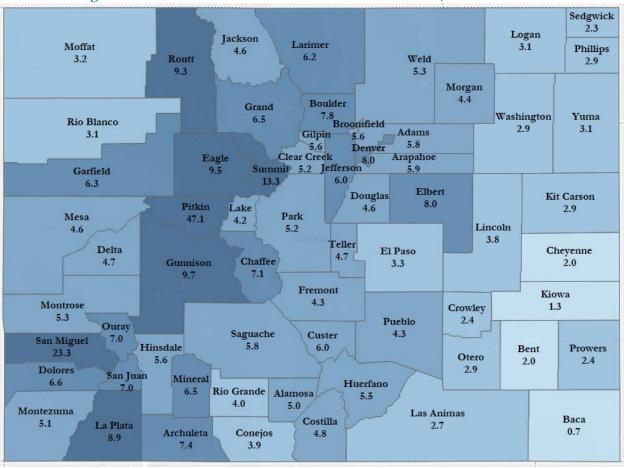

Figure 8. Median Home Price to Household Income Ratio, Prior 12 Months

Source: Colorado Association of Realtors, U.S. Census Bureau

**Colorado job growth has accelerated despite a tight labor market** – The state's sustained economic expansion is driving strong employment gains despite near-record-low unemployment and slower inmigration. Figure 9 shows monthly year-over-year job growth for the state since the beginning of 2015. Growth peaked in February 2015 at 3.8 percent and slowed over the course of 2015 and 2016. Since late 2017, however, job growth has been accelerating and is now at 2.7 percent, matching the fastest growth rate recorded since the end of 2015.

## 5% Job growth has been accelerating since the fall of 2017, but is unlikely to accelerate 3.8% 4% further due to the tight labor market. 3% 2.7% 2% 1% 0% 1211-15 NAN 15 JULIS 5 Jan Mar May 10 Jul 9 16 16 16 Sep 2021 5er 20215 bar har har har his for hor har but her to

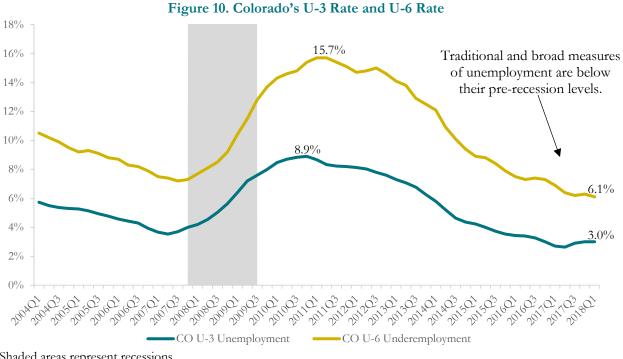

#### Figure 9. Colorado Year-over-Year Employment Growth

Source: Bureau of Labor Statistics, Colorado Department of Labor and Employment

State unemployment and underemployment are among the lowest in the nation – Colorado unemployment fell to 2.9 percent in April, below its first quarter rate of 3.0 percent. The broadest measure of unemployment is the "U-6" rate, which counts unemployed individuals, individuals who would like to work

The broadest measure of unemployment was at a 6.1 percent rate for Colorado over the four quarters ending in the first quarter of 2018, the 4<sup>th</sup> lowest rate in the nation. but have not looked for a job in the prior four weeks, and parttime workers who would like full-time employment. The U-6 rate was at 6.1 percent in the first quarter of 2017, which is the 4<sup>th</sup> lowest rate in the U.S. While this creates a positive environment for job seekers, the state's low unemployment is making it difficult for employers to find qualified candidates to fill open positions.

\*Shaded areas represent recessions. Source: Bureau of Labor Statistics

**Colorado's tight labor market is contributing to higher wages** – The 3-month average of Colorado's yearover-year wage growth was 3.9 percent in April and has been above 3.0 percent since September. This increase is likely at least partially due to the lack of available workers, as there are 57 percent more online job postings than unemployed people in Colorado. As employers struggle to fill positions, they often need to raise wages in order to recruit and retain workers.

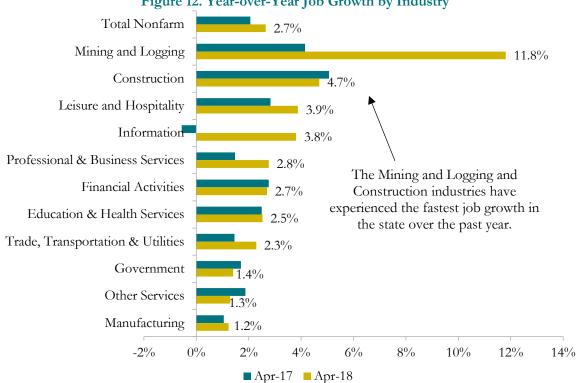

Figure 11. Colorado Average Hourly Earnings Year-over-Year Growth (3-month moving average)

Source: Bureau of Labor Statistics

Colorado job growth has accelerated, led by the energy and construction industries - As seen in Figure 12, the state's sustained economic expansion continues to generate broad employment gains across industries. The mining and logging sector, which includes oil and gas, registered the fastest job growth at 11.8 percent as it rebounds from the 2015-2016 energy downturn. The construction industry experienced the second-fastest job growth, recently surpassing its pre-recession peak of 170,000 employees.

# Figure 12. Year-over-Year Job Growth by Industry

Source: Colorado Department of Labor and Employment

Among metro areas, Boulder and Greeley experienced the most job growth over the last twelve months, at 3.7 percent and 3.4 percent respectively. Colorado Springs and Fort Collins also experienced above-statewide average job growth, while every metro area gained jobs over the year.

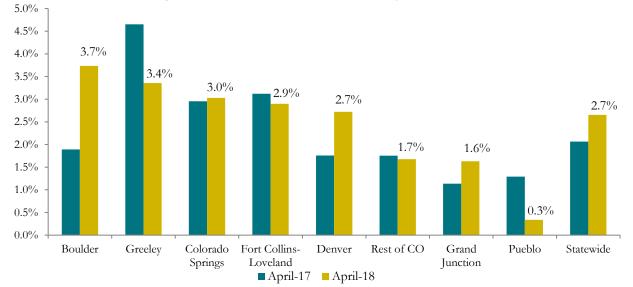

Figure 13. Year-over-Year Job Growth by Metro Area

Source: Colorado Department of Labor and Employment

Pueblo, which experienced the slowest annual job growth in the state, also had the highest unemployment rate, at 4.1 percent, and was the only metro area with an unemployment rate above the national average of 3.9 percent in April. The four metro areas of the northern Front Range all had unemployment rates below 3.0 percent.

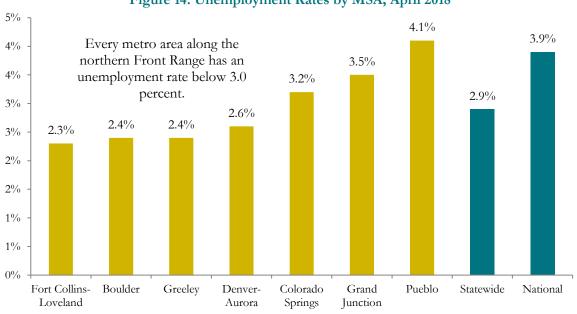

Figure 14. Unemployment Rates by MSA, April 2018

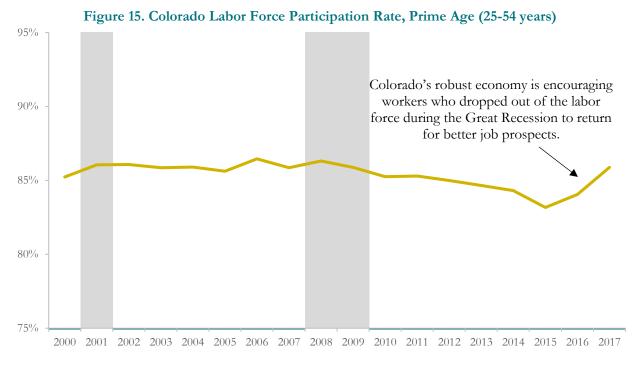

Source: Bureau of Labor Statistics

**Colorado's labor force has increased, allowing strong job growth to continue** – The state's labor force has been growing at a stronger rate since 2016. This is likely a result of workers who had previously dropped out of the labor force returning in response to strong job prospects and rising wages. As shown in Figure 15, the labor force participation rate for prime age

Colorado's prime-age labor force participation rate increased from 83.2 percent in 2015 to 85.9 percent in 2017, a sign that workers are feeling more confident in the labor market.

workers, those 25 to 54 years of age, has recovered from the losses seen following the Great Recession. However, growth is unlikely to continue at the current pace without increased in-migration. Such strong labor force growth has allowed statewide job growth to continue at a healthy rate despite the low unemployment rate.

\*Shaded areas represent recessions.

## U.S. Economic Conditions

Leading economic indicators point to continued growth – An assortment of closely watched leading economic indicators suggests that economic growth is likely to continue. Certain economic indicators tend to exhibit changes in trajectory before the economy as a whole, and therefore can be useful as predictors of economic trends and changes in the business cycle. For example, the number of new housing permits is an important leading indicator. When a new housing permit is applied for, it is soon followed by the construction and sale of a home, activities which positively affect the economy over a long time period. Economic research has shown new housing construction can be a reliable leading indicator of continued economic growth. Likewise, a downturn in housing construction tends to precede economy-wide recessions.

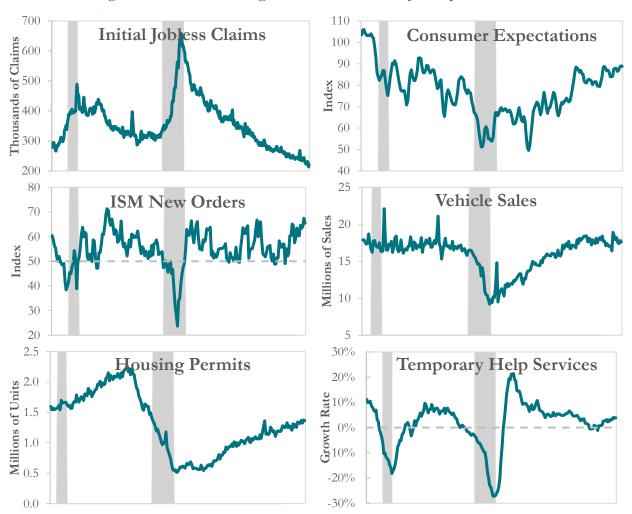

While leading indicators do not always accurately portend major fluctuations in the overall economy, multiple leading indicators used in conjunction with each other can provide insights into near-term economic growth and momentum. However, business cycles are extremely difficult to predict and no information can reliably determine the business cycle in real time.

Selected leading economic indicators are all either stable or improving, a positive signal of ongoing economic expansion.

Figure 16 shows six selected leading indicators, spanning the period from January 2000 to the most recent available, which have proven to be helpful gauges on broader economic momentum. Initial jobless claims tend to rise in advance of recessions, while the other five indicators tend to fall in the period leading up to a recession.

Currently, all selected leading indicators are either stable or improving, pointing to continued economic expansion. Jobless claims have continued to fall from their 2009 peak. Consumer expectations have continued to rise. The Manufacturing New Orders Index, published by the Institute for Supply Management, has declined slightly in recent months but remains well above 50, the level which indicates increasing activity. Housing permits have continued to rise. Temporary staffing utilization is growing again after flattening during the 2015-2016 economic slowdown, indicating that businesses continue to grow. Vehicle sales provide the only moderate signal, as they have declined slightly from a peak annual rate of 18.9 million sales in September 2017 to 17.6 million in April 2018. Taken together, these indicators suggest that the current economic expansion will likely continue in the near term.

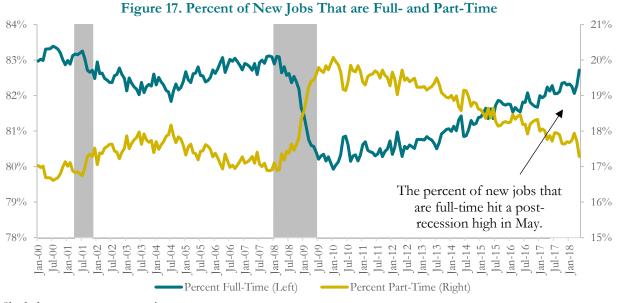

\*Shaded areas represent recessions.

Source: Employment and Training Administration, University of Michigan Survey of Consumers, Institute for Supply Management, Bureau of Economic Analysis, Census Bureau, Bureau of Labor Statistics

The percentage of new jobs that are full-time positions is approaching pre-recession levels. Job growth continues in 2018 at a slower rate- The U.S. economy added 223,000 jobs in May, slightly more than the 197,000 average monthly job gain experienced over the prior year, while the unemployment rate fell to its lowest level since April 2000 at 3.8

percent. As shown in Figure 17, the percentage of new jobs that are full-time positions (working more than 35 hours per week) hit a post-recession high of 82.7 percent in May, a rate which continues to increase as the labor market strengthens.

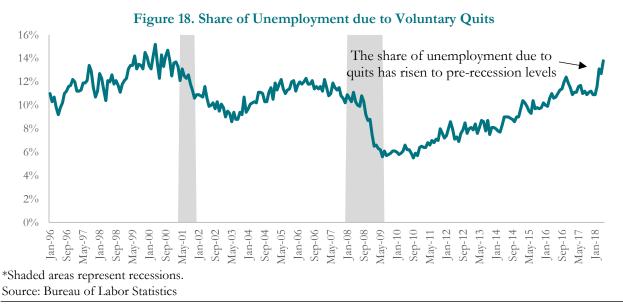

\*Shaded areas represent recessions. Source: Bureau of Labor Statistics

*Workers are feeling more confident in the labor market* – One measure of worker confidence in the labor market is the quit rate, or the share of employees who quit their jobs in any month. The quit rate tends to rise when the labor market is strong, as employees feel confident that they will be able to find another position, and fall when the labor market is weak, as employees cling to the jobs they have for fear of becoming unemployed.

A rising quit rate is another indicator of improved labor market conditions. The quit rate has gradually risen from its 2009 low of 1.3 percent to 2.3 percent in April. This matches the pre-recession high of 2.3 percent in September 2005, suggesting that employees are becoming more confident in the labor market. This view is also supported by the share of

unemployment due to quits, which rose to 13.8 percent in May, which is the highest rate reached since 2000. This increase in the quit rate could foretell additional wage growth as workers voluntarily leave positions for new opportunities at higher pay levels.

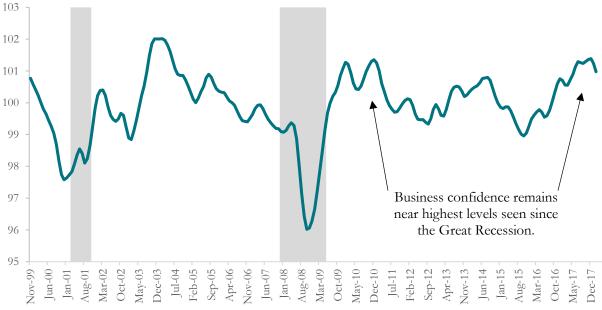

**Corporate earnings and investment continue to strengthen**—According to Thomson Reuters, first quarter profits for companies in the S&P 500 were 26.3 percent higher than a year ago, the highest quarterly growth rate since 2010. Research by the Wall Street Journal suggests that approximately half of this growth stemmed from lower corporate tax liabilities, largely as a result of the 2017 federal tax law changes. Corporate profits are also supported by

Global economic expansion and federal tax law changes are contributing to increased corporate earnings.

continued strong global economic growth, which contributes to higher revenue for U.S.-based businesses that operate internationally. Capital expenditures by S&P 500 companies, meanwhile, grew by 24 percent over the prior year – the highest growth rate since 2011, according to Credit Suisse.

**Business confidence remains at historically elevated levels** – Business confidence has shown steady improvement since the fall of 2015, remaining near post-Great Recession highs. The business confidence index (BCI) published by the Organization for Economic Cooperation and Development relies on firms' assessment of production, orders, and inventory, as well as its expectations for the immediate future. The survey compares positive and negative responses to a "normal" state, thereby providing a qualitative index on economic conditions. An index level of 100 represents the long-term average.

Although the index has recently turned downward, business confidence remains at one of the highest levels seen in prior decades. Continued confidence in the U.S. economy will encourage ongoing hiring and business investment. The recent downturn is likely a response to the uncertainty regarding U.S. trade policy and the potential impact on business costs and operations.

\*Shaded areas represent recessions.

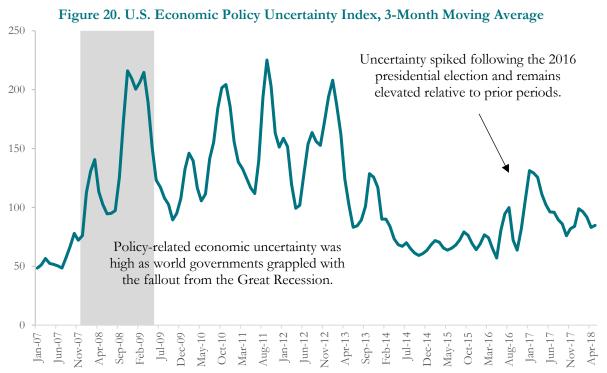

Source: Organization of Economic Cooperation and Development

*Uncertainty has remained slightly elevated in recent years* — One factor which often influences business confidence is the prevalence of economic policy uncertainty. The Economic Policy Uncertainty (EPU) Index, developed by economists from Stanford University and the University of Chicago, measures the level of

uncertainty in response to potential policy decisions through an accounting of key terms in select media sources, changes in the tax code, and disagreement among national forecasters.

As shown in Figure 20, beginning with the Brexit vote in June 2016, the EPU index has shown greater levels of uncertainty compared to the two years prior, spiking just after the 2016 presidential election. Levels remained elevated in response to the uncertainty surrounding potential federal tax changes, which were enacted in December, and, more recently, with regard to trade policy. However, uncertainty was much higher earlier in the expansion.

\*Shaded areas represent recessions.

#### International Economic Conditions

*Global economic growth has slowed slightly, but remains strong* – Global economic growth has declined since its most recent high point in late 2017, but remains strong. Global growth is currently being led by developing economies and the U.S., while the European region has seen a more pronounced slowdown. Trends in global economic growth are captured by the Goldman Sachs Global Current Activity Index, a measure of real-time broad economic activity, as seen in Figure 21.

While the global economic outlook is stable, risks to the forecast include trade policy uncertainty, as well as increasing political and financial market turmoil in the Eurozone.

\*Shaded areas represent recessions. Source: Goldman Sachs

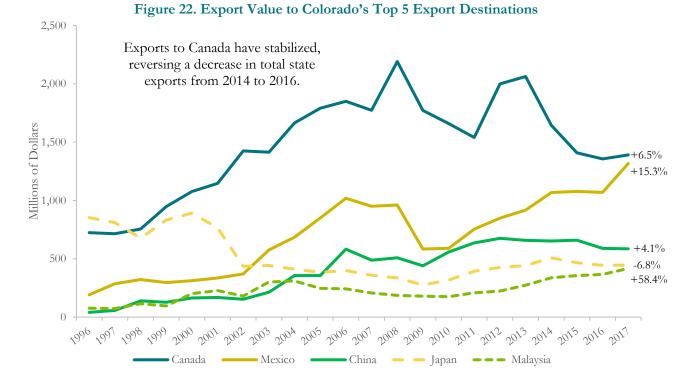

**Colorado exports are growing again** – After declining from 2014 through 2016, goods exports from Colorado increased by 6.2 percent in 2017 and are up by 10.6 percent year-to-date through April. As Figure 22 shows, most of the decline starting in 2014 came from reduced exports to Canada, Colorado's top export destination. In 2018, exports

Goods exports from Colorado increased in 2017 for the first time since 2013, and are growing again in 2018.

to four of Colorado's top five export destinations are increasing, led by Malaysia with a 58.4 percent increase over last year's pace. Japan is the only top-five export destination that has seen exports fall in 2018; goods exports to Japan have fallen at a 6.8 percent rate to date.

The main risk to trade growth is uncertainty regarding the direction of U.S. trade policy. Higher tariffs on imports would likely lead to retaliation by trading partners, which could reduce exports. In Colorado, the agriculture, manufacturing, and natural gas industries are the most export-dependent industries. While Colorado natural gas producers do not export directly to Mexico, the country imports significant amounts of U.S. natural gas. If exports to Mexico are reduced, excess supply will cause U.S. natural gas prices to fall below current levels and could reduce natural gas-related economic activity in the state.

## Summary of Key Economic Indicators Actual and Forecast

U.S. Gross Domestic Product (GDP)

• GDP is a standard barometer for the economy's overall performance and reflects the value of final output produced in the U.S.

• The U.S. economy is expected to grow 2.8 percent in 2018 and 2.4 percent in 2019 as the global economic expansion continues. Labor force constraints are expected to slow GDP growth in 2020 and beyond.

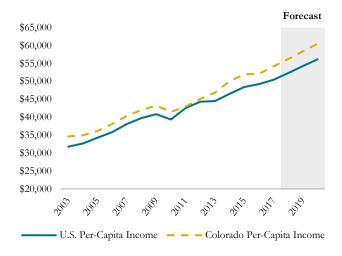

#### U.S. and Colorado Personal Income

- Colorado personal income growth is expected to be revised to 5.4 percent in 2017, rebounding from the economic slowdown experienced in 2016. Personal income growth is expected to slow slightly to 5.3 percent in 2018 and 5.2 percent in 2019 in response to more moderate job growth.
- U.S. personal income grew 3.1 percent in 2017 responding to stronger employment growth. Personal income growth is expected to accelerate 4.5 percent in 2018 due to solid job growth and as unemployment continues to fall. Personal income growth is expected to slow in 2019 and again in 2020 with moderating job and economic growth.

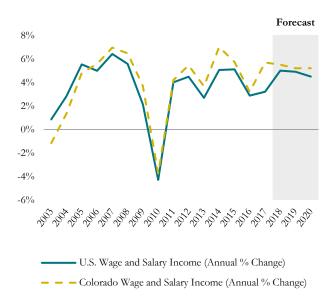

#### U.S. and Colorado Per-Capita Income

- Colorado per-capita income is growing faster than the nation overall, increasing to an estimated \$54,156 in 2017. It is expected to grow 3.9 percent to \$56,248 in 2018 and 3.8 percent to \$58,388 in 2019.
- U.S. per-capita income increased to a preliminary \$50,439 in 2017 and is expected to grow to \$52,339 in 2018 and to \$54,280 in 2019.

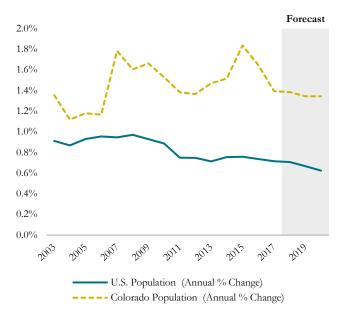

#### U.S. and Colorado Wage and Salary Income

- Estimated Colorado wage and salary growth accelerated to 5.7 percent in 2017 in response to ongoing strong employment growth. Growth is expected to slow to 5.5 percent in 2018 and 5.2 percent in the following years.
- U.S. wage and salary income increased 3.2 percent in 2017. Growth is expected to increase to 5.0 percent as a tighter labor market puts upward pressure on worker compensation. Wage and salary growth is expected to moderate slightly throughout the forecast period.

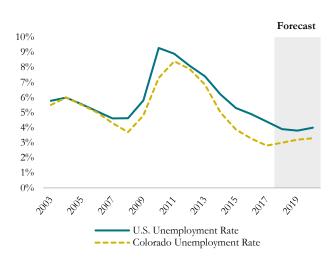

#### U.S. and Colorado Population

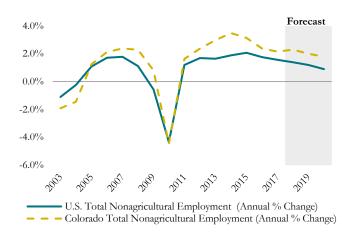

- Colorado's population growth rate fell to 1.4 percent in 2017, as net migration decreased from earlier levels. The state's population growth is expected to moderate over the forecast period, with total population reaching 5.8 million by 2020.
  - The nation's population growth rate will remain steady at about 0.7 percent per year, with the population reaching 330.0 million by 2019.

#### U.S. and Colorado Unemployment

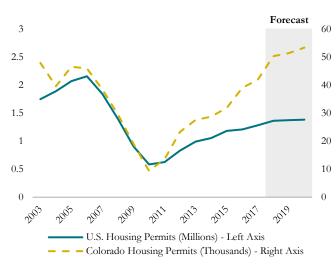

- Colorado's unemployment rate reached a post-recession low of 2.8 percent in 2017. The unemployment rate is expected to increase slightly to 3.0 percent in 2018 and 3.2 percent in 2019. Colorado will continue to experience unemployment rates among the lowest in the nation.
- The national unemployment rate continued to fall in 2017, declining to an average 4.4 percent for the year. Despite the decrease, the U.S. unemployment rate remained more than 1.5 percentage points higher than in Colorado. Continued strong employment growth will cause the rate to drop to 3.9 percent in 2018 and 3.8 percent in 2019.

#### U.S. and Colorado Total Nonagricultural Employment

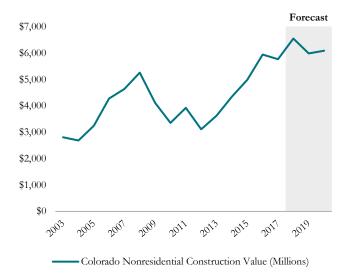

- Total employment in Colorado grew by 2.2 percent in 2017. Job growth will increase slightly in 2018 before slowing again in 2019 as a tighter labor market and slower in-migration constrain further growth.
- Total U.S. nonfarm payroll job growth slowed in 2017. Job growth will continue to slow nationwide as the labor market approaches full employment, with expected growth of 1.4 percent in 2018 and 1.2 percent in 2019.

#### U.S. and Colorado Housing Permits Issued

- In 2017, Colorado housing permits increased 7.5 percent, with 41,911 permits issued. Housing construction will increase to 50,300 permits for 2018 with a slight increase in 2019 to 51,300. The strong growth is driven by the continued robust demand for housing and related housing price inflation.
- U.S. housing permits grew by 6.2 percent in 2017, and are expected to grow by 6.1 percent in 2018, before leveling off in 2019 with 0.9 percent growth.

#### Colorado Nonresidential Construction Value

Colorado's nonresidential construction value fell by 3.0 percent in 2017 following four years of double-digit growth. Nonresidential construction value is expected to grow 13.5 percent in 2018 before declining slightly later in the forecast period. The slowdown in construction nonresidential will be somewhat offset by the \$937 million in construction projects authorized through the Denver bond package approved by voters last November.

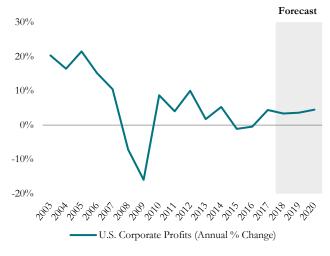

#### **Consumer Price Index and Producer Price Index**

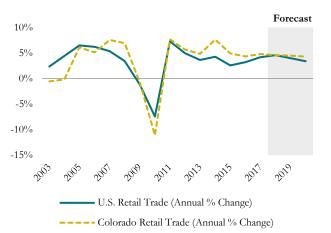

- National consumer prices increased by 2.1 percent in 2017. U.S. CPI is expected to rise 2.6 percent in 2018 and 2.2 percent in 2019.
- Producer prices rose 4.4 percent in 2017, mostly due to a rebound in fuel prices. The index is expected to increase 3.9 percent in 2018 and 2.4 percent in 2019.
- The Denver-Aurora-Lakewood CPI (formerly the Denver-Boulder-Greeley CPI) will remain above the national average at 3.0 percent in 2018 and 2.8 percent in 2019. In 2018, the geography and data frequency of the Denver-Aurora-Lakewood CPI were revised, causing slight volatility in the data and making forecasting the CPI more difficult.

#### **U.S. Corporate Profits**

- U.S. corporate profits grew by 4.4 percent in 2017 as global economic growth and stronger energy prices increased earnings.
  - Profit growth is expected to continue in coming years with forecasted growth rates of 3.4 percent in 2018 and 3.6 percent in 2019.

#### **Retail Trade**

- Colorado retail sales grew by an estimated 4.8 percent in 2017 and are expected to increase 4.6 percent in 2018 and 4.5 percent in 2019 as sales growth moderates over the forecast period.
  - Nationwide retail trade increased by 4.2 percent in 2017. Sales are expected to grow 4.6 percent in 2018 and 4.0 percent in 2019 as the economic expansion continues.

## General Fund and State Education Fund Revenue Forecast

Relative to the March projections, the FY 2017-18 forecast of recurring General Fund revenue sources is lower by \$80.3 million, or 0.7 percent. However, due to the receipt of a \$110.7 million settlement with tobacco companies related to the terms of the Tobacco Master Settlement Agreement, the overall General Fund revenue forecast for FY 2017-18 is higher by \$30.3 million, or 0.3 percent. The forecast for FY 2018-19 is higher by \$131.9 million, or 1.1 percent. After modest increases of just 1.7 percent in FY 2015-16 and 3.1 percent in FY 2016-17, General Fund revenue is forecast to increase at a much stronger rate of 13.1 percent in FY 2017-18. Revenue growth will moderate to 4.1 percent in FY 2018-19.

Individual income taxes, corporate income taxes, and sales and use taxes are growing at a faster rate as the economy has rebounded following a period of slow growth and weak energy prices. Individual income tax revenue growth is also being bolstered by the delay of some investment income gains from 2016 to 2017,

Strong economic conditions, federal tax law changes, and a one-time tobacco settlement payment are driving General Fund revenue growth of 13.1 percent in FY 2017-18. Revenue growth will moderate in FY 2018-19.

combined with a burgeoning stock market. Further, corporate income tax revenue, which has been declining since FY 2013-14, is expected to grow by more than 40 percent in FY 2017-18. The 2017 federal Tax Cuts and Jobs Act is also expected to increase State individual and corporate income tax revenue in coming years.

Figure 23 shows actual and projected total General Fund revenue from FY 2000-01 through FY 2018-19. A more detailed forecast of General Fund revenue by source is provided in Table 3 in the Appendix. For more details on the economy, the main determinant of General Fund revenue, see "The Economy: Issues, Trends, and Forecast" section of this forecast, which starts on page 4.

#### Figure 23. General Fund Revenue

Source: Office of the State Controller and OSPB forecast

#### **Discussion of Forecasts for Major General Fund Revenue Sources**

The following section discusses the forecasts for the three major revenue sources that together make up 95 percent of total General Fund revenue: individual income taxes, corporate income taxes, and sales and use taxes. General Fund revenue from the other remaining General Fund sources - such as interest earnings, taxes paid by insurers on premiums, and excise taxes on tobacco products and liquor — is posting a large one-time increase in FY 2017-18 from the \$110.7 million settlement payment with tobacco companies but will then moderate over the forecast period. Figure 24 shows actual revenue collections as well as the forecast for General Fund revenue.

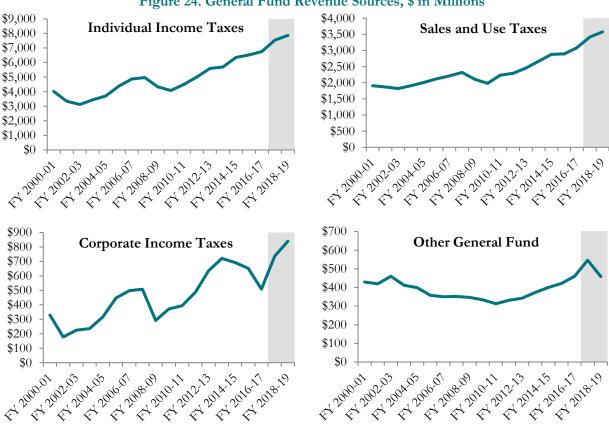

Figure 24. General Fund Revenue Sources, \$ in Millions

Source: Office of the State Controller and OSPB forecast Shaded areas represent forecast period

Individual income tax – Individual income tax collections grew 3.6 percent in FY 2016-17. Collections are forecast to increase at a more robust rate of 11.5 percent in FY 2017-18 and then moderate to 4.3 percent growth in FY 2018-19.

The strong growth in individual income tax collections in FY 2017-18 is due to a combination of factors. Wage withholdings have benefited from an increased demand for Colorado labor, which has led to accelerating employment growth and upward pressure on wages. In addition, revenue is expected to increase as the result of a delayed realization of 2016 capital gains as investors postponed asset sales in anticipation of federal tax changes. This forecast assumes that a significant portion of these deferred gains were realized in 2017, boosting individual income tax growth in FY 2017-18.

The other factors contributing to the strong individual income tax revenue increase in FY 2017-18 are solid growth in business and rental income, oil and gas royalties, and the stock market, driven by the expanding national and state economies. Individual income tax revenue is expected to grow at a more moderate pace in FY 2018-19 due to slower employment growth in a tight labor market and a moderation in capital gains income.

Strong economic growth and large anticipated gains in investment income are expected to accelerate individual income tax collections in FY 2017-18.

The FY 2017-18 forecast for individual income tax revenue was revised down slightly from the March forecast to better reflect year-to-date collections through May. FY 2018-19 and FY 2019-20 were revised upwards as a result of stronger wage withholdings and lower tax refunds than previously projected.

The enactment of the federal Tax Cuts and Jobs Act in December 2017 is expected to increase individual and corporate income tax revenue. This is the case because the legislation on balance increases federal taxable income, upon which Colorado taxable income is based. It is important to note that there is a higher-than-usual degree of uncertainty surrounding the current forecast of individual income tax collections. The effects of the federal Tax Cuts and Jobs Act on state individual income tax revenue may differ from our estimates due to possible delays in timing or potential taxpayer responses to the tax law changes that may be unforeseen at this time.

*Corporate income tax* – Corporate income tax collections are projected to increase 44.6 percent in FY 2017-18 after falling 21.9 percent in FY 2016-17. The forecasted growth in FY 2017-18 is the first increase in corporate income tax collections since FY 2013-14.

Corporate income tax revenue is among the most volatile General Fund revenue sources as it is influenced by special economic factors and the structure of the corporate income tax code. Trends in corporate profits are a primary determinant of corporate income tax collections.

Corporate profits weakened starting in 2015, leading to a decline in corporate income taxes. Weak global economic growth, strong appreciation in the U.S. dollar, and a decline in commodity prices served to reduce the profits of international corporations. While corporate profits began to grow again in the second half of 2016, corporate income tax revenue continued to decline as corporations deferred tax liabilities in anticipation of favorable federal tax law changes.

Corporate income tax revenue is expected to grow for the first time since FY 2013-14, increasing by 44.6 percent in FY 2017-18.

With the enactment of the Tax Cuts and Jobs Act in December 2017, state corporate income tax payments rebounded and are expected to continue to grow with higher corporate earnings and the ongoing economic expansion. Although renewed growth in corporate income tax collections is expected, future increases will be constrained by higher business costs, especially for employee compensation and borrowing, which will reduce profit margins and result in lower tax liabilities.

*Sales and use tax* – Sales tax revenue increased 6.5 percent in FY 2016-17 and is expected to increase an additional 9.8 percent in FY 2017-18 and 4.8 percent in FY 2018-19.

Colorado's strong economic growth is providing consumers with more disposable income, and this, combined with more business spending, is causing sales tax revenue to grow at an increasing rate. Growth in auto sales, a

major source of sales tax revenue, has been slowing in recent months but sales remain at a high level. In addition, the composition of auto sales is shifting from cars towards higher-priced light trucks, SUVs, and minivans, which results in more sales tax revenue to the State.

A portion of the 9.8 percent projected increase in FY 2017-18 is due to the higher net tax rate on retail marijuana sales pursuant to SB 17-267. This legislation increased the special tax rate on retail sales from 10 percent to 15 percent while exempting retail marijuana from the state's 2.9 percent sales tax, making the net tax rate increase 2.1 percentage points.

Increased consumer and business activity and the higher special sales tax rate on retail marijuana are driving sales tax revenue increases. Sales tax revenue is forecast to increase 9.8 percent in FY 2017-18.

The use tax is a companion to the sales tax and is paid by Colorado residents and businesses on purchases that did not include the Colorado sales tax. Use taxes bring in a much smaller amount of revenue than sales taxes and are often more volatile. Much of the State's use tax revenue comes from Colorado businesses paying the tax on transactions involving out-of-state sellers.

Use tax collections are increasing 20.0 percent in FY 2017-18 and are projected to increase another 4.5 percent in FY 2018-19. Much of the increase in use tax collections is due to stronger economic growth and the rebound in the oil and gas industry. However, a portion of the FY 2017-18 increase is due to the implementation of reporting requirements on online sales, pursuant to House Bill 10-1193. This law requires out-of-state retailers that do not collect Colorado sales tax to notify the purchasers of their tax liability as well as the Colorado Department of Revenue. Implementation of this law was delayed due to litigation that has now been resolved. Implementation begins in FY 2017-18 and is estimated to increase use tax collections by approximately \$3 million. The estimated short-term impact is lower than in previous forecasts as early compliance seems to be less than expected.

#### State Education Fund Revenue Forecast

Revenue to the State Education Fund will increase 13.4 percent and 5.2 percent in FY 2017-18 and FY 2018-19, respectively.

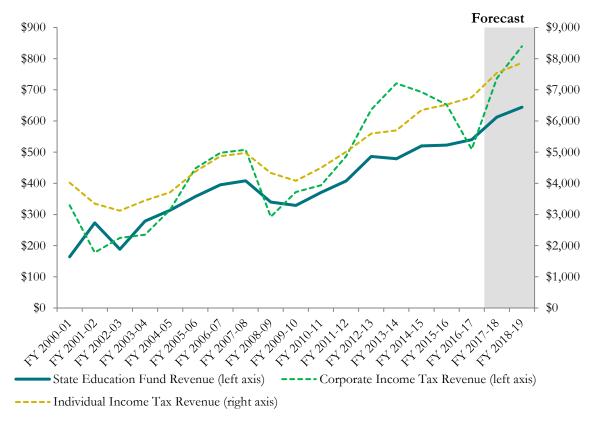

The Colorado Constitution requires that one-third of one percent of taxable income from Colorado taxpayers be credited to the State Education Fund. In addition to this revenue, policies enacted over the past several years have transferred other General Fund money to the State Education Fund.

Tax revenue to the State Education Fund will increase 13.4 percent and 5.2 percent in FY 2017-18 and FY 2018-19, respectively. Because State Education Fund revenue is derived from taxable income, it follows the trends in individual income and corporate income tax revenue collections discussed above. The strong growth rate this fiscal year is due to the robust gain in corporate income tax collections as well as higher individual income tax

collections driven by the strong economy, labor conditions, and stock market, as discussed above. The revenue impact of federal tax changes as explained above is also contributing to the growth expected in FY 2017-18 and throughout the forecast period.

Source: Office of the State Controller and OSPB forecast

### General Fund and State Education Fund Budget

*General Fund* – As discussed in the "General Fund and State Education Fund Revenue Forecast" section starting on page 30, the General Fund revenue forecast for FY 2017-18 is \$30.3 million, or 0.3 percent, higher than the March 2018 forecast. The forecast for FY 2018-19 is \$131.9 million higher, or 1.1 percent. The State's General Fund reserve is projected to be \$536.7 million above the required statutory reserve amount of 6.5 percent of appropriations in FY 2017-18. SB 18-276 raised the reserve requirement to 7.25 percent of appropriations for FY 2018-19 and subsequent years. Under this forecast, the State's General Fund reserve is projected to be \$130.6 million above the 7.25 percent required amount in FY 2018-19.

Figure 26 summarizes total projected General Fund revenue available, total obligations, and reserve levels for FY 2017-18 and FY 2018-19.

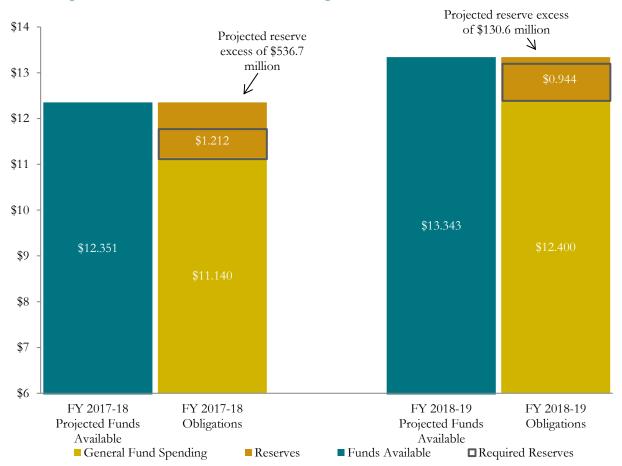

Figure 26. General Fund Available, Obligations, and Reserves, \$ in Billions

**State Education Fund** – The State Education Fund has been able to support a larger share of education funding in recent years than it has historically because it received large transfers of unspent General Fund revenue in the early years of the current economic expansion. However, these increased transfers to the State Education Fund were accompanied by increases in appropriations from the fund, resulting in a lower fund

balance. In FY 2017-18, the year-end fund balance is expected to increase from its FY 2016-17 level to approximately \$204.8 million. This increase is the result of a lower level of State Education Fund expenditures as well as greater General Fund and local property tax funding for preschool-12<sup>th</sup> grade education. However, the State Education Fund's balance is projected to decrease to \$107.2 million in FY 2018-19 due to an increase in budgeted expenditures from the fund. Figure 27 summarizes total State Education Fund revenue available, total spending, and ending balance levels from FY 2015-16 through FY 2018-19.

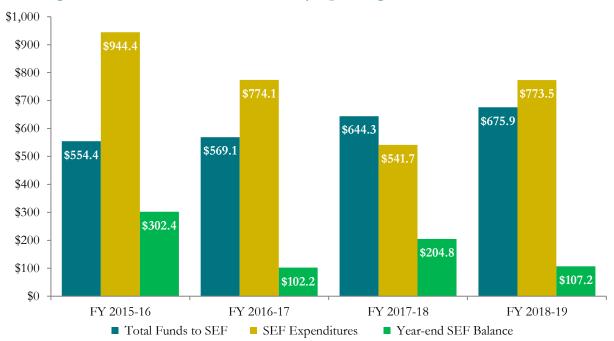

Figure 27. State Education Fund Money, Spending, and Reserves, \$ in Millions

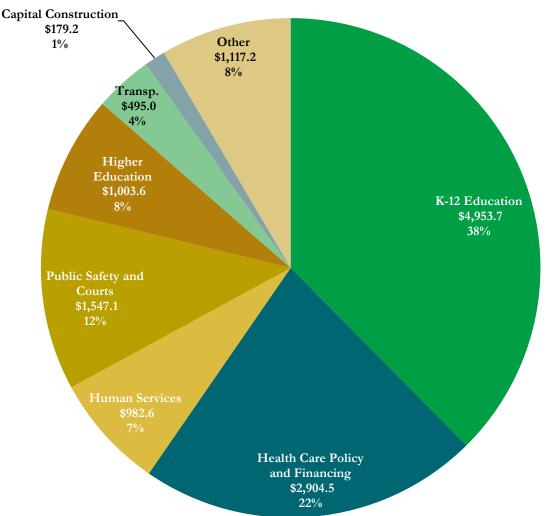

**Detailed Overview Tables** – A detailed overview of the amount of money available in the General Fund and State Education Fund, expenditures, and end-of-year reserves is provided in the overview tables (Tables 4 and 5) in the Appendix at the end of this document beginning on page 49. A discussion of the information presented in these tables can be found on the Office of State Planning and Budgeting's website at this link: https://goo.gl/d63Ys2.

#### Spending by Major Department or Program Area

The General Fund provides funding for the State's core programs and services, including preschool through 12<sup>th</sup> grade education, higher education, services for low-income populations, including the disabled and elderly, courts, and public safety. It also helps fund capital construction and maintenance needs for State facilities and, in some years, transportation projects. Under the state constitution, the State Education Fund helps fund preschool through 12<sup>th</sup> grade education and annually receives one-third of one percent of taxable income. In some years, it has also received supplemental money from the General Fund as authorized by statute.

In Figure 28, the major areas of the combined General Fund and State Education Fund FY 2018-19 budget are noted. Approximately 92 percent of General Fund and State Education Fund spending comprises the following areas: preschool-12<sup>th</sup> grade education, Medicaid and related costs at the Department of Health Care Policy and Financing, human services, public safety, the correctional system, courts, and higher education.

#### Figure 28. FY 2018-19 General Fund and State Education Fund Budget Composition (\$ in Millions)

#### Major Budget Accomplishments

Notable items that relate to the budget from the 2018 legislative session include:

- Funding for primary and secondary education to grow with inflation and enrollment, plus a \$150.0 million reduction in the budget stabilization factor, and an additional \$30 million allocation to rural schools.
- \$108.7 million in increased funding out of the General Fund for higher education to support the State's colleges and universities, limit tuition increases, enhance student supports, and offer additional financial aid.
- \$15.4 million total funds to increase salaries for direct care positions, including registered nurses, at the mental health institutes at Fort Logan and Pueblo. This initiative is intended to encourage staff retention, reduce mandatory overtime, and reduce patient-to-staff ratios.
- \$10.0 million General Fund and 12.9 full-time equivalent staff for a variety of initiatives to mitigate an increase in court-ordered competency services and reduce waitlists and wait times for individuals in jails awaiting competency evaluation or treatment.

- \$18.4 million total funds to Colorado counties for child welfare along with various reforms to the child welfare system.
- Changes to the funding formula and establishment of eligibility requirements for the Child Care Assistance Program plus \$13.8 million for county child care programs.
- \$4.0 million increase in appropriations to Area Agencies on Aging.
- \$495.0 million General Fund earmarked for critical infrastructure needs for Colorado's transportation system in FY 2018-19 with an additional \$150.0 million earmarked in FY 2019-20.
- Reforms to policies related to the Public Employees Retirement Association to address the solvency of the pension fund.
- An increase in the General Fund reserve requirement to 7.25 percent of appropriations, up from 6.5 percent in FY 2017-18.

#### Risks to the Outlook and Budget Implications

This budget outlook is based on OSPB's economic analysis and forecast, discussed in more detail in the section titled "The Economy: Issues, Trends, and Forecast," beginning on page 4. Changes to the Colorado economy determine revenue to the General Fund and State Education Fund. In addition to revenue, changes in economic conditions impact the budget outlook through associated changes in the use of many state services, such as higher education and Medicaid.

Colorado's economy is on solid footing with strong employment growth and expectations of an ongoing expansion. Although recession risk appears minimal, a large adverse shock could reduce business and household spending and investment, precipitating an economic downturn. A large enough downturn would cause a decline in General Fund revenue, while increasing the demand for state services.

## **Cash Fund Revenue Forecast**

A wide array of state programs collect taxes, fees, fines, and interest to fund services and operations. When fees or other revenue sources are designated for a particular program, they are typically directed to that program's cash fund. OSPB's forecast of cash fund revenue subject to TABOR and the Referendum C cap is shown in Table 6 in the Appendix.

Cash fund revenue is projected to decrease by 16.5 percent in FY 2017-18 as the Hospital Provider Fee is replaced with the Healthcare Affordability and Sustainability Fee program, which is a TABOR-exempt enterprise in accordance with SB 17-267. The forecast for FY 2017-18 is \$78.8 million, or 3.6 percent, higher than projections in March, largely due to higher-than-expected revenue to severance tax cash funds and to the large group of cash funds referred to as "other miscellaneous cash funds." In addition to the change in the Hospital Provider Fee, cash fund revenue is also reduced by the exemption of retail marijuana sales from the 2.9 percent state sales tax pursuant to SB 17-267.

*Transportation-related cash funds* — Transportation-related cash fund revenue is forecast to grow 3.1 percent in FY 2017-18 and 2.7 percent in FY 2018-19. The forecast is 0.3 percent, or \$3.9 million, lower than the March forecast for FY 2017-18.

Transportation-related cash funds include the Highway Users Tax Fund (HUTF), the State Highway Fund (SHF), and a number of smaller cash funds including emissions fees and professional licenses. HUTF collections are distributed by statutory formula to the Colorado Department of Transportation, local counties and municipalities, and the Colorado State Patrol. The primary revenue sources for the HUTF cash funds are motor fuel taxes and registration fees, but also include special transport permits and DUI fines.

State gasoline taxes, which have remained at 22 cents per gallon since their last increase in 1991, represent more than 75 percent of motor fuel tax revenue. Fuel tax revenue to the HUTF has averaged 2.0 percent growth per year during the current economic expansion. Growth is expected to continue at a modest rate, dampened by increasingly fuel-efficient vehicles consuming fewer gallons of gasoline, thus tempering fuel tax collections.

Vehicle registration revenue growth is driven by auto sales and inmigration to the state. Auto sales grew steadily from the end of the Great Recession in 2009 through 2017. As interest rates rise and the pent-up demand experienced since the Great Recession decreases, new auto sales are leveling off. Colorado vehicle sales are expected to remain slightly stronger than nationwide sales due to greater economic and population growth.

Increasing consumer preferences for heavier vehicles are expected to offset the effect of declining growth in new auto sales, resulting in modest growth in overall vehicle registration fees.

Registration fees are based largely on vehicle age and weight. Therefore, the continuing shift in consumer preference towards SUVs and light trucks partially offsets the weaker registration revenue stemming from low growth in new vehicle sales. As heavier vehicles are less fuel-efficient, this trend is also expected to contribute to increased revenue from vehicle fuel taxes.

	Actual	Forecast	Forecast	Forecast
Transportation Funds Revenue	FY 16-17	FY 17-18	FY 18-19	FY 19-20
Highway Users Tax Fund (HUTF)

#### Figure 29. Transportation Funds Forecast by Source, \$ in Millions

\*Totals may not sum due to adjustments from recent policy changes that impact revenue.

*Limited gaming revenue* — Revenue from gaming will grow \$8.2 million, or 6.9 percent, reaching a total of \$127.4 million in FY 2017-18. It will reach \$131.7 million in FY 2018-19.

Of the \$127.4 million total expected limited gaming revenue in FY 2017-18, \$106.9 million will be subject to TABOR, as reflected in Figure 30. Of this amount, \$105.0 million is classified as "base limited gaming revenue" in accordance with Amendment 50. In FY 2018-19, \$110.1 million will be subject to TABOR, with \$108.2 million classified as "base limited gaming revenue". Base limited gaming revenue is distributed by statutory formula to the State General Fund, the State Historical Society, cities and counties affected by gaming activity, and programs related to economic development.

Gaming revenue attributable to Amendment 50 is not subject to TABOR. This revenue is distributed mostly to community colleges, with a smaller portion going to local governments with communities affected by gaming. These distributions will total \$16.9 million in FY 2017-18 and \$18.0 million in FY 2018-19. Figure 30 shows the distribution of limited gaming revenue in further detail.

Distribution of Limited Gaming Revenues	Actual FY 16-17	Forecast FY 17-18	Forecast FY 18-19	Forecast FY 19-20
A. Total Limited Gaming Revenues	\$119.2	\$127.4	\$131.7	\$136.8

#### Figure 30. Distribution of Limited Gaming Revenues, \$ in Millions

*Hospital Provider Fee* – Hospital Provider Fee revenue totaled \$654.4 million in FY 2016-17. Hospital Provider Fee revenue is eliminated in FY 2017-18 and in subsequent years as the Hospital Provider Fee is replaced with the Healthcare Affordability and Sustainability Fee. This fee is exempt from TABOR as the program is designated as an enterprise in accordance with SB 17-267. As with the Hospital Provider Fee, this fee is paid by Colorado hospitals and is used, together with matching federal funds, to help cover the cost of the Medicaid program and enhance payments to health care providers.

*Severance tax revenue* — Severance tax collections are growing quickly in FY 2017-18. Severance tax revenue totaled \$19.5 million in FY 2016-17, after \$18.9 million in revenue was collected in FY 2015-16. These low collections were caused by several factors. The ad valorem tax credit for State severance taxes was a contributing factor, as were the persistently low oil and natural gas prices seen in FY 2015-16 and early FY 2016-17. Severance tax revenue has also been negatively impacted by an increase in amended returns filed in response to the 2016 Colorado Supreme Court ruling discussed below.

In FY 2017-18, collections are expected to reach \$108.7 million. The forecast reflects increased oil production and reduced ad valorem credits, but also anticipates ongoing claims for refunds from taxpayer amendments to prior year tax returns related to the Supreme Court ruling. Total severance tax revenue will increase to \$163.7 million in FY 2018-19 as the court ruling is expected to have a lessening impact on collections.

As a result of the April 2016 Colorado Supreme Court's decision in *BP America v. Colorado Department of Revenue* (DOR), taxpayers can claim additional severance tax deductions related to their transportation, manufacturing, and processing costs incurred in oil and gas extraction activities. In addition to lowering severance tax collections on an ongoing basis, this decision also increased the refund claims for prior tax years.

*Federal Mineral Leasing revenue* – FML revenue is expected to decrease slightly in FY 2017-18, declining 3.6 percent to \$87.7 million before growing 10.5 percent to \$97.0 million in FY 2018-19. The rebound in growth in the next fiscal year is a result of higher energy prices and the end of refunds of FML "bonus" payments to mineral extraction leaseholders on the Roan Plateau. Note that while FML revenue is exempt from TABOR, it is included here because a portion of the money is used for the State's share of preschool-12<sup>th</sup> grade school finance.

FML royalties are derived from a percentage of the value of resources produced on leased federal lands. FML activity includes the production of natural gas and oil as well as propane, carbon dioxide, coal, and other mineral resources. The Bureau of Land Management (BLM) sells leases to extract mineral resources from federal lands. Producers then remit royalties and other payments to the federal government which are then shared with the state in which production occurs.

On March 13, 2018 the U.S. Department of the Interior announced that \$18.2 million of previously withheld FML revenue would be disbursed to the State. HB18-1249 changed the distribution of this disbursement. Instead of being deposited into the State's Mineral Leasing Fund, the revenue was distributed to the affected counties – Garfield, Rio Blanco, Mesa, and Moffat.

rigure 51. Federar Minerar Deabing (TMD) Fayments, ¢ in Minions								
Fiscal Year	Bonus	Non-Bonus	Total FML	% Change				
FY 2016-17	\$0.6	\$90.4	\$91.0	-2.0%				
FY 2017-18	\$0.4	\$87.3	\$87.7	-3.6%				
FY 2018-19	\$1.7	\$95.2	\$97.0	10.5%				
FY 2019-20	\$1.8	\$100.1	\$101.9	5.1%				

FY 2016-17 figures are actual collections, FY 2017-18 through FY 2019-20 are projections.

Figures do not include \$18.2 million of previously withheld revenue to be disbursed in accordance with HB18-1249.

*Other cash funds* — Cash fund revenue to the Department of Regulatory Agencies (DORA) will increase 5.6 percent to \$79.7 million in FY 2017-18 and another 3.6 percent to \$82.6 million in FY 2018-19. DORA regulates businesses and professionals in certain industries through licensing, rulemaking, enforcement, and approval of rates charged to consumers. Revenue from licensing fees and other services fund many of the Department's activities.

Insurance-related cash fund revenue is obtained largely from a surcharge on workers' compensation insurance programs. Revenue from this source will increase 54.7 percent to \$16.0 million in FY 2017-18 and 21.8 percent to \$19.5 million in FY 2018-19. Each year, the Division of Workers' Compensation performs a comprehensive review to determine the funding needed to operate its programs. Surcharges have increased in FY 2017-18, which is contributing to the projected increase in insurance-related revenue.

The "Other Miscellaneous Cash Funds" category in Table 6 includes revenue from over 300 cash funds which generally collect revenue from fines, fees, and interest earnings. Approximately 75 percent of the revenue comes from the largest 30 of these funds. Included among these are the Employment Support Fund, Medicaid Nursing Facility Cash Fund, and cash funds which collect marijuana industry-related revenue.

Revenue to miscellaneous cash funds is expected to total \$708.9 million in FY 2017-18, an increase of 9.7 percent. This FY 2017-18 projection is \$36.8 million greater than the March forecast. The June revision reflects stronger year-to-date revenue than was previously projected. In FY 2018-19, revenue to these funds is expected

to increase 5.4 percent to \$747.2 million. \$6.4 million of this increase is attributable to the effects of legislation passed during the 2018 legislative session.

*Marijuana-related revenue* — Figure 32 shows revenue from the special taxes on the legal marijuana industry authorized by Proposition AA in November 2013, along with revenue from the 2.9 percent sales tax collected on marijuana sales.

Tax Revenue from the Marijuana Industry	Actual FY 16-17	Forecast FY 17-18	Forecast FY 18-19	Forecast FY 19-20
Proposition AA Taxes				
Retail Marijuana 10%/15% Special Sales Tax	\$98.3	\$172.5	\$199.8	\$209.8
Retail Ma <del>r</del> ijuana 15% Excise Tax	\$71.5	\$70.2	\$68.1	\$67.8
Total Proposition AA Taxes	\$169.9	\$242.7	\$267.9	\$277.6
2.9% Sales Tax (Subject to TABOR)				
Medical Marijuana 2.9% State Sales Tax	\$12.4	\$11.1	\$10.9	\$10.9
Retail Marijuana 2.9% State Sales Tax	\$28.1	\$4.9	\$1.5	\$1.5
Total 2.9% Sales Taxes	\$40.6	\$16.0	\$12.4	\$12.4
Total Marijuana Taxes	\$210.4	\$258.6	\$280.3	\$290.0

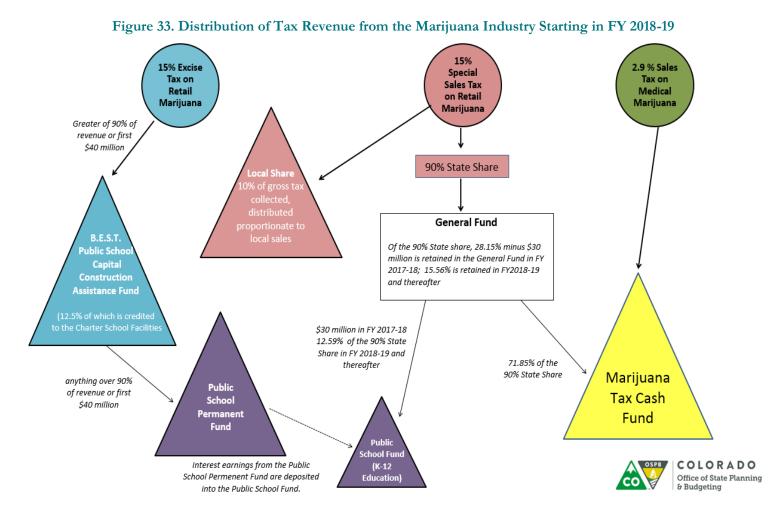

Figure 32. Tax Revenue from the Marijuana Industry, \$ in Millions

SB 17-267 made changes to marijuana taxation and revenue beginning in FY 2017-18. The bill exempted retail marijuana from the 2.9 percent state sales tax, while increasing the special sales tax rate on retail marijuana from the previous 10 percent to 15 percent in FY 2017-18 and beyond. Note that the table above shows some revenue from the 2.9 percent state sales tax on retail marijuana even in FY 2017-18 and beyond. This is because marijuana paraphernalia and other non-marijuana items sold in marijuana shops were not exempted.

Revenue from the 2.9 percent sales tax on marijuana, as well as fees related to regulation of the marijuana industry, are included in the Miscellaneous Cash Funds category in Table 6. The table does not include the proceeds from marijuana taxes authorized by Proposition AA, as they are not subject to TABOR.

Most of the revenue from the retail marijuana sales tax in Proposition AA goes first to the General Fund — and is included as sales tax revenue in Table 3 in the Appendix — before being transferred to the Marijuana Tax Cash Fund and the Public School Fund. The remaining amount after the transfers stays in the General Fund. Proposition AA also included an excise tax of 15 percent on retail marijuana that is credited to public school cash funds. Figure 33 shows the distribution of marijuana tax revenue.

#### Governor's Office of State Planning and Budgeting

## Taxpayer's Bill of Rights: Revenue Limit

**Background on TABOR** – Provisions in the Taxpayer's Bill of Rights (TABOR) – Article X, Section 20 of the Colorado Constitution – limit the growth of certain State revenue to the sum of inflation and population growth. Revenue collected above the TABOR limit must be returned to taxpayers unless voters decide the State can retain the revenue.

In November 2005, voters approved Referendum C, which allowed the State to retain all revenue received through FY 2009-10 during a five-year TABOR "time out." Referendum C also set a new cap on revenue starting in FY 2010-11. Starting with FY 2010-11, the amount of revenue that the State may retain under Referendum C (line 9 of Table 7 found in the Appendix) is calculated by multiplying the revenue limit between FY 2005-06 and FY 2009-10 associated with the highest TABOR revenue year (FY 2007-08) by the allowable TABOR growth rates (line 6 of Table 7) for each subsequent year. The passage of SB 17-267 during the 2017 legislative session reduced the Referendum C cap by \$200 million in FY 2017-18. The lower cap then grows by the sum of inflation and population growth in subsequent years. More information on SB 17-267 can be found below.

Most General Fund revenue and a portion of cash fund revenue are included in calculating the revenue cap under Referendum C. Revenue that is not subject to TABOR includes revenue exempt by Colorado voters, federal money, and revenue received by entities designated as enterprises, such as public universities and colleges. Table 7 found in the Appendix summarizes the forecasts of TABOR revenue, the TABOR revenue limit, and the revenue cap under Referendum C.

**SB 17-267 reduced the amount of revenue subject to TABOR** – SB 17-267 included several provisions that affect the amount of TABOR revenue that the State can retain under the Referendum C cap. As mentioned above, SB 17-267 reduces the Referendum C cap by \$200 million in FY 2017-18. The cap will grow by the sum of inflation and population growth from this lower base going forward.

Beginning in FY 2017-18, the Hospital Provider Fee has been replaced with the Healthcare Affordability and Sustainability Fee. This fee is exempt from TABOR as it is collected by a new enterprise created by SB 17-267 within the Department of Health Care Policy and Financing. In addition, SB 17-267 exempted retail marijuana from the 2.9 percent state sales tax and extended and expanded the income tax credit for business personal property taxes paid. However, SB 17-267 also allows the distribution of a portion of the special sales tax on retail marijuana sales to the General Fund on an ongoing basis, which offsets the revenue reduction from the business personal property tax credit.

Finally, SB 17-267 changed TABOR refund mechanisms. The legislation required that reimbursements paid to local governments in support of the senior homestead and disabled veterans property tax exemptions constitute a TABOR refund in years in which a refund is owed. The reimbursements are now the first refund mechanism triggered when a TABOR refund is required.

*TABOR revenue will exceed the limit in fiscal year 2019-20* – TABOR revenue came in \$436.2 million below the cap in FY 2016-17 and is projected to be below the cap by \$63.1 million in FY 2017-18 and \$27.8 million in FY 2018-19. TABOR revenue is expected to exceed the cap by \$10.8 million in FY 2019-20.

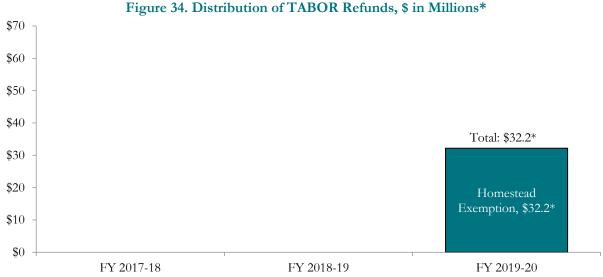

TABOR revenue is expected to be below the Referendum C cap by \$63.1 million in FY 2017-18 and \$27.8 million in FY 2018-19, and above the cap by \$10.8 million in FY 2019-20. TABOR revenue last exceeded the Referendum C cap in FY 2014-15, by \$169.7 million. Of this amount, \$153.7 million was scheduled to be refunded to taxpayers via their 2015 tax returns, which includes \$3.6 million in outstanding refunds from prior years. The remaining \$19.6 million of the \$169.7 million in excess FY 2014-15 revenue resulted from the reclassification of

the revenue transferred from the Unclaimed Property Fund to the Adult Dental Fund as subject to TABOR. The legal analysis and audit review on the correct classification of this revenue occurred after refund amounts were established for state income tax forms. Such adjustments and audit findings have occurred in the past and the process requires the reclassified revenue to be refunded in the next year a refund is due, which, according to this forecast, is FY 2019-20, as discussed below.

In addition to this \$19.6 million adjustment, after the close of FY 2014-15, a net \$14.2 million in FY 2014-15 revenue previously treated as nonexempt was reclassified as exempt from TABOR. Most of this adjustment was due to revenue received by the Department of Public Safety. This change offsets a portion of the aforementioned \$19.6 million increase to refunds from the FY 2014-15 transfer to the Adult Dental Fund in the next year a refund is due.

Colorado law specifies three mechanisms by which revenue in excess of the cap needs to be refunded to taxpayers in future years: the senior homestead and disabled veterans property tax exemptions, a sales tax refund to all taxpayers ("six-tier sales tax refund"), and a temporary income tax rate reduction. The refund amount determines which refund mechanisms are used. Figure 34 shows the anticipated refund that will be distributed through each mechanism according to the revenue projections in this forecast and the statutorily defined refund mechanisms.

\* Amount above Referendum C cap plus adjustments from prior years. The FY 2019-20 projected refund obligation will be paid through FY 2020-21's homestead exemption expenditures.

Under this forecast, TABOR refunds of \$32.2 million are projected for FY 2019-20, as shown in the table below and in line 11 in Table 7. This amount includes the projected \$10.8 million exceeding the Referendum C cap in FY 2019-20, plus a net \$21.3 million outstanding from the FY 2014-15 refund requirement due to those adjustments mentioned above. The \$21.3 million refunds outstanding also includes a remaining \$16.0

million in under-refunds from FY 2014-15 as the amount of refunds actually claimed by taxpayers on their 2015 tax returns was less than the amount due to taxpayers. Any TABOR refund amount that is not refunded to taxpayers is required to be refunded the next year a refund is due. The following table illustrates these adjustments.

Projected FY 2019-20 TABOR Refund with Adjustments				
Revenue Above the Referendum C Cap	\$10.8			
Adjustments from Prior Fiscal Years				
Reclassification of Transfer to Adult Dental Fund	\$19.6			
Other Reclassifications	-\$14.2			
Remaining Amount not Refunded from 2015 Tax Returns	\$16.0			
Total Adjustments	\$21.3			
Total Refund	\$32.2			

Revenue to be refunded in FY 2019-20 is not projected to be greater than the senior homestead and disabled veterans property tax exemption programs, and thus will not require a sales tax refund or temporary income tax rate reduction refund mechanism as specified by Section 39-22-627, C.R.S. As required by statute, the refund of the FY 2019-20 excess revenue will occur through the senior homestead and disabled veterans property tax exemption expenditures in FY 2020-21.

## Governor's Revenue Estimating Advisory Committee

The Governor's Office of State Planning and Budgeting would like to thank the following individuals that provided valuable feedback on key national and Colorado-specific economic indices included in this forecast. All of these individuals possess expertise in a number of economic and financial disciplines and were generous with their time and knowledge.

- Alison Felix Vice President and Denver Branch Executive, Denver Branch Federal Reserve Bank of Kansas City
- Elizabeth Garner State Demographer, Colorado Department of Local Affairs
- Alexandra Hall –Director, Division of Labor Standards and Statistics, Colorado Department of Labor and Employment
- David Kelly Chief Risk Officer, FirstBank
- Ronald New Capital Markets Executive
- Jessica Ostermick Director, Capital Markets, Industrial and Logistics, CBRE
- Paul Rochette Senior Partner, Summit Economics
- Patricia Silverstein President, Development Research Partners
- Richard Wobbekind Associate Dean, Leeds School of Business; University of Colorado, Boulder

Change	-6.5%	-16.5%	6.0%	1.4%

### Table 6. Cash Fund Revenue Subject to TABOR Forecast by Major Category (Dollar amounts in Millions)

**/A** Includes revenue from Senate Bill 09-108 (FASTER) which began in FY 2009-10. Roughly 40% of FASTERrelated revenue is directed to State Enterprises. Revenue to State Enterprises is exempt from TABOR and is thus not included in the figures reflected by this table.

**/B** Excludes tax revenue from extended gaming as allowed by Amendment 50 to the Colorado Constitution as this revenue is exempt from TABOR. The portion of limited gaming revenue that is exempt is projected based on the formula outlined in House Bill 09-1272.

**/C** Severance tax revenue for FY 2016-17 differs from the amount reported by the State Controller's office, as the figures in Table 6 do not include the diversion of income tax revenue to pay for severance tax refunds under Senate Bill 16-218.

/D Hospital Provider Fee revenue is reduced to zero in FY 2017-18 and subsequent years as the Hospital Provider Fee is replaced with the TABOR-exempt Healthcare Affordability and Sustainability Fee pursuant to SB 17-267.

### Table 7. TABOR Revenue & Referendum C Revenue Limit (Dollar Amounts in Millions)

Line		Actual	June 2018 Estimate by Fiscal Year						
No.		FY 2016-17	FY 2017-18	FY 2018-19	FY 2019-20				
	TABOR Revenues:								
1	General Fund /A	\$10,156.1	\$11,341.9	\$11,896.8	\$12,533.7				
	Percent Change from Prior Year	2.6%	11.7%	4.9%	5.4%				
2	Cash Funds /A	\$2,735.6	\$2,284.1	\$2,421.5	\$2,454.4				
	Percent Change from Prior Year	-6.5%	-16.5%	6.0%	1.4%				
3	Total TABOR Revenues	\$12,891.7	\$13,625.9	\$14,318.3	\$14,988.1				
	Percent Change from Prior Year	0.5%	5.7%	5.1%	4.7%				
	Revenue Limit Calculation:								
4	Previous calendar year population growth	1.9%	1.6%	1.4%	1.4%				
5	Previous calendar year inflation	1.2%	2.8%	3.4%	3.0%				
6	Allowable TABOR Growth Rate	3.1%	4.4%	4.8%	4.4%				
7	TABOR Limit /B	\$10,761.7	\$11,209.9	\$11,748.0	\$12,264.9				
8	General Fund Exempt Revenue Under Ref. C /C	\$2,130.0	\$2,416.0	\$2,570.3	\$2,712.4				
9	Revenue Cap Under Ref. C /B, /D	\$13,327.8	\$13,689.0	\$14,346.1	\$14,977.3				
10	Amount Above/Below Cap	-\$436.2	-\$63.1	-\$27.8	\$10.8				
11	Revenue to be Refunded including Adjustments from Prior Years /E	\$0.0	\$0.0	\$0.0	\$32.2				
12	TABOR Reserve Requirement	\$386.7	\$408.8	\$429.5	\$449.3				

**/A** Amounts differ from the General Fund and Cash Fund revenue reported in Table 3 and Table 6 due to accounting adjustments and because some General Fund revenue is exempt from TABOR.

/B The TABOR limit and Referendum C cap are adjusted to account for changes in the enterprise status of various state entities.

/C Under Referendum C, a "General Fund Exempt Account" is created in the General Fund. The account consists of money collected in excess of the TABOR limit in accordance with voter-approval of Referendum C.

**/D** The revenue limit is calculated by applying the "Allowable TABOR Growth Rate" to either "Total TABOR Revenue" or the "Revenue Cap under Ref. C," whichever is smaller. Beginning in FY 2010-11, the revenue limit is based on the highest revenue total from FY 2005-06 to 2009-10 plus the "Allowable TABOR Growth Rate." FY 2007-08 was the highest revenue year during the Referendum C timeout period. SB 17-267 reduced the Referendum C cap by \$200 million in FY 2017-18. The lower cap then grows by inflation and population growth in subsequent years.

**/E** These adjustments are the result of: (a) changes that were made to State accounting records for years in which TABOR refunds occurred that resulted in changes in required refunds to taxpayers, and (b) the refund to taxpayers in previous years was different than the actual amount required. Such adjustments are held by the State until a future year in which a TABOR refund occurs when they adjust the total refund amount distributed to taxpayers.

### **APPENDIX C**

### STATE OF COLORADO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2017

(THIS PAGE INTENTIONALLY LEFT BLANK)

# COLORAD

## **Comprehensive Annual Financial Report**

For the Fiscal Year Ended June 30, 2017

**COLORADO** Office of the State Controller

Department of Personnel & Administration

## Comprehensive Annual Financial Report

John Hickenlooper Governor

**COLORADO** Office of the State Controller

For the Fiscal Year

Ended June 30, 2017

Department of Personnel & Administration

### **REPORT LAYOUT**

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes the controller's transmittal letter and the state's organization chart. The Financial Section includes the auditor's opinion, management's discussion and analysis, the basic financial statements, and the combining statements and schedules. The Statistical Section includes fiscal, economic, and demographic information about the state.

### **INTERNET ACCESS**

The Comprehensive Annual Financial Report and other financial reports are available on the State Controller's home page at:

http://www.colorado.gov/osc/cafr

### Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2017

COLORADO Office of the State Controller

Department of Personne & Administration

Office of the State Controller 1525 Sherman St. Denver, CO 80203

February 6, 2018

To the Citizens, Governor, and Legislators of the State of Colorado:

I am pleased to submit the State of Colorado's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. Except for certain institutions of higher education, the State Controller is responsible for managing the financial affairs of the State and is committed to sound financial management and governmental accountability.

We believe the financial statements are fairly presented in all material aspects. They are presented in a manner designed to set forth the financial position, results of operations, and changes in net position or fund balances of the major funds and nonmajor funds in the aggregate. All required disclosures have been presented to assist readers in understanding the State's financial affairs.

Except as noted below, the basic financial statements contained in the CAFR are prepared in conformity with generally accepted accounting principles (GAAP) applicable to governments as prescribed by the Governmental Accounting Standards Board (GASB) and, except for the discretely presented component units; they are audited by the State Auditor of Colorado. The basic financial statements comprise the Management Discussion and Analysis (MD&A), financial statements, notes to the financial statements, and Required Supplementary Information. The MD&A, which begins on page 23, contains additional financial analysis and supplementary information that is required by GASB and should be read in conjunction with this transmittal letter. The schedules comparing budgeted to actual activity, included in the sections titled Required Supplementary Information and Supplementary Information, are not presented in accordance with GAAP; rather, they reflect the budgetary basis of accounting which defers certain payroll, Medicaid, and other statutorily defined expenditures to the following fiscal year. (See additional information on "Cash Basis Accounting" on page 40 of the MD&A.) In addition to the basic financial statements, the CAFR includes: combining financial statements that present information by fund category, certain narrative information that describes the individual fund categories, supporting schedules, and statistical tables that present financial, economic, and demographic data about the State.

The funds and entities included in the CAFR are those for which the State is financially accountable based on criteria for defining the financial reporting entity as prescribed by GASB. The primary government is the legal entity that comprises the major and nonmajor funds of the State, its departments, agencies, and State institutions of higher education. It also includes certain university activities that are legally separate but have been blended with the accounts of the institution that is financially accountable for the activity.

The State's elected officials are financially accountable for other legally separate entities that qualify as discretely presented component units. The following entities qualify as discretely presented component units of the State:

Colorado Water Resources and Power Development Authority University of Colorado Foundation Colorado State University Foundation Colorado School of Mines Foundation University of Northern Colorado Foundation Other Component Units (nonmajor): Denver Metropolitan Major League Baseball Stadium District Colorado Venture Capital Authority HLC @ Metro, Inc.

Additional information about these component units and other related entities is presented in Note 1 of the financial statements (see page 71). Audited financial reports are available from each of these entities.

1525 Sherman St., Denver, CO 80203 P 303.866.6200 www.colorado.gov/osc John W. Hickenlooper, Governor | June Taylor, Executive Director

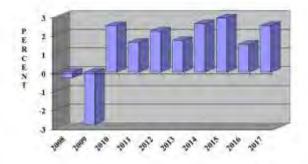

### **PROFILE OF THE STATE OF COLORADO**

Colorado became the thirty-eighth state of the United States of America when it was admitted to the union in 1876. Its borders encompass 103,718 square miles of the high plains and the Rocky Mountains with elevations ranging from 3,315 to 14,433 feet above sea level. The State's major economic sectors include agriculture, manufacturing, technology, tourism, energy production, and mining. Considerable economic activity is generated in support of these sectors by government, wholesale and retail trade, transportation, communications, public utilities, finance, insurance, real estate, and other services. Given the State's semi-arid climate, water resource development, allocation, and conservation are ongoing challenges for State management.

The State maintains a separation of powers utilizing three branches of government – executive, legislative, and judicial. The executive branch comprises four major elected officials – Governor, State Treasurer, Attorney General, and Secretary of State. Most departments of the State report directly to the Governor; however, the Departments of Treasury, Law, and State report to their respective elected officials, the Department of Education reports to the elected State Board of Education. The elected officials serve four-year terms with a limit on the number of terms allowed.

The Legislature is bicameral and comprises thirty-five senators and sixty-five representatives who are also term limited. It is a citizen legislature whose general session lasts 120 days beginning in January of each year. Special sessions may be called by the Governor at his discretion and are limited to the topics identified by the Governor. The Legislature's otherwise plenary power is checked by the requirement for the Governor to sign its legislation and by specific limitations placed in the State Constitution by voters. The most significant fiscal limitation is the restriction related to issuing debt, raising taxes, and changing existing spending limits. From a fiscal perspective, the Joint Budget Committee of the Legislature, because of its preparation of the annual budget and supplemental appropriations bills, holds the most important power vested in the Legislature. The Committee is bipartisan with members drawn from each of the houses of the Legislature. The Governor's Office of State Planning and Budgeting develops and submits an executive branch budget proposal, but there is no requirement for the Joint Budget Committee or the General Assembly to adopt that proposal.

The Judicial Branch is responsible for resolving disputes within the State, including those between the executive and legislative branches of government, and for supervising offenders on probation. The Branch includes the Supreme Court, Court of Appeals, district courts, and county courts, served by more than 300 justices and judges in 22 judicial districts across the State. Municipal courts are not part of the State system. There are also seven water courts, one in each of the State's major river basins. The Judicial Branch budget is appropriated by the Legislature, and it is funded primarily from general-purpose revenues of the General Fund.

#### PERCENT CHANGE IN REAL GROSS DOMESTIC PRODUCT

### **ECONOMIC CONDITION AND OUTLOOK**

The State's General Fund general-purpose revenues reflect the overall condition of the State economy, which showed continued growth in Fiscal Year 2016-17; General Fund revenues increased by \$334.0 million (3.4 percent) from the prior year. In absolute dollars, the Office of State Planning and Budgeting (OSPB) reports personal income in the State increased by approximately 1.9 percent for 2016 and is forecast to increase by 5.4 percent for 2017. State nonagricultural employment levels rose by 56,400 in 2016, and are forecast to increase by another 57,200 in 2017.

The Bureau of Economic Analysis reports that inflation adjusted national gross domestic product (GDP) grew at an annualized rate of 2.8 percent in the third quarter of calendar year 2016 and 3.2 percent in the third quarter of 2017. Inflation adjusted GDP increased 2.3 percent from the third quarter of 2016 to the third quarter of 2017 (all percentage changes in the balance of this paragraph are measured on the third quarter to third quarter basis).

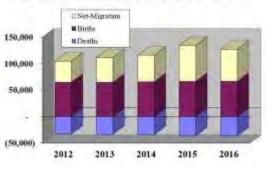

National personal consumption expenditures account for over two-thirds of GDP and increased 2.6 percent. The increase in personal consumption was led by an increase of 6.3 percent in durable goods, the most significant in recreational goods and vehicles. Gross private domestic investment increased 4.5 percent, primarily in software and industrial equipment. Government spending was flat, with a small decrease in state and local government spending being offset with a minimal increase in Federal spending. Quarter-over-quarter exports increased by 2.2 percent and imports grew by 3.2 percent; net exports decreased the GDP compared to the third quarter of 2016.

Following a downturn in 2008 and 2009, the national economy has steadily expanded with moderate growth each year since 2009. The December 2017 Economic and Revenue Forecast of the Colorado Legislative Council observed that:

"The U.S. and Colorado economies are poised to continue to expand throughout the forecast period. Moderate consumer spending, strong business optimism, and an expanding global economy will support economic growth in the U.S. and Colorado. As the national and state labor markets tighten further, wage pressures are expected to rise, but will be partially offset by demographics. Consumer activity, similarly, will continue to be subdued by shifting consumption patterns across a growing share of retirees. Additionally, rising interest rates and rising household debt services payments will moderate spending."

Historically, Colorado economic activity and in-migration have interdependent. Net migration has been averaged approximately 52,800 from 2012 to 2016. International immigration slightly increased from approximately 10,400 (2012) to 10,600 (2016). Domestic migration from other states increased more significantly from 28,500 (2012) to 50,200 (2016). The information in the adjacent chart is based on current Colorado Sate Demographer estimates. The Demographer forecasts net population growth of 92,800 for 2017 and 91,600 for 2018, and the OSPB forecasts net migration of 48,000 for each of those two years, which indicates persistent immigration.

According to the OSPB's December 2017 The Colorado Outlook, "Colorado's economic growth remains solid, with broad-based job growth and low unemployment. The more populated urban areas along the Front Range, with their greater economic diversity of growing industries, continue to outperform other areas of the state. However, the state's strong expansion has led to higher costs of living and doing business, as well as among the tightest labor market conditions in the country. These factors have contributed to moderating growth, which is expected to continue through the forecast period."

OSPB has made the following calendar year forecasts for Colorado's major economic variables:

- Unemployment will average 2.8 percent for 2017 compared with 3.3 and 3.9 percent in 2016 and 2015, respectively, and it is expected to slightly increase in 2018 to 3.0 percent.
- Wages and salary income will increase by 5.7 percent in 2017, by 5.3 percent in 2018, and by 5.0 percent in 2019.
- Total personal income will increase by 5.4 percent in 2017, by 5.1 percent in 2018, and by 4.8 percent in 2019.
- Net migration is expected to be 48,000 in both 2017 and 2018, with total population growth of 1.4 percent in the same two years.
- Retail trade sales will increase by 4.8 percent in 2017 followed by an increase of 4.7 percent in 2018.
- Colorado inflation will be 3.0 percent in 2017 and 2.6 percent in 2018.

### MAJOR GOVERNMENT FISCAL INITIATIVES

The General Assembly enacted, and the Governor signed, many bills during the 2017 Legislative Session. There were several areas of focus including education, transportation, healthcare, and water conservation. The following measures have a significant financial impact for Fiscal Year 2017-18:

- In accordance with the Public School Finance Act of 1994, the General Assembly appropriated an additional \$110.1 million of state funds to the Department of Education. This appropriation includes an increase of \$331.9 million from the General Fund and decreases totaling \$221.8 million in cash funds.
- The Department of Natural Resource was appropriated \$30.1 million from the Colorado Water Conservation Board (CWCB) Construction Fund to support various water resources planning and management projects and studies. Additionally, The CWCB was authorized to make loans in the amount of \$90.0 million from the CWCB Construction Fund to support the Windy Gap Firming Project, a regional water supply project which includes the construction of a new reservoir.
- The Department of Local Affairs was appropriated \$5.9 million from the Marijuana Tax Cash Fund for the newly created Gray and Black Market Marijuana Enforcement Grant Program. The crime-prevention program was created to provide business loans and grants in target communities.
- The General Assembly revised the method by which it transfers funds to the Highway Users Tax Fund (HUTF) and the Capital Construction Fund (CCF). A statute requiring transfers of amounts determined by a formula factoring General Fund collections was repealed. This method was replaced by transferring specific amounts determined by the General Assembly. The impact for Fiscal Year 2017-2018 is a reduction in transfers of approximately \$31.6 million for the HUTF and \$55.3 million for the CCF.
- ◆ The Colorado Healthcare Affordability and Sustainability Enterprise (Enterprise) was created within the Department of Health Care Policy and Financing. The Enterprise is responsible for the collection of the new Healthcare Affordability and Sustainability Fee, which replaces the Hospital Provider Fee. The fee is used for matching Federal funds for administration, reimbursements to hospitals, and business support purposes. Relative to the previous Hospital Provider Fee expenditures, Enterprise expenditures are expected to increase \$528.2 million in FY 2017-2018. Fifty percent of this increase will be from the Healthcare Affordability and Sustainability Fee Cash Fund and fifty percent will be from Federal funds.
- Beginning in Fiscal Year 2017-2018, retail (recreational) marijuana sales are exempted from the 2.9 percent sales tax assessed on the sale of tangible personal property and the rate of special sales tax on retail marijuana was increased from 8 percent to fifteen percent. The Fiscal Year 2017-2018, the estimated change in revenue relating to these changes are a reduction of \$30.1 million and an increase of \$70.0 million.

### **BUDGETARY AND OTHER CONTROL SYSTEMS**

The General Assembly appropriates the annual State budget for ongoing programs at a line item level segregated by department, except for custodial funds, certain statutory cash funds, and most federal funds. New programs are funded for the first time through enabling legislation and are continued through the Long Appropriations Act in future periods. For the most part, operating appropriations lapse at the end of the fiscal year unless the State Controller approves, at a line item level, an appropriation rollforward based on express legislative direction or extenuating circumstances. The State Controller, with the approval of the Governor, may also allow expenditures in excess of the appropriated budget. This approval occurs at a budget line item level. Capital construction appropriations are normally effective for three years and do not require State Controller rollforward approval.

The State records the appropriated budget in its accounting system, the Colorado Operations Resource Engine (CORE), along with nonappropriated budgets for most federal awards, statutory cash funds, and custodial funds of the various departments. Revenues and expenditures are tracked by funding source – general, general exempt, cash, reappropriated and federal funds – and are designated appropriated or non-appropriated. Appropriated budgets include amounts that require a legislative appropriation authorizing spending, whereas non-appropriated budgets represent amounts that do not require an act of the legislature and are often referred to as informational only appropriations. For instance, most federal funds are non-appropriated. The accounting system flags monies to be disbursed without sufficient spending authority. Revenues and expenses/expenditures are accounted for on the basis used for the fund in which the budget is recorded except for certain budgetary basis exceptions (see Note RSI-1A).

Encumbrances are recorded throughout the year and result in a reduction of the available spending authority. Encumbrances represent the estimated amount of expenditures that will be incurred when outstanding purchase orders, contracts, or other commitments are fulfilled. At fiscal year end, encumbrances lapse except those that represent appropriations that are approved for rollforward into the subsequent fiscal year, and legal or contractual obligations in the Capital Projects Fund and the Department of Transportation's portion of the Highway Users Tax Fund (see Note 19).

In developing the State's accounting system, consideration has been given to the adequacy of internal controls. The Office of the State Controller has adopted the "Standards for Internal Control in the Federal Government" (Green Book) as the state standard for internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition. Those controls also assure the reliability of financial records for preparing financial statements and maintaining the accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from that control. The evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within this framework. We believe that the State's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

### **INDEPENDENT AUDIT**

The State Auditor performs an audit of the Basic Financial Statements. The opinion of the State Auditor is on page 18 of this report. Besides annually auditing the statewide financial statements, the State Auditor has the authority to audit the financial statements and operations of the departments and institutions within State government.

In 1996, the United States Congress amended the Single Audit Act of 1984. The amended act clarifies the State's and the auditor's responsibility for ensuring that federal moneys are used and accounted for properly. Under the requirements of this act, transactions of major federal programs are tested. The State prepares a Schedule of Expenditures of Federal Awards for inclusion in the State Auditor's Statewide Single Audit Report. The State Auditor issues reports on the schedule, the financial statements, internal controls, and compliance with the requirements of federal assistance programs.

### **CERTIFICATE OF ACHIEVEMENT**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Colorado for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the twentieth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily

readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

### ACKNOWLEDGMENTS

In conclusion, I thank my staff and the controllers, accountants, auditors, and program managers in the State departments and branches whose time and dedication have made this report possible. I reaffirm our commitment to maintaining the highest standards of accountability in financial reporting.

Sincerely,

Robert Saros

Robert Jaros, CPA, MBA, JD Colorado State Controller

### INDEPENDENT AUDITOR'S REPORT

Members of the Legislative Audit Committee:

### REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Colorado (the State), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

### MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The State's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component units identified in Note 1, which represents 100 percent of the assets, net position, and revenues of the aggregate discretely presented component units. In addition, we did not audit the financial statements of University of Colorado Medicine, a blended component unit, which represents approximately 4 percent of the total assets, 20 percent of the net position, and 13 percent of the total revenues of Higher Education Institutions, a major proprietary fund, and

Office of the State Auditor Page 2

approximately 3 percent of the total assets, 10 percent of the net position, and 10 percent of the total revenues of business-type activities. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts and disclosures included for those discretely presented component units and for University of Colorado Medicine, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the University of Colorado Foundation, Colorado State University Foundation, Colorado School of Mines Foundation, the University of Northern Colorado Foundation, and the Denver Metropolitan Major League Stadium District, which are discretely presented component units, and University of Colorado Medicine, a blended component unit, were audited in accordance with auditing standards generally accepted in the United States, but were not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Office of the State Auditor Page 3

### **OPINIONS**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Colorado, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### OTHER MATTERS

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budget and actual schedules–budgetary basis, and notes to the required supplementary information, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedule of capital assets used in governmental activities, schedule of other funds detail, budget and actual schedules– budgetary basis non-appropriated, schedule of TABOR revenue and computations, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section, budget and actual schedules– Office of the State Auditor Page 4

budgetary basis non-appropriated, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

The combining and individual nonmajor fund financial statements, schedule of capital assets used in governmental activities, schedule of other funds detail, and schedule of TABOR revenue and computations is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, the combining and individual nonmajor fund financial statements, schedule of capital assets used in governmental activities, schedule of other funds detail, and schedule of TABOR revenue and computations are fairly stated in all material respects in relation to the basic financial statements as a whole.

### OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we will issue a separate report dated February 6, 2018, on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance and should be read in conjunction with this report in considering the results of the audit.

REANDER REL

Denver, Colorado February 6, 2018

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

### **INTRODUCTION**

The following discussion and analysis is supplementary information required by the Governmental Accounting Standards Board (GASB), and is intended to provide an easily readable explanation of the information provided in the attached basic financial statements. It is by necessity highly summarized, and in order to gain a thorough understanding of the State's financial condition, the attached financial statements and notes should be reviewed in their entirety.

### **OVERVIEW OF THE FINANCIAL STATEMENT PRESENTATION**

There are three major parts to the basic financial statements – government-wide statements, fund-level statements, and notes to the financial statements. Certain required supplementary information (in addition to this MD&A), including budget-to-actual comparisons and funding progress for other post-employment benefits, is presented following the basic financial statements. Supplementary information, including combining fund statements and schedules, follows the required supplementary information.

### **Government-wide Financial Statements**

The government-wide statements focus on the government as a whole. These statements are similar to those reported by businesses in the private sector, but they are not consolidated financial statements because certain intra-entity transactions have not been eliminated. Using the economic resources perspective and the accrual basis of accounting, these statements include all assets, liabilities, deferred inflows, and deferred outflows on the *Statement of Net Position* and all expenses and revenues on the *Statement of Activities*. These statements can be viewed as an aggregation of the governmental and proprietary fund-level statements along with certain perspective and accounting-basis adjustments discussed below. Fiduciary activities are excluded from the government-wide statements because those resources are not available to support the State's programs.

The *Statement of Net Position* shows the financial position of the State at the end of the Fiscal Year. Net position measures the difference between assets and deferred outflows and liabilities and deferred inflows. Restrictions reported in net position indicate that certain assets, net of the related liabilities, can only be used for specified purposes. Increases in total net position from year to year indicate the State is better off financially, while decreases in total net position may or may not indicate the opposite.

The *Statement of Activities* shows how the financial position has changed since the beginning of the Fiscal Year. The most significant financial measure of the government's current activities is presented in the line item titled "Change in Net Position" at the bottom of the *Statement of Activities*. The statement is presented in a net program cost format, which shows the cost of programs to the government by offsetting revenues earned by the programs against expenses of the programs. Due to the large number of programs operated by the State, individual programs are aggregated into functional areas of government.

On the *Statement of Net Position*, columns are used to segregate the primary government, including governmental activities and business-type activities, from the discretely presented component units. On the *Statement of Activities*, both columns and rows are used for this segregation. The following bullets describe the segregation.

- Governmental activities are the normal operations of the primary government that are not presented as business-type activities. Governmental activities include Internal Service Funds and are primarily funded through taxes, intergovernmental revenues, and other nonexchange revenues.
- Business-type activities are primarily funded by charges to external parties for goods and services. These activities are generally reported in Enterprise Funds in the fund-level statements because the activity has revenue-backed debt or because legal requirements or management decisions mandate full cost recovery.

• Discretely presented component units are legally separate entities for which the State is financially accountable. More information on the discretely presented component units can be found in Note 2 on page 86.

### **Fund-Level Financial Statements**

The fund-level statements present additional detail about the State's financial position and activities. However, some fund-level statements present information that is different from the government-wide statements due to the differing basis of accounting used in fund statements compared to the government-wide statements. Funds are balanced sets of accounts tracking activities that are legally defined or are prescribed by generally accepted accounting principles. Funds are reported on the fund-level statements as major or nonmajor based on criteria set by the Governmental Accounting Standards Board (GASB). There are three types of funds operated by the State: governmental, proprietary, and fiduciary. In the fund statements, each fund type has a pair of statements that show financial position and activities of the fund; a statement showing cash flows is also presented for the proprietary fund type.

- <u>Governmental Funds</u> A large number of the State's individual funds and activities fall in this fund type; however, only some are reported as major the remaining funds are aggregated into the nonmajor column with additional fund detail presented in the Supplementary section of this report. Governmental Funds are presented using the current financial resources perspective, which is essentially a short-term view that excludes capital assets, debt, and other long-term liabilities. The modified accrual basis of accounting is used. Under modified accrual, certain revenues are deferred because they will not be collected within the next year, and certain expenditures are not recognized, even though they apply to the current period, because they will not be paid until later fiscal periods. This presentation focuses on when cash will be received or disbursed, and it is best suited to showing amounts available for appropriation. The governmental fund type includes the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Fund, and Permanent Funds.
- <u>Proprietary Funds</u> Proprietary fund type accounting is similar to that used by businesses in the private sector. It is used for the State's Enterprise Funds and Internal Service Funds. Enterprise Funds generally sell to external customers while Internal Service Funds generally charge other State agencies for goods or services. These funds are presented under the economic resources measurement focus, which reports all assets and liabilities. Accrual accounting is used, which results in revenues recognized when they are earned and expenses reported when the related liability is incurred. Because this is the same perspective and basis of accounting used on the government-wide statements, Enterprise Fund information flows directly to the business-type activities column on the government-wide statements without adjustment. Internal Service Fund assets and liabilities are reported in the governmental activities on the government-wide *Statement of Net Position* because Internal Service Funds is reported as an increase or reduction to program expenses on the government-wide *Statement of Activities*. On the fund-level statements, nonmajor Enterprise Funds are aggregated in a single column, as are all Internal Service Funds.
- <u>Fiduciary Funds</u> These funds report resources held under trust agreements for other individuals, organizations, or governments. The assets reported are not available to finance the State's programs, and therefore, these funds are not included in the government-wide statements. The State's fiduciary funds include Pension and Other Employee Benefits Trust Funds, several Private-Purpose Trust Funds, and several Agency Funds. Agency Funds track only assets and liabilities and do not report revenues and expenses on a statement of operations. All Fiduciary Funds are reported using the accrual basis of accounting.

The State has elected to present combining financial statements for its component units. In the report, the component unit financial statements follow the fund-level financial statements discussed above.

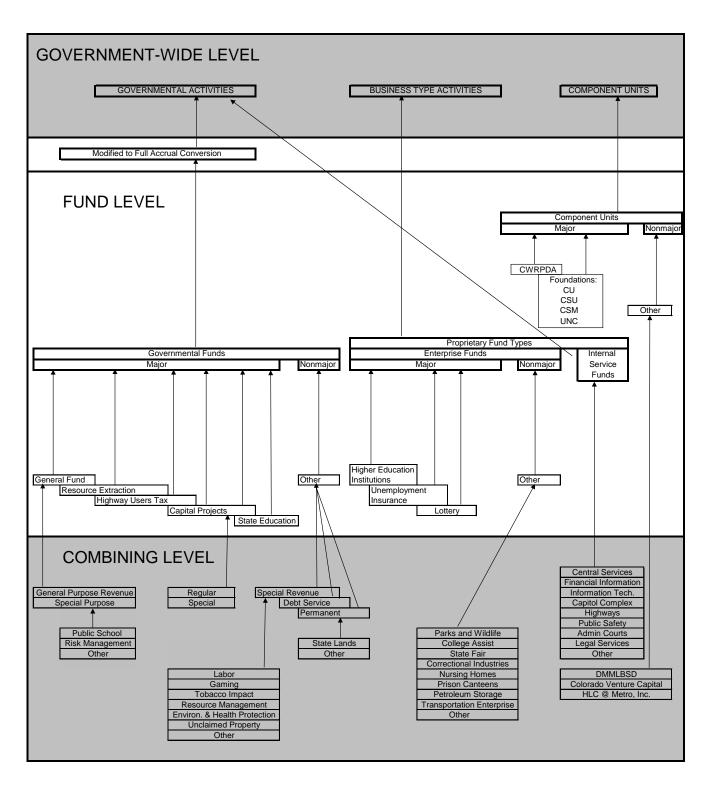

### Notes to Basic Financial Statements

The notes to the financial statements are an integral part of the basic financial statements. They explain amounts shown in the financial statements and provide additional information that is essential to fair presentation.

### **Required Supplementary Information (RSI)**

Generally accepted accounting principles require certain supplementary information to be presented in this Management's Discussion and Analysis and following the notes to the financial statements. Required supplementary information differs from the basic financial statements in that the auditor applies certain limited procedures in reviewing the information. In this report, RSI includes budgetary comparison schedules, defined benefit pension plan schedules, and a schedule of funding progress for other post-employment benefits.

The chart on the following page is a graphic representation of how the State's funds are organized in this report. Fiduciary Funds are not shown in the chart; they occur only in fund-level statements.

### **OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS**

### **Government-wide Statement of Net Position**

Net position serves as a useful indicator of a government's financial position over time. The State's combined total net position of both governmental and business-type activities decreased from the prior fiscal year by \$2,293.5 million to \$13,277.4 million in Fiscal Year 2017. The amount of total net position is one measure of the health of the State's finances. However, this measure must be used with care because large portions of the balances related to capital assets or restricted assets may be unavailable to meet the day-to-day payments of the State.

(A manufa in Thoman da)

The following table was derived from the current and prior year government-wide Statement of Net Position.

(Amounts in Thousands)

Net Investment in Capital													
Assets		14,071,021		11,330,474		6,982,288		5,051,345		21,053,309		16,381,819	
Restricted		2,995,554		3,236,095		1,801,184		1,664,396		4,796,738		4,900,491	
Unrestricted		(8,359,538)		(3,977,303)		(4,213,139)		(1,734,088)		(12,572,677)		(5,711,391)	
Total Net Position	\$	8,707,037	\$	10,589,266	\$	4,570,333	\$ 4,981,653		\$	13,277,370	\$	15,570,919	

The State's net investment in capital assets of \$21,053.3 million for governmental and business-type activities combined represents an increase of \$4,671.5 million compared to the prior fiscal year. Net investment in capital assets is a noncurrent asset and therefore not available to meet related debt service requirements that must be paid from current revenues or available liquid assets.

Assets restricted by the State Constitution or external parties account for another \$4,796.7 million, or 36.1 percent of net position. Restricted assets decreased by \$103.8 million relative to the prior fiscal year. In general, these restrictions dictate how the related assets must be used by the State, and therefore, may not be available for use by any of the State's programs. Examples of restrictions on the use of net position include the constitutionally mandated TABOR reserve, State Education Fund, the Highway Users Tax Fund, and resources pledged to debt service.

The unrestricted component of total net position is a negative \$12,572.7 million for the fiscal year ended June 30, 2017, which represents a decrease of \$6,861.3 million from the prior fiscal year. The decrease is primarily due to the increase in the State's net pension liability of \$7,602.0 million from \$10,252.1 million in Fiscal Year 2016 to

\$17,854.1 million in Fiscal Year 2017, for which the state does not have any related assets. The State reports a negative or deficit amount for the unrestricted component only on a government-wide basis, not at the level of any fund. Other long-term liabilities, such as bonds and certificates of participation payable, have related capital assets while the net pension liability does not. The State's current liabilities reported on the Statement of Net Position decreased by \$19.5 million primarily due to final payment of Department of Transportation Bonds that matured in December of 2016, and noncurrent liabilities increased by \$7,878.4 million from the prior fiscal year primarily due to the increase in net pension liability referred to above.

### **Governmental Activities:**

Overall, assets and deferred outflows of resources of the State's governmental activities exceeded liabilities and deferred inflows of resources by \$8,707.0 million, a decrease in net position of \$1,882.2 million as compared to the prior fiscal year amount of \$10,589.3 million. Cash and restricted cash balances decreased by \$566.1 million. Taxes Receivable, net of refunds payable, increased by \$43.6 million, while investments and restricted investments increased by \$170.6 million. Capital assets, net of accumulated depreciation, increased by \$218.6 million due to various software projects throughout the State and the implementation of a new Medicaid Management Information system at the Department of Health Care Policy and Financing.

Governmental activities' liabilities for notes, bonds, and Certificates of Participation at June 30, 2017 were \$1,313.5 million as compared to the prior fiscal year amount of \$1,346.3 million. These liabilities represent 15.8 percent of financial assets (cash, receivables, and investments) and 6.2 percent of total assets of governmental activities (prior fiscal year percentages were 16.1 percent and 6.4 percent, respectively). The governmental activities debt is primarily related to infrastructure, State buildings, and public school buildings. The infrastructure debt is secured by future federal revenues and State highway revenues; State building debt by gaming distributions and judicial fees; and public school buildings debt by School Trust Land revenues.

Governmental activities had an increase of \$2,740.5 million in net investment in capital assets attributable primarily to transportation projects, public school construction, and purchases of vehicles and equipment. Restricted net position for governmental activities decreased by \$240.5 million.

### **Business-Type Activities:**

Overall, assets and deferred outflows of resources of the State's business-type activities were more than liabilities and deferred inflows of resources by \$4,570.3 million – a reduction in net position of \$411.3 million as compared to the prior year amount of \$4,981.7 million. The decrease was partly attributable to decreases in some current asset balances and an increase in the net pension liability for Fiscal Year 2017. Additionally, the aggregated business-type activities in the Other Enterprises Fund reported a \$105.8 million increase in net position attributable primarily to additional investments in capital assets.

The State's Enterprise Funds have notes, bonds, and Certificates of Participation outstanding that total \$4,785.0 million as compared to the prior fiscal year amount of \$4,747.2 million – an increase of \$37.7 million. The majority of the outstanding revenue bonds is related to Higher Education Institutions and is invested in capital assets that generate a future revenue stream to service the related debt. The Division of Unemployment Insurance also has bonds outstanding secured by future employer insurance premiums.

Total net position for business-type activities was \$4,570.3 million, of which \$6,982.3 million was for investment in capital assets, and \$1,801.2 million restricted for the purposes of various funds which resulted in an unrestricted deficit of \$4,213.1 million. The unrestricted deficit is a result of the increase in the net pension liability for Fiscal Year 2017. Business-type activities reported a \$1,930.9 million increase in net investment in capital assets primarily due to continued capital investments being made by institutions of higher education and the Other Enterprise Funds. Restricted net position for business-type activities reported an increase of \$136.8 million from the prior fiscal year.

The change in net position from the prior fiscal year is another important measure of the State's financial health. The following condensed statement of activities shows that for governmental activities, expenses and transfersout were greater than revenues and transfers-in which resulted in a decrease to net position of \$1,973.9 million. Program revenues for governmental activities decreased by \$544.2 million ( 4.7 percent). General revenues for governmental activities increased by \$337.0 million ( 2.9 percent) due to increased tax collections. Expenses for governmental activities increased by \$1,502.3 million ( 6.5 percent) from the prior fiscal year due to the increase in accrued pension expense.

The following table was derived from the current and prior year government-wide Statement of Activities.

		(Amounts in	Thousands)			
-	Governmental Activities		Business-Type Activities		Total Primary Government	
Programs/Functions Program Revenues:	2016-17	2015-16	2016-17	2015-16	2016-17	2015-16

Accounting Changes (Note 15B)	- -		(46,640)		(46,640)	- 17 770 010
Net Position - Ending	\$ 8,707,037	\$ 10,589,266	\$ 4,570,333	\$ 4,981,653	\$ 13,277,370	\$ 15,570,919

In the preceding table, business-type activities' revenues and net transfers-in were less than expenses by \$365.2 million, resulting in a decrease in net position. From the prior year to the current year, program revenue from business-type activities increased by \$488.5 million and expenses increased by \$1,332.8 million due to the increase in accrued pension expense.

Including all prior period and accounting change adjustments, the net position decreased \$2,293.5 million, or 14.7 percent, from the prior year. This is primarily attributable to the increase in total expenses of \$2,835.1 due to the increase in accrued pension expense of \$2,654.4 million from \$420.3 million in Fiscal Year 2016 to \$3,076.5 million in Fiscal Year 2017.

#### **FUND-LEVEL FINANCIAL ANALYSIS**

#### **Governmental Funds:**

Governmental fund assets exceeded liabilities resulting in total fund balance of \$6,363.5 million as compared to the prior fiscal year amount of \$6,609.4 million. The fund balance for all governmental funds decreased by \$245.9 million from the prior fiscal year which was comprised of decreases in the Resource Extraction Fund, the Highway Users Tax fund (HUTF), the Capital Projects Fund, and the State Education Fund, which were partially offset by increases in the General Fund and Other Governmental Funds. The fund balance of the General Fund increased by \$77.4 million compared to the prior fiscal year due primarily to increases in individual and sales and use tax collections. General Fund revenues increased by 0.1 percent and expenditures increased by 0.1 percent relative to the prior fiscal year, resulting in \$336.4 million excess of revenues over expenditures for Fiscal Year 2017. State law requires that the General Purpose Revenue Fund portion of the General Fund maintain a reserve of 6.5 percent of General Purpose Revenue Fund appropriations. House Bill 16-1419 temporarily reduced the reserve requirement from 6.5 percent to 5.6 percent for Fiscal Year 2016, which increased to 6.0 percent for Fiscal Year 2017. The General Purpose Revenue Fund had \$444.9 million on a GAAP basis to fund this reserve for Fiscal Year 2017. The fund balance of the Resource Extraction Fund decreased \$69.1 million due to declines in long-term loans receivables balances from the financing of local government water projects as compared to the prior year. The HUTF fund balance decreased by \$50.7 million due primarily to increases in capital outlay compared to the prior fiscal year. The Capital Projects Fund decreased by \$138.1 million due to a decrease in funding (transfer-in) from the General Purpose Revenue Fund. The State Education Fund decreased by \$202.3 million primarily due to a planned spend-down of fund balance to maintain funding levels for education. The fund balance of the State Education fund has decreased over the last four fiscal years following a one-time transfer of \$1.1 billion from the General Fund Surplus Fund in Fiscal Year 2013. The Other Governmental Funds increased by \$136.8 million, due primarily to revenue increases across all Special Revenue Funds combined with smaller relative increases in expenditures.

#### **General Fund**

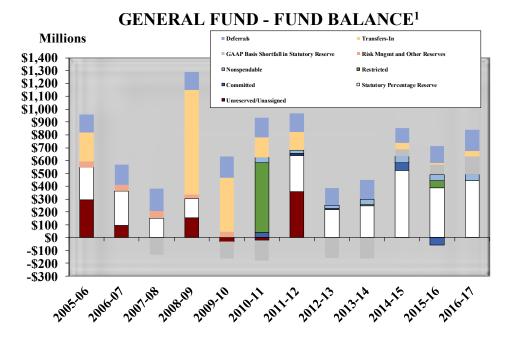

The ending total fund balance of the General Fund, as measured by generally accepted accounting principles (GAAP), was \$1,154.0 million.

With expenditures of the General Purpose Revenue Fund of the General Fund reported using generally accepted accounting principles, the Departments of Education, Health Care Policy and Financing, Higher Education, and Human Services accounted for approximately 80.2 percent of all Fiscal Year 2017 general-funded expenditures, which was consistent with the prior year. The Department of Education's expenditures increased by \$286.4 million, or 8.2 percent,

due to increased enrollment, required annual increases in funding, and provisions of the School Finance Act. The Department of Health Care Policy and Financing's expenditures increased by \$52.2 million, or 2.1 percent, due to eligibility and funding changes that are occurring with the national Medicaid modernization efforts and growth in Medicaid populations. The Department of Higher Education's expenditures increased by \$13.8 million, or 1.6 percent, related to the restoration of state funding to public institutions of higher education as well as student financial aid. The Department of Labor and Employment's expenditures increased by \$13.8 million, or 177.5 percent, primarily due to the transfer of the Division of Vocational Rehabilitation from the Department of Human Services to the Department of Labor and Employment. The Department of Revenue's expenditures decreased by \$69.7 million, or 25.4 percent; the Department of the Treasury's expenditures increased by \$12.6 million, or 9.0 percent; and the Department of Corrections' expenditures decreased by \$8.7 million, or 1.1 percent.

The chart below shows the changes in the major classifications of fund balance for the General Fund in accordance with generally accepted accounting principles (GAAP).

<sup>1</sup> Beginning in Fiscal Year 2011, the implementation of GASB Statement No. 54 modified the required fund balance classifications. As a result, Risk Management and other Special Purpose Funds became part of General Fund fund balance. The General Purpose Revenue portion of the General Fund primarily comprises the Statutory Reserve and Unassigned balances, and the Special Purpose Revenue portion of the General Fund the remaining balances.

#### **General Fund Components & Legal Reserve Requirement**

The General Fund is the focal point in determining the State's ability to maintain or improve its financial position. The General Fund includes all funds that do not have sufficient original source revenue streams to qualify as special revenue funds. As a result, the Public School Fund, Risk Management, and Other Special Purpose Funds reside in the General Fund. These funds are referred to as Special Purpose General Funds, while the General Purpose Revenue Fund comprises general activities of the State. Revenues of the General Purpose Revenue Fund consist of two broad categories – general-purpose revenues and augmenting revenues. General-purpose revenues are taxes, fines, and other similar sources that are collected without regard to how they will be spent. Augmenting revenues include federal funds, transfers-in, fees and charges, or specific user taxes. Augmenting revenues are usually limited as to how they can be spent. Even though significant federal grant revenues are accounted for in the General Purpose Revenue Fund, they have little impact on fund balance because most federal revenues are earned on a reimbursement basis and are closely matched with federal expenditures.

Of the overall fund balance of the General Fund, \$509.8 million (44.2 percent) was attributable to the General Purpose Revenue Fund, including non-spendable, restricted, committed, and assigned amounts. The General Purpose Revenue Fund increased by \$58.4 million from the prior fiscal year attributable to increases in tax collections during the year. In Fiscal Year 2017, the State was able to fund the General Fund Statutory Reserve of \$584.3 million on a budgetary basis, but was only able to reserve \$444.9 million on a GAAP basis. The shortfall of \$139.4 million in meeting the reserve on a GAAP basis was greater than the \$79.5 million shortfall in the prior year, despite the reserve requirement increasing by \$118.3 million. The General Purpose Revenue Fund's \$54.1 million year-end unrestricted cash and pooled cash balance decreased by \$70.5 million from the prior year.

General Purpose revenues for Fiscal Years 2017 and 2016 were \$17,990.6 million and \$17,973.0 million, respectively, an increase of \$17.6 million, or 0.1 percent. Individual and fiduciary income taxes increased by \$216.0 million or 3.6 percent over the prior fiscal year. Sales and use taxes also increased by \$191.7 million or 6.6 percent over the prior fiscal year generally due to improving economic conditions. Federal grants and contracts decreased by \$338.4 million or 4.3 percent. Net corporate income taxes also decreased \$139.0 million or 22.9 percent due to

weak earnings along with increase in corporate income tax refunds.

On the budgetary basis, total expenditures and transfers-out (excluding transfers not appropriated by department) funded from general-purpose revenues during Fiscal Years 2017 and 2016 were \$9,969.3 million (see page 185) and \$9,637.7 million, respectively. For Fiscal Year 2017, total general-funded appropriations were limited to 5.0 percent of personal income with certain adjustments. The primary adjustments are for changes in federal mandates, lawsuits against the State, and most transfers not appropriated by department. The limit is controlled through the legislative budget process.

The special purpose portion of the General Fund's fund balance totaled \$644.2 million at June 30, 2017. This comprises the State Public School Fund, Risk Management activities and Other Special Purpose Funds.

As required by Senate Bills 03-196 and 03-197, the State converted to cash basis accounting for certain expenditures in Fiscal Year 2003 and subsequent years. House Bill 09-1367 also deferred certain Office of Information Technology (OIT) expenditures into the subsequent year. These changes result in an ongoing difference between the GAAP fund balance and the budgetary basis fund balance of the General Fund. During Fiscal Year 2017, the State met the statutory required reserve on a budgetary basis but not a GAAP basis. The statutorily required process of deferring expenditures moved \$98.5 million of payroll, \$186.3 million of Medicaid, and \$0.6 million of OIT expenditures into Fiscal Year 2017. Revenues related to the deferral of the Medicaid expenditures totaling \$120.7 million were also deferred. In total, \$33.8 million more (net expenditure and revenue deferrals) was deferred into Fiscal Year 2017 compared to Fiscal Year 2016.

Statutes in effect for Fiscal Year 2017 require a 6.0 percent fund balance reserve of \$584.3 million. Statutory compliance was achieved on budgetary basis, but not on a GAAP basis by \$139.4 million. On a budgetary basis, there were deferrals of \$164.7 million of payroll, Medicaid, and other costs into Fiscal Year 2017. The deferrals and transfers-in have prevented shortfalls on a GAAP basis in each year except Fiscal Years 2006, 2007, 2009, and 2012, when adequate resources were available for a positive statutory reserve.

#### **Resource Extraction Fund**

The fund balance of the Resource Extraction Fund decreased by \$69.1 million, or 5.3 percent, from the prior fiscal year. Revenues of the fund, including severance taxes, mineral leasing, and fees associated with regulation of mining activities, decreased by \$5.9 million, or 2.9 percent. Expenditures include distributions to local governments, regulatory costs, and construction loans made to local governments and special districts to enhance the use of water resources of the State. A significant portion, \$350.8 million, of the fund's total fund balance of \$1,241.9 million, relates to long-term loans receivable from the financing of local government water projects by the Water Projects Fund. The balance of the loans receivable decreased by \$66.8 million, or 16.0 percent, compared to the prior fiscal year.

## Highway Users Tax Fund

The fund balance of the Highway Users Tax Fund (HUTF) decreased by \$50.7 million (4.9 percent) from the prior Fiscal Year. Revenues, expenditures, and transfers-out were consistent with the prior fiscal year. Capital outlay increased \$42.0 million (98.1 percent) from the prior fiscal year due to the completion of several multi-year projects during Fiscal Year 2017. The decrease in fund balance was primarily attributable to a decrease of \$121.0 million for transfers-in compared to the prior fiscal year. In response to the economic downturn experienced in 2007-08, Senate

Bill 09-278 eliminated General Purpose Revenue Fund Surplus diversions to the HUTF. The transfer from the General Fund to the HUTF resumed in Fiscal Year 2017, which is the majority of the total transfers-in to the fund. The HUTF's total fund balance of \$980.7 million is almost entirely restricted (93.6 percent) due to provisions of the State constitution that require spending only for highway construction and maintenance. This restriction totals \$917.8 million at June 30, 2017.

## **Capital Projects Fund**

The fund balance of the Capital Projects Fund decreased by \$138.1 million (35.8 percent) from the prior fiscal year primarily due to decreased funding from the General Purpose Revenue Fund. Transfers-in from the General Fund decreased from \$275.9 million in Fiscal Year 2016 to \$89.0 million in Fiscal Year 2017 (67.7 percent). Total expenditures of the fund were \$105.4 million in Fiscal Year 2017, an increase of \$13.5 million, or 14.7 percent as compared to the prior fiscal year. The increase in expenditures was primarily in capital outlay such as construction services and building and land purchases.

## **State Education Fund**

The fund balance of the State Education Fund declined by \$202.3 million (66.5 percent) during Fiscal Year 2017. The fund balance has declined each year since Fiscal Year 2013, which was the last year for a significant transfer-in from the General Fund, which was \$1,073.5 million. The fund balance decline is due to efforts to maintain funding levels for public education during a time of statewide budget constraints. The majority of revenues for the fund are derived from a fixed percentage of certain taxpayer tax liabilities, which totaled \$540.0 million and was an overall increase of \$17.4 million relative to the prior fiscal year; an increase in revenues from individual and fiduciary income taxes of \$21.4 million combined with a decrease in corporate income taxes of \$4.0 million. Additionally, \$25.3 million was transferred from the General Fund, which was consistent with the transfer made from the General Fund in the prior fiscal year. Expenditures of the fund are limited by a constitutional amendment to certain educational programs meeting growth requirements in other programs. Expenditures of the fund totaled \$718.4 million and \$886.1 million in Fiscal Year 2017 and 2016, respectively.

## **Proprietary Funds:**

## **Higher Education Institutions**

The net position of the Higher Education Institutions fund decreased from the prior fiscal year by \$679.4 million, or 22.5 percent, which includes the effect of a negative \$46.6 million prior period adjustment related to the implementation of GASB Statement No. 73 – Accounting and Financial Reporting for Pensions and Related Assets for the University of Colorado's Alternate Medicare Plan. The fund has a variety of revenue and funding sources, which, overall, were relatively consistent with the prior fiscal year. However, tuition and fees of the institutions increased by \$170.9 million due to enrollment and tuition increases, and sales of goods and services increased by \$165.7 million from the provision of student health services, room and board, bookstore and athletics revenues. In addition, federal grants and contacts increased by \$29.8 million and other operating revenues increased by \$46.7 million. Investment income increased by \$183.2 million from the prior fiscal year due to favorable interest rate returns. Overall, total operating revenues increased by 7.1 percent while total operating expenses increased by 21.9 percent. Higher Education Institutions received capital contributions of \$40.4 million and \$43.7 million in Fiscal Years 2017 and 2016, respectively. Transfers-in to the Higher Education Institutions fund totaled \$408.6 million for Fiscal Year 2017, a decrease of \$10.3 million compared to the prior fiscal year. Transfers-in are primarily from the General Fund for student financial aid and vocational training and from the Capital Projects Fund for capital construction.

## **Unemployment Insurance**

The net position of the Unemployment Insurance Fund (UI) increased by \$168.8 million (22.5 percent). Unemployment benefits paid declined by \$20.1 million compared with a decline of \$5.0 million during the prior fiscal year. The change in benefits paid is mirrored by a decrease of \$3.9 million in federal grants received.

Unemployment insurance premiums collected increased \$42.6 million relative to the prior fiscal year due to an increase in rates. However, Colorado statutes require management to adjust unemployment insurance premium tax rates when the fund's cash balance exceeds or is below established thresholds. Statutes were amended in the 2012 special legislative session to allow UI to issue bonds through the Colorado Housing and Finance Authority. UI bonds serve to stabilize insurance premium taxes that employers are required to pay through special assessments. The fund did not reports bonds payable liability as of June 30, 2017. The fund's cash and pooled cash balance was \$808.1 million, an increase of \$50.7 million, or 6.7 percent, compared to the prior fiscal year.

## **State Lottery**

The net position of the State Lottery fund decreased by \$6.6 million, a decline of 31.9 percent from the prior fiscal year. Because of the requirement to distribute most of its income, the Lottery's net position is minimal and changes nominally from year to year, except the portion related to pension liabilities. The State Lottery generated operating income of \$127.3 million for Fiscal Year 2017, which decreased from \$142.6 million reported in Fiscal Year 2016. The overall change represents a 10.7 percent decline in operating income. Sales of goods and services were \$555.3 million in Fiscal Year 2017, a decrease of \$39.1 million from the prior fiscal year amount of \$594.4 million. The Colorado Lottery's overall sales performance for Fiscal Year 2017 was the third highest sales year in the Lottery's thirty-five year history, with Fiscal Year 2016 total sales of \$594.4 million as all-time highest and Fiscal Year 2013 sales of \$566.3 million as the second highest. The drop in sales in Fiscal Year 2017 was mainly due to a decrease both in Powerball sales of \$42.1 million and in scratch sales of \$14.9 million. However, the introduction of the new jackpot and add-on games plus the addition of a midday draw for the Pick 3 jackpot game during Fiscal Year 2017 resulted in an increase of \$19.1 million in sales over the previous fiscal year, offsetting some of the decline.

## **TABOR Revenue, Debt, and Tax-Increase Limits**

Fiscal Year 2017 is the twenty-fourth year of State operations under Article X, Section 20 of the State Constitution revenue limitations, also known as the Taxpayer Bill of Rights (TABOR). With certain exceptions, the rate of growth of State revenues is limited to the combination of the percentage change in the State's population and inflation based on the Denver-Boulder-Greeley CPI-Urban index. The exceptions include revenues from federal funds, gifts, property sales, refunds, damage recoveries, transfers, voter-approved revenue changes, and qualified enterprise fund revenues.

Revenues collected in excess of the limitation must be returned to the citizens unless a vote at the annual election in November allows the State to retain the surplus. In November 2005, voters approved a measure, commonly known as Referendum C, which was referred to the ballot by the legislature. Referendum C authorized the State to retain all revenues in excess of the TABOR limit for the five-year period from Fiscal Year 2006 through Fiscal Year 2010. Referendum C had additional provisions and effects that are discussed below.

TABOR also limits the General Assembly's ability to raise taxes, to borrow money, and to increase spending limits. With the exception of a declared emergency, taxes can only be raised by a vote of the people at the annual election. Multiple year borrowings can only be undertaken after approval by a similar vote.

The TABOR limits are calculated and applied at the statewide level. However, refunds to taxpayers related to TABOR have historically been paid from the General Fund. Therefore, the TABOR revenue, expenditure, debt, and tax-increase limitations have historically been significant factors in the changing fiscal status of the State's General Fund. The original decision to pay TABOR refunds out of the General Fund continues to be important under Referendum C because revenues in excess of the TABOR limit that are recorded by cash funds remain in those funds (barring Legislative action) but are required to be budgeted and expended from the General Fund Exempt Account created in the General Fund by Referendum C.

In years when Referendum C was not in effect, the State's ability to retain revenues was also affected by a requirement in TABOR commonly referred to as the ratchet down effect. The ratchet down occurs because each year's revenue retention limit is calculated based on the lesser of the prior year's revenues or the prior year's limit. When revenues are below the limit, it results in a permanent loss of the State's ability to retain current and

future revenues collected. Referendum C effectively suspended the ratchet down effect during the five-year refund hiatus by authorizing the State to retain and spend any amount in excess of the TABOR limit.

In the first three years of operations under TABOR, the State did not exceed the revenue limitation. In Fiscal Years 1997 through 2001, State revenues exceeded the TABOR limitation by \$139.0 million, \$563.2 million, \$679.6 million, \$941.1 million, and \$927.2 million, respectively. The economic downturn in Fiscal Years 2002 and 2003 and adjustments for inaccurate population estimates applied in Fiscal Year 2004 precluded TABOR refunds in those years. The State was required to refund \$41.1 million in Fiscal Year 2005.

After the Referendum C five-year excess revenue retention period that encompassed Fiscal Year 2006 through Fiscal Year 2010, the State is subject to an Excess State Revenue Cap (ESRC) starting in Fiscal Year 2011. Calculation of the TABOR retention limit continues to apply, but the ESRC replaces it as the limit that triggers taxpayer refunds.

The basis for the ESRC is the highest adjusted TABOR revenue during the five-year excess revenue retention period; the highest adjusted TABOR revenue occurred in Fiscal Year 2008, and the ratchet down provision does not apply to the ESRC.

For Fiscal Year 2017, State revenues subject to TABOR were \$12,891.7 million, which was \$436.2 million under the ESRC, and \$2,130.0 million over the retention limit. Absent Referendum C, the State would have been required to refund the amount exceeding the retention limit. At the end of Fiscal Year 2017, total refunds were \$3,450.6 million since the inception of TABOR. At June 30, 2017, the State reported total TABOR refunds payable of \$21.8 million.

During Fiscal Year 2017, Fort Lewis College re-qualified as a TABOR-exempt enterprise, which resulted in a TABOR revenue decrease of \$19.4 million related to this change in the TABOR district. As required by TABOR, the State Controller makes the qualification of new enterprises and disqualification of existing TABOR enterprises neutral in the excess revenue calculation.

## **Referendum C**

Referendum C, approved by the voters in the November 2005 election, contained the following provisions:

- The State shall be authorized to retain and spend all revenues in excess of the limit on spending after July 1, 2005, and before July 1, 2010 (five fiscal years). The authorization constitutes a voter approved revenue change.
- After July 1, 2010, the limit on fiscal year spending is effectively raised to the highest population and inflation adjusted nonexempt revenue amount in the period from July 1, 2005, and before July 1, 2010. This provision disables the ratchet down provision during the five-year period.
- A General Fund Exempt Account is created within the General Fund to consist of the retained revenues for each Fiscal Year. The Legislature shall appropriate the moneys in the account for health care, education (including related capital projects), firefighter and police pension funding, and strategic transportation projects. Spending from the General Fund Exempt Account is limited to five percent of personal income, with certain adjustments.
- The Director of Research of the Legislative Council shall report the amount of revenues retained with a description of how the retained revenues were expended.
- The State retained \$3,593.6 million during the five-year refund time-out period (Fiscal Years 2006 through 2010) authorized by Referendum C, and \$13,309.8 million from Fiscal Years 2011 through 2017 due to the increasing ESRC as compared to TABOR limit, for a total of \$16,903.4 million of retained Referendum C revenue.

Additional information on Tax, Spending, and Debt Limitations is found in Note 2B.

#### ANALYSIS OF BUDGET VARIANCES

The following analysis is based on the General Fund Surplus Schedule included in Required Supplementary Information on page 185. That schedule isolates general-purpose revenues and expenditures funded from those revenues, and it is therefore the best source for identifying general-funded budget variances.

## Differences Between Original and Final Budgets

The following list shows departments that had net changes in general-funded budgets greater than \$5.0 million and the reasons for the change.

- Department of Corrections The department had a net decrease of \$8.2 million (1.1 percent) primarily comprised of a \$4.9 million decrease for community programs and external capacity sustainability.
- Department of Health Care Policy and Financing The department had a net decrease of \$27.3 million (1.0 percent) primarily comprised of a \$12.1 million decrease for Medicaid funding and a \$13.2 million decrease for behavioral health payments.
- Colorado Judicial Branch The department had a net increase of \$5.1 million (1.0 percent) primarily comprised of a \$25.3 million increase for appellate and trial court programs and a \$22.7 million decrease for personal services including health, life and dental costs.
- Department of Revenue The department had a net increase of \$17.0 million (8.8 percent) primarily comprised of an increase of \$100.4 million for old age pension and a decrease of \$83.6 million for nonappropriated transfers to the marijuana tax cash fund.
- Department of Treasury The department had a net decrease of \$6.7 million (4.2 percent) comprising a \$6.7 million decrease for senior citizen and disabled veteran property tax exemption.

## Differences Between Final Budget and Actual Expenditures

Overexpenditures for all funds totaled \$32.1 million for Fiscal Year 2017 including deficit fund balances. General-funded overexpenditures are discussed in detail in Note 2A on page 86 at the individual line item appropriation level.

In total, State departments reported general-funded appropriations reversions of \$114.8 million and \$9.5 million to the State Employee Reserve Fund. In addition, departments reverted \$37.7 million of revenue earned in excess of the amount that was needed to support specific cash-funded appropriations in the General Fund. The final budget is presented without reduction for restrictions in order to show the total reversion of appropriated budget. The following list shows those departments that had reversions of at least \$1.0 million of general fund reversions.

- Department of Corrections The department reverted \$1.9 million (0.2 percent) primarily comprised of \$0.5 million for vehicle lease payments and \$0.5 million for the purchase of medical services.
- Department of Health Care Policy and Financing The department reverted \$93.3 million (3.6 percent) primarily comprised of \$73.4 million for medical and long-term care services for Medicaid eligible individuals and \$11.1 million for behavioral health payments.
- Department of Human Services The department reverted \$5.3 million (0.6 percent) primarily comprised of \$1.4 million for home care allowance and home care allowance grants and \$0.8 million for services to indigent mentally ill clients.

- Colorado Judicial Branch The department reverted \$3.6 million (0.7 percent) primarily comprised of
- \$1.9 million for court costs, jury costs, and court appointed counsel.
- Department of Revenue The department reverted \$5.3 million (2.5 percent) primarily comprised of \$4.1 million for old age heat, fuel and property tax assistance grants.
- Department of Treasury The department reverted \$2.2 million (1.4 percent) for reimbursement to county treasurers.

## CAPITAL ASSETS AND LONG-TERM DEBT ACTIVITY

The State's net investment in capital assets at June 30, 2017, was \$21.1 billion (\$16.4 billion in Fiscal Year 2016). Included in this amount were \$17.5 billion of depreciable capital assets after reduction for \$11.6 billion of accumulated depreciation. Also included was \$4.0 billion of land, construction in progress, and non-depreciable infrastructure and other assets. The State added \$940.6 million and \$849.1 million of capital assets in Fiscal Year 2017 and 2016, respectively. Of the Fiscal Year 2017 additions, \$218.6 million was recorded by governmental funds and \$722.0 million was recorded by business-type activities. General-purpose revenues funded \$84.5 million of capital and controlled maintenance expenditures during Fiscal Year 2017 and the balance of capital asset additions was funded by federal funds, cash funds, or borrowing. The table below provides information on the State's capital assets by asset type for both governmental and business-type activities.

The State's capital assets at June 30, 2017 and 2016, were (see Note 5 for additional detail):

	(Amounts in	n Millions)				
	Govern Activ		Busines Activ	51	Total Primary Government	
	2016-17	2015-16	2016-17	2015-16	2016-17	2015-16

Total	\$ 12,080	\$ 11,861	\$ 9,424	\$ 8,703	\$ 21,504	\$ 20,564

The State is constitutionally prohibited from issuing general obligation debt except to fund buildings for State use, to defend the State or the U.S. in time of war, or to provide for unforeseen revenue shortfalls. Except for exempt enterprises, TABOR requires a vote of the people for the creation of any debt unless existing cash reserves are irrevocably pledged to service the debt. TABOR does allow debt issuance to refinance a borrowing at a lower interest rate. These requirements limit management's ability to address revenue shortfalls by borrowing for capital expenditures. However, the State has issued Certificates of Participation (COPs) secured by buildings and vehicles and has issued revenue bonds that are secured by pledges of future revenues. In some instances the debt-financed asset generates the pledged revenue stream; in other instances, such as the Transportation Revenue Anticipation Notes (TRANs), the pledged revenue stream is future federal revenues and State highway users taxes. Through the Colorado Housing and Finance Authority, the Division of Unemployment Insurance, a TABOR designated enterprise, issued bonds to spread the impact of the increased premiums resulting from the recession. The bonds will be repaid through employer insurance premiums collected over the life of the bonds.

The State has other forms of borrowing that are small in relation to the revenue bonds and COPs. The schedule that follows shows the principal and interest that will be paid over the following thirty-five year period to retire the current borrowing for capital leases, bonds and COPs (see Note 11). Revenue bonds in this schedule include net payments on interest rate swap derivatives.

	Fiscal Year 2016-17

\$

For Fiscal Year 2017, the total principal amount of capital leases, revenue bonds, and COPs was 39.1 percent of noncapital assets, as compared to 39.6 percent in the prior year. This percentage declined because noncapital assets increased 1.1 percent while the principal amount of capital leases, revenue bonds, and COPs did not change significantly. The decrease in governmental activities was related to principal payments on the Department of Transportation's Transportation Revenue Anticipation Notes (\$128.2 million) and the fact that there were no significant new issuances of COPs. Business-type activities increased primarily due to additional financing of capital projects by Higher Education Institutions. Total per capita borrowing including bonds, Certificates of Participation, mortgages, notes, and capital leases was \$1,138, \$1,159 (restated), \$1,203 (restated), \$1,200 and \$1,159 per person in Fiscal Years 2017, 2016, 2015, 2014 and 2013, respectively.

## CONDITIONS EXPECTED TO AFFECT FUTURE OPERATIONS

Many of the conditions affecting future operations of the State remain unchanged from the prior fiscal year. These conditions are as follows:

- Newly Created TABOR-Exempt Enterprise The Colorado Healthcare Affordability and Sustainability • Enterprise (CHASE) was created within the Department of Health Care Policy and Financing. CHASE is responsible for the collection of the new Healthcare Affordability and Sustainability Fee, which replaces the Hospital Provider Fee. Because CHASE is an enterprise for purposes of the Taxpayer's Bill of Rights (TABOR), its revenue does not count against the state Fiscal year spending limit (Referendum C cap) beginning in Fiscal Year 2018.
- Public Employees Retirement Association Reforms In Fiscal Year 2017, the PERA Board took a more • conservative approach to future market conditions by lowering the long-term rate of return expectation from 7.5 percent to 7.25 percent. In addition, based on an experience study conducted that showed PERA members are living longer and thus receiving benefits for a longer period, the Board adopted different mortality tables for each division. Further, based on GASB pension standards that require future benefit obligations to be measured at a lower discount rate when certain conditions exist, a change in the blended discount rate from 5.73 to 5.18 was applied. This change in the blended discount rate along with the changes in actuarial assumptions contributed to a significant increase in the net pension liability from \$10,252.1 million in Fiscal Year 2016 to \$17,779.4 million in Fiscal Year 2017. The funded ratio of the PERA State Division Trust Fund has gradually decreased from 73.3 percent in Fiscal Year 2007 to 42.6 percent in Fiscal Year 2017. Since Fiscal Year 2014, the PERA Judicial Division Trust Fund funded ratio

has also gradually decreased from 71.3 percent to 53.2 percent. In response to the continued decreases of funding ratios, both the Governor and the PERA board have put forth reform plans, and we expect other reform plan proposals. The PERA Board endorsed a comprehensive package of reforms designed to reduce the overall risk profile of the plan and to improve PERA's funded status. These changes include modifying of benefits of current retirees, members, and future members; increasing of employer and employee contributions into the fund; and ensuring the equitable alignment of contributions and service credit with the benefits paid out. Contributions would be made on gross pay rather than net pay, and the definition of full-time service accrual would be modified so that future PERA members earn service credit for part-time work based on the percentage of full-time employment actually worked. Any changes to PERA funding must be proposed and passed through the legislature and signed by the governor, and the issue will be thoroughly debated in future legislative sessions.

- <u>Changes in Other Post-Employment Benefits (OPEB) Reporting</u> GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, will be effective beginning in Fiscal Year 2018. The standard will require, for purposes of governmental financial reporting, the State to recognize a liability for its proportionate share of the net OPEB liability (of all employers for benefits provided through the OPEB plan) — the collective net OPEB liability. The State will also be required to recognize OPEB expense and report deferred outflows of resources and deferred inflows of resources related to OPEB for its proportionate shares of collective OPEB expense and collective deferred outflows of resources and deferred inflows of resources related to OPEB. In addition, the standard will require additional footnote disclosures about the pension trust fund in the financial statements.
- <u>Election 2000 Amendment 23</u> This constitutional requirement was originally designed to exempt a portion of State revenues from TABOR and dedicate those revenues to education programs. With the passage of Referendum C, revenues in excess of the TABOR limit are not being refunded. However, resources that were once general-purpose revenues continue to be diverted to the State Education Fund. The amendment requires the General Assembly to increase funding of education by one percent over inflation through Fiscal Year 2011 and by inflation thereafter. This requirement will have an increasing impact if the inflation rate increases. The revenue diversion and mandated expenditure growth infringes on general funding for other programs when State revenues decline with the business cycle. Notwithstanding these expenditure increases, the State continues to face legal challenges that assert the current school funding system fails to provide a thorough and uniform system of free public education as required by the Colorado Constitution.
- Cash Basis Accounting For Fiscal Year 2003 and following years, the Legislature changed the budgetary accounting for June payroll and certain Medicaid expenditures to the cash basis and deferred June paydates until July (after Fiscal Year-end). During Fiscal Year 2008, similar treatment was extended to certain Old Age Pension, Medicare, and Children's Basic Health Plan expenditures. In Fiscal Year 2009, this treatment was applied to an additional month of Medicare payments, and legislation was passed to extend the paydate shift beginning in Fiscal Year 2011 to all information technology staff formerly paid by the General Purpose Revenue Fund. Each of these items causes the outflow of resources to be deferred into the following year for General Fund budget purposes. As a result, the State does not use full or modified accrual accounting to calculate budgetary compliance. Instead, potentially significant liabilities (\$120.7 million net of related deferred revenue in Fiscal Year 2017) are delayed until the following year assuming that subsequent revenues will be adequate to pay those liabilities. In Fiscal Year 2012, legislation was passed to eliminate the deferral of June pay dates until July for employees paid on a biweekly basis beginning in Fiscal Year 2013. Departures from generally accepted accounting principles (GAAP) such as this could adversely affect the State's credit rating. It will be difficult for the State to return to the GAAP basis of accounting for budgetary expenditures because of the significant one-time budgetary impact of recording payroll, Medicaid, and other expenditures that were previously deferred.
- <u>General Fund Liquidity</u> The General Purpose Revenue Fund shows a cash balance of \$54.1 million at June 30, 2017, providing apparent liquidity. The General Purpose Revenue Fund taxes receivable increased by \$73.9 million to \$1,509.5 million, tax refunds payable increased by \$44.9 million to \$837.8

million, and deferred inflows related to the tax receivables that are not expected to be collected within the next year increased by \$5.7 million to \$224.0 million. The tax receivable and related refunds are based on the best economic data available at year-end; however, economic projections rarely identify inflection points in the economy. If the State's economy experiences another downturn, tax receivables will likely decline (due to declining personal income) and tax refunds will likely increase (due to higher than required estimated tax and withholding payments) putting additional pressure on the fund balance of the General Purpose Revenue Fund. The General Fund legally has access to short-term borrowing from the cash balances of other funds. However, those transfers become increasingly difficult as accessible cash fund balances are depleted from transfers in prior years.

• <u>Debt Service</u> – In Fiscal Year 2011, the Bridge Enterprise within the Department of Transportation issued \$300.0 million of enterprise fund revenue bonds to be paid from fees. Debt service over the next five years averages \$18.2 million for interest. Principal payments will start in Fiscal Year 2024-2025. Also, in previous years, the State entered into lease purchase agreements for all or a portion of various construction projects including the Ralph L. Carr Justice Center, the Colorado History Center, a prison, a hospital building, a number of school buildings in local school districts, and the office consolidation at the Department of Agriculture. The average debt service over the next five years is \$99.9 million for these lease purchase agreements. The majority of the revenue streams to cover the debt service payments comprise cash sources, as there is no general obligation associated with these lease purchases and the investors' sole recourse is the leased asset. However, if the revenue streams intended to fund this debt service do not materialize, the State will need to find other ways to pay for the service-potential represented by these capital assets.

# Differences Between the *Balance Sheet – Governmental Funds* and Governmental Activities on the Government-Wide *Statement of Net Position*

- (A) Management uses Internal Services Funds to report the charges for and the costs of goods and services sold by state agencies solely within the state. Because the sales are primarily to governmental funds, the assets and liabilities of the Internal Service Funds are included in the governmental activities on the government-wide *Statement of Net Position*. Internal Service Funds are reported using proprietary fund-type accounting in the fund-level financial statements. In addition to minor training services provided by the Department of Personnel & Administration, and internal sales within the Department of Transportation and the Department of Public Safety, the State's Internal Service Funds provide the following goods and services to nearly all state agencies:
  - Fleet management,
  - Printing and mail services,
  - Information technology and telecommunication services,
  - Building maintenance and management in the capitol complex,
  - Administrative court services,
  - Legal services, and
  - Others including debt collection.
- (B) Capital assets used in governmental activities are not current financial resources, and therefore, they are not included in the fund-level financial statements. However, capital assets are economic resources and are reported in the government-wide *Statement of Net Position*.
- (C) Long-term liabilities such as leases, bonds, notes, mortgages, and Certificates of Participation (including accrued interest) are not due and payable in the current period, and therefore, they are not included in the fund-level financial statements. However, from an economic perspective these liabilities reduce net position and are reported in the *Statement of Net Position*. The portion reported as current in the reconciliation is payable within the following fiscal year. Deferred outflows related to debt refunding losses require a similar adjustment. The largest single portion of the long-term balance is related to Transportation Revenue Anticipation Notes issued by the Department of Transportation.
- (D) Risk management liabilities are actuarially determined claims and consist of a current and long-term portion. Generally accepted accounting principles (GAAP) list claims and judgments as an exception to the full accrual basis of accounting that constitutes the modified accrual basis of accounting. The current portion (payable within one year) is excluded from the fund-level statements because it is not payable with expendable available financial resources. In this instance, "payable with expendable available financial resources" means the amounts are not accrued as fund liabilities because they are not budgeted in the current year. The long-term portion of the risk management liability is excluded from the fund-level statements because it is not due and payable in the current period.
- (E) Other measurement focus adjustments include:
  - Interfund balances receivable from or payable to fiduciary funds are reported on the fund-level *Balance Sheet Governmental Funds* as due from/to other funds. On the government-wide *Statement of Net Position*, these amounts are considered external receivables and payables.
  - Long-term assets and long-term taxes receivable are not available to pay for current period expenditures; therefore, the related revenue is reported as a deferred inflow of resources on the fund-level *Balance Sheet Governmental Funds*. From an economic perspective, this revenue is earned and the related deferred inflow of resources is removed from the government-wide *Statement of Net Position* when the revenue is recognized on the government-wide *Statement of Activities*.
  - Compensated absences are a GAAP modification of the full accrual basis of accounting similar to claims and judgments discussed above. Therefore, both the current and long-term portions of the liability are shown on the government-wide *Statement of Net Position*, but they are not reported on the fund-level *Balance Sheet Governmental Funds*.
  - Claims and Judgments Payable and other long-term liabilities including pension liabilities are not reported on the fund-level *Balance Sheet Governmental Funds* because the amounts are not due and payable from current financial resources. However, from an economic perspective, these liabilities reduce net position, and they are therefore reported on the government-wide *Statement of Net Position*.
- (F) All interfund payable balances shown on the fund-level Balance Sheet Governmental Funds are reported in the internal balances line on the government-wide Statement of Net Position along with all governmental-activities interfund receivables.

# Differences Between the *Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds* and Governmental Activities on the Government-Wide *Statement of Activities*

- (A) Management uses Internal Services Funds to report charges for and the costs of goods and services sold by state agencies solely within the state. Internal Service Funds are intended to operate on the cost reimbursement basis and should break even each period. If an Internal Service Fund makes a profit, the other funds of the State have been overcharged. If an Internal Service Fund has an operating loss, the other funds of the State have been undercharged. In order to show the true cost of services purchased from Internal Service Funds, an adjustment is made that allocates the net revenue/expense of each Internal Service Fund to the programs that purchased the service. Investment income, debt service, and transfers of the Internal Service Fund are not allocated. In addition to minor training services provided by the Department of Personnel & Administration, and internal sales within the Department of Transportation and the Department of Public Safety, the State's Internal Service Funds provide the following goods and services to nearly all state agencies:
  - Fleet management,
  - Printing and mail services,
  - Information technology services and telecommunication services,
  - Building maintenance and management in the capitol complex,
  - Administrative court services,
  - Legal services, and
  - Others including debt collection.
- (B) The following adjustments relate to capital assets:
  - Capital assets, received as donations, are not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds* because they are not current financial resources. However, such donations increase net position and are reported on both the government-wide *Statement of Net Position* and *Statement of Activities*.
  - Depreciation is not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds*, but it is reported for the economic perspective on which the government-wide *Statement of Activities* is presented.
  - Expenditures reported for capital outlay on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds* are generally reported as a conversion of cash to a capital asset on the government-wide *Statement of Net Position*. They are not reported as expenses on the government-wide *Statement of Activities*.
  - On the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds* all cash received on disposal of capital assets is reported as a gain on sale of capital assets. On the government-wide *Statement of Activities* the reported gain or loss on sale is based on the carrying value of the asset as well as the cash received.
- (C) The following adjustments relate to debt issuance and debt service including leases:
  - Payments on principal and debt refunding payments are reported as expenditures and other financing uses, respectively, on the
    fund-level Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds. These payments are
    reported as reductions of lease, bond, and other debt liability balances on the government-wide Statement of Net Position and
    are not reported on the government-wide Statement of Activities.
  - Amortization of debt premium/discount and gain/loss on refunding are not reported on the fund-level *Statement of Revenues*, *Expenditures, and Changes in Fund Balances Governmental Funds*, but are reported on the government-wide *Statement of Activities*.
  - Lease proceeds, issuance of debt, and debt refunding proceeds are all reported as other financing sources on the fund-level Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds. From an economic perspective lease proceeds, debt issuances, and debt refunding proceeds are reported as liabilities on the government-wide Statement of Net Position and are not reported on the government-wide Statement of Activities.
- (D) Other measurement focus adjustments include:
  - Long-term taxes receivable and certain other long-term assets are offset by deferred inflows or unearned revenue and are not part of fund balance on the fund-level *Balance Sheet Governmental Funds*; however, from a full accrual perspective, changes in the fund-level unearned revenue balances result in adjustments to revenue that are recognized and reported on the government-wide *Statement of Activities*.
  - Compensated absences accruals, pension liabilities, and claims and judgments are not normally expected to be liquidated from expendable available financial resources; and therefore, they are not reported on the fund-level *Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds.* However, from a full accrual perspective, these are expenses that are reported on the government-wide *Statement of Activities.*

The notes to the financial statements are an integral part of this schedule.

## NOTES TO THE FINANCIAL STATEMENTS

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of Colorado have been prepared in conformance with generally accepted accounting principles (GAAP) for governments as prescribed by the Governmental Accounting Standards Board (GASB), which is the primary standard setting body for establishing governmental accounting and financial reporting principles.

The preparation of financial statements in conformance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows, the disclosed amount of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## A. NEW ACCOUNTING STANDARDS

During Fiscal Years 2016 and 2017, the State implemented GASB Statement No. 73 – <u>Accounting and Financial Reporting</u> for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain <u>Provisions of GASB Statements 67 and 68</u>. While the State as the primary government implemented GASB Statement No. 73 during Fiscal Year 2016, certain provisions of the Statement apply to the University of Colorado's Alternate Medicare Plan (AMP) during Fiscal Year 2017. In addition, since the Colorado Water Resources and Power Development Authority's (CWRPDA) year-end is December 31, 2016, certain provisions of GASB Statement No. 73 related to CWRPDA were implemented during Fiscal Year 2017.

GASB Statement No. 74 – Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. The new standard replaces Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement No. 43, and Statement No. 50, Pension Disclosures—an amendment of GASB Statements No. 25 and No. 27. Colorado State University System has the following four OPEB plans held in trust that fall under the scope of GASB Statement No. 74: (1) Retiree Medical Premium Refund Plan (RMPR), (2) Retiree Medical Premium Subsidy for PERA Participants Plan (RMPS), (3) Umbrella RX Plan (URX), and (4) Long-Term Disability Insurance Plan (LTD).

GASB Statement No. 77 – <u>Tax Abatement Disclosures</u>. This Statement establishes financial reporting standards for tax abatement agreements entered into by state and local governments. The disclosures required by GASB Statement No. 77 encompass tax abatements resulting from both (a) agreements that are entered into by the reporting government and (b) agreements that are entered into by other governments and that reduce the reporting government's tax revenues.

GASB Statement No. 82 – <u>Pension Issues</u>—an amendment of GASB Statements No. 67, No. 68, and No. 73. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statement No. 67, <u>Financial Reporting for Pension Plans</u>—an amendment of GASB Statement No. 25, GASB Statement No. 68, <u>Accounting and Financial Reporting for Pensions</u>—an amendment of GASB Statement No. 27, and GASB Statement No. 73, <u>Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, GASB Statement No. 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.</u>

## **B. GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide statements report all nonfiduciary activities of the primary government and its component units. Fiduciary activities of the primary government and its component units are excluded from the government-wide statements because those resources are not available to fund the programs of the government. The government-wide statements include the *Statement of Net Position* and the *Statement of Activities*; these statements show the financial position and changes in financial position from the prior year. (See additional discussion in Basis of Presentation below)

## C. REPORTING ENTITY

For financial reporting purposes, the State of Colorado's primary government includes all funds of the State, its three branches of government, departments, agencies, and state-funded institutions of higher education that make up the State's legal entity. The State's reporting entity also includes those component units that are legally separate entities, for which the State's elected officials are financially accountable.

Financial accountability is defined in GASB Statement No. 14 – <u>The Financial Reporting Entity</u>, as amended by GASB Statement No. 61, <u>The Financial Reporting Entity</u>: <u>Omnibus</u>—an amendment of GASB Statements No. 14 and No. 34</u>. The State is financially accountable for those entities for which the State appoints a voting majority of the governing board and either is able to impose its will upon the entity or there exists a financial benefit or burden relationship with the State.

For those entities that the State does not appoint a voting majority of the governing board, GASB Statement No. 14 includes them in the reporting entity if they are fiscally dependent and there exists a financial benefit or burden relationship with the State. Entities that do not meet the specific criteria for inclusion may still be included if it would be misleading to exclude them. Under GASB Statement No. 39, <u>Determining Whether Certain Organizations Are Component Units—an amendment of GASB Statement No. 14</u>, individually significant legally separate tax-exempt organizations are included as component units if their resources are for the direct benefit of the State and the State can access those resources.

### **Discretely Presented Component Units:**

The following entities qualify as major discretely presented component units:

- Colorado Water Resources and Power Development Authority
- University of Colorado Foundation
- Colorado State University Foundation
- Colorado School of Mines Foundation
- University of Northern Colorado Foundation

### **Other Component Units (Nonmajor):**

The following entities qualify as nonmajor discretely presented component units:

- Denver Metropolitan Major League Baseball Stadium District
- Colorado Venture Capital Authority
- HLC @ Metro, Inc.

The following table contains the primary factors for the inclusion of the non-foundation component units in the State's reporting entity:

Component Unit (Non Foundation)	Board Appointment	Ability to Impose Will	Financial Benefit/Burden Relationship
Colorado Water Resources and Power Development Authority	Appointment by the Governor, with consent of the Senate.	Water projects are subject to General Assembly authorization.	The Authority can enter into agreements in name of the State, while the State is required to develop project use plans for the Authority at no cost. The State may also appropriate funds in order for the Authority to meet its debt service requirements.
Denver Metropolitan Major League Stadium District	Appointment by the Governor, with consent of the Senate.	Board members serve at the pleasure of the Governor.	None.
Colorado Venture Capital Authority	Appointment by the Governor or legislature.	Bond issuance is contingent on legislative approval.	The Authority was capitalized based on general-purpose revenue tax credits.
HLC @ Metro, Inc.	Appointment by the State through the Metropolitan State University of Denver Board of Trustees.	The Board of Trustees of the Metropolitan State University of Denver controls and supervises the board of HLC @ Metro, Inc.	Metro State University of Denver has guaranteed the debt of HLC @ Metro, Inc.

The four foundations meet the GASB Statement No. 39 criteria discussed above and are included because they are deemed by management to be individually significant.

Detailed financial information may be obtained directly from these organizations at the following addresses:

Colorado Water Resources and Power Development Authority 1580 Logan Street, Suite 620 Denver, Colorado 80203

University of Colorado Foundation 1800 Grant Street, Suite 725 Denver, Colorado 80203

Colorado State University Foundation 410 University Services Center Fort Collins, Colorado 80523-9100

Colorado School of Mines Foundation P. O. Box 4005 Golden, Colorado 80402-4005

University of Northern Colorado Foundation 1620 Reservoir Road Greeley, Colorado 80631

Denver Metropolitan Major League Baseball Stadium District 2195 Blake Street, Suite 300 Denver, Colorado 80205

Colorado Venture Capital Authority 1625 Broadway, Suite 2700 Denver, Colorado 80202

HLC @ Metro, Inc. 1512 Larimer St., Suite 800 Denver, Colorado 80202

The University of Colorado Real Estate Foundation (CUREF) ceased operations during Fiscal Year 2017. In accordance with GASB Statement No. 69, <u>Government Combinations and Disposals of Government Operations</u>, the result of the transfer of operations in shown as a special item on the *Statement of Revenues, Expenses, and Changes in Net Position – Proprietary Funds*.

The following related organizations, for which the State appoints a voting majority of their governing boards, are not part of the reporting entity based on the criteria of GASB Statement No. 14, as amended by GASB Statements No. 39 and 61:

- Pinnacol Assurance
- Colorado Educational and Cultural Facilities Authority
- Colorado Health Facilities Authority
- Colorado Agricultural Development Authority
- Colorado Housing and Finance Authority
- Colorado Sheep and Wool Authority
- Colorado Beef Council Authority
- Fire and Police Pension Association
- The State Board of the Great Outdoors Colorado Trust Fund
- Colorado Health Benefit Exchange

Even though the appointment of governing boards of these authorities is similar to those included in the reporting entity, the State cannot impose its will upon these entities or it does not have a financial benefit or burden relationship with them. Detailed financial information may be obtained directly from these organizations.

Various college and university foundations exist for the benefit of the related State institutions of higher education, but they do not meet all of the GASB Statement No. 39 requirements for inclusion as component units. These entities are included in the various note disclosures if they qualify as related parties or if omitting them would be misleading.

### **Blended Component Units:**

Some legally separate component units are so intertwined with the State that they are reported as part of the State's fund and government-wide financial statements and are considered blended component units. Those that are identifiable within an Enterprise Fund with bonds or debt instruments outstanding and a revenue stream pledged in support of that debt are required to be accounted for separately as segments (see Note 18). The following entities are reported as blended component units:

- University Physician's Inc. d/b/a CU Medicine
- University of Colorado Property Construction, Inc. (CUPCO)

## Joint Operating Agreement:

The State has entered a joint operating agreement with the Huerfano County Hospital District to provide patient care at the Colorado State Veterans Nursing Home at Walsenburg. The facility is owned by the State, but it is operated by the Hospital District under a twenty-year contract that is renewable at the District's option for successive ten-year terms up to 99 years from the original commencement date in November 1993.

The State's contract with the Huerfano County Hospital District states that the District is responsible for funding the operating deficits of the Nursing Home; however, since the State owns the Nursing Home, it retains ultimate financial responsibility for the Home. Only the State's share of assets, liabilities, revenues, and expenses associated with the joint operation are shown in these financial statements. These include the land, building, and some of the equipment for the Nursing Home as well as revenues and expenses associated with the State's on-site contract administrator. The State's pass-through of U.S. Veterans Administration's funds to the District is also shown as revenue and expense of the State.

## D. BASIS OF PRESENTATION – GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements focus on the government as a whole. The *Statement of Net Position* and the *Statement of Activities* are presented using the economic resources measurement focus and the full accrual basis of accounting. Under this presentation, all revenues, expenses, and all current and long-term assets, deferred outflows and liabilities and deferred inflows of the government are reported including capital assets, depreciation, and long-term debt.

The government-wide statements show the segregation between the primary government and its component units. The primary government is further subdivided between governmental activities and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities include proprietary funds financed in whole or in part by fees charged to external parties for goods or services.

The *Statement of Net Position* presents the financial position of the government. The net position section of the statement focuses on whether assets and deferred outflows, net of related liabilities and deferred inflows, have been restricted as to the purpose for which they may be used. When an external party or the State Constitution places a restriction on the use of certain assets, those assets, net of related liabilities, are reported in the Net Position line items shown as Restricted. The nature of an asset may also result in a restriction on asset use. The line item Net Investment in Capital Assets, comprises capital assets (net of depreciation) reduced by the outstanding balance of leases, bonds, mortgages, notes, Certificates of Participation, or other borrowings that were used to finance the acquisition, construction, or improvement of the capital asset. The State does not report restrictions of net position related to enabling legislation because a settled court case determined that crediting money to a special fund does not mean that the General Assembly is prohibited from appropriating the money for another purpose. Internal Service Fund assets and liabilities are reported in the government-wide *Statement of Net Position* as part of the governmental activities.

The *Statement of Activities* shows the change in financial position for the year. It focuses on the net program cost of individual functions and business-type activities in State government. It does this by presenting direct and allocated indirect costs reduced by program revenues of the function or business-type activities. Direct costs are those that can be specifically identified with a program. The State allocates indirect costs based on the Statewide Appropriations/Cash Fees Plan. Program revenues comprise fines and forfeitures, charges for goods and services, and capital and operating grants.

Taxes, with the exception of unemployment insurance premiums supporting a business-type activity, are presented as general-purpose revenues. General-purpose revenues are presented at the bottom of the statement and do not affect the calculation of net program cost.

Interfund transactions, such as federal and state grants moving between State agencies, have been eliminated from the government-wide statements to the extent that they occur within either the governmental or business-type activities, except as follows. In order not to misstate the sales revenue and purchasing expenses of individual functions or business-type activities, the effects of interfund services provided and used have not been eliminated. Balances between governmental and business-type activities are presented as internal balances and are eliminated in the total column. Internal Service Fund activity has been eliminated by allocating the net revenue/expense of the Internal Service Fund to the function originally charged for the internal sale.

Some of the State's component units have fiscal year-ends that differ from the State's fiscal year-end, and as a result amounts receivable and payable between the primary government and component units may not be equal. Amounts shown as receivable and payable between the primary government and the component units are primarily with the four major foundations, which are reported as component units and have matching fiscal year ends, but also include amounts related to component units not deemed material for discrete reporting.

Interfund balances between the primary government's fiduciary activities and the primary government are presented on the government-wide statements as external receivables and payables.

## E. BASIS OF PRESENTATION - FUND FINANCIAL STATEMENTS

### **Primary Government**

The fund-level statements provide additional detail about the primary government and its component units. The information is presented in four types – governmental funds, proprietary funds, fiduciary funds, and component units. With the exception of the fiduciary fund type, each type is presented with a major fund focus.

The Governmental Accounting Standards Board has defined major funds based on percentage thresholds; however, it allows presentation of any fund as a major fund when that fund is particularly important to financial statement users. The Capital Projects Fund, the State Education Fund, the Unemployment Insurance Fund, and the Lottery Fund do not meet the percentage threshold requirements, but they are presented as major funds under the discretion provided by the standard. The State's component units are reported as major except for the Denver Metropolitan Major League Baseball Stadium District, the Colorado Venture Capital Authority, and HLC @ Metro, Inc., which are presented as nonmajor component units.

The State's major funds report the following activities:

GOVERNMENTAL FUND TYPE:

#### General Fund

Transactions that are not related to specific revenue streams for dedicated purposes for services traditionally provided by state government are accounted for in the General Fund. The General Fund contains Special Purpose Funds that include the State Public School, Risk Management, and Other Special Purpose Funds. Resources obtained from federal grants that support general governmental activities are accounted for in the General Fund consistent with applicable legal requirements. As a result of comingled current and cumulative general-purpose and special-purpose revenue in the General Fund, combining schedules detailing the components of the General Fund are included as supplementary information. The schedules segregate activities funded with general-purpose revenue in order to demonstrate compliance with the legal definition of the General Fund, which is referred to as the General Purpose Revenue Fund.

#### Resource Extraction

This fund accounts for receipts from severance taxes, mineral leasing, and fees associated with the regulation of mining activities. Expenditures include distributions to local governments, regulatory costs, and loans to special districts and local governments for water projects.

### Highway Users Tax Fund

Expenditures of this fund are for the construction and maintenance of public highways, the operations of the State Patrol, and the motor vehicle related operations of the Department of Revenue. Revenues are from excise taxes on motor fuels, driver, and vehicle registration fees, and other related taxes. In prior years, this fund has issued revenue bonds to finance construction and maintenance of highway infrastructure. Most of the State's infrastructure is owned by this fund.

#### Capital Projects Fund

Transactions related to resources obtained and used for acquisition, construction, or improvement of State owned facilities and certain equipment are accounted for in the Capital Projects Fund, unless the activity occurs in a proprietary fund or in certain instances when the activity is incidental to a cash fund. A combining schedule of the components of the Capital

Projects Fund is presented as supplementary information to segregate regular (primarily general-funded) and special (primarily cash-funded) capital construction.

#### State Education Fund

The State Education Fund was created in the State Constitution by a vote of the people in November 2000. The fund's primary revenue source is a tax of one third of one percent on federal taxable income. The revenues are restricted for the purpose of improving Colorado students' primary education by funding specific programs and by guaranteeing appropriation growth of at least one percent greater than annual inflation through Fiscal Year 2010-11, and by inflation thereafter.

### PROPRIETARY FUND TYPE:

#### Higher Education Institutions

This fund reports the activities of all state institutions of higher education. Fees for educational services, tuition payments, and research grants are the primary sources of funding for this activity. Higher Education Institutions have significant capital debt secured solely by pledged revenues.

#### Unemployment Insurance

This fund accounts for the collection of unemployment insurance premiums from employers, related federal support, the payment of unemployment benefits to eligible claimants, and revenue bonds issued through a related party, the Colorado Housing and Finance Authority.

### Lottery

The State Lottery encompasses the various lottery and lotto games run under Colorado Revised Statutes. The primary revenue source is lottery ticket sales, and the net proceeds are primarily distributed to the Great Outdoors Colorado Program (a related organization), the Conservation Trust Fund, and when receipts are adequate, the General Purpose Revenue Fund. The funds are used primarily for open space purchases and recreational facilities throughout the State.

Nonmajor funds of each fund type are aggregated into a single column for presentation in the basic financial statements. In addition to the major funds discussed above, the State reports the following fund categories in supplementary information in the Comprehensive Annual Financial Report (CAFR).

#### GOVERNMENTAL FUND TYPE (NONMAJOR):

#### General Fund

The General Fund and its components are classified as a major fund in the basic financial statements. Because of the requirement to separately identify activity related to general-purpose revenues for legal compliance purposes, the general-purpose revenue activities are shown in a combining schedule detailing the components of the General Fund. As a result, the General Fund activity is presented similar to major and nonmajor funds. The general-purpose activity is presented in the General Purpose Revenue Fund, while the special-purpose revenue activities include the Public School Fund, the Risk Management Fund, and the Other Special Purpose Funds.

#### Capital Projects

The Capital Projects Fund and its components are classified as a major fund in the basic financial statements. The components are necessary to support the calculation of resources available for future appropriation. In order to demonstrate legal compliance, the Regular Capital Projects, which is primarily funded from general-purpose revenue, and Special Capital Projects Fund, which is primarily funded with dedicated revenues, are presented similar to nonmajor funds.

#### Special Revenue Funds

Transactions related to resources obtained from specific sources and dedicated to specific purposes are accounted for in special revenue funds. The individual nonmajor funds include Labor, Gaming, Tobacco Impact Mitigation, Resource Management, Environment and Health Protection, Unclaimed Property, and Other Special Revenue Funds.

#### Debt Service Fund

This fund accounts for the accumulation of resources, primarily transfers from other funds, for the payment of long-term debt principal and interest. It also accounts for the issuance of debt solely to refund debt of other funds. The primary debt serviced by this fund consists of Certificates of Participation issued by various departments and Transportation Revenue Anticipation Notes issued by the Department of Transportation to fund infrastructure.

## Permanent Funds

This collection of funds reports resources that are legally restricted to the extent that only earnings, and not principal, may be used to support State programs. The individual nonmajor funds included in this category are the State Lands Fund and an aggregation of several smaller funds. On the government-wide financial statements, the net position of these funds are presented as restricted with separate identification of the nonexpendable (principal) and expendable (earnings) amounts. On the fund-level financial statements, the principal portion is reported as Nonspendable.

## PROPRIETARY FUND TYPE (NONMAJOR):

#### Enterprise Funds

The State uses enterprise funds to account for activities that charge fees, primarily to external users, to recover the costs of the activity. In some instances, the requirement to recover costs is a legal mandate, and in others it is due to management's pricing policy. The individual nonmajor funds reported as supplementary information include Parks and Wildlife, College Assist, State Fair Authority, Correctional Industries, State Nursing Homes, Prison Canteens, Petroleum Storage Tank, Transportation Enterprise, and several smaller funds aggregated as Other Enterprise Funds.

### Internal Service Funds

The State uses internal service funds to account for the sale of goods and services, primarily to internal customers, on a cost reimbursement basis. The major fund concept does not apply to internal service funds. The State's Internal Service Funds reported in supplementary information include Central Services, Statewide Financial Information Technology, Information Technology, Capitol Complex, Highways, Public Safety, Administrative Courts, Legal Services, and Other Enterprise Services. In the fund financial statements, these activities are aggregated into a single column. In the government-wide statements, the Internal Service Funds are included in the governmental activities on the *Statement of Net Position*, and they are included in the *Statement of Activities* through an allocation of their net revenue/expense back to the programs originally charged for the goods or services.

### FIDUCIARY FUND TYPE:

The resources reported in fiduciary fund types are not available for use in the State's programs; therefore, none of the fiduciary funds are included in the government-wide financial statements.

#### Pension and Other Employee Benefit Trust Funds

In the basic financial statements, the State reports in a single column the activities related to resources being held in trust for (1) members and beneficiaries of the Group Benefits Plan, which provides health, life, dental, and short-term disability benefits to state employees, and (2) the Colorado State University Other Post-Employment Benefit Trust Funds.

#### Private Purpose Trust Funds

Private purpose trust funds are used to report the resources held in trust for the benefit of other governments, private organizations, or individuals. A single column in the basic financial statements aggregates the Treasurer's Private Purpose Trusts, Unclaimed Property, the College Savings Plan operated by CollegeInvest, the College Opportunity Fund (liquidated annually), and several smaller funds shown in the aggregate as Other.

#### Agency Funds

Agency funds are used to report resources held in a purely custodial capacity for other individuals, private organizations, or other governments. Agency funds primarily include local sales tax collections, trustee investments related to State capital projects, and investments of the Colorado Water Resource and Power Development Authority. Typically the time between receipt and disbursement of these resources is short and investment earnings are inconsequential.

#### PRESENTATION OF INTERNAL BALANCES

Intrafund transactions are those transactions that occur completely within a column in the financial statements, while interfund transactions involve more than one column. This definition applies at the level of combining financial statements in the Supplementary Information section of the Comprehensive Annual Financial Report. Substantially all intrafund transactions and balances of the primary government have been eliminated from the fund-level financial statements. Interfund sales and federal grant pass-throughs are not eliminated, but are shown as revenues and expenditures/expenses of the various funds. Substantially all other interfund transactions are classified as transfers-in or transfers-out after the revenues and expenses are reported on each of the Statements of Changes in Net Position, or the Statement of Revenues, Expenditures and Changes in Fund Balances.

## FUNCTIONAL PRESENTATION OF EXPENDITURES

In the governmental fund types, expenditures are presented on a functional basis, rather than an individual program basis, because of the large number of programs operated by the State. The State's eight functional classifications and the State agencies or departments comprising each are:

## General Government

Legislative Branch, Department of Personnel & Administration, most of the Department of Military and Veterans Affairs, part of the Governor's Office, part of the Department of Revenue, and Department of Treasury.

## Business, Community, and Consumer Affairs

Department of Agriculture, part of the Governor's Office, Department of Labor and Employment, Department of Local Affairs, most of the Department of Regulatory Agencies, Gaming Division of the Department of Revenue, and Department of State.

## Education

Department of Education, and the portion of the Department of Higher Education not reported as a business-type activity.

## Health and Rehabilitation

Department of Public Health and Environment, and part of the Department of Human Services.

## Justice

Department of Corrections, Division of Youth Corrections in the Department of Human Services, Judicial Branch, Department of Law, Department of Public Safety, and the Civil Rights Division of the Department of Regulatory Agencies.

### Natural Resources

Department of Natural Resources.

### Social Assistance

Department of Human Services, Department of Military and Veterans' Affairs, and the Department of Health Care Policy and Financing.

## **Transportation**

Department of Transportation.

## **Component Units**

The Colorado Water Resources and Power Development Authority is engaged only in business-type activities, and uses proprietary fund accounting for its operations. The Authority's financial information is presented as of December 31, 2016.

The Denver Metropolitan Major League Baseball Stadium District, a nonmajor component unit, uses proprietary fund accounting in preparation of its financial statements, while the Colorado Venture Capital Authority, a nonmajor component unit, applies applicable GASB pronouncements. The financial information for the Denver Metropolitan Major League Baseball Stadium District and the Colorado Venture Capital Authority are presented as of December 31, 2016.

The four foundations presented as component units and HLC @ Metro, Inc. follow Financial Accounting Standards Board statements applicable to not-for-profit entities. The foundations' audited not-for-profit financial statements have been recast into the governmental format as allowed by GASB Statement No. 39. Financial information for the four foundation component units and HLC @ Metro, Inc. are presented as of June 30, 2017.

## F. BASIS OF ACCOUNTING

## **Primary Government**

The basis of accounting applied to a fund depends on both the type of fund and the financial statement on which the fund is presented.

## **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

All transactions and balances on the government-wide financial statements are reported on the full accrual basis of accounting. Under full accrual, revenues, expenses, gains, losses, assets, deferred outflows, liabilities, and deferred inflows

resulting from exchange transactions are recognized when the exchange takes place and the earnings process is complete. Similar recognition occurs for nonexchange transactions, depending on the type of transaction as follows:

- Derived tax revenues are recognized when the underlying exchange transaction occurs.
- Imposed nonexchange revenues are recognized when the State has an enforceable legal claim.
- Government mandated and voluntary nonexchange revenues are recognized when all eligibility requirements are met assets are recognized if received before eligibility requirements are met.

### FUND-LEVEL FINANCIAL STATEMENTS

#### Governmental Funds

All transactions and balances of governmental funds are presented on the modified accrual basis of accounting consistent with the flow of current financial resources measurement focus and the requirements of Governmental Accounting Standards Board Interpretation No. 6. Under the modified accrual basis of accounting, revenues are recognized when they are measurable and available. The State defines revenues as available if they are expected to be collected within one year. Historical data, adjusted for economic trends, are used to estimate the following revenue accruals:

- Sales, use, liquor, and cigarette taxes are accrued based on filings received and an estimate of filings due at June 30.
- Income taxes, net of refunds, to be collected from individuals, corporations, and trusts are accrued based on current income earned by taxpayers before June 30. Quarterly filings, withholding statements, and other historical and economic data are used to estimate taxpayers' current income. The related revenue is accrued net of an allowance for uncollectible taxes.

Revenues earned under the terms of reimbursement agreements with other governments or private sources are recorded at the time the related expenditures are made if other eligibility requirements have been met.

Expenditures are recognized in governmental funds when:

- The related liability is incurred and is due and payable in full (examples include professional services, supplies, utilities, and travel).
- The matured portion of general long-term indebtedness is due and payable (or resources have been designated in the Debt Service Fund and the debt service is payable within thirty days of fiscal year-end).
- The liability has matured and is normally expected to be liquidated with expendable available financial resources.

Under these recognition criteria, compensated absences, claims and judgments, and termination benefits are reported as fund liabilities only in the period that they become due and payable. Expenditures/liabilities not recognized in the fund-level statements are reported as expenses/liabilities on the government-wide statements.

#### Proprietary and Fiduciary Funds

All transactions and balances of the proprietary and fiduciary fund types are reported on the full accrual basis of accounting as described above for the government-wide statements.

## **Component Units**

The Colorado Water Resources and Power Development Authority uses the accrual basis of accounting under which revenues are recognized when earned and expenses are recognized when the related liability is incurred.

## G. ACCOUNTING POLICIES AFFECTING SPECIFIC ASSETS, LIABILITIES, AND NET POSITION

## CASH AND POOLED CASH

For purposes of reporting cash flows, cash and pooled cash is defined as cash-on-hand, demand deposits, certificates of deposit with financial institutions, pooled cash with the State Treasurer, and warrants payable.

## RECEIVABLES

#### **Component Units**

The University of Colorado Foundation, the Colorado State University Foundation, the Colorado School of Mines Foundation, and the University of Northern Colorado Foundation all record unconditional promises to give as revenue and receivable in the period that the pledge is made. The University of Colorado Foundation, the Colorado State University Foundation, the Colorado School of Mines Foundation and the University of Northern Colorado Foundation use the allowance method to determine the uncollectible portion of unconditional contributions receivable. The Colorado School of Mines Foundation and the University of Northern Colorado School of Mines Foundation and the University of Northern Colorado Foundation receivable. The Colorado School of Mines Foundation and the University of Northern Colorado Foundation receivable to give as revenue and receivable when the conditions on which the pledges are dependent, are substantially met.

### **INVENTORIES**

Inventories of the various State agencies primarily comprise finished goods inventories held for resale and consumable items such as office and institutional supplies, fuel, and maintenance items.

Inventories of the governmental funds are stated at cost, while inventories of the proprietary funds are stated at the lower of cost or fair value. The State uses various valuation methods (FIFO, average cost, etc.) as selected by individual State agencies. The method used in each agency is consistent from year to year.

Consumable inventories that are deemed material are expended at the time they are consumed. Immaterial consumable inventories are expended at the time of purchase, while inventories held for resale are expensed at the time of sale.

### **INVESTMENTS**

#### **Primary Government**

Investments, including those held by the State Treasurer and reported as pooled cash, include both short and long-term investments. They are stated at fair value, except for certain money market investments (see Note 4). Investments that do not have an established market are reported at their estimated fair value. The State Treasurer records investment interest in individual funds based on book yield as adjusted for amortization of investment premiums and discounts.

#### **Component Units**

Marketable equity and debt investments of the University of Colorado Foundation are presented at fair value based on quoted market prices; alternative investment fair values are based on national security exchange closing prices, if marketable, and on the prorata share of the net assets of the investment, if not marketable. Realized and unrealized gains and losses are included in the change in net position.

The University of Colorado Foundation has concentrations of financial instruments in cash and investments that potentially subject it to credit risk. The foundation selects credit-worthy high-quality financial institutions, but frequently portions of its deposits are not insured by the Federal Deposit Insurance Corporation. The foundation's concentrations in stocks, bonds, and alternative investments also subject it to credit risk. These investments are selected by professional managers and are monitored by the Investment Committee of the foundation's Board of Directors. Certain investment managers employ techniques such as leverage, futures and forwards contracts, option agreements, and other derivative instruments that create special risks that could adversely affect the foundation's investment portfolio valuation. Foundation management believes the investment policy is prudent for the long-term welfare of the foundation.

The mission of the Colorado Venture Capital Authority, a nonmajor component unit, is to make seed and early-stage investments in companies that are not fully established. Because of the inherent uncertainty of investment valuation where a ready market does not exist, as is the case with Colorado Venture Capital Authority investments, estimated values may differ from the values that would have been reported had a ready market existed, and the differences could be material.

## CAPITAL ASSETS

Depreciable capital assets are reported at historical cost, net of accumulated depreciation, on the government-wide *Statement* of *Net Position*. Donated capital assets are carried at acquisition value at the date of donation. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. Land, certain land improvements, construction in progress, and certain works of art or historical treasures are reported as nondepreciable assets.

The following table lists the range of capitalization thresholds established by the State, as well as lower thresholds adopted by some State agencies. State agencies are allowed to capitalize assets below established thresholds. The University of Colorado has adopted a \$75,000 threshold for land and leasehold improvements as well as buildings and software.

(Amounts					
Asset Class	Сарі	Lower Italization resholds	Established State Thresholds		
Land Improvements	\$	5,000	\$	50,000	
Buildings	\$	5,000	\$	50,000	
Leasehold Improvements	\$	5,000	\$	50,000	
Intangible Assets		NA	\$	50,000	
Vehicles and Equipment		NA	\$	5,000	
Software (purchased)		NA	\$	5,000	
Software (internally developed)	)	NA	\$	50,000	
Collections		NA	\$	5,000	
Infrastructure		NA	\$	500,000	

All depreciable capital assets are depreciated using the straight-line method. State agencies are required to use actual experience in setting useful lives for depreciating capital assets. The following table lists the range of lives that State agencies normally use in depreciating capital assets. Certain historical and Department of Transportation buildings are depreciated over longer lives, but they are excluded from the following table.

(Amoun	ts in Years)	
Asset Class	Shortest Period Used	Longest Period Used
Land Improvements	3	50
Buildings	3	70
Leasehold Improvements	3	50
Vehicles and Equipment	1	50
Software	2	20
Library Books	3	20
Other Capital Assets	3	25
Infrastructure	20	75

Roads and bridges, except for right-of-way and fiber optic infrastructure, owned by the Department of Transportation and other infrastructure primarily owned by the Department of Natural Resources, are capitalized and depreciated. The Department of Transportation depreciates roadways over 40 years, and bridges over 75 years.

The State capitalizes interest incurred during the construction of capital assets that are reported in enterprise funds.

## UNEARNED REVENUE AND DEFERRED INFLOWS

Under reimbursement agreements, receipts from the federal government and other program sponsors are not earned until the related expenditures occur. These receipts are recorded as unearned revenue, except for amounts recorded as deferred inflows when the only eligibility requirement not met is the time requirement.

On the fund-level governmental financial statements, revenues related to taxes receivable that the State does not expect to collect until after the following fiscal year, are not earned and are reported as deferred inflows. However, taxes receivable are recognized as revenue on the government-wide financial statements.

## ACCRUED COMPENSATED ABSENCES LIABILITY

### **Primary Government**

State law concerning the accrual of sick leave was changed effective July 1, 1988. After that date all employees in classified permanent positions within the State Personnel System accrue sick leave at the rate of 6.66 hours per month. Total sick leave per employee is limited to the individual's accrued balance on July 1, 1988, plus 360 additional hours. Employees that exceed the limit at June 30 are required to convert five hours of unused sick leave to one hour of annual leave. Employees or their survivors are paid for one-fourth of their unused sick leave upon retirement or death.

Annual leave is earned at increasing rates based on employment longevity. No classified employee is allowed to accumulate more than 42 days of annual leave at the end of a fiscal year. Employees are paid 100 percent of their annual leave balance upon leaving State service.

In accordance with GASB Interpretation No. 6, compensated absence liabilities related to the governmental funds are recognized as liabilities of the fund only to the extent that they are due and payable at June 30. For all other fund types, both current and long-term portions are recorded as individual fund liabilities. On the government-wide *Statement of Net Position*, all compensated absence liabilities are reported.

## **Component Units**

The Colorado Water Resources and Power Development Authority recognizes unused vacation and sick leave benefits as they are earned.

### INSURANCE

The State has an agreement with Broadspire to act as the third party administrator for the State's self-insured workers' compensation claims. The State reimburses Broadspire for the current cost of claims paid and related administrative expenses. Actuarially determined liabilities are accrued for claims to be paid in future years.

The State insures its property through a combination of self-insurance and commercial insurance carriers and is self-insured against liability risks for both its officials and employees (see Note 9). It is self-funded for employee healthcare plans, however, in the healthcare instance, the risk resides with the employees, because the State contribution to the plan is subject to appropriation each year, and employees are required to cover the balance of any premiums due. The State pays the actual costs of unemployment benefits paid to separated employees, rather than unemployment insurance premiums.

## NET POSITION AND FUND BALANCES

In the financial statements, assets and deferred outflows in excess of liabilities and deferred inflows are presented in one of two ways depending on the measurement focus used in reporting the fund.

On the government-wide *Statement of Net Position*, the proprietary funds' *Statement of Net Position*, and the fiduciary funds' *Statement of Fiduciary Net Position*, net position is segregated into restricted and unrestricted balances. Restrictions are limitations on how the net position may be used. Restrictions may be placed on net position by the external party that provided the resources, by the State Constitution, or by the nature of the asset (such as, in the case of capital assets).

The following paragraphs describe the restrictions reported in the three financial statement types cited above:

<u>Net Investment in Capital Assets</u> – This item comprises capital assets net of accumulated depreciation, if applicable. The carrying value of capital assets are further reduced by the outstanding balances of leases, bonds, or other borrowings that were used to acquire, construct, or improve the related capital asset, deferred outflows related to refunding losses also adjust this line item.

<u>Restricted for Construction and Highway Maintenance</u> – Article X, Section 18 of the State Constitution restricts the motor fuels tax and fee portion of the Highway Users Tax Fund. The restricted portion of the fund is appropriated for highway construction and maintenance activities.

<u>Restricted for Education</u> – The net position of the State Education Fund, a major special revenue fund, is restricted for education purposes based on Article IX, Section 17 of the State Constitution. Section 17 is commonly referred to as Amendment 23, which references the ballot number assigned to the issue in the general election of 2000. In addition, the net

position of the Public School Fund, a Special Purpose fund, is restricted for exclusive use pursuant to Article IX, Section 3 of the State Constitution.

The net position of Higher Education Institutions, a major proprietary fund, is restricted for educational purposes that primarily include student loans and scholarships restricted by the federal government and other sponsoring entities, and revenue balances pledged for auxiliary facility debt as a result of bond covenants. Balances related to various instructional, research and academic support programs, and capital projects may also be restricted based on requirements of donors and sponsors. Finally, Article XVIII, Section 9 of the State Constitution, also known as Amendment 50, requires that specified gaming receipts only be used for instructional purposes and scholarship programs.

<u>Restricted for Unemployment Insurance</u> – The entire net position balance of the Unemployment Insurance Fund is reported as restricted, because federal regulations limit nearly all the balance to paying unemployment insurance claims.

<u>Restricted for Debt Service</u> – The net position of the Debt Service Fund, a nonmajor governmental fund, is restricted to be used only for upcoming principal and interest payments. The net position in governmental activities is found in the Department of Personnel & Administration and in the Department of Treasury on behalf of the Build Excellent Schools Today (BEST) program. The Higher Education Institutions Fund also reports certain balances restricted for principal and interest payments on revenue-bonded debt.

<u>Restricted for Emergencies</u> – The General Assembly designates the fund balance of certain funds as an emergency reserve as required by Article X, Section 20 (TABOR) of the State Constitution. The requirement is to reserve for emergencies three percent or more of fiscal year spending. Fiscal year spending is defined in TABOR as all spending and reserve increases, except for spending from certain excluded revenues and enterprises. State properties and the Unclaimed Property Trust Fund included as part of the required reserve are not represented in this amount. (See Note 2B for more information on the current year amount of the emergency reserve.)

<u>Restricted Permanent Funds and Endowments</u> – This item is segregated into two components. The restricted balances reported as nonexpendable are related to the principal portion of governmental Permanent Funds, such as the State Lands Fund, amounts dedicated to fund capital construction activity, and the endowment portion of the Higher Education Institutions Fund that must be maintained in perpetuity. The restricted balances reported as expendable are primarily the earnings on the related principal balances. In general, these earnings can only be used for education program purposes.

<u>Restricted for Other Purposes</u> – The State operates certain funds that were established at the direction of the federal government, the courts, the State Constitution, or other external parties. The most significant purposes include:

- Settlements in various funds that have been directed by the courts for specific uses in environmental remediation and consumer protection cases.
- Gaming activities pursuant to Article XVIII, Section 9 of the State Constitution restricted to provide an operating reserve for historic preservation purposes, and for distribution to support local and State community colleges.
- Federal moneys held for mining reclamation, housing programs, and scholarship trusts.
- Aviation Fund moneys collected pursuant to Article X, Section 18 of the State Constitution.
- Lottery proceeds for parks and outdoor projects as directed by Article XXVII of the State Constitution.
- Tobacco taxes for health related programs pursuant to Article X, Section 21 of the State Constitution.

On the *Balance Sheet – Governmental Funds*, assets in excess of liabilities are reported as fund balances and are segregated between spendable and nonspendable amounts, as follows:

<u>Nonspendable</u> – This fund balance category consists of inventories; prepaid expenditures such as advances to counties for social assistance programs, local entities for species conservation, and to Colorado cities and special districts from emergency management funds; permanent funds related to state lands, and the corpus of other permanent funds.

Spendable amounts are segregated into categories based on the degree to which the uses of resources are constrained. The categorization, in part, is a result of the State's spending prioritization policy. When an expenditure is incurred that could be funded from either restricted or unrestricted sources, it is the State's general policy that unrestricted dollars are spent first, and within unrestricted sources funding is allocated first from unassigned, then assigned, and then committed resources. However, in certain circumstances restricted and/or committed resources are spent without regard to other available funding sources, including transfers:

- to pay indirect costs,
- to fund programs operating in the General Purpose Revenue Fund,

- to support health-related programs funded by tobacco tax,
- to support programs partially funded by Highway Users' Tax funds, and
- other situations that are not individually significant.

Spendable fund balance classifications include:

<u>Restricted</u> – This classification is the portion of fund balance that is restricted by the State Constitution or external parties, and therefore, the related fund balance can only be expended as directed by the State Constitution or the external party.

Restrictions are in place on the *Balance Sheet – Governmental Funds* to reflect the restrictions discussed for the governmentwide *Statement of Net Position*, except for Permanent Funds that are presented as Nonspendable. The emergency reserve is restricted in the Labor Fund, a nonmajor Other Special Revenue Fund, the Colorado Water Conservation Board Construction Fund and the Severance Tax Perpetual Base Fund in Resource Extraction, and the Controlled Maintenance Trust Fund within special-purpose General Funds. Gaming proceeds are restricted in the Gaming Fund, a nonmajor Other Special Revenue Fund, and funds legally required to be held for debt service in the Debt Service Fund, an Other Governmental Fund, while the remaining restrictions are represented in various funds.

In addition to restrictions on the government-wide *Statement of Net Position*, the *Balance Sheet – Governmental Funds* includes restrictions for other financing arrangements under which the proceeds are restricted to the purpose of the issuance. The unspent proceeds are primarily related to public school construction under the Building Excellent Schools Today (BEST) program, in the Special Purpose General Fund.

<u>Committed</u> – This fund balance classification consists of amounts constrained by the General Assembly, the State's highest level of decision-making authority. Changes to constraints require legislative action by the General Assembly. The classification applies to the majority of governmental funds, excluding the General Purpose Revenue Fund.

In the General Purpose Revenue Fund, the Committed category represents the requirement in Colorado Revised Statutes 24-75-201.1(1)(d) to reserve six percent of General Purpose Revenue Fund appropriations. C.R.S. 24-75-201.5(1)(a) further requires the Governor to take action within the fiscal year to preserve one half of the reserve when economic forecasts indicate revenues will not be adequate to maintain the required reserve. Historically, the legislature has acted to reduce the reserve when revenues were projected to be inadequate to fund appropriations and the reserve. The reserve is applicable for both GAAP and budget basis purposes. The GAAP based fund balance was not sufficient to report the entire reserve as Committed fund balance. As a result, only the remaining GAAP fund balance of \$444.9 million was committed for this purpose.

Committed balances also include earned augmenting revenue, such as insurance proceeds, that State agencies are not required to revert into the General Purpose Revenue Funds' fund balance.

In the Capital Projects Fund, the Committed classification represents the fund balance of the Corrections Expansion Reserve and the balance of certain other projects that are allowed to maintain a fund balance. These projects are not required to revert excess cash revenue to the Capital Projects Fund.

<u>Assigned</u> – This classification represents the portion of the General Purpose Revenue Fund fund balance related to certain Fiscal Year 2016-17 appropriations that the Colorado State Controller approved in accordance with Fiscal Rule 7-3 for use in the subsequent fiscal year.

<u>Unassigned</u> – This classification is the residual classification in the General Fund, and is not shown in other governmental funds, unless the fund balance is a deficit. For Fiscal Year 2016-17, there was no unassigned fund balance, because of the shortfall in the statutory reserve discussed in the Committed section of this note.

## H. ACCOUNTING POLICIES AFFECTING REVENUES, EXPENDITURES/ EXPENSES

### **PROGRAM REVENUES**

The government-wide *Statement of Activities* presents two broad types of revenues – program revenues and general revenues. All taxes, with the exception of unemployment insurance premiums used to support a business-type activity, are reported as general revenues. Unrestricted investment earnings and the court ordered awards of the Tobacco Litigation Settlement Fund, a nonmajor Other Special Revenue Fund, are also reported as general revenues. Except for transfers, permanent fund additions, and special items, all other revenues are reported as program revenues. In general, program revenues include:

- Fees for services, tuition, licenses, certifications, and inspections,
- Fines and forfeitures,
- Sales of products,
- Rents and royalties,
- Donations and contributions, and
- Intergovernmental revenues (including capital and operating grants).

## INDIRECT COST ALLOCATION

The State allocates indirect costs on the government-wide *Statement of Activities*. In general, the allocation reduces costs shown in the general government functions and increases costs in the other functions and business-type activities. The allocation is based on the Statewide Appropriations/Cash Fees Plan.

The Plan uses allocation statistics from Fiscal Year 2013-14 and costs from the Fiscal Year 2015-16 Appropriations bill that were incorporated in State agency budgets for Fiscal Year 2016-17. The allocation of costs between the governmental activities and business-type activities would normally result in an adjustment of internal balances on the government-wide *Statement of Net Position*. However, since the amount allocated from the governmental activities is small, an offsetting adjustment is made to the (Transfers-Out)/Transfers-In line item at the bottom of the *Statement of Activities*.

## **OPERATING REVENUES AND EXPENSES**

The State reports three major enterprise funds, multiple nonmajor enterprise funds, and multiple internal service funds. Because these funds engage in a wide variety of activities, the State's definition of operating revenues and expenses is highly generalized. For these funds, operating revenues and expenses are defined as transactions that result from the core business activity of the proprietary fund.

In general, this definition provides consistency between operating income on the *Statement of Revenues, Expenses, and Changes in Net Position* and cash from operations on the *Statement of Cash Flows*. However, certain exceptions occur including:

- Interest earnings and expenses of proprietary funds, for which the core business activity is lending, are reported as operating revenues and expenses on the *Statement of Revenues, Expenses, and Changes in Net Position* but are reported as investing activities on the *Statement of Cash Flows*.
- Some rents, fines, donations, and certain grants and contracts are reported as nonoperating revenues on the *Statement of Revenues, Expenses, and Changes in Net Position*, but are reported as cash from operations on the *Statement of Cash Flows*.

The State's institutions of higher education have defined operating revenues and expenses as generally resulting from providing goods and services for instruction, research, public service, or related support services to an individual or entity separate from the institution.

## NOTE 2 – STEWARDSHIP, ACCOUNTABILITY, AND LEGAL COMPLIANCE

## A. OVEREXPENDITURES

Depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting even if the accrual will result in an overexpenditure. In the General Purpose Revenue Fund and Regular Capital Projects Fund, if earned cash revenues plus available reserved fund balance and earned federal revenues are less than cash and federal expenditures, then those excess expenditures are considered general-funded expenditures. If general-funded expenditures exceed the general-funded appropriation then an overexpenditure occurs even if the expenditures did not exceed the total legislative line item appropriation. Absent general-funded appropriations, agencies are not allowed to use general-purpose revenue to support an expenditure/expense that was appropriated from cash or federal funds. Budget-to-actual comparisons are presented in the Required Supplementary Information Section. Differences noted between departmental reversions or overexpended amounts on the budgetary schedules and the overexpended amounts discussed below are due to offsetting underexpended line item appropriations.

Within the limitations discussed below, the State Controller, with the approval of the Governor, may allow certain overexpenditures of the legal appropriation, as provided by Colorado Revised Statutes 24-75-109. Unlimited overexpenditures are allowed in the Medicaid program. The statute also provides for \$250,000 of general-funded overexpenditure authority in the Children's Basic Health Plan. The Department of Human Services is allowed \$1.0 million of overexpenditures not related to Medicaid and unlimited overexpenditures for self-insurance of its workers' compensation plan. Statute also allows overexpenditures up to \$3.0 million in total for the remainder of the Executive Branch. An additional \$1.0 million of combined transfers and overexpenditures are allowed for the Judicial Branch.

The State Controller is generally required by statute to restrict the subsequent year appropriation whether or not an overexpenditure is approved. Such a restriction requires the agency to seek a supplemental appropriation from the General Assembly, earn adequate cash or federal revenue to cover the expenditure in the following year, and/or reduce their subsequent year's expenditures.

Per Colorado Revised Statutes 24-75-109(2)(b), neither the Governor nor the State Controller is allowed to approve any overexpenditure in excess of the unencumbered balance of the fund from which the overexpenditure is made.

Total overexpenditures at June 30, 2017, were \$32.1 million as described in the following paragraphs.

Approved Medicaid Overexpenditures:

- <u>Medical Services Premiums</u> The Department of Health Care Policy and Financing overexpended this line item by \$6.8 million of cash funds and \$0.4 million of reappropriated cash funds. This appropriation pays for the majority of Medicaid services rendered for clients. The overexpenditures occurred as a result of higher than expected utilization of services by Medicaid clients.
- <u>Behavioral Health Fee-for-Service</u> This appropriation line pays for Medicaid covered Behavioral Health services that are paid on a fee-for-service basis to providers. An unexpected increase in utilization is the cause of the general fund overexpenditure of this line in the amount of \$9.8 million.
- <u>Children's Basic Health Plan Medical and Dental Costs</u> The Children's Basic Health Plan Medical and Dental Costs appropriation covers expenditures for services rendered for CHP+ clients. The cash overexpenditure in the amount of \$0.8 million cash funds occurred as a result of a recoupment for dates of services in a prior fiscal year that the department was not expecting to be made this fiscal year.
- <u>Public School Health Services</u> The Public School Health Services appropriation covers expenditures for Medicaid services provided by school districts. The department believes that the \$0.5 million cash fund overexpenditure is due to unexpected increase in Medicaid utilization. The cash funds within this appropriation are certified as public expenditures incurred by the districts and are eligible for federal financial participation under Medicaid.
- <u>Regional Centers</u> This appropriation line pays for Home and Community Based Services Developmental Disabilities Waiver (HCBS-DD) claims and Intermediate Care Facility (ICF) expenditures for Medicaid

clients in State run Regional Centers. The \$1.5 million general fund overexpenditure is related to both of these activities being higher than expected.

Approved Department of Human Services Overexpenditures Other Than Medicaid Subject to the \$1.0 Million Limit:

• <u>Early Intervention Services</u> – This appropriation covers services for Community Centered Boards (CCB). This \$0.7 million general fund overexpenditure occurred as a result of unanticipated and significant caseload growth during the last quarter of the year, and also the increase in utilization of CCBs conducting birth through two years of age evaluations that local school districts were unable to complete within the required time frame.

Approved State Departments Overexpenditures Subject to the \$3.0 Million Limit:

• None at June 30, 2017

Overexpenditures Not Allowed to Be Approved (Deficit Fund Balances):

- <u>Disaster Emergency Fund</u> The Department of Public Safety had a deficit fund balance in this fund in the amount of \$3.2 million related to the department receiving a large FEMA reimbursement of prior year expenditures therefore a reduction to current year revenue was made to refund the funds back to the Governor's Office that exceeded current year expenditures.
- <u>High Performance Transportation Enterprise</u> The Department of Transportation had a deficit fund balance related to this line item of \$2.0 million. Pursuant to C.R.S. 43-4-806 (4), the Transportation Commission loaned monies to the High Performance Transportation Enterprise. Although there was a positive cash balance in the fund as of fiscal year end, the remaining unpaid loan liability was greater. The deficit this year has decreased from last year's amount of \$2.9 million.
- <u>Aviation Fund</u> The Department of Transportation had a deficit fund balance in this fund in the amount of \$0.7 million related to lower than anticipated tax revenues resulting from low fuel prices. The deficit this year has decreased from last year's amount of \$5.2 million.

The deferral of Medicaid expenditures and revenues for budget purposes only is authorized in CRS 25.5-8-108(5). However, those expenditures are recognized in the current fiscal year for financial statement presentation under Generally Accepted Accounting Principles (GAAP). The recognition of those expenditures on the GAAP basis resulted in fund balance deficits. Because the budget deferral that caused the GAAP deficit fund balance is in compliance with statute, no restriction of Fiscal Year 2017-18 spending authority is recommended. The following cash funds were in deficit fund balance position as a result of Department of Health Care Policy and Financing Medicaid activity as of June 30, 2017:

- Health Care Expansion Fund \$0.4 million
- Hospital Provider Fee Cash Fund \$5.1 million
- Medicaid Buy-In Cash Fund \$0.2 million

A separately issued report comparing line item expenditures to authorized budget is available upon request from the Office of the State Controller.

## B. TAX, SPENDING, AND DEBT LIMITATIONS

Certain State revenues, primarily taxes and fees, are limited under Article X, Section 20 (TABOR) of the State Constitution. Growth in these revenues from year to year is limited to the rate of population growth plus the rate of inflation. The TABOR section of the State Constitution also requires voter approval for any new tax, tax rate increase, or new debt. These limitations apply to the State as a whole, not to individual funds, departments, or agencies of the State. Government run businesses accounted for as enterprise funds that have the authority to issue bonded debt and that receive less than ten percent of annual revenues from the State and its local governments are exempted from the TABOR revenue limits.

In the 2005 general election, voters approved Referendum C, a statutory measure referred to the ballot by the Legislature that authorized the State to retain revenues in excess of the limit for the five fiscal years from 2005-06 through 2009-10. With the end of the Referendum C five-year excess revenue retention period, the State is subject to an Excess State Revenue Cap (ESRC) which began in Fiscal Year 2010-11. Calculation of the original TABOR limit continues to apply, but the ESRC replaces the previous TABOR limit for triggering taxpayer refunds. The beginning base for the ESRC was the highest adjusted TABOR revenue during the five-year period, which occurred in Fiscal Year 2007-08.

In Fiscal Year 2014-15 a TABOR refund was due to taxpayers. Revenue subject to TABOR that year was \$12,530.8 million, which exceeded the ESRC of \$12,361.0 million by \$169.7 million. The total refund payable triggered by the excess revenue was \$169.7 million plus \$3.6 million of understated and un-refunded amounts from prior years, or \$173.3 million. Since Fiscal Year 2014-15, various corrections to revenue for that year have resulted in a \$14.2 million reduction in the amount originally calculated. Since Fiscal Year 2014-15, \$137.3 million of refunds have been issued, and at the end of Fiscal Year 2016-17 the remaining amount payable to taxpayers is \$21.8 million.

Revenue in Fiscal Year 2016-17 subject to the ESRC was \$12,891.7 million, which is \$436.2 million under the \$13,327.8 million ERSC, and \$2,130.0 million over the original TABOR limit.

Since the inception of Referendum C in Fiscal Year 2005-06 the State has retained \$16,903.4 million (unadjusted for prior year errors) - \$3,593.6 million during the initial five year revenue retention period, and an additional \$13,309.8 million as a result of the higher ESRC limit in Fiscal Years 2010-11 through 2016-17.

TABOR requires the State to reserve three percent of fiscal year nonexempt revenues for emergencies. In Fiscal Year 2016-17 that amount was \$386.7 million.

At June 30, 2017, the financial net positions, or fund balances of the following funds, were applied to the reserve, up to the limits set in the Long Appropriations Act:

- Major Medical Fund, a portion of the nonmajor Labor Fund \$83,000,000 set in the Long Appropriations Act. Only \$78,401,470 of this fund's balance was restricted since, at June 30, 2017 its net assets were less than \$83 million. The assets restricted were net cash of \$66,645,034 and investments, excluding unrealized gains, of \$11,756,436.
- Wildlife Cash Fund, a portion of the nonmajor Parks and Wildlife Enterprise Fund \$34,000,000.
- Perpetual base account of the Severance Tax Fund, a portion of the major Resource Extraction Fund \$33,000,000.
- Colorado Water Conservation Board Construction Fund, a portion of the major Resource Extraction Fund \$33,000,000.
- Controlled Maintenance Trust Fund, a portion of the major General Fund \$68,328,000 set in the Long Appropriations Act. Only \$49,967,282 of this fund's net assets were restricted, all of it cash, since at June 30, 2017 its net assets were less than \$68,328,000. During the fiscal year, \$20,125,000 was transferred from the Controlled Maintenance Trust Fund to the Disaster Emergency Fund, through four executive orders, to pay for the costs of fighting wildfires across the State.
- Unclaimed Property Tourism Promotion Trust Fund, a portion of the nonmajor Private Purpose Trust Fund \$5,000,000.
- The 2016 legislative session Long Appropriations Act designated up to \$142,272,000 of State properties as the remainder of the emergency reserve.

The estimate of the needed reserve was based on the December 2016 revenue estimate prepared by the Legislative Council. Because the revenues subject to the TABOR reserve requirement were more than estimated and designated in the Long Appropriations Act, or available in the designated funds as detailed above, the amount restricted for the reserve was \$11,108,952 less than required by the State Constitution. In the event of an emergency that exceeded the financial assets in the reserve, the designated Wildlife Cash Fund capital assets and general capital assets would have to be liquidated to meet the constitutional requirement.

## NOTE 3 – CASH AND RECEIVABLES

## CASH AND POOLED CASH

#### **Primary Government**

The State Treasury acts as a bank for all State agencies, with the exception of the University of Colorado. Moneys deposited in the Treasury are invested until the cash is needed. Interest earnings on these investments are credited to the General Purpose Revenue Fund unless a specific statute directs otherwise. Most funds are required to be invested in noninterest bearing warrants of the General Purpose Revenue Fund if the General Purpose Revenue Fund overdraws its rights in the pool. This means that under certain conditions participating funds would not receive the interest earnings to which they would otherwise be entitled. The detailed composition of the Treasury pooled cash and investment is shown in the annual Treasurer's Report. Where a major fund or fund category has a cash deficit, that deficit has been reclassified to an interfund payable to the General Purpose Revenue Fund – the payer of last resort for the pool.

State agencies are authorized by various statutes to deposit funds in accounts outside the custody of the State Treasury. Legally authorized deposits include demand deposits and certificates of deposit. The State's cash management policy is to invest all significant financial resources as soon as the moneys are available within the banking system. To enhance availability of funds for investment purposes, the State Treasurer uses electronic funds transfers to move depository account balances into the Treasurer's pooled cash.

Colorado statutes require protection of public moneys in banks beyond that provided by the federal insurance corporations. The Public Deposit Protection Act in Colorado Revised Statutes 11-10.5-107(5) requires all eligible depositories holding public deposits, including those of the State's component units, to pledge designated eligible collateral having market value equal to at least 102 percent of the deposits exceeding the amounts insured by federal insurance. Upon liquidation of a defaulting eligible depository, the statute requires the banking board to seize the eligible collateral, liquidate the collateral, and repay the public deposits to the depositing government.

Including restricted amounts and fiduciary funds, the Cash and Pooled Cash line on the financial statements includes \$6,632.4 million (\$6,635.7 million at amortized cost) of claims of the State's funds on moneys in the Treasurer's pooled cash.

At June 30, 2017, the treasurer had invested \$6,770.2 million (fair value) of the pool and held no certificates of deposit.

The State had an accounting system cash deposit balance of \$1,466.2 million in the Treasurer's pool as of June 30, 2017. Under the GASB Statement No. 40 definitions, \$54.5 million of the State's total bank balance of \$1,522.3 million was exposed to custodial credit risk because the deposits were uninsured and the related collateral was held by the pledging institution or was held by the pledging institution's trust department or agent, but not in the State's name.

#### **Component Units**

The Colorado Water Resources and Power Development Authority had cash deposits of \$1.2 million with bank balances of \$1.2 million at December 31, 2016. Of the booked amount, \$250,000 was federally insured. The Authority also reported as cash and cash equivalents \$29.0 million held by the State Treasurer, \$291.5 million held in COLOTRUST (Colorado Local Government Liquid Asset Trust) and \$19.3 million held in a third party, short-term, prime investment fund. COLOTRUST is a local government investment vehicle that qualifies as 2a7-like investment pool, where the value of each share is maintained at \$1.00. COLOTRUST and the third party investment fund have credit quality ratings of AAA, while cash held by the State Treasurer is not rated for credit quality.

## NONCASH TRANSACTIONS IN THE PROPRIETARY FUND TYPES

In the proprietary fund types, noncash transactions occur that do not affect the fund-level *Statement of Cash Flows* – *All Proprietary Funds*. These transactions are summarized at the bottom of the fund-level statement and the related combining statements. In order for a transaction to be reported as noncash, it must affect real accounts (that is, accounts shown on the *Statement of Net Position*) and be reported outside of the Cash Flows from Operating

Activities section of the *Statement of Cash Flows*. The following general types of transaction are reported as noncash:

- Capital Assets Funded by the Capital Projects Fund Most capital construction projects funded by generalpurpose revenues are accounted for in the Capital Projects Fund. Several of the State's enterprise and internal service funds receive capital assets funded and accounted for in this manner. These funds record Capital Contributions when the asset is received, and no cash transaction is reported on the *Statement of Cash Flows*. Higher Education Institutions and certain State agencies are authorized to move general revenue cash of the Capital Projects Fund to the enterprise or internal service fund for capital projects; when this occurs, a cash transaction is reported on the *Statement of Cash Flows*.
- Donations or Grants of Capital Assets Capital assets received as donations or directly as grants are reported as capital contributions, and no cash transaction is reported on the *Statement of Cash Flows*. Although no cash is received, these transactions change the capital asset balances reported on the *Statement of Net Position;* therefore, they are reported as noncash transactions.
- Unrealized Gain/(Loss) on Investments Nearly all proprietary funds record unrealized gains or losses on the investments underlying the Treasurer's pooled cash in which they participate. The unrealized gains or losses on the Treasurer's pool are shown as increases or decreases, respectively, in cash balances. The unrealized gains or losses on investments not held in the Treasurer's pooled cash result in increases or decreases in investment balances, and therefore, are reported as noncash transactions. The unrealized gain/loss schedule in Note 4 shows the combined effect of these two sources of unrealized gains or losses.
- Loss on Disposal of Capital and Other Assets When the cash received at disposal of a capital or other asset is less than the carrying value of the asset, a loss is recorded. The loss results in a reduction of the amount reported for capital or other assets on the *Statement of Net Position*, but since no cash is exchanged for the loss amount, this portion of the transaction is reported as noncash.
- Amortization of Debt Related Amounts Amortization of bond premiums, discounts, and gain/(loss) on refunding adjusts future debt service amounts shown for both capital and noncapital financing activities. These transactions change the amount of capital or noncapital debt reported on the *Statement of Net Position*. Since no cash is received or disbursed in these transactions, they are reported as noncash.
- Assumption of Capital Lease Obligation or Mortgage Although no cash is exchanged, entering a capital lease or mortgage changes both the capital asset and the related liability balances reported on the *Statement of Net* Position. Therefore, these transactions are reported as noncash.
- Financed Debt Issuance Costs When costs of debt issuance are financed by and removed from the debt proceeds, the State reports a noncash transaction.
- Fair Value Change in Derivative Instrument When the State enters into a derivative instrument that qualifies as a hedge and has reported a deferred inflow or deferred outflow, the *Statement of Net Position* also includes a real account, either asset or liability, that is measured at fair value, but does not represent a current cash transaction.

## RECEIVABLES

## **Primary Government**

The Taxes Receivable of \$1,450.9 million shown on the government-wide *Statement of Net Position* in current assets primarily comprises the following:

- \$1,509.5 million in the General Purpose Revenue Fund, mainly self-assessed income and sales tax. This amount includes \$227.0 million of Taxes Receivable expected to be collected after one year that are reclassified on the *Governmental Funds Balance Sheet Reconciled to Statement of Net Position* so they can be reported as Other Long-Term Assets on the government-wide *Statement of Net Position*.
- \$125.3 million of unemployment insurance premiums receivable primarily recorded in the Unemployment Insurance Fund.

• \$33.5 million recorded in nonmajor special revenue funds which include approximately \$12.3 million from gaming tax, \$11.8 million from insurance premium tax, and \$10.9 million from tobacco tax.

The Restricted Receivables of \$587.6 million shown for Governmental Activities on the government-wide *Statement* of Net Position in noncurrent assets related primarily to \$56.6 million of Taxes Receivable, \$47.2 million of Other Receivables, and \$483.7 million of intergovernmental receivables recorded in the Highway Users Tax Fund and State Highway Fund. All three items were reported as Restricted Receivables because the State Constitution and federal requirements restrict that portion of the Highway Users Tax Fund and State Highway Fund. The tax receivable was primarily fuel taxes while the intergovernmental receivable was primarily due from the federal government.

The Other Receivables of \$1,208.1 million shown on the government-wide *Statement of Net Position* are net of \$251.3 million in allowance for doubtful accounts and primarily comprise the following:

- \$614.6 million of receivables recorded in the General Fund, of which \$17.3 million is from interest receivable on investments. The Department of Health Care Policy and Financing also recorded receivables of \$651.0 million related primarily to rebates from drug companies and overpayments to healthcare providers, and the Colorado Mental Health Institutes recorded \$3.7 million of patient receivables.
- \$438.1 million of student and other receivables of Higher Education Institutions.
- \$76.1 million recorded by Other Governmental Funds includes \$40.2 million of tobacco settlement revenues expected within the following year and \$7.8 million of rent and royalty receivables recorded by the State Lands Fund.
- \$21.5 million recorded by the Resource Extraction Fund.

### **Component Units**

The Colorado Water Resources and Power Development Authority had loans receivable of \$922.5 million at December 31, 2016. During 2016, the Authority made new loans of \$132.6 million and canceled or received repayments for existing loans of \$101.1 million.

University of Colorado Foundation contributions receivable of \$46.2 million and \$76.7 million are reported as Contributions Receivable current and noncurrent, respectively, in the *Statement of Net Position – Component Units*. At June 30, 2017, the amount reported as contributions receivable totals \$135.6 million of unconditional promises to give which were offset by a \$10.4 million allowance for uncollectible contributions and a \$2.3 million unamortized pledge discount using discount rates ranging from 0.41 percent to 4.96 percent.

At June 30, 2017, Contributions Receivable for the Colorado State University Foundation included contributions of \$87.7 million, which were offset by \$4.9 million of unamortized pledge discounts calculated using the five-year U.S. Treasury note rate and \$2.2 million of allowance for uncollectible pledges. At June 30, 2017, contributions from two donors represented approximately 50 percent of net contributions receivable for the foundation.

At June 30, 2017, the combined current and noncurrent Contributions Receivable amount shown for the Colorado School of Mines Foundation of \$23.7 million was offset by \$2.2 million of allowance for uncollectible pledges and unamortized pledge discounts. Approximately 58 percent of the foundation's contributions receivable at June 30, 2017, consists of a pledge from one donor and approximately \$2.9 million is due from trusts held by others.

At June 30, 2017, combined current and noncurrent Contributions Receivable for the University of Northern Colorado Foundation was \$5.1 million. It was offset by \$0.1 million of allowance for uncollectible pledges and unamortized pledge discounts. Approximately 67 percent of the foundation's contributions receivable at June 30, 2017 consists of pledges from two donors and approximately 52 percent of its contributions for the year are from four donors.

## **INVENTORIES**

Inventories of \$113.3 million shown on the government-wide *Statement of Net Position* at June 30, 2017, primarily comprise:

- \$66.4 million of resale inventories, of which, Resource Extraction recorded \$35.1 million, and Higher Education Institutions recorded \$27.8 million, and
- \$23.4 million of consumable supplies inventories, of which, \$10.9 million was recorded by the Higher Education Institutions, \$9.1 million was recorded by the Highway Users Tax Fund, \$2.2 million by the General Purpose Revenue Fund, and \$0.7 million by Parks and Wildlife, a nonmajor enterprise fund, and
- \$16.9 million of manufacturing inventories recorded by Correctional Industries, a nonmajor enterprise fund.

## PREPAIDS, ADVANCES, AND DEPOSITS

Prepaids, Advances, and Deposits of \$103.7 million shown on the government-wide *Statement of Net Position* are primarily general prepaid expenses. The significant items include:

- \$17.3 million advanced to Colorado counties by the General Purpose Revenue Fund primarily related to social assistance programs.
- \$16.1 million in advances to Colorado cities and special districts by the Division of Homeland Security and Emergency Management.
- \$15.2 million advanced to conservation organizations by the Department of Natural Resources from the Species Conservation Fund, a portion of the Resource Extraction Fund.
- \$13.1 million prepaid by Higher Educational Institutions, of which \$7.2 million primarily related to cash payments for library subscriptions at Colorado State University.
- \$4.5 million of prize expense paid by the Colorado Lottery to a multistate organization related to participation in the Powerball lottery game.

## **OTHER LONG-TERM ASSETS**

The \$744.3 million shown as Other Long-Term Assets on the government-wide *Statement of Net Position* is primarily long-term taxes receivable and long-term loans. Long-term taxes receivable of \$227.0 million recorded in the General Purpose Revenue Fund are not included as Other Long-Term Assets on the *Balance Sheet – Governmental Funds* but are shown in Taxes Receivable.

The \$387.1 million of Other Long-Term Assets shown on the fund-level *Balance Sheet – Governmental Funds* is primarily related to loans issued by the Highway Users Tax Fund (\$9.8 million), a major special revenue fund, and the Resource Extraction Fund (\$350.8 million), a major special revenue fund. This balance primarily comprises water loan activity. The Water Conservation Board makes water loans from the Water Projects Fund, part of the Resource Extraction Fund, to local entities for the purpose of constructing water projects in the State.

The water loans are made for periods ranging from 10 to 30 years. Interest rates range from 2 to 6 percent for most projects, and they require the local entities or districts to make a yearly payment of principal and interest.

The \$129.4 million shown as Other Long-term Assets on the *Statement of Net Position – Proprietary Funds* is primarily student loans issued by Higher Education Institutions but also includes livestock.

## **NOTE 4 – INVESTMENTS**

#### **Primary Government**

The State holds investments both for its own benefit and as an agent for certain entities as provided by statute. The State does not invest its funds with any external investment pool. Funds not required for immediate payment of expenditures are administered by the authorized custodian of the funds or pooled and invested by the State Treasurer. The fair value of most of the State's investments are determined from quoted market prices except for money market investments that are reported at amortized cost, which approximates market.

Colorado Revised Statutes 24-75-601.1 authorizes the types of securities in which public funds of governmental entities, including State agencies, may be invested. Investments of the Public Employees Retirement Association discussed in Note 6 and other pension funds are not considered public funds. In general, the statute allows investment in Certificates of Participation related to a lease or lease purchase commitment, local government investment pools, repurchase and reverse repurchase agreements (with certain limitations), securities lending agreements, corporate or bank debt securities issued by or fully guaranteed investment or interest contracts including annuities and funding agreements, securities securities issued by the United States Treasury or certain federal entities and the World Bank, inflation indexed securities issued by the United States Treasury, general obligation and revenue debt of other states in the United States and their political subdivisions (including authorities), or registered money market funds with policies that meet specific criteria.

The statute establishes high minimum credit quality ratings by at least two national rating agencies for most investment types. That statute also sets maximum time to maturity limits, but allows the governing body of the public entity to extend those limits. Public entities may also enter securities lending agreements that meet certain requirements. The statute prohibits investment in subordinated securities and securities that do not have fixed coupon rates unless the variable reference rate is a United States Treasury security with maturity less than one year, the London Interbank Offer Rate, or the Federal Reserve cost of funds rate. The above statutory provisions do not apply to the University of Colorado.

Colorado Revised Statutes 24-36-113 authorizes securities in which the State Treasurer may invest and requires prudence and care in maintaining investment principal and maximizing interest earnings. In addition to the investments authorized for all public funds, the State Treasurer may invest in securities of the federal government and its agencies and corporations without limitation, asset-backed securities, certain bankers' acceptances or bank notes, certain commercial paper, certain international banks, certain loans and collateralized mortgage obligations and certain debt obligations backed by the full faith and credit of the state of Israel. The Treasurer's statute also establishes credit quality rating minimums specific to the Treasurer's investments. The Treasurer's statute is the basis for a formal investment policy published on the State Treasurer's website. In addition to the risk restrictions discussed throughout this Note 4, the Treasurer's investment policy precludes the purchase of derivative securities.

The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments held in more than one fiscal year and sold in the current year were included as a change in the fair value of investments in those prior periods. In Fiscal Year 2016-17, the State Treasurer realized gains from the sale of investments held for the Public School Permanent Fund of \$4.6 million, for the Unclaimed Property Tourism Trust Fund of \$356,670 and for the Major Medical Fund of \$77,374. For the Treasurer's pooled cash fund, the State Treasurer realized a gain from the sale of investments of \$99,865.

The State Treasurer maintains an agency fund for the Great Outdoors Colorado Program (GOCO), a related organization. At June 30, 2017 and 2016, the treasurer had \$78.4 million and \$85.9 million at fair value, respectively, of GOCO's funds on deposit and invested.

The investment earnings of the Unclaimed Property Tourism Trust Fund, a nonmajor special revenue fund, are assigned by law to the Colorado Travel and Tourism Promotion Fund, a nonmajor special revenue fund, to the State Fair, a nonmajor enterprise fund, and to the Agriculture Management Fund, a nonmajor special revenue fund.

As provided by State statute, the State Treasurer held \$8.6 million of investment in residential mortgages by paying the property taxes of certain elderly State citizen homeowners that qualify for the program. The investment is valued based on the outstanding principal and interest currently owed to the State as there is no quoted market price for these investments.

The State Treasurer held Colorado Housing and Finance Authority bonds, a related party, totaling \$4.3 million as of June 30, 2017. See Note 18 for additional details.

Excluding fiduciary funds, the State recognized \$1,489,159 of net realized gains from the sale of investments held by State agencies other than the State Treasurer during Fiscal Year 2016-17.

The following schedule reconciles deposits and investments to the financial statements for the primary government including fiduciary funds:

(Amounts in Thousands)				
Footnote Amounts	Carrying Amount

Total	\$	19,595,880		

## **Custodial Credit Risk**

The State Treasurer's investment policy requires all securities to be held by the State Treasurer or a third party custodian designated by the Treasurer with each security evidenced by a safekeeping receipt. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the State's name, and are held by either the counterparty to the investment purchase or are held by the counterparty's trust department or agent but not held in the State's name.

Open-end mutual funds and certain other investments are not subject to custodial risk because ownership of the investment is not evidenced by a security. The following table lists the investments of the State Treasurer's pooled cash, major governmental funds, and nonmajor governmental funds in aggregate, by investment type at fair value.

The *Other* category of the General Fund comprises the issuance trustee's deposit of proceeds from Certificates of Participation issued for local school district capital construction under the Build Excellent Schools Today (BEST) program. The \$5.5 million is reported in the Public School Buildings Fund, a Special Purpose General Fund. Certain trustees have selected the State Treasurer's pool as their primary investment vehicle. The Treasurer accounts for the trustees' deposits in agency funds, and the investment types and related risks are disclosed through the Treasurer's pool investments. The Other category of the Treasurer's pool primarily consists of World Bank supranational loans for \$684.5 million. The *Other* category of the Other Governmental funds comprises the issuance trustees' deposit of unexpended proceeds from Certificates of Participation issued for BEST issuances (\$79.4 million) reported in the Debt Service Fund, an Other Governmental Fund and \$3.2 million related to investments in the Public School Fund.

None of the securities listed in the table below are subject to custodial credit risk:

				(Amounts	in Thous	sands)		
				Governme	ental Ac	tivities		
	-	Treasurer's Pool	Ģ	General Fund	Go	Other Governmental		Total
INVESTMENT TYPE								
U.S. Government Securities	\$	2,087,279	\$	-	\$	310,441	\$	2,397,720

The following table lists the investments of the major enterprise funds, nonmajor enterprise funds in aggregate, and fiduciary funds by investment type at fair value. Investment types included in the *Other* category for Higher Education Institutions primarily consist of: a variety of investments held by the University of Colorado Foundation (\$391.7 million), the Colorado State University Foundation (\$13.6 million), and the Colorado School of Mines Foundation (\$34.4 million); money market funds (\$362.2 million); equity trusts (\$346.5 million); fixed income trusts (\$42.9 million); municipal bonds and securities (\$16.7 million) and other investments (\$17.6 million).

The *Other* category of the Other Enterprise funds primarily comprises the Bridge Enterprise trustee's holdings that include unexpended proceeds of \$18.3 million from prior years of bond issuances.

The table below also shows the fair value of securities held by these funds that are subject to custodial credit risk.

## **Credit Quality Risk**

Credit quality risk is the risk that the issuer or other counterparty to a debt security will not fulfill its obligations to the State. This risk is assessed by nationally recognized rating agencies, which assign a credit quality rating for many investments. Credit quality ratings for obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not reported. However, credit quality ratings are reported for obligations of U.S. Government agencies that are not explicitly guaranteed by the U.S. Government.

The State Treasurer's formal investment policy requires that eligible securities have a minimum of two acceptable credit quality ratings – one of which must be from either Moody's or Standard & Poor's rating agency and the other which may be from the Fitch rating agency or another nationally recognized rating agency. The policy sets acceptable credit quality ratings by investment portfolio and investment type.

The fair value amount of rated and unrated debt securities is detailed in the following table by the lowest known credit quality rating, which shows the Treasurer's Pooled Cash Investments, Higher Education Institutions, Fiduciary Funds, and All Other Funds in the aggregate. The credit quality ratings shown are Moody's, Standard and Poor's, and Fitch, respectively.

In addition to the amounts shown in the following table:

Certain trustees, as discussed under Custodial Credit Risk, have selected the State Treasurer's pool as their primary investment vehicle. The Treasurer accounts for the trustees' deposits in agency funds, and the investment types and related risks are disclosed through the Treasurer's pool investments.

## **Interest Rate Risk**

Interest rate risk is the risk that changes in the market rate of interest will adversely affect the value of an investment. The State manages interest rate risk using either weighted average maturity or duration. Weighted average maturity is a measure of the time to maturity, measured in years, that has been weighted to reflect the dollar size of individual investments within an investment type. Various methods are used to measure duration; in its simplest form, duration is a measure, in years, of the time-weighted present value of individual cash flows from an investment divided by the price of the investment.

The University of Colorado operates a treasury function separate from the State Treasurer and uses duration to measure and manage interest rate risk for most of its investments. However, University Physicians Incorporated, a blended component unit of the University of Colorado, manages interest rate risk using weighted average maturity and limits the time to maturity of individual investments to no more than ten years, based on the credit quality rating.

State statute requires the State Treasurer to formulate investment policies regarding liquidity, maturity, and diversification for each fund or pool of funds in the State Treasurer's custody. The State Treasurer's formal investment policy requires a portion of the investment pool to have a maximum maturity of one year and the balance of the pool to have maximum maturity of five years. The policy also sets maturity limits for the Unclaimed Property Tourism Promotion Trust Fund (1 - 30 years).

The CollegeInvest program has investments reported in the College Savings Plan, a Private Purpose Trust Fund. CollegeInvest uses duration to manage the interest rate risk of selected mutual funds in the College Savings Plan. CollegeInvest's Private Purpose Trust Fund holds inflation protected bond mutual funds for \$269.7 million with a duration of 8.3 years and a short-term inflation protected securities index fund for \$70.2 million with a duration of 2.6 years. These

securities are excluded from the duration table on the following page because interest rate risk is effectively mitigated by the inflation protection attribute of the funds.

The following table shows the weighted average maturity and fair value amount for those investments managed using the weighted average maturity measure.

	Treasu Poo		Higher Education Institutions			Fiduciary Funds				All Other Funds

#### (Dollar Amounts in Thousands, Weighted Average Maturity in Years)

The University of Colorado manages interest rate risk in its Treasurer's pool using a measure of duration. The University's Investment Advisory Committee recommends limits on the duration of fixed income securities using Callan Associates Incorporated data.

The University of Colorado holds repurchase agreements of \$20.2 million to provide temporary investment of funds restricted for capital construction projects. The repurchase agreements are over-collateralized and the counterparty to the agreements is required to provide additional collateral should the market value of securities held as collateral decline below 104 percent for U.S. Treasuries and GNMA obligations or 105 percent for FHLMC and FNMA obligations. As a result, the University does not have interest rate risk associated with these agreements. The \$20.2 million is not shown in the following duration table, however, the duration associated with the repurchase agreements is 1.495 years.

Certain trustees, as discussed under Custodial Credit Risk, have selected the State Treasurer's pool as their primary investment vehicle. The Treasurer accounts for the trustees' deposits in agency funds, and the investment types and related risks are disclosed through the Treasurer's pool investments. The trustees' investment in the pool is not segregated, but is a share in the overall pool.

The table below presents the fair value amount and duration measure for State agencies that manage some or all of their investments using the duration measure.

(Dollar Amounts in Thousands, Duration in Years)

	Fair Value Amount	Duration

### **Foreign Currency Risk**

State statute requires the State Treasurer to invest in domestic fixed income securities and does not allow foreign currency investments.

#### **Concentration of Credit Risk**

The State Treasurer's formal investment policy sets minimum and maximum holding percentages for each investment type for the investment pool and for the Unclaimed Property Tourism Promotion Trust Fund. The pool and the Unclaimed Property Tourism Promotion Trust Fund may be 100 percent invested in U.S. Treasury securities with more restrictive limits (ranging from 5 percent to 80 percent) set for the other allowed investment types. For the pool and the Unclaimed Property Tourism Promotion Trust Fund, the policy sets maximum concentrations in an individual issuer for certain investment types.

#### **Unrealized Gains and Losses**

Unrealized gains and losses are a measure of the change in fair value of investments (including investments underlying pooled cash) from the end of the prior fiscal year to the end of the current fiscal year. With the implementation of GASB Statement No. 54, unrealized gains are not identified as a separate component of fund balance. The following schedule shows the State's net unrealized gains and (losses) for all funds by fund category.

#### (Amounts in Thousands)

#### **Fair Value Measurements**

To the extent available, the State's investments are recorded at fair value as of June 30, 2017. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

<u>Level 1</u> <u>Investments</u> – values are based on quoted prices (unadjusted) for identical assets (or liabilities) in active markets that a government can access at the measurement date.

<u>Level 2</u> Investments with inputs – other than quoted prices included within Level 1 – that are observable for an asset (or liability), either directly or indirectly.

<u>Level 3</u> Investments – classified as Level 3 have unobservable inputs for an asset (or liability) and may require a degree of professional judgment.

(Amounts in Thousands)

The following table summarizes the State's investments within the fair value hierarchy at June 30, 2017:

	(Amountsin mousands)						
			Fair Value Measurements Using				
		air Value as of 6/30/2016 (in thousands)		Quoted prices in active markets for identical assets (Level 1)		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level							
U.S. Government Securities	\$	2,830,639	\$	2,253,061	\$	577,578	\$ -

Total Investments by Fair Value Level	\$	17,352,880	\$	10,559,781	\$	6,046,591	\$ 746,508

#### Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using market prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Below are the primary inputs and valuation techniques used for Level 3 Other - Uncategorized.

#### **Other – Uncategorized Investments**

The Colorado School of Mines and Colorado State University interest in Foundation investments are managed by their respective Foundations on behalf of each institution, and are reflected in each Foundation's Long-term Investment Pool (LTIP). The investments totaling \$34.4 million for the School of Mines and \$13.6 million for Colorado State University represent a share of the Foundation's LTIP and therefore, the institutions do not own any specific investments. As such, the fair value measurements for the investments were reported as Level 3 inputs. The investments are under each Foundation's LTIP policy. This policy requires funds to be managed in a diversified manner to reduce risks with the goal of providing a steady stream of funding. The LTIP must be over a broad investment spectrum in order to create a mix of potential returns that, in the aggregate, would achieve the overall portfolio objectives. This diversification is to ensure that adverse or

unexpected developments arising in one security or asset class will not have a significant detrimental impact on the entire portfolio.

The Treasurer's Pool held investments totaling \$684.5 million representing loans with World Bank discount notes and World Bank's International Bank for Reconstruction and Development.

The State Treasurer had investments totaling \$87.1 million representing Certificates of Participation (COPs) proceeds held by the trustee on behalf of the State. There is no market price associated with these investments. The State Treasurer also had investments totaling \$8.6 million represent taxes paid to counties on behalf of property owners in Colorado. The value shown is the outstanding balance owed to the State at June 30, 2017, and there is no market price associated with these investments.

The valuation of investments measured at the Net Asset Value (NAV) per share (or its equivalent) is presented on the following table.

(Amounts in Thousands)

#### Investments Measured at the Net Asset Value (NAV)

Fixed Income Trust	-	42,923
Equity Trust		346,474
Money Market Funds		362,057
Repurchase agreements		5,165
Guaranteed Investment Contracts		20,226
Total Investments Measured at the NAV	\$	776,845

#### **Component Units**

Component units that are identified as foundations apply neither GASB Statement No. 3 nor GASB Statement No. 40 because they prepare financial statements under standards set by the Financial Accounting Standards Board. Therefore, the foundation investment disclosures are presented separately from the other component units.

#### **Component Units – Non-Foundations**

Except for certain guaranteed investment contracts (which are excluded), the Colorado Water Resources and Power Development Authority's investment policy allows investments consistent with those authorized for governmental entities by State statute as described at the beginning of this Note 4. The Authority's repurchase agreements, which are not held in the Authority's name, were all subject to custodial credit risk because its trustee is considered both the purchaser and custodian of the investments.

The table below reflects the credit quality risk associated with investments of the Colorado Water Resources and Power Development Authority as of December 31, 2016. All existing repurchase agreements specify a collateralization rate between 103 percent and 105 percent. U.S. Treasuries and obligations guaranteed by the U.S. Government that collateralize the repurchase agreements are exempt from credit risk disclosure under GASB 40, therefore a rating agency assessment is not required.

(Amounts in Thousands)

	Carrying Value	Exempt From Disclosure	NSRO Rating
COLOTRUST PLUS	\$ 291,468		AAA
Federated Prime Obligations Fund	19,250		AAA
U.S. Treasury Notes - SLGS	84,041	х	
Repurchase Agreements - Collateralized:			
U.S. Treasuries or Obligations - Guaranteed	13,570	Х	
Government Agencies	 10,070		AAA
Total	\$ 418,399		

The Colorado Water Resources and Power Development Authority manages interest rate risk by matching investment maturities to the cash flow needs of its future bond debt service, and holding those investments to maturity. The Authority had 107.7 million of investments subject to interest rate risk with the following maturities: one year or less – eight percent, two to five years – 31 percent, six to ten years – 28 percent, eleven to fifteen years – 27 percent, and sixteen years or more – six percent.

The Colorado Water Resources and Power Development Authority did not have investments subject to concentration of credit risk, including repurchase agreements that represent five percent or more of total investments. Investments in local government investment pools, money market mutual funds and direct obligations of the U.S. government are exempt from concentration of credit risk disclosure.

The Colorado Water Resources and Power Development Authority had \$19.3 million in investments valued using quoted market prices (Level 1 inputs). Certain investments, such as the Repurchase Agreements, U.S. Treasury Notes, State and Local Government Securities, and COLOTRUST are exempt from being measured at fair value and thus are excluded from the fair value hierarchy.

The Colorado Venture Capital Authority, a nonmajor component unit, holds investments in two limited partnerships, Colorado Fund I, LP and Colorado Fund II, LP, which do not have stated credit ratings. Measured with Net Asset Value, investments in these partnerships were \$50.5 million as of December 31, 2016. The Authority's investment portfolio is exposed to credit and concentration of credit risk as it invests solely in the partnerships in accordance with the partnership agreements and statute. The portfolio is also exposed to interest rate risk as amounts in excess of those required to fund capital contributions under the terms of the funds' partnership agreement are held as bank deposits in a FDIC insured financial institution with the State Treasury. The portfolio is not exposed to custodial or foreign currency risks. The Authority had deposits held by the State Treasury of \$11.6 million. The State Treasurer's pool is reflected in the Primary Government section of this Note 4.

The Denver Metropolitan Major League Baseball Stadium District maintains all of its cash and cash equivalents with one Denver bank and has accounts receivable due from the District's lessee, resulting in a concentration of credit risk with respect to these financial instruments. Management of the District believes its risk of exposure with respect to cash and cash equivalents is adequately covered by the Public Deposit Protection Act (PDPA) and FDIC insurance. Under the provisions of GASB Statement No. 40, deposits collateralized under PDPA are not deemed to be exposed to custodial credit risk. The District's cash deposits had bank balances of \$7.9 million as of December 31, 2016. Since deposits are highly liquid, management of the District believes the interest rate risk associated with its deposits is minimal. The District does not hold any debt securities and therefore is not exposed to credit quality risk.

#### **Component Units – Foundations**

The four Higher Education Institution foundations reported as component units on the *Statement of Net Position – Component Units* do not classify investments according to risk because they prepare their financial statements under standards set by the Financial Accounting Standards Board.

At June 30, 2017, the University of Colorado Foundation held \$354.9 million of domestic equity securities, \$443.2 million of international equity securities, \$205.4 million of fixed income securities and \$653.0 million of alternative investments including real estate, private equities, hedge funds, absolute return funds, venture capital, commodities and other investments. The foundation has adopted FASB guidance in valuing its investments. Ninety percent of the Foundation's alternative investments, or \$587.9 million, are carried at net asset value and do not fall in the fair value hierarchy. See the following table.

	Fair Value Measurements Using								
	Fair Value			Quoted prices in active markets for identical assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)

Total Investments Measured at the NAV		587,884,802
Total Investments	\$	1,735,010,476

The foundation's spending policy allows for the distribution of the greater of 4.0 percent of the current market value of the endowment or 4.5 percent of the endowment's trailing thirty-six month average fair market value. The foundation's investment gain of \$157.1 million is net of \$13.1 million of investment fees and comprises \$18.6 million of interest, dividends and other income, \$41.2 million of realized gains, and \$110.3 million of unrealized gains.

At June 30, 2017, the Colorado State University Foundation held \$211.3 million of equity securities, \$100.3 million of fixed income securities, \$116.7 million of alternative investments (comprising hedge funds and private market investments), and \$44.7 million in cash and other investments.

The Colorado School of Mines Foundation's (CSMF) current spending policy allows 4.5 percent (net of investment and administrative fees and expenses) of the three-year average of investment fair value to be distributed. At June 30, 2017 the CSMF held \$321.4 million of investments consisting of \$291.8 million held as a long-term investment pool, \$11.7 million in beneficial interests in endowments, \$13.8 million in split-interest agreements, and \$4.0 million in gift annuity agreements.

### **TREASURER'S INVESTMENT POOL**

Participation in the State Treasurer's cash/investment pool is mandatory for all State agencies with the exception of Colorado Mesa University, Colorado State University System, Colorado School of Mines, Fort Lewis State College, and the University of Colorado and its blended component units; however, all participate in the Treasurer's Pool with the exception of the University of Colorado. The Treasurer, in consultation with the State's investment custodian, determines the fair value of the pool's investments at each month-end for performance tracking purposes. Short-term realized gains, losses, and interest earnings, adjusted for amortization of investment premiums and discounts, are distributed monthly. If the statutes authorize the participant to receive interest and investment earnings, these gains or losses are prorated according to the average of the participant's daily balance during the month.

### **NOTE 5 – CAPITAL ASSETS**

#### **Primary Government**

During Fiscal Year 2017, the State capitalized \$21.5 million of interest incurred during the construction of capital assets. The majority of this interest was capitalized by Higher Education Institutions in the amount of \$20.9 million, while the remainder was attributable to the Bridge Enterprise Program in the Department of Transportation.

The schedule on the following page shows the capital asset activity during Fiscal Year 2017. The schedule shows that \$417.8 million of construction in progress projects were completed and added to capital assets for Governmental activities, and \$674.6 million of construction in progress were completed and added to capital assets for Business Type activities. These amounts are net of additions.

#### (Amounts in Thousands)

On the government-wide *Statement of Activities*, depreciation was charged to the functional programs and business-type activities as follows:

(Amounts in Thousands)		
GOVERNMENTAL ACTIVITIES		preciation Amount
General Government	\$	46,810
Business, Community and Consumer Affairs		2,579
Education		36,525
Health and Rehabilitation		9,107
Justice		47,470
Natural Resources		2,190
Social Assistance		12,684
Transportation		373,295
Internal Service Funds (Charged to programs and BTAs based on usage)		0
Total Depreciation Expense - Governmental Activities		530,660
BUSINESS-TYPE ACTIVITIES		
Higher Education Institutions		423,358
Other Enterprise Funds		32,286
Unemployment Insurance		2,379
State Lottery		197
Total Depreciation Expense - Business-Type Activities		458,220
Total Depreciation Expense Primary Government	\$	988,880

#### **Component Units**

The Denver Metropolitan Major League Baseball Stadium District, a nonmajor component unit, reported land, land improvements, buildings, and other property and equipment of \$145.8 million, net of accumulated depreciation of \$90.2 million, at December 31, 2016. The district depreciates land improvements, buildings, and other property and equipment using the straight-line method over estimated useful lives that range from 3 to 50 years.

HLC @ Metro, Inc., a nonmajor component unit, reported \$38.4 million of depreciable capital assets net of depreciation. A nondepreciable capital asset for the use of land at below market rent, under an agreement with Metropolitan State University of Denver, carries a value of \$4.8 million.

### NOTE 6 – PENSION SYSTEM AND OBLIGATIONS

### **Defined Benefit Pension Plan**

#### **Summary of Significant Accounting Policies**

The State of Colorado participates in the State Division Trust Fund (SDTF) and the Judicial Division Trust Fund (JDTF), cost-sharing multiple-employer defined benefit pension funds administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SDTF and the JDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### General Information about the Pension Plan

### Plan description

Eligible employees of the State are provided with pensions through the SDTF and the JDTF, cost-sharing multipleemployer defined benefit pension plans administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

#### **Benefits Provided**

PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SDTF or the JDTF.

Disability benefits are available for eligible employees once they reach 5 years of earned service credit and are determined to meet the definition of disability. State Troopers whose disability is caused by an on-the-job injury are immediately eligible to apply for disability benefits and do not have to meet the 5 years of service credit requirement. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled. The 5 year requirement is not applicable to active judges.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

### Contributions

Eligible employees and the State are required to contribute to the SDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees with the exception of State Troopers are required to contribute 8 percent of their PERA-includable salary. The employee contribution requirements for all employees except State Troopers for the SDTF are summarized in the table below:

	Fiscal Ye	ear 2015	Fiscal Y	ear 2016	Fiscal Y	ear 2017
	CY14 CY15		СҮ	16	CY17	
	7-1-14 to 12-31-14	1-1-15 to 6-30-15	7-1-15 to 12-31-15	1-1-16 to 6-30-16	7-1-16 to 12-31-16	1-1-17 to 6-30-17
Employer Contribution Rate <sup>1</sup>	10.15%	10.15%	10.15%	10.15%	10.15%	10.15%

Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S., § 24-51-411 <sup>1</sup>	3.50%	4.00%	4.00%	4.50%	4.50%	5.00%
Total Employer Contribution Rate to the SDTF <sup>1</sup>	16.43%	17.33%	17.33%	18.23%	18.23%	19.13%

<sup>1</sup>Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Eligible employees and the State are required to contribute to the JDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq*. Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements for all employees for the JDTF are summarized in the table below:

	Rates
Employer Contribution Rate <sup>1</sup>	13.66%
Amount of Employer Contribution Apportioned to	
the Health Care Trust Fund as specified in C.R.S. §	
24-51-208(1)(f) <sup>1</sup>	(1.02)%
Amount Apportioned to the JDTF <sup>1</sup>	12.64%
Amortization Equalization Disbursement (AED) as	
specified in C.R.S. § 24-51-411 <sup>1</sup>	2.20%
Supplemental Amortization Equalization	
Disbursement (SAED) as specified in C.R.S. § 24-	
51-411 <sup>1</sup>	1.50%
Total Employer Contribution Rate to the JDTF <sup>1</sup>	16.34%

<sup>1</sup>Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SDTF and the JDTF in the period in which the compensation becomes payable to the member and the State is statutorily committed to pay the contributions to the SDTF and the JDTF. Employer contributions recognized by the SDTF and the JDTF from the State were \$516.9 million and \$7.5 million, respectively, for the year ended June 30, 2017, excluding contributions to the Health Care Trust Fund.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the State reported a liability of \$17.8 billion for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll-forward the total pension liability to December 31, 2016. The State's proportion of the net pension liability was based on the State's contributions to the SDTF and the JDTF for the calendar year 2016 relative to the total contributions of participating employers to the SDTF and the JDTF.

At December 31, 2016, the State's proportion of the SDTF was 95.49 percent, which was a decrease of 0.22 percent, and 94.17 percent of the JDTF, which was in increase of 0.18 percent, from the proportions measured for each pension trust fund as of December 31, 2015. For the year ended June 30, 2017, the State recognized pension expense of \$3.6 billion related to the SDTF and the JDTF combined.

At June 30, 2017, the State reported deferred outflows of resources and deferred inflows of resources for the SDTF related to pensions from the following sources:

	ed Outflows Resources	Deferred Inflows of Resources		
Difference between expected and actual experience	\$ 174,349	\$	-	
Changes of assumptions and other inputs	4,462,363		53,989	
Net difference between projected and actual earnings on pension plan investments	581,464		-	
Changes in proportion and differences between contributions recognized and proportionate share of contributions	87,815		108,818	
Contributions subsequent to the measurement date	262,162		<u> </u>	
	\$ 5,568,153	\$	162,807	

#### (Amounts in Thousands)

\$262.2 million reported as deferred outflows of resources related to pensions for the SDTF, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### (Amounts in Thousands)

\_

Fiscal Year Ended June 30								
2018	\$	2,785,580						
2019		2,190,206						
2020		161,243						
2021		6,155						
2022		-						
Thereafter		-						

At June 30, 2017, the State reported deferred outflows of resources and deferred inflows of resources for the JDTF related to pensions from the following sources:

#### (Amounts in Thousands)

	 d Outflows esources	Deferred Inflow of Resources		
Difference between expected and actual experience	\$ 20,439	\$	-	
Changes of assumptions and other inputs	49,048		2	
Net difference between projected and actual earnings on pension plan investments	11,721		-	
Changes in proportion and differences between contributions recognized and proportionate share of contributions	5,952		_	
Contributions subsequent to the measurement date	5,552		-	
	\$ 92,712	\$	2	

\$5.6 million reported as deferred outflows of resources related to pensions for the JDTF, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

### (Amounts in Thousands)

Fiscal Year Ended June 30					
2018 \$	34,397				
2019	25,916				
2020	18,523				
2021	8,322				
2022	-				
Thereafter	-				

#### **Actuarial Assumptions**

The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

	State Division	Judicial Divison
Actuarial cost method	Entry age	Entry age
Price inflation	2.80 percent	2.80 percent
Real wage growth	1.10 percent	1.10 percent
Wage inflation	3.90 percent	3.90 percent
Salary increases, including wage inflation	3.90 - 9.57 percent	4.40 - 5.40 percent
Long-term investment Rate of Return, net of pension	7.50 percent	7.50 percent
plan investment expenses, including price inflation		
Discount rate	7.50 percent	5.73 percent
Post-retirement benefit increases:		
PERA benefit structure hired prior to 1/1/07; and DPS		
Benefit Structure (automatic)	2.00 percent	2.00 percent
		Financed by the
PERA benefit structure hired after 12/31/06 (ad hoc,	Financed by the Annual	Annual Increase
substantively automatic)	Increase Reserve	Reserve

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

	State Division	Judicial Divison
Actuarial cost method	Entry age	Entry age
Price inflation	2.40 percent	2.40 percent
Real wage growth	1.10 percent	1.10 percent
Wage inflation	3.50 percent	3.50 percent
Salary increases, including wage inflation	3.50 - 9.17 percent	4.00 - 5.00 percent
Long- term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.25 percent	7.25 percent
Discount rate	5.26 percent	5.18 percent
Post- retirement benefit increases: PERA benefit structure hired prior to 1/1/07; and DPS		
Benefit Structure (automatic)	2.00 percent	2.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve	Financed by the Annual Increase Reserve

Mortality rates used in the December 31, 2015 valuation were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

The actuarial assumptions used in the December 31, 2015 valuations for the SDTF and the JDTF were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the SDTF reflect the RP-2014 Healthy Annuitant Mortality Table, and for the JDTF reflect the RP-2014 White Collar Health Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor for the SDTF and a 93 percent factor for the JDTF, applied to rates for ages less than 80, a 108 percent factor for the SDTF and a 113 percent factor for the JDTF applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor for the SDTF and a 68 percent factor for the JDTF applied to rates for ages less than 80, a 109 percent factor for the SDTF and a 106 percent factor for the JDTF applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SDTF and the JDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class for the SDTF and the JDTF are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25% for the SDTF and the JDTF.

### **Discount Rate**

The discount rate used to measure the total pension liability was 5.26 percent for the SDTF and 5.18 percent for the JDTF. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated economic and demographic actuarial assumptions adopted by PERA's Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to

have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR subsequent AIR benefit payments were estimated and included in the projections.

• Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SDTF's and the JDTF's fiduciary net position were projected to be depleted in 2039 and 2036, respectively and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2039 for the SDTF and through 2036 for the JDTF and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2039 for the SDTF and after 2036 for the JDTF to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent for the SDTF and 5.18 percent for the JDTF.

For the SDTF, as of the prior measurement date, the projection test indicated the trust's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate and the discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

For the JDTF, as of the prior measurement date, the long-term expected rate of return on plan investments of 7.50 percent and the municipal bond index rate of 3.57 percent were used in the discount rate determination resulting in a discount rate of 5.73 percent, 0.55 percent higher compared to the current measurement date.

### Sensitivity of the State's proportionate share of the net pension liability to changes in the discount rate

The following table presents the proportionate share of the net pension liability related to the SDTF calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease	Current Discount	1% Increase
	(4.26%)	Rate (5.26%)	(6.26%)
Proportionate share of the net pension liability	\$21,724,340	\$17,539,972	\$14,102,190

The following table presents the proportionate share of the net pension liability related to the JDTF calculated using the discount rate of 5.18 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.18 percent) or 1-percentage-point higher (6.18 percent) than the current rate:

	1% Decrease	Current Discount	1% Increase
	(4.18%)	Rate (5.18%)	(6.18%)
Proportionate share of the net pension liability	\$301,506	\$239,411	\$186,632

### Pension plan fiduciary net position

Detailed information about the SDTF's and the JDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at <u>www.copera.org/investments/pera-financial-reports</u>.

#### **Other Pension Contributions**

The Fire and Police Pension Association (FPPA), a related organization, was established to ensure the financial viability of local government pension plans for police and firefighters. During fiscal year 2016-2017, the Department of Local Affairs transferred \$4.2 million to the association for pension contributions and premiums of the accidental death and disability insurance policy the association provides to volunteer firefighters.

### **Component Units**

Eligible employees of the Colorado Water Resources and Power Development Authority (Authority) are provided pensions through the PERA defined benefit pension plan. The activity and balances related to the Authority's participation in the plan are not included in the preceding note disclosures. Information regarding the Authority's pension plan is available in its separately-issued financial statements. Refer to Note 1 for information on the State's component units.

### NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS AND LIFE INSURANCE

Actuarial valuations of an ongoing OPEB plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information (see Note RSI-3) following the notes to the financial statements, presents multiyear trend information, when available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

#### **Primary Government**

#### PERA Health Care Trust Fund

The PERA Health Care Program is a cost-sharing multiple employer plan. It began covering benefit recipients and qualified dependents on July 1, 1986. This benefit was developed after legislation in 1985 established the Program and the Health Care Fund. Legislation enacted during the 1999 session established the Health Care Trust Fund effective July 1, 1999. Title 24, Article 51, Part 12 of the Colorado Revised Statutes establishes the Fund and authorizes PERA to administer and subsidize a portion of the monthly premium for health care coverage. The benefit recipient pays any remaining amount of that premium through an automatic deduction from the monthly retirement benefit.

Effective July 1, 2000, the maximum monthly subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare, and \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum subsidy is based on the recipient having 20 years of service credit, and is subject to reduction by 5 percent for each year of service less than 20 years.

An additional implicit subsidy exists for participating retirees who have not participated in Social Security and who are not otherwise eligible for Medicare Part A. This occurs because State statute prohibits PERA from charging different rates to retirees based on their Medicare Part A coverage, notwithstanding the premium is calculated assuming that the participants have Medicare Part A coverage. At December 31, 2016, the Health Care Trust Fund had an unfunded actuarial accrued liability of \$1.29 billion, a funded ratio of 17.4 percent, and a 30-year amortization period.

The apportionment of the contribution to the Health Care Trust Fund is established under Title 24, Article 51, Section 208(1)(f) of the Colorado Revised Statutes. Beginning July 1, 2004, the State contribution to the Health Care Trust Fund was 1.02 percent of gross covered wages. The State paid contributions of \$28.7 million, \$28.3 million, \$27.4 million, \$26.8 million, and \$24.9 million in Fiscal Years 2016-17, 2015-16, 2014-15, 2013-14, and 2012-13 respectively. Monthly premium costs for participants depend on the health care plan selected, the PERA subsidy amount, Medicare eligibility, and the number of persons covered. The Health Care Trust Fund offers two general types of plans – fully insured plans offered through healthcare organizations and self-insured plans administered for PERA by third party vendors. In addition, two of PERA's insurance carriers offered health care plans in 2016. As of December 31, 2016, there were 55,789 participants, including spouses and dependents, from all contributors to the plan.

The Health Care Trust Fund began providing dental and vision plans to its participants in 2001. The participants pay the premiums for the coverage, and there is no subsidy provided for the dental and vision plans.

In the December 31, 2016, actuarial valuation, the entry age normal level percentage of pay actuarial cost method allocation basis was used. The actuarial assumptions included a 7.25 percent investment rate of return, and an aggregate 3.50 percent projection of salary increases, both assuming a 2.40 percent inflation rate and real wage growth of 1.10 percent. Medical claims are projected to increase annually by 5.00 percent based on different subsidy and premium options. The UAAL is being amortized as a level percentage of payroll on a level percent

closed and layered basis over 30 years. Except for the discount rate, these assumptions primarily affect plan assets available, rather than the actuarial accrued liability because the benefit is a fixed subsidy amount.

The financial statements for the PERA Health Care Trust Fund can be found within PERA's financial statements as referenced at the beginning of Note 1.

#### University of Colorado - Other Postemployment Benefits Plan

The University Post-Retirement Health Care & Life Insurance Benefits Plan is a single-employer defined benefit healthcare plan administered by the University of Colorado. The University's plan provides medical, prescription drug, dental and life insurance benefits for employees who retire from the University, as well as their spouses, dependents, and survivors. The University's Board of Regents has the authority to establish and amend benefits provisions.

The contribution requirements of plan members and the University are established by the University's Board of Regents. The University's contribution is based on pay-as-you-go financing requirements. For Fiscal Year 2016-17, the University contributed \$14.9 million to the plan. Plan members contributed 0.24 percent of covered payroll (defined as the annual payroll of active employees covered by the plan) and the University contributed 0.93 percent of covered payroll.

The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45 – *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation for the University Post-retirement Health Care & Life Insurance Benefits Plan:

Annual required contribution	\$ 74,105
Interest on net OPEB obligation	13,011
Adjustment to annual required contribution	 (17,750)
Annual OPEB cost (expense)	 69,366
Contributions made	(14,929)
Increase/(Decrease) in net OPEB obligation	54,437
Net OPEB obligation - beginning of year	 289,133
Net OPEB obligation - end of year	\$ 343,570

The University's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the last three fiscal years were as follows:

#### (Amounts In Thousands)

	Percentage of Annual					
		Annual	OPEB		Net	
Fiscal Year		OPEB Cost	Cost Contributed	OPE	BObligation	
2016-17	\$	69,366	21.5%	\$	343,570	
2015-16	\$	61,704	23.3%	\$	289,133	
2014-15	\$	62,461	26.1%	\$	241,779	

As of July 1, 2016, the most recent actuarial valuation date, the plan was 0.0 percent funded. The actuarial accrued liability for benefits was \$625.0 million and the actuarial value of assets was \$0.0 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$625.0 million. The UAAL of the plan exceeds the Net OPEB Obligation (NOPEBO) due to the portion of the UAAL not required to be recognized as NOPEBO at the implementation of GASB Statement No. 45. The covered payroll was \$1.6 billion, and the ratio of UAAL to covered payroll was 38.9 percent. The current valuation was calculated on the basis of the unit credit actuarial cost method. The actuarial assumptions included a 4.5 percent investment rate of return, and health care trend rates ranging from 6.5 to 11.0 percent in 2016, down to 4.5 percent in 2030. The UAAL is being amortized as a level dollar amount on an open basis over 30 years.

### Colorado State University - Other Postemployment Benefits Plans

Colorado State University administers four single employer defined benefit healthcare qualifying trust plans. The Retiree Medical Premium Refund Plan (RMPR) is open to new members and provides a monthly subsidy for medical premiums of up to \$200 per month for employees who retire from the University and are participants in its defined contribution plan. The Retiree Medical Premium Subsidy for PERA Participants Plan (RMPS) is closed to new members and provides a monthly subsidy for medical premiums of up to \$484 (reduced by the amount of premium subsidy provided by PERA) for employees who are PERA participants and retire from the University. The Umbrella RX Plan (URX) closed to new members and supplements prescription benefits provided through PERA for employees with ten or more years of PERA service. The Long-Term Disability Insurance Plan (LTD) is open to new members and provides a monthly income replacement benefit for employees still on disability after the 91<sup>st</sup> consecutive calendar day of total disability. LTD covers a percentage of the monthly salary up to established caps and continues until recovery, death, or until attained age between 65 and 70 years depending on when the employee became disabled. The University's Board of Governors has the authority to establish and amend benefits provisions for all plans.

Colorado State University issues a publicly available financial report that includes financial statements and required supplementary information for all of the plans. That report may be obtained by going to: http://leg.colorado.gov/sites/default/files/documents/audits/1716f-a csu system.pdf

The contribution requirements of all plan members and the University are established by the University's Board of Governors. The required contribution for the RMPR, URX, and LTD plans is set by the University in consultation with outside benefit consultants, underwriters, and actuaries. The subsidy amount under the RMPS increases annually in alignment with the increase in the cost of individual coverage under the lowest cost medical option. For Fiscal Year 2016-17, the University contributed \$1.3 million to the RMPR at a contribution rate of 1.18 percent of covered earnings, \$2.0 million to the RMPS at a 15.09 percent contribution rate, and \$0.2 million to the URX at a 1.83 percent contribution rate. Employees contributed \$1.5 million at a 0.32 percent contribution rate to the LTD plan. Members of the RMPS, RMPR, and URX plans are not required to make contributions, however members of the LTD plan are required to contribute. As of June 30, 2017, RMPR had 4,599 active members, 68 terminated but eligible members, and 384 retired members or beneficiaries receiving benefits; the URX had 172 active members, 172 terminated but eligible members, and 495 retired members or beneficiaries receiving benefits; the URX had 172 active members, 172 terminated but eligible members, and 42 retired members or beneficiaries receiving benefits; the URX had 172 active members, 172 terminated but eligible members, and 42 retired members or beneficiaries receiving benefits; the URX had 172 active members, 172 terminated but eligible members, and 42 retired members or beneficiaries receiving benefits.

All four plans are on a full accrual basis of accounting. Plan assets are recorded at quoted market prices and contributions benefits and refunds are recorded in the month incurred. Administrative costs are financed as direct expenditures of the trust.

CSU's annual OPEB cost and related information for each plan for the fiscal year ended June 30, 2017 are as follows:

		RMPR	RMPS	URX	LTD
Acturial accrued liability (a)	\$	34,491	44,708	3,470	10,190
Acturial value of plan assets (b)		45,363	23,552	737	8,716
Unfunded (overfunded) actuarial accrued	-				
liability (a) - (b)	\$_	(10,872)	21,156	2,733	1,474
Funded ratio (b)/(a)		131.5%	52.7%	21.2%	85.5%
Covered payroll (c)	\$	344,325	N/A	N/A	N/A
Unfunded (overfunded) actuarial accrued liability as a percentage of covered payroll [(a) - (b)]/(c)	Ţ	-3.2%	N/A	N/A	N/A
Contribution rates:					
CSU (through June 27, 2014)		Pay-as-you-go	Pay-as-you-go	Pay-as-you-go	Pay-as-you-go
CSU (subsequent to June 27, 2014)		Based on ARC	Based on ARC	Based on ARC	Based on ARC
Participants		N/A	N/A	\$0-\$99 / month based on eligibility	N/A
Annual required contributions (ARC)	\$	1,296	1,981	240	1,373
Interest on net OPEB obligation	•	-	(44)	7	(330)
Adjustment to ARC		-	64	(10)	206
Annual OPEB cost (d)	_	1,296	2,001	237	1,249
Contributions made (e)		(4,070)	(1,981)	(240)	(1,478)
Increase (decrease) in net OPEB obligation		(2,774)	20	(3)	(229)
Net OPEB obligation (asset) - beginning of year	-	(1)	(839)	128	(6,185)
Net OPEB obligation (asset) - end of year	\$	(2,775)	(819)	125	(6,414)
Percentage of OPEB cost contributed (e)/(d)		314.0%	99.0%	101.3%	118.3%

The RMPR and LTD plans used the entry age normal actuarial cost method, while the RMPS and URX plans use the unit credit method. All four plans used a 5.3 percent investment rate of return, and used a 3 percent inflation adjustment. The LTD plan also assumed a 4 percent salary increase, while the RMPR, RMPS and URX plans did not incorporate that assumption into their analysis because benefits are not based on salary.

The RMPR assumed no health care cost trend adjustment, and RMPS and URX assumed an annual healthcare cost trend initial rate of 7 percent declining to an ultimate rate of 5 percent. The LTD does not use a healthcare trend rate because it provides income replacement not healthcare. The RMPR and LTD plans used a level percentage of projected payroll to amortize the UAAL and the RMPS and URX plans used a level dollar amount. All four plans originally amortized the UAAL over 30 years. Regarding amortization periods, 21 years remain on the closed periods for the RMPS and URX and 30 years remain for the RMPR and LTD open periods.

### Other Programs

The State provides employees with a limited amount of Basic Life and Accidental Death and Dismemberment coverage underwritten by Minnesota Life at no cost to the employee. Through the same company, the State also provides access to group Optional Life and Accidental Death and Dismemberment coverage with premiums paid by the employee.

### **Component Units**

The Colorado Water Resources and Power Development Authority (Authority) contributes to the PERA Health Care Trust Fund discussed above. The activity and balances related to the Authority's participation in the plan are not included in the preceding note disclosures. Information regarding the Authority's other postemployment benefits is available in its separately-issued financial statements. Refer to Note 1 for information on the State's component units.

### **NOTE 8 – OTHER EMPLOYEE BENEFITS**

#### **Primary Government**

### A. MEDICAL AND DISABILITY BENEFITS

The Group Benefit Plans Fund is a Pension and Other Employee Benefits Trust Fund established for the purpose of risk financing employee and state-official medical claims. The fund includes several medical plan options ranging from provider of choice to managed care. The State uses a self-funded approach for certain employee and state-official medical claims. The State's contribution to the premium is subject to appropriation by the legislature each year, and State employees pay the difference between the State's contribution and the premium required to meet actuarial estimates. Since the amount of the State contribution is at the discretion of the legislature, employees ultimately bear the risk of funding the benefit plans.

The premiums, which are based on actuarial analysis, are intended to cover claims, reserves, third party administrator fees, stop-loss premiums and other external administration costs (such as COBRA and case management). Premiums also include a fee to offset the internal costs of administering the plan. Internal costs include developing plan offerings, maintaining the online benefits system, and communicating benefit provisions to employees. Employee healthcare premiums are allowed on a pretax basis under the State's Salary Reduction Plan Document. Effective July 1, 2013, premiums also included a fee to implement a statewide wellness program. During Fiscal Year 2016-17, covered employees who elected to participate in the wellness plan received a monthly health insurance premium credit of \$10 or \$20 depending on the level of participation.

The State offers two statewide, self-funded PPO options administered by United Healthcare and two regional, fullyinsured HMO options administered by Kaiser Permanente. Two of these medical options were HSA-qualified highdeductible health plans (HDHPs). Two statewide, dental PPO options administered by Delta Dental were also offered.

The Public Employees Retirement Association (PERA) covers short-term disability claims for State employees eligible under its retirement plan (see Note 6). The Group Benefit Plans Fund provides short-term disability coverage for employees not yet qualified for the retirement plan and secondary benefits for employees also covered under the PERA short-term disability plan.

The Group Benefit Plans short-term disability program provides an employee with 60 percent of their pay beginning after 30 days of disability or exhausting their sick leave balance, whichever is later. This benefit expires six months after the beginning of the disability.

### **B. EMPLOYEE DEFERRED COMPENSATION PLAN**

The PERA Deferred Compensation Plan (457) was established July 1, 2009, as a continuation of the State Deferred Compensation Plan which was established for State and local government employees in 1981. At July 1, 2009, the State's administrative functions were transferred to PERA in a fiduciary to fiduciary transfer; all costs of administration and funding are borne by the plan participants. The 457 plan allows for voluntary participation to provide additional benefits at retirement, and all employees may contribute to the 457 plan. At conversion, State employees were the primary participants in the 457 plan. In calendar year 2016, participants were allowed to make contributions of up to 100 percent of their annual gross salary (reduced by their 8 percent PERA contribution, which was restored from the temporary increase to 10.5 percent for Fiscal Years 2010-11 and 2011-12) to a maximum of \$18,000. Participants who are age 50 and older, and contributing the maximum amount allowable, could make an additional \$6,000 in 2015, for total contributions of \$24,000. Contributions and earnings are tax deferred. At December 31, 2016, the plan had net position of \$751.7 million and 17,921 participants.

### C. OTHER RETIREMENT PLANS

### PERA 401k Plan

The Public Employees' Retirement Association (PERA) offers a voluntary 401(k) plan entirely separate from the 457 plan, the defined contribution plan, and the defined benefit plan. Title 24, Article 51, Part 14 of the Colorado Revised Statutes, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. In calendar

year 2016, PERA members were allowed to make contributions of up to 100 percent of their annual gross salary (reduced by their 8 percent PERA contribution, which was restored from the temporary increase to 10.5 percent for Fiscal Years 2010-11 and 2011-12) to a maximum of \$18,000. Participants who are age 50 and older, and contributing the maximum amount allowable, could make an additional \$6,000 in 2016, for total contributions of \$24,000. Contributions and earnings are tax deferred. On December 31, 2016, the plan had net position of \$2,829.7 million and 68,752 accounts.

### PERA Defined Contribution Retirement Plan

The PERA Defined Contribution Retirement Plan was established January 1, 2006, as an alternative to the defined benefit plan. All employees, with the exception of certain higher education employees, have the option of participating in the plan. On July 1, 2009, administration of the State's defined contribution plan was transferred to PERA and participants of the State's plan became participants of the PERA defined contribution plan. Existing State plan members at the time of the transfer became participants in the PERA defined contribution plan and retained their vesting schedule for employer contributions, while employer contributions for new members will vest from 50 percent to 100 percent evenly over 5 years. Title 24, Article 51, Part 15 of the Colorado Revised Statutes, assigns the authority to establish Plan provisions to the PERA Board of Trustees.

Contribution requirements are established under Title 24, Article 51, Section 1505 of the Colorado Revised Statutes. Participants in the plan are required to contribute 8 percent (10 percent for State troopers) of their salary. The contribution rate was restored from the temporary increase in Fiscal Years 2010-11 and 2011-12 to 10.5 percent (12.5 percent for State Troopers). Additionally, the State of Colorado is required to contribute AED and SAED to the State Division as shown in the following table. The rates in the following table are expressed as a percentage of salary as defined in Title 24, Article 51, Section 101 (42) of the Colorado Revised Statutes.

[	Fiscal Year 2014		Fiscal Year 2015		Fiscal Y	ear 2016
	CY14	CY	/15	CY	/16	CY17
	7-1-14 to	1-1-15 to	7-1-15 to	1-1-16 to	7-1-16 to	1-1-17 to
	12-31-14	6-30-15	12-31-15	6-30-16	12-31-16	6-30-17
Amortization Equalization						
Disbursement (AED) as						
specified in C.R.S., Section 24-51-						
411	3.80%	4.20%	4.20%	4.60%	4.60%	5.00%
Supplemental Amortization						
Equalization Disbursement						
(SAED) as specified in C.R.S.,						
Section 24-51-411	3.50%	4.00%	4.00%	4.50%	4.50%	5.00%
Total Employer Contribution						
Rate to the State Division	7.30%	8.20%	8.20%	9.10%	9.10%	10.00%

Participating employees of the PERA defined contribution plan are immediately vested in their own contributions and investment earnings and are immediately 50 percent vested in the amount of employer contributions made on their behalf. For each full year of participation, vesting of employer contributions increases by 10 percent. Forfeitures are used to pay expenses of the PERA defined contribution plan in accordance with PERA Rule 16.80 as adopted by the PERA Board of Trustees in accordance with Title 24, Article 51, Section 204 of the Colorado Revised Statutes. As a result, forfeitures do not reduce pension expense. At December 31, 2016, the plan had a net position of \$167.4 million and 5,761 participants.

The financial statements for the PERA Deferred Compensation Plan, the PERA 401k Plan, and the PERA Defined Contribution Plan can be found within PERA's financial statements as referenced at the beginning of Note 6.

### Higher Education Optional Retirement Plans

Legislation in 1992 authorized State institutions of higher education the option of offering other retirement plans to their employees. At that time, certain employees had the choice of retaining their membership in PERA. As a result of the legislation, some employees of various institutions may be covered under defined contribution plans such as the Teachers Insurance and Annuity Association-College Retirement Equities Fund (TIAA-CREF), the Variable

Annuity Life Insurance Corporation (VALIC), or other similar plans. Generally these plans are available to faculty or other staff members who are not part of the State's classified employee system. Faculty members at the University of Colorado are also covered under Social Security.

#### Other State Retirement Plans

The State's pension expense related to other retirement plans was \$191.9 million for fiscal year 2016-17. This was related primarily to employer contributions made to the PERA Defined Contribution Retirement Plan as described above.

### **TERMINATION BENEFITS**

The University of Colorado provides an early retirement incentive program to tenured professors who are at least 55 years of age, whose age and years of service combined equal at least 70, and who participate in the University's optional retirement plan. The time period for the arrangement is for 5 calendar years. The incentive is equal to twice the base salary and supplemental pay and requires the immediate relinquishment of tenure status. In fiscal year 2016-17, 38 employees participated in the program at a present value accrued cost of \$4.6 million, with an assumed discount rate of 5 percent.

#### **Component Units**

The Colorado Water Resources and Power Development Authority, the University of Colorado Foundation, the Colorado State University Foundation, the Colorado School of Mines Foundation, and the University of Northern Colorado Foundation provide defined contribution retirement plans to their eligible employees. Information related to component unit other employee benefits is available in their separately-issued financial statements. Refer to Note 1 for information on the State's component units.

### NOTE 9 – RISK MANAGEMENT

#### **Primary Government**

The State currently self-insures its agencies, officials, and employees for certain risks of loss to which they are exposed. These include general liability, motor vehicle liability, and workers' compensation. Per statute, individual Department property claims have a \$5,000 deductible per occurrence. Claims brought under state law are limited to \$350,000 per person and \$990,000 per accident pursuant to the Colorado Governmental Immunity Act, CRS 24-10-101. The Risk Management Fund is reported as a Special Purpose General Fund, and it is used to account for claims adjustment, investigation, defense, and authorization for the settlement and payment of claims or judgments against the State. Workers compensation losses are self-insured per the Risk Management Act (CRS 24-30-1501); the State has purchased \$50.0 million of excess insurance per occurrence (\$10.0 million deductible). Property claims are self insured as well; \$450.0 million of property loss insurance (\$500,000 deductible). The State has also purchased excess liability coverage for automotive liability outside Colorado \$5.0 million per occurrence (\$2.0 million deductible), and \$10.0 million of employee dishonesty and theft loss coverage (\$250,000 deductible). Settlements have not exceeded insurance coverage in any of the three prior years.

All funds and agencies of the State, except for the University of Colorado, Colorado State University (not including CSU-Pueblo), the University of Northern Colorado, Fort Lewis College, Colorado Mesa University, Western State Colorado University, Adams State University, and component units participate in the State Risk Management Fund. State agency premiums are based on an assessment of risk exposure and historical claims experience.

Claims are reported in the General Fund in accordance with GASB Interpretation No. 6, and therefore, related liabilities are only reported to the extent that they are due and payable at June 30. On the government-wide statements, risk management liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Those liabilities include an amount for claims that have been incurred but not reported and an adjustment for non-incremental claims expense that is based on current administrative costs as a percentage of current claims and projected to the total actuarial claims estimate.

Because actual claims liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. A contractor completes an actuarial study each year determining both the current and long-term liabilities of the Risk Management Fund.

Colorado employers, including the State, are liable for occupational injuries and diseases of their employees through workers' compensation insurance or self-insurance. Benefits are prescribed by the Workers' Compensation Act of Colorado for medical expenses and loss of wages resulting from job-related injuries. The State is self-insured and uses the services of a third party administrator, Broadspire Services, to administer its plan. The State reimburses Broadspire the current cost of claims paid and related administrative expenses.

From January 1, 2000 through June 30, 2005, the State and its employees purchased insurance for medical claims. Beginning July 1, 2005, the State returned to the self-funding approach (used prior to January 1, 2000) for medical claims except for stop-loss insurance purchased for claims over \$375,000 per individual. In Fiscal Year 2016-17, the State recovered approximately \$1.5 million related to the stop-loss insurance claims. The State's contribution to medical premiums is subject to appropriation by the legislature each year, and State employees pay the difference between the State's contribution and the premium required to meet actuarial estimates. Since the amount of the State's contribution is at the discretion of the legislature, employees ultimately bear the risk of funding the benefit plans. The claims and related liabilities are reported in the Group Benefit Plans, a Pension and Other Employee Benefits Trust Fund.

The State recorded approximately \$15.6 million of insurance recoveries during Fiscal Year 2016-17. Of that amount approximately \$8.8 million was related to asset impairments that occurred in prior years. The remaining \$6.7 million relates to the current year and was primarily recorded by Group Benefits Plans (including the \$1.5 million, as noted above), a Pension and Other Employee Benefits Fund, and \$2.2 million by Higher Education in the Higher Education Institutions Fund.

The University of Colorado is self-insured for workers' compensation, auto, and general and property liability. An actuarial projection is performed to estimate the self-insured plan's undiscounted liabilities. The University

purchases excess insurance for losses over its self-insured retention of \$500,000 per property claim, \$1.5 million per worker's compensation claim, and \$1.25 million per general liability claim. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

University of Colorado tort claims are subject to the governmental immunity act, and damages are capped for specified waived areas at \$350,000 per person and \$990,000 per occurrence. There were no reductions of insurance coverage in Fiscal Year 2016-17, and settlements did not exceed insurance coverage in any of the three prior fiscal years.

The University of Colorado Graduate Medical Education Health Benefits Program is a comprehensive self-insurance health and dental benefits program for physicians in training at the University of Colorado Anschutz Medical Campus. The University manages excess risk exposure for staff medical claims by purchasing stop-loss insurance of \$325,000 per person and \$11.1 million in aggregate annually. There were no reductions of insurance coverage in Fiscal Year 2016-17 for this program. There have been no claims against the aggregate stop-loss insurance in the previous three years; however, the University collected \$325,494 from the stop-loss insurance carrier for individual claims in excess of the threshold over the previous three years. An insurance brokerage firm estimates liabilities of the plan using actuarial methods.

The University of Colorado Denver also self-insures its faculty and staff for medical malpractice through the University of Colorado Self-Insurance Trust, consistent with the limits of governmental immunity. For claims outside of governmental immunity, the Trust has purchased stop-loss insurance to cover claims greater than \$500,000 per claimant, \$1.5 million per occurrence, and \$8.0 million in aggregate annually. The discounted liability for malpractice is determined annually by an actuarial study. There was no significant reduction in insurance coverage in Fiscal Year 2016-17, however, the University collected \$1,021,965 from the stop-loss insurance carrier for individual claims in excess of the threshold over the previous three years.

Colorado State University is self-insured for employee medical and dental plans, but purchases re-insurance for healthcare claims over \$275,000. The related liability is based on underwriting review of claims history and current data. The University is self-insured for worker's compensation up to \$500,000 per occurrence and has purchased reinsurance for individual claims up to statutory limits. There was no significant reduction in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

The Colorado State University general liability claims arising out of employment practices are self-insured up to \$500,000 per occurrence with excess insurance purchased for claims up to \$10.0 million and additional insurance purchased for up to \$15.0 million, for a total of \$25.0 million per occurrence. The University is self-insured for property damage up to \$100,000, but has purchased excess insurance providing coverage up to \$1.0 billion per occurrence. The University carries cyber risk liability insurance up to \$5.0 million (\$100,000 deductible for cyber extortion; \$20,000 deductible for foreign notification; and \$10,000 deductible for crisis management and public relations). The University also purchased \$1.0 million of international liability insurance, \$25.0 million of aviation liability insurance (\$1,000 deductible for each occurrence), and \$1.0 million per occurrence of unmanned aerial vehicles liability insurance. The University also carries liability, professional liability, and pollution liability for the Center for Environmental Management Federal Lands operations, including prescribed burn operations, which includes a primary layer of \$2.0 million aggregate, an umbrella layer of \$5.0 million, and an excess layer of \$5.0 million. There were no significant reductions in insurance coverage in Fiscal Year 2016-17, and the amount of settlements has not exceeded insurance coverage in any of the three prior fiscal years.

The University of Northern Colorado manages general liability, professional liability, property, auto, and worker's compensation risks primarily through the purchase of insurance. The University retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2005-06. The University has purchased \$3.0 million of general liability insurance (\$0 deductible), \$3.0 million of professional liability insurance (\$25,000 deductible), \$1.0 million of automobile liability (\$0 deductible), \$3.0 million of errors and omissions insurance (\$25,000 deductible), \$3.0 million of employment practices liability (\$25,000 deductible), \$500,000 of worker's compensation insurance (\$1,000 deductible), \$1.0 million of employee fraud insurance (\$5,000 deductible), \$500.0 million of property insurance (\$25,000 deductible), and \$2.0 million umbrella liability (\$10,000 self-insured retention). There were no significant reductions in insurance coverage in Fiscal Year 2016-17, and the amount of settlements has not exceeded insurance coverage in any of the three prior fiscal years.

Fort Lewis College manages worker's compensation risks primarily through the purchase of insurance. The College has purchased \$500,000 of worker's compensation insurance (\$5,000 deductible). Before Fiscal Year 2010-11, the College was covered under the State's risk management program. The College retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2009-10. There were no significant reductions in insurance coverage in Fiscal Year 2016-17, and the amount of settlements has not exceeded insurance coverage in any of the three prior fiscal years.

Fort Lewis College manages general liability risks primarily through the purchase of insurance. The College has purchased blanket building and personal property insurance of \$489.6 million (\$10,000 deductible), \$2.0 million of general liability (\$0 deductible), \$7.0 million of fine arts insurance (\$2,500 deductible). The College has also purchased \$1.0 million of employee dishonesty insurance (\$10,000 deductible). Before Fiscal Year 2011-12, the College was covered under the State's risk management program. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

Colorado Mesa University manages worker's compensation risks primarily through the purchase of insurance. The University has purchased \$1.0 million of worker's compensation insurance (\$5,000 deductible). Before Fiscal Year 2010-11, the University was covered under the State's risk management program. The University retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2009-10. There were no significant reductions in insurance coverage in Fiscal Year 2016-17, and the amount of settlements has not exceeded insurance coverage in the past three fiscal years.

Colorado Mesa University manages general liability risks primarily through the purchase of insurance. The University has purchased \$2.0 million of general liability insurance (\$0 deductible). Before Fiscal Year 2011-12, the University was covered under the State's risk management program. The University retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2010-11. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

Western State Colorado University manages worker's compensation risks primarily through the purchase of insurance. The University has purchased \$500,000 of worker's compensation insurance (\$500 deductible). Before Fiscal Year 2011-12, the University was covered under the State's risk management program. The University retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2010-11. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

Western State Colorado University manages general liability risks primarily through the purchase of insurance. The University has purchased general liability insurance of \$2.0 million (\$1,000 deductible for accidents and acts of nature, \$10,000 for loss to property). Before Fiscal Year 2012-13, the University was covered under the State's risk management program. The University retains a small amount of self-insurance risk from taking over claims previously covered by State risk management from Fiscal Year 2012-13. There were no significant reductions in insurance coverage in Fiscal Year 2016-17, and the amount of settlements has not exceeded insurance coverage in any of the prior three fiscal years.

Adams State University manages worker's compensation risks primarily through the purchase of insurance. The University has purchased worker's compensation insurance of \$500,000 (\$500 deductible). Before Fiscal Year 2011-12, the University was covered under the State's risk management program. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

Adams State University manages general liability risks primarily through the purchase of insurance. The University has purchased general liability for auto, fidelity, liability and fire insurance of \$1.0 million (\$0 deductible) and \$2.0 million aggregate. Before Fiscal Year 2011-12, the University was covered under the State's risk management program. There were no significant reductions in insurance coverage in Fiscal Year 2016-17 and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

#### Changes in Claims Liabilities (Amounts in Thousands)

### **Component Units**

The Colorado Water Resources and Power Development Authority maintains commercial insurance for most risks of loss, and is self-insured for any director or officer legal liability. There were no significant reductions in insurance coverage and settlements have not exceeded insurance coverage in any of the prior three fiscal years.

### NOTE 10 – LEASES AND SHORT-TERM DEBT

#### LEASE COMMITMENTS

#### **Primary Government**

State management is authorized to enter lease or rental agreements for buildings and/or equipment. All leases contain clauses stipulating that continuation of the lease is subject to funding by the Legislature. Historically, these leases have been renewed in the normal course of business. They are therefore treated as non-cancellable for financial reporting purposes.

At June 30, 2017, the State had the following gross amounts of assets under capital lease:

(Ar	(Amounts in Thousands)										
Gross Assets U	Gross Assets Under Lease (Before Depreciation)										
Equipment											
Land Buildings and Other											
Governmental Activities	\$	5,559	\$	117,967	\$	338,348					
Business-Type Activities		-		34,330		49,793					
Total	\$	5,559	\$	152,297	\$	388,141					

At June 30, 2017, the State expected the following sublease rentals related to its capital and operating leases:

#### (Amounts in Thousands)

	Sublea	ase Renta	ls							
	Ca	Capital Operating Total								
Governmental Activities	\$	21	\$	183	\$	204				
Business-Type Activities	\$	-	\$	145		145				
Total	\$	21	\$	329	\$	350				

During the year ended June 30, 2017, the State incurred no contingent rentals related to capital and operating leases.

For Fiscal Year 2016-17, the State recorded building and land rent of \$57.5 million for governmental-type activities, \$23.7 million for business-type activities and \$35,297 for fiduciary activities. The State also recorded equipment and vehicle rental expenditures of \$13.7 million and \$39.1 million for governmental and business-type activities, respectively. The above amounts were payable to entities external to State government and do not include transactions with the State's fleet management program.

The State recorded \$3.6 million of capital lease interest costs for governmental activities and \$1.7 million for business-type activities in Fiscal Year 2016-17.

The State entered into approximately \$23.0 million of capital leases related to the State's fleet management program, which is reported in an internal service fund that does not report capital lease proceeds.

### Future minimum payments at June 30, 2017, for existing leases were as follows:

		Operating	g Lease	es	Capital Leases

#### (Amounts in Thousands)

#### **Component Units**

The Colorado Water Resources and Power Development Authority leases office facilities under an operating lease that expires December 31, 2018. Total rental expense for the year ended December 31, 2016, was \$140,432. The total minimum rental commitment as of December 31, 2016, is \$244,785.

The University of Colorado Foundation leases office space and equipment under operating leases expiring on various dates through 2022. The total lease expense for the year ended June 30, 2017 was \$152,095. The total lease commitment under the leases was \$614,000 at June 30, 2017.

### SHORT-TERM DEBT

On July 26, 2016 the State Treasurer issued \$600.0 million of General Fund Tax Revenue Anticipation Notes (GTRAN), Series 2016A. The notes were due and payable on June 27, 2017, at a coupon rate of 2.167 percent. The total interest related to this issuance was \$12.0 million; however, the notes were issued at a premium of \$8.6 million, resulting in net interest costs (including the cost of issuance) of \$3.6 million and a yield of 0.598 percent. The notes were issued for cash management purposes and were repaid by June 27, 2017, as required by the State Constitution.

Statutes authorize the State Treasurer to issue notes and lend the proceeds to local school districts in anticipation of local school district revenues to be collected at a later time. On July 21, 2016, the State Treasurer issued \$275.0 million of Education Loan Program Tax and Revenue Anticipation Notes, Series 2016A. The notes were due and payable on June 29, 2017, at a coupon rate of 3.091 percent. The total interest related to this issuance was \$8.0 million; however, the notes were issued at a premium of \$6.4 million, resulting in net interest costs (including cost of issuance) of \$1.8 million or 0.585 percent. The notes matured on June 29, 2017, and were repaid.

On January 12, 2017, the State Treasurer issued \$375.0 million of Education Loan Program Tax and Revenue Anticipation Notes, Series 2016B. The notes were due and payable on June 29, 2017, at a coupon rate of 3.933 percent. The total interest related to this issuance was \$6.8 million; however, the notes were issued at a premium of \$5.3 million, resulting in net interest costs (including cost of issuance) of \$1.6 million or 0.867 percent. The notes matured on June 29, 2017, and were repaid.

The following schedule shows the changes in short-term financing for the period ended June 30, 2017:

			(Amount in	Thous	sands)

### NOTE 11 – NOTES, BONDS, AND CERTIFICATES OF PARTICIPATION PAYABLE

#### **Primary Government**

Various institutions of higher education, the State Nursing Homes, History Colorado, the Judicial Branch, and the Departments of Corrections, Transportation, Agriculture, Treasury, and Labor and Employment have outstanding notes, bonds, and/or Certificates of Participation (COPs) for the purchase of equipment or to construct facilities or infrastructure. Except for the Department of Corrections which receives Capital Projects Fund appropriations for lease payments related to COPs, specific user revenues are pledged for the payments of interest and future retirement of the obligations. The State is not allowed by its Constitution to issue general obligation debt except to fund buildings for State use, to defend the State or the U.S. (in time of war), or to provide for unforeseen revenue deficiencies; additional restrictive limitations related to the valuation of taxable property also apply.

Collectively, the State's business-type activities had \$1,661.9 million in available net revenue after operating expenses to meet the \$296.2 million of debt service requirement related to revenue bonds.

The revenue of an individual business-type activity is generally not available to meet the debt service requirements of another business-type activity. (See additional disclosures regarding pledged revenue in Note 17.)

During Fiscal Year 2016-17 the State recorded \$250.6 million of interest costs, of which \$59.6 million was recorded by governmental activities and \$190.9 million was recorded by business-type activities. The governmental activities interest cost primarily comprises \$4.5 million of Highway Users Tax Fund interest on Transportation Revenue Anticipation Notes issued by the Department of Transportation, \$17.3 million of interest on Certificates of Participation issued by the Judicial Branch, \$29.8 million of interest on Certificates of Participation issued by the State Treasurer for the Building Excellent Schools Today program and \$3.3 million of interest on Education and General Fund Tax and Revenue Anticipation Notes issued by the State Treasurer. The business-type activities interest cost primarily comprises \$165.7 million of interest on revenue bonds issued by institutions of higher education, \$13 million of interest paid to lending institutions that made loans to students under the College Assist loan guarantee program, \$9.8 million of interest on bonds issued by the Bridge Enterprise in the Transportation Enterprise, and \$2.1 million of interest on Unemployment Insurance Fund's federal loan and revenue bonds. College Assist and the Transportation Enterprise are nonmajor enterprise funds.

Annual maturities of notes, bonds, and COPs payable at June 30, 2017, are as follows:

Totals			\$4,352,197	\$2,925,417	\$50,179	\$13,204	\$11,217	\$ 5,212	\$ 346,769	\$ 94,448	\$4,760,362	\$ 3,038,281

In March 2008, the Colorado School of Mines entered a derivative instrument agreement (interest rate swap) as an effective hedge against expected increasing interest costs on its variable rate debt. See Note 14 for additional information.

The difference between total principal payments documented in this note of \$4,799,222 (\$4,760,362 from the Business-Type Activities table above and \$38,860 from the Colorado School of Mines table below) and the total on the *Statement of Net Position* of the sum of current and non-current of Notes, Bonds, and COP Payable of \$4,784,967 represents 2017A proceeds for Colorado Mesa University of \$14.3 million that will be distributed to the University in Fiscal Year 2018. Series 2017A bond proceeds are being distributed to the University in predetermined amounts through February 2018. As of June 30, 2017, the University received \$745,000, which represents the liability reported in the financial statements.

Assuming current interest rates are applied over the term of the debt, at June 30, 2017, the Colorado School of Mines' aggregate debt service payments and net swap cash payments are reflected in the table below:

		(Amou	ints i	n Thousan	ds)							
Net Debt Service 1	Net Debt Service for Colorado School of Mines' Interest Rate Swap Agreement											
Interest Rate												
Fiscal Year Principal Interest Swap, Net Total												
2018 2019 2020 2021 2022 2023 to 2027 2028 to 2032 2033 to 2037 2038 to 2042	\$	975 550 575 850 5,025 12,900 14,335 3,075	\$	314 308 303 299 293 1,345 975 410 11	\$	1,061 1,041 1,025 1,009 989 4,545 3,293 1,385 35	\$	2,350 1,899 1,903 1,883 2,132 10,915 17,168 16,130 3,121				
Totals	\$	38,860	\$	4,258	\$	14,383	\$	57,501				

The original principal amount of the State's debt disclosed in the above tables is as follows:

			nue Bonds Notes Payable Payable Participatio

Governmental Activities Business Type Activities	\$	- 5,094,314	\$	21,075 58,713	\$	- 12,450	\$ 1,453,005 466,203	\$ 1,474,080 \$ 5,631,680			
Total	\$	5,094,314	\$	79,788	\$	12,450	\$ 1,919,208	\$ 7,105,760			

#### **Component Units**

Debt service requirements to maturity for the Colorado Water Resources and Power Development Authority at December 31, 2016, excluding unamortized original issue discount and premium and deferred refunding costs are:

	(An	nounts in The	ousan	ids)	
Year	F	Principal	1	nterest	Total
2017	\$	40,700	\$	22,427	\$ 63,127
2018		39,790		20,744	60,534
2019		38,730		18,954	57,684
2020		34,085		17,198	51,283
2021		32,425		15,652	48,077
2022 to 2026		152,585		57,073	209,658
2027 to 2031		108,080		30,062	138,142
2032 to 2036		59,510		9,877	69,387
2037 to 2041		9,790		1,952	11,742
2042 to 2046		3,070		259	3,329
Total Future Payments	\$	518,765	\$	194,198	\$ 712,963

The original principal amount for the outstanding bonds was \$875.3 million. Total interest paid during 2016 was \$23.6 million.

All of the Colorado Water Resources and Power Development Authority's Small Water Resources Program bonds are insured as to payment of principal and interest by National Public Finance Guaranty, a wholly owned subsidiary of MBIA, Inc. The Water Resources Revenue Bonds, Series 2004B, 2004E and 2005F are insured as to payment of principal and interest by MBIA, Inc. The Water Resources Revenue Bonds Series 2005B, 2009A, 2010A, 2011A and 2013A are insured as to payment of principal and interest by Assured Guaranty Municipal Corp. The Water Resources Revenue Bonds Series 2014A are insured as to payment of principal and interest by Build America Mutual Assurance Company. The Authority can issue up to \$150.0 million (excluding refunding bonds) of outstanding Small Water Resources Revenue Bonds, and as of December 31, 2016, it had \$7.3 million of these bonds outstanding.

Metropolitan State University of Denver has unconditionally guaranteed the debt service on bonds issued by the Metropolitan State College of Denver Roadrunner Recovery and Reinvestment Act Finance Authority and transferred to HLC @ Metro, Inc. in October 2010. Bonds of \$54.1 million were issued to finance the University's Hotel and Hospitality Learning Center. The debt service requirements to maturity for HLC @ Metro, Inc. at June 30, 2017, are as follows:

	(Amount	s in Thousar	nds)	
Fiscal Year	Princi	pal	Interest	Total
2018		1,075	3,138	4,213
2019		1,250	3,090	4,340
2020		1,300	3,038	4,338

Business-Type Activities									
Deposits Held In Custody For Others	42,420	43,448	(42,400)	43,468	43,448				
Accrued Compensated Absences	316,126	56,120	(29,795)	342,451	25,381				
Claims and Judgments Payable	39,657	9,002	(11,298)	37,361	-				
Capital Lease Obligations	57,126	9,499	(16,734)	49,891	7,292				
Derivative Instrument Liabilities	13,222	-	(3,971)	9,251	-				
Bonds Payable	4,320,596	542,123	(485,917)	4,376,802	122,274				
Certificates of Participation	372,661	22,811	(48,703)	346,769	22,805				
Notes, Anticipation Warrants, Mortgages	53,969	15,963	(8,536)	61,396	1,525				
Net Pension Liability	3,957,073	2,977,432	-	6,934,505	-				
Other Postemployment Benefits	289,133	54,437	-	343,570	-				
Other Long-Term Liabilities	30,200	77,565	(90,224)	17,541	-				
Total Business-Type Activities Long-Term Liabilities	9,492,183	3,808,400	(737,578)	12,563,005	222,725				
Fiduciary Activities									
Deposits Held In Custody For Others	383,445	427,974	(345,963)	465,456	425,607				
Accrued Compensated Absences	38	12	-	50	15				
Other Long-Term Liabilities	713	373	(713)	373	-				
Total Fiduciary Activities Long-Term Liabilities	384,196	428,359	(346,676)	465,879	425,622				
Total Primary Government Long-Term Liabilities	\$ 18,581,801	\$ 9,377,764	\$ (1,663,552)	\$ 26,296,013	\$ 788,469				

Accrued compensated absences and net pension liabilities of both governmental activities and the business-type activities are normally liquidated using resources of the fund that are responsible for paying the employee's salary. As a result, the resources of nearly all of the State's funds are used to liquidate the compensated absence and net pension liabilities.

The amounts shown in the schedule above for the changes in Net Pension Liability are netted as increases for the governmental and business type activities because that information is not readily available. See Note 6 for additional pension information.

The amounts shown in the schedule above for Notes, Bonds, and Certificates of Participation do not include shortterm borrowing disclosed in Note 10. A current portion is not normally identifiable for Claims and Judgments Payable, Derivative Instrument Liabilities, Other Post Employment Benefits in business-type activities and Other Long-Term Liabilities in both governmental activities and business type activities.

Long-term liabilities that are actuarially determined include amounts for claims that are incurred but not yet reported. Since these liabilities are not based on individually identifiable claims, it is not practicable to report gross additions and reductions. (See Notes 7 and 9 for the amount of claims reported and paid and other adjustments to these actuarially determined liabilities.)

Governmental activities include internal service funds which apply full accrual accounting, and as a result, additions to Capital Lease Obligations shown above include amounts that are not shown as capital lease proceeds on the *Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds.* 

At June 30, 2017, the following obligations were classified as Other Long-Term Liabilities on the government-wide *Statement of Net Position*:

The \$407.9 million shown for governmental activities primarily comprises:

- \$252.2 million of tax refunds payable at the Department of Revenue, which were at various levels of administrative and legal appeal. These refunds relate to tax revenues of the General Purpose Revenue Fund and Highway Users Tax Fund. Payment is not expected within one year.
- \$152.7 million of pollution remediation obligations at the Department of Public Health and Environment (see Note 13 for additional information on pollution remediation obligations).
- \$2.9 million of unclaimed property liabilities estimated to be due to claimants.

The \$17.5 million (including \$1.7 million Due to Component Units) shown for business-type activities primarily comprises \$15.8 million of unearned revenue in Higher Education Institutions, the most significant balances of which relate to an early retirement incentive program and the Alternate Medicare Program at the University of Colorado (\$3.0 million and \$10.8 million, respectively).

#### **Component Units**

Long-Term Liabilities of the Colorado Water Resources and Power Development Authority were primarily contained in its Water Pollution Control Fund, accounting for \$313.5 million, or fifty-five percent, of the \$571.7 million total. Long-term liabilities of the Water Operations Fund and the Drinking Water Fund were \$129.8 million and \$128.4 million, respectively. The Water Pollution Control Fund accounted for fifty-one percent, or \$244.0 million, of the bonds payable total of \$478.1 million. Sixty-three percent, or \$59.2 million, of other long-term liabilities were related to project costs payable – leveraged loans. Changes in long-term liabilities for the Authority in 2016 were as follows:

		(Amounts in Thousands)									
	Beginn Baland		Additions Reductions		Reductions		Ending Balance		Current Portion		
Bonds Payable	\$	594,745	\$	64,535	\$	(140,515)	\$	518,765	\$	40,700	
Other Long-Term Liabilities		208,985		147,155		(123,647)		232,494		138,869	
Total Long-Term Liabilities	\$	803,730	\$	211,690	\$	(264,162)	\$	751,259	\$	179,569	

The University of Colorado Foundation has beneficial interest in various split-interest agreements including charitable gift annuities, charitable remainder trusts (annuity and unitrust), two charitable lead trusts, a pooled life income fund, charitable remainder trusts held by others, and perpetual trusts. Charitable gift annuity assets are immediately available to the foundation. After termination of charitable remainder trust agreements, the related assets revert to the foundation to create an endowment to support university activities. The estimated net present value of obligations to named beneficiaries is reported as an Other Long-Term Liability on the *Statement of Net Position – Component Units*. Actuarially determined life expectancies and applicable rates of return are used to estimate the obligation to named beneficiaries. The fair value of assets in excess of the estimated liability is recorded as Gifts and Donations revenue at the date of the gift.

Changes in the value of investments are combined with changes in the actuarial estimate of liabilities and are reported as Gifts and Donations revenue on the *Statement of Revenue, Expenditures, and Changes in Fund Net Position – Component Units*. At June 30, 2017, the foundation held \$42.8 million of split interest agreement investments with \$21.1 million of related liabilities and reported \$7.9 million of net beneficial interest in charitable trusts held by others.

At June 30, 2017, the University of Colorado Foundation held \$395.5 million of endowments and other funds in trust for the University of Colorado and another entity. On the *Statement of Net Position – Component Units*, this liability is reported primarily as Deposits Held in Custody and partially as Other Current Liabilities.

At June 30, 2017, the Colorado State University Foundation held \$13.6 million of endowments and related expendable accounts for Colorado State University. On the *Statement of Net Position – Component Units*, this liability is reported as Deposits Held in Custody.

At June 30, 2017, the Colorado School of Mines Foundation (CSMF), acting as trustee, held charitable trust, charitable gift annuity contracts and pooled income assets of \$17.8 million; related liabilities of \$8.7 million are calculated using the Internal Revenue Service discount rate for computing charitable contribution deductions. The estimated net present value of obligations to named beneficiaries is reported as part of Other Long-Term Liabilities on the *Statement of Net Position – Component Units*.

CSMF has entered several gift annuity contracts that require future payments to the donor or their named beneficiaries; these requirements are reported as part of the \$8.7 million mentioned above and total \$4.4 million. At June 30, 2017, CSMF reported \$35.5 million of assets held in trust, primarily for the Colorado School of Mines, which are shown on the *Statement of Net Position – Component Units* as Deposits Held in Custody.

### NOTE 13 – DEFEASED DEBT AND POLLUTION REMEDIATION OBLIGATIONS

#### **DEFEASED DEBT**

Debt is defeased by depositing in escrow accounts an amount sufficient, together with known minimum investment yields, to pay principal, interest, and any redemption premium on the debt to be defeased. During Fiscal Year 2016-17, debt was defeased in both governmental and business-type activities.

At June 30, 2017, the remaining balances of amounts previously placed in escrow accounts with paying agents are as follows:

(Amount in Thousands)	
Agency	Amount
Governmental Activities: Department of Treasury Department of Corrections	\$ 133,435 59,045
Business-Type Activities: University of Colorado Colorado State University Colorado School of Mines Western State College Colorado Mesa University Adams State College	431,145 133,375 31,160 34,875 27,120 16,415
Total	\$ 866,570

The Board of Regents of the University of Colorado issued \$28,480,000 of its Enterprise Revenue Refunding Bonds, Series 2017A-1 to partially defease its 2012B Enterprise Revenue Bonds. The defeased debt had an interest rate of 5 percent, and the new debt had an interest rate of 2.8 percent. The remaining term of the debt was 17 years and the estimated debt service cash flows decreased by \$2,706,544. The defeasance resulted in an economic gain of \$2,253,762 and book loss of \$3,068,849 that will be amortized as an adjustment of interest expense over the remaining 17 years of the new debt.

The Board of Regents of the University of Colorado issued \$38,450,000 of its Enterprise Revenue Refunding Bonds, Series 2017A-1 to partially defease its 2007A Enterprise Refunding Revenue Bonds. The defeased debt had an interest rate of 4.42 percent, and the new debt had an interest rate of 2.27 percent. The remaining term of the debt was 16 years and the estimated debt service cash flows decreased by \$4,532,761. The defeasance resulted in an economic gain of \$4,336,850 and book gain of \$1,341,219 that will be amortized as an adjustment of interest expense over the remaining 16 years of the new debt.

The Board of Governors of Colorado State University issued \$22,976,045.26 of its Enterprise Revenue and Refunding Bonds, Series 2016B to partially defease its 2007A, 2007B, and 2008A Enterprise Revenue Bonds. The defeased debt had an interest rate of 4.98 percent, and the new debt had an interest rate of 4.68 percent. The remaining term of the debt was 20 years and the estimated debt service cash flows decreased by \$3,512,269.84. The defeasance resulted in an economic gain of \$2,233,989.56 and book loss of \$528,506.29 that will be amortized as an adjustment of interest expense over the remaining 20 years of the new debt.

The Board of Governors of Colorado State University issued \$1,128,954.74 of its Enterprise Revenue and Refunding Bonds, Series 2016B to partially defease its 2007A Enterprise Revenue Bonds. The defeased debt had an interest rate of 4.98 percent, and the new debt had an interest rate of 4.68 percent. The remaining term of the debt was 20 years and the estimated debt service cash flows decreased by \$246,383.10. The defeasance resulted in an economic gain of \$152,003.91 and book loss of \$18,339.13 that will be amortized as an adjustment of interest expense over the remaining 20 years of the new debt.

The Board of Trustees of Western State Colorado University issued \$26,995,000 of its Auxiliary Facilities Revenue Refunding Bonds, Series 2016 to partially defease its 2009 Revenue Bonds and 2010A Institutional Enterprise Revenue Bonds (Tax-Exempt). The defeased debt had an interest rate of 4.89 percent, and the new debt had an interest rate of 3.69 percent. The remaining term of the debt was 22.75 years and the estimated debt service cash

flows decreased by \$4,674,916. The defeasance resulted in an economic gain of \$3,599,614 and book loss of \$3,023,158.13 that will be amortized as an adjustment of interest expense over the remaining 22.75 years of the new debt.

The Board of Trustees of Adams State University issued \$7,265,000 of its Institutional Enterprise Revenue Refunding Bonds, Series 2017A and 2017B to partially defease its 2009A Auxiliary Facilities Revenue Improvement Bonds, 2009B Auxiliary Facilities Revenue Bonds, and 2012 Institutional Enterprise Revenue Bonds. The defeased debt had an interest rate of 3.3-5 percent, and the new debt had an interest rate of 3.98 percent. The remaining term of the debt was 20 years and estimated debt service cash flows increased by \$3,847,639. The defeasance resulted in an economic loss of \$481,147 and a book loss of \$873,396 that will be amortized as an adjustment of interest expense over the remaining 26 years of the new debt.

### POLLUTION REMEDIATION OBLIGATIONS

Various State agencies and institutions of higher education have pollution remediation obligations as defined by GASB Statement No. 49. Liability amounts are included in Other Current Liabilities or Other Long-Term Liabilities on the government-wide and proprietary fund-level *Statement of Net Position*.

The State has numerous instances of hazardous waste contamination that qualify as Superfund sites. Superfund is the federal government's program to clean up these hazardous waste sites. A hazardous waste site becomes a Superfund site when it is placed on an Environmental Protection Agency (EPA) list that ranks sites according to a process that assesses current or potential health impacts. The following individually significant items are all Superfund sites under the control of the Department of Public Health and Environment (DPHE).

The State's total amount of pollution remediation obligations as of June 30, 2017 was \$157.8 million (\$5.1 million of which was a current liability). Superfund sites account for approximately \$156.9 million (\$4.2 million of which was a current liability) of the State's total pollution remediation obligation. Other pollution obligations of the State generally include remediation activities related to asbestos abatement and removal, land contamination, and leaking underground storage tanks. Individually significant pollution remediation obligations are disclosed below:

- DPHE recorded a liability for remediation activities at the Summitville Mine of approximately \$58.4 million related to the operation of a water treatment plant. The new water treatment plant was completed in Fiscal Year 2011-12, and the operating and maintenance costs of the new plant are to be shared with the Environmental Protection Agency (EPA) in a cost-sharing ratio of 10 percent State, 90 percent EPA. Beginning in calendar year 2023, the State will assume 100 percent of the operating costs of the new plant, estimated at \$2.3 million annually. Operating and maintenance estimates are based on experience in operating plants adjusted for the newer design and technological advancements. Potential changes affecting these estimates include regulatory changes in the EPA cost-sharing ratio, as well as technology and pricing changes that could impact operating costs. As of June 30, 2017, the State has received \$4.7 million in recoveries from other responsible parties.
- DPHE recorded a liability for remediation activities in the Clear Creek Basin of approximately \$64.7 million related to a number of inactive precious metal mines that caused contamination in surface water and soil in the basin. The liability includes remediation and site clean-up activities, projected post-remediation operating and monitoring costs, the State operation of an existing water treatment plant, and operation of a new water treatment plant whose construction commenced in 2013. Current operating and maintenance costs are estimated at approximately \$1.3 million, increasing to approximately \$2.6 million in 2028, and continuing into perpetuity. The State's share of the costs to complete the remaining remediation projects is estimated to total \$2.7 million through 2018. The department shares these costs with the EPA in a cost-sharing ratio of 10 percent State, 90 percent EPA for 10 years, after which time the State assumes 100 percent of the costs. Operating and maintenance estimates are based on experience in operating existing plants adjusted for the newer design and technological advancements. Potential changes affecting these estimates include regulatory changes in the EPA cost-sharing ratio, as well as technology and pricing changes that could impact construction and operating costs.
- DPHE recorded a liability for remediation activities at the Captain Jack Mill located at the headwaters of the Left Hand Creek Watershed in the mountains west of Boulder of approximately \$5.7 million related to the clean-up of contamination from mine waste piles and drainage. The EPA and the State have agreed

upon a remediation plan from a recently completed engineering study. Two remedial design projects on surface and subsurface water have been completed. Construction cost estimates were based upon an engineering study and construction bids received by the State. Operating and maintenance estimates are based on experience in operating existing plants adjusted for the newer design and technological advancements. Potential changes affecting these estimates include regulatory changes in the EPA's cost-sharing ratio, as well as technology and pricing changes that could impact construction and operating costs.

• DPHE recorded a liability for remediation activities at the Nelson Tunnel of approximately \$19.1 million related to the clean-up of contamination from mine waste piles and drainage. The State will be liable for a share of construction costs for a water treatment plant as well as future operating and maintenance costs in a cost-sharing ratio of 10 percent State, 90 percent EPA until 2029, after which time the State assumes 100 percent of the costs. Plant construction cost estimates were based upon engineering designs and construction bids received by the State. Operating and maintenance estimates are based on experience in operating existing plants adjusted for the newer design and technological advancements. Potential changes affecting these estimates include regulatory changes in the EPA's cost-sharing ratio, as well as technology and pricing changes that could impact construction and operating costs.

#### NOTE 14 – DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

Deferred outflows of resources represent a consumption of assets by the entity that is applicable to a future reporting period, and deferred inflows of resources represent an acquisition of assets by the entity that is applicable to a future reporting period. The table below provides information about amounts reported as deferred outflows/inflows on the *Statement of Net Position* as of June 30, 2017.

(Amounts in Thousand	s)				
	Gov	vernmental	Business-Type		
	А	ctivities	Activites		
Deferred Outflow of Resources:

### A. DERIVATIVE INSTRUMENTS

On March 5, 2008, the Colorado School of Mines entered into an interest rate swap agreement (the Agreement) in connection with its Variable Rate Demand Enterprise Refunding Revenue Bonds Series 2008A debt issuance. The agreement was not terminated with the refunding of the Series 2008A bonds by the Series 2010A Refunding Bonds issued in 2010. The agreement continues to qualify as a hedging derivative instrument per GASB Statement No. 53 – Accounting and Financial Reporting for Derivative Instruments. Changes in the fair value of hedging derivative instruments are reported as either deferred inflows or deferred outflows of resources in the Statement of Net Position, and accordingly, the State recognized a deferred outflow of \$2.4 million as of June 30, 2017.

The Agreement is a cash flow hedge and was entered into with the objective of protecting against the potential of rising interest rates on existing variable rate revenue bonds. The Agreement, with an original notional amount of \$43.2 million and current notional amount of \$38.9 million, provides for net settlement payments to or from Morgan Stanley equal to the difference between the Agreement's fixed rate of 3.59 percent (payable by the School) and 67 percent of the one-month British Bankers' Association London Interbank Offering Rate (payable by Morgan Stanley), which was 0.82 percent at June 30, 2017. Cash flows between the parties are settled on the net difference. The fair value to the Colorado School of Mines as of June 30, 2017, using Level 2 Significant Other Observable Inputs, was \$9.3 million liability as determined by Morgan Stanley, counterparty to the Swap Agreement. The Agreement has an effective date of March 5, 2008, and a termination date of December 1, 2037. The derivative is reported under Noncurrent Liabilities on the *Statement of Net Position*.

There are inherent risks associated with interest rate swaps that the Colorado School of Mines monitors and addresses including:

• Termination Risk – Terminating the transaction while the fair value is negative would likely require a termination payment by the School.

- Credit Risk This is the risk that the counterparty will not fulfill its obligations. The School considers the swap agreement counterparty's (Morgan Stanley) credit quality rating and the ability of the counterparty to withstand credit market turmoil. As of June 30, 2017, Morgan Stanley's credit rating is A3 by Moody's, and BBB+ by Standards & Poor's.
- Basis Index Risk Basis risk arises as a result of movement in the underlying variable rate indices that may not be in tandem, creating a cost differential that could result in a net cash outflow by the School. Basis risk can also result from the use of floating, but different, indices. To mitigate basis risk, the School's policy requires indices used in an interest rate swap agreement to be recognized market indices.

### **B. REFUNDING GAINS AND LOSSES**

Refunding gains and losses on debt refunding transactions are recorded as deferred inflows or deferred outflows, respectively, and generally amortized over the life of the new debt. On June 30, 2017, deferred outflows in governmental activities related to unamortized refunding losses included \$1.0 million in the Department of Transportation and \$1.0 million in the Department of Corrections. All of the unamortized refunding gains and losses in business-type activities were in Higher Education Institutions.

### C. TIMING DIFFERENCES

Deferred Inflows are recorded for unavailable revenue resulting from timing differences that are primarily related to long-term taxes receivables. The majority of the deferred inflows balance is recognized as revenue over time in the government-wide Statement of Activities.

### D. NONEXCHANGE TRANSACTIONS

Deferred inflows are recorded for grant receipts when all of the eligibility requirements for the grant have been met, except the time requirement. As of June 30, 2017, the Department of Health Care Policy and Financing, a governmental activity, held \$0.3 million and Colorado State University, a business-type activity, held \$0.4 million in receipts awaiting the passage of time.

### E. SERVICE CONCESSION ARRANGEMENTS

Service Concession Arrangements are arrangements between a government and a governmental or nongovernmental entity in which the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a facility) in exchange for significant consideration and the operator collects and is compensated by fees from third parties. Deferred inflows totaling approximately \$139 million were related to Service Concession Arrangements at the High Performance Transportation Enterprise. Refer to Note 19 for additional information on Service Concession Arrangements.

### F. PENSIONS

Additional information on the components of deferred inflows and deferred outflows for pensions can be found in Note 6.

### NOTE 15 – NET POSITION AND FUND BALANCE

### PRIOR PERIOD ADJUSTMENTS AND ACCOUNTING CHANGES TO NET POSITION

### A. PRIOR PERIOD ADJUSTMENTS

The beginning net position/fund balance was restated as a result of the following prior period adjustments:

Governmental Activities increased by \$91.7 million and Business-Type Activities increased by \$0.5 million.

A transfer of vehicles and other assets from Centralized Capital Assets to the Brand Inspection Fund (Other Enterprise Fund) for \$0.5 million corrected the coding on these assets.

Colorado's Department of Public Health and Environment reduced accounts receivable and related allowances in the Environment and Health Protection Fund by \$5.2 million for receivables deemed uncollectable.

Colorado's Department of Health Care Policy and Financing increased the expenditure for capitalized professional services by \$97.4 million for prior period Construction in Progress not recognized during software implementation.

### **B. ACCOUNTING CHANGES**

Colorado State University (CSU) implementation of GASB Statement No. 74 – <u>Financial Reporting for Postemployment</u> <u>Benefit Plans Other Than Pension Plans</u>: Beginning fund balance in Fiduciary Assets of the Colorado State University was increased by \$71,534,705.99. During Fiscal Year 2017, the bylaws of the Colorado State University Other Post Employment Benefit Trust (Trust) were amended. As a result of this change and further analysis, CSU now reports the Trust as a fiduciary fund. The Trust was established June 27, 2014, as a single-employer other postemployment benefits (OPEB) plan, for the purpose of accumulating and investing assets to fund certain post-retirement medical benefits for retirees and disability income replacement for employees of CSU. The Trust, which is an entity separate from CSU, is for the exclusive purpose of providing funds to pay benefits and for paying expenses of administering the Trust.

University of Colorado (CU) implementation of GASB Statement No. 73 – <u>Accounting and Financial Reporting for Pensions</u> and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB <u>Statements 67 and 68</u>: Beginning fund balance was reduced by \$46,640,000 to record the cumulative effect of GASB 73 adoption. This implementation was for the fiscal year ending June 30, 2017.

### **Component Unit**

During 2016, the Colorado Water Resources and Power Development Authority adopted GASB Statement No. 72 – <u>Fair</u> <u>Value Measurement and Application</u>. GASB 72 addresses accounting and financial reporting issues related to fair value measurements and related disclosures. Adoption of GASB 72 had no effect on the Authority's beginning net position as of January 1, 2015 or on the change in net position for the year ended December 31, 2015.

### FUND BALANCE

On the Balance Sheet - Governmental Funds, the fund balance comprises the following (see Note 1 for additional details.):

			(Amount	s in Thousands)

The significant fund balances held for restricted purposes as of June 30, 2017, include:

- \$386.8 million in the General Fund in the Education function includes \$385.4 million in the School Capital Construction Fund related to the BEST program; a portion in cash from bond proceeds issued by the Treasurer and a portion in local school district matching funds restricted for public school fund construction under a settlement agreement.
- \$854.2 million in the Highway Users Tax Fund in the Transportation function includes \$850.1 million in the State Highway Fund from motor fuels tax and fees pursuant to Article X of the State Constitution and is restricted for highway construction and maintenance.
- \$102.0 million in the State Education Fund in the Education function from 0.33 percent of income taxes is restricted for educational purposes pursuant to Article IX, Section 17 of the State Constitution.
- \$169.1 million in the Other Governmental Funds in the General Government function includes \$80.0 million in the Debt Service Fund and \$78.4 for the TABOR emergency reserve recorded in the Major Medical Fund.

The significant fund balances held for committed purposes as of June 30, 2017, include:

- \$482.0 million in the General Fund in the General Government function includes \$415.4 million, a portion of the \$584.3 million representing the 6 percent statutory reserve available on a GAAP basis (see Note 1).
- \$193.2 million in the Resource Extraction Fund in the Business, Community, and Consumer Affairs function includes \$143.2 million in the Local Government Severance Tax Fund from severance tax and federal mineral leasing moneys held for the Department of Local Affairs for distribution to local governments.
- \$915.0 million in the Resource Extraction Fund in the Natural Resources function includes \$465.0 million in the Colorado Water Conservation Board Construction Fund that represents cash balances and loans receivable for loans issued to local governments by the Colorado Water Conservation Board; and \$370.9 million in the Severance Tax Perpetual Base Fund for cash and long term severance tax loans receivables.
- \$236.6 million in the Capital Projects funds in the General Government function includes \$148.9 million in the Regular Capital Construction Fund representing cash and receivables related to appropriated multi-year capital projects.
- \$586.3 million in the Other Governmental Funds in the General Government function primarily represents \$277.6 million in the Unclaimed Property Funds, \$136.9 million in the Marijuana Tax Cash Fund, \$75.8 million in Tobacco Litigation Settlement Funds, \$50.2 million in the Disaster Emergency Fund and \$31.5 million in the Marijuana Cash Fund.
- \$219.8 million in Other Governmental Funds in the Business, Community and Consumer Affairs function primarily represents \$50.4 million in the Limited Gaming Fund, \$32.4 million in the Employment Support Fund, \$26.3 million in the Advance Industries Acceleration Fund, \$20.8 million in the Mortgage Fraud Custodial Fund and \$13.8 million in the Workmen's Compensation Funds.
- \$187.8 million in Other Governmental Funds in the Justice function primarily represents \$32.7 million in the Consumer Protection Custodial Fund, \$15.5 million in the Supreme Court Committee Fund, \$11.8 million in the Victims Compensation Fund, and \$11.1 million in the Victims Assistance Fund.

### STABILIZATION ARRANGEMENTS

In accordance with C.R.S. 24-75-201.1(1)(d), the State maintains a General Purpose Revenue Fund statutory reserve for purposes of budget stabilization. For Fiscal Year 2016-2017, the reserve is calculated as six percent of General Purpose Revenue Fund appropriations less exceptions pursuant to C.R.S. 24-75-201.1(2). C.R.S. 24-75-201.5(1)(a) further requires the Governor to take action within the fiscal year to preserve one half of the reserve when economic forecasts indicate revenues will not be adequate to maintain the required reserve. In conjunction with the Governor's actions to reduce expenditures, the legislature has traditionally taken action to use the reserve. Historically, the statutory reserve has only been expended during recessionary periods when other budget measures have been exhausted. In Fiscal Year 2016-17 there was no use of the reserve. As of June 30, 2017, on a legal budgetary basis the reserve was \$584.3 million. On a GAAP basis only \$444.9 million was available for the reserve (see Note 1).

Article XXIV Section 7 of the State Constitution created the Old Age Pension Stabilization Fund, which is reported as a component of the General Fund – Special Purpose Funds. The fund is maintained at \$5.0 million and is only accessible through appropriation for old age pension basic minimum awards. Historically, the reserves in the fund have not been accessed.

### MINIMUM FUND BALANCE POLICIES

The appropriations process and statutory structure that governs State fiscal matters generally does not provide for the ability to set aside fund balances outside of those processes. However, in limited circumstances, boards and committees have fiscal policy and/or rulemaking authority. The following minimum fund balances were established under this type of authority.

Pursuant to Rule 8.2003.D, the Hospital Provider Fee Oversight Advisory Board (OAB) has established a reserve of four percent of the estimated expenditures for the Hospital Provider Fee Cash Fund plus any interest accrued by the fund. For Fiscal Year 2016-17, the maximum amount that could be kept in reserve was \$68.1 million although the OAB lowered the target reserve to \$3 million for that year. The reserve acts as a buffer to minimize the need for mid-year fee increases in the event that expenditures are higher than estimated.

### NOTE 16 – INTERFUND TRANSACTIONS

### INTERFUND RECEIVABLES AND PAYABLES

Individual interfund receivable and payable balances at June 30, 2017, were:

All of the material receivables and related payables shown in the schedule are the result of normal operating activities where the receivables and payables were not liquidated before the year-end close of the State's accounting system. This represents timing differences between when generally accepted accounting principles require transactions to be recognized and when cash is actually distributed.

The General Fund receivable of \$28.9 million from All Other Funds is primarily comprised of \$15.2 million in payables from the Limited Gaming Fund and \$8.5 million from various cash funds to support incurred Medicaid expenditures.

The General Fund receivable of \$41.2 million within the General Fund primarily includes \$40.5 million in personal services and operating line item reversions payable from the General Purpose Revenue Fund to the State Employee Reserve Fund.

The General Fund receivable of \$15.4 million from the State Lottery Fund primarily consists of a payable recorded by the Conservation Trust Fund for \$13.1 million, and to the Building Excellent Schools Today Grant Program for approximately \$2.3 million.

The Resource Extraction Fund receivable of \$17.0 million from All Other Funds primarily consists of \$16.4 million of loans from the Division of Parks and Wildlife Fund.

The Treasury Agency Fund receivable of \$14.1 million represents the distribution of State Lottery Fund proceeds to the Great Outdoors Colorado Fund.

In the normal course of events, the Legislature appropriates a large number of transfers between funds exercising its responsibility to allocate the State's resources to programs shown in the above schedule. The most significant of these are the transfers-out of the General Fund. These include \$3,597.8 million from the General Purpose Revenue Fund to the State Public School Fund (both within the General Fund), \$89.0 million to the Capital Projects funds (for controlled maintenance and capital projects), and \$230.2 million to the Higher Education Institutions (primarily for student financial aid, occupational education, and job training).

Additional transfers-out from the General Fund include \$79.4 million to the Highway Users Tax Fund and \$103.6 million from the State Public School Fund to the Charter School Institute Fund (both within the General Fund). In addition, \$25.3 million was transferred to the State Education Fund, and \$11.0 million was transferred to the Debt Service Fund for payment on outstanding certificates of participation issued by the Building Excellent Schools Today program.

The Resource Extraction transfer-out to the General Fund includes a \$43.7 million transfer from the Mineral Leasing Fund to the State Public School Fund. Transfers to the Higher Education Fund include \$7.0 million from the Federal Mineral Leasing Revenues Fund to the Lease-Purchase Cash Fund.

The Highway Users Tax Fund transfer-out to All Other Funds includes \$132.7 million to the Debt Service Fund to pay debt service on Transportation Revenue Anticipation Notes issued by the Department of Transportation.

The Capital Projects transfers-out include \$138.7 million to Institutions of Higher Education representing spending on state-funded capital projects managed by the institutions.

The State Education Fund transfers-out includes \$34.0 million to the Early Literacy Fund in All Other Funds.

The State Lottery transfer-out to the General Fund primarily comprises \$55.7 million to the Conservation Trust Fund in the Department of Local Affairs as a statutory distribution of Lottery net proceeds. Additionally, \$13.3 million was transferred to the Division of Parks and Wildlife in All Other Funds.

The Gaming transfers-out include distributions of limited gaming revenues of \$15.7 million to the General Fund and \$7.5 million to the Creative Industries Cash Fund and the Advance Industries Acceleration Fund in the Governor's Office of Economic Development and International Trade.

The Tobacco Impact Mitigation Fund includes transfers-out to Higher Education Funds of \$15.3 million from the Tobacco Litigation Settlement Moneys Health Education Fund.

The Other Special Revenue transfers-out to the General Fund includes \$40.0 million from the Retail Marijuana Excise Tax Fund to the Public School Capital Construction Assistance Fund (a special purpose fund in the General Fund). Additionally, the transfers-out to All Other Funds includes transfers of \$31.6 million to the State Lands Trust Fund.

The State Lands Trust transfer-out to the General Fund includes \$21.0 million to the State Public School Fund.

### NOTE 17 – PLEDGED REVENUE AND DONOR RESTRICTED ENDOWMENTS

### PLEDGED REVENUE

Various institutions of higher education, the Department of Labor and Employment, and the Highway Users Tax Fund have issued bonds, notes, and/or Certificates of Participation (COPs) for the purchase of equipment, and the construction of facilities and infrastructure. Specific user revenues are pledged for the payments of interest and future retirement of the obligations. In Fiscal Year 2017, the following pledges were in place:

The Department of Transportation Statewide Bridge Enterprise pledged \$109.9 million (gross) of federal highway funds, Build America Bonds, and surcharges to meet the current year interest payments on debt issued for construction activities related to the Funding Advancement for Surface Transportation and Economic Recovery (FASTER) Bridge Program. The debt was originally issued in Fiscal Year 2011, and has a final maturity date of Fiscal Year 2041. The pledged revenue represents 100 percent of the revenue stream, and \$607 million of the pledge commitment remains outstanding.

Higher Education Institutions have pledged auxiliary fees primarily related to student housing rent, and in some cases tuition, to meet the debt service commitment of their various bond issues. The debt issues involved had an earliest origination date in Fiscal Year 1999 and furthest maturity date of Fiscal Year 2055. In some instances the gross revenue of the activity is pledged and in other instances the net available revenue is pledged. Total pledged revenue of the Higher Education Institutions is approximately \$1.6 billion. Individually significant Higher Education Institution pledges include:

- \$1.2 billion (net) pledged by the University of Colorado to secure \$127.7 million of current principal and interest on debt issued to finance the construction of enterprise facilities and to refund prior enterprise debt. The related debt was issued in Fiscal Year 2016 and has a final maturity date of Fiscal Year 2047. The pledged revenue represents approximately 76.4 percent of the revenue stream, and \$2.4 billion of the pledge (principal and interest) remains outstanding.
- \$152.3 million (net) pledged by Colorado State University to secure \$67.9 million of current principal and interest on debt issued to finance the construction, expansion, or renovation of certain recreation, research, athletic, and academic facilities. The related debt was originally issued in Fiscal Year 2008 and has a final maturity date of Fiscal Year 2055. The pledged revenue represents 57.5 percent of the total revenue stream, and \$1.8 billion of the pledge (principal and interest) remains outstanding.
- \$46 million (net) pledged by the Colorado School of Mines to secure \$16.5 million of current principal and interest on debt issued to finance refunding of previous debt and for capital improvements. The related debt was originally issued in Fiscal Year 1999 and has a final maturity date of Fiscal Year 2043. The pledged revenue represents approximately 78.6 percent of the revenue stream, and \$322.9 million of the pledge (principal and interest) remains outstanding.
- \$30.7 million (gross) pledged by Metropolitan State University of Denver to secure \$7.1 million of current principal and interest on debt issued to finance the construction, expansion, or renovation of certain academic facilities. The related debt was originally issued in Fiscal Year 2010 and has a final maturity date of Fiscal Year 2046. The pledged revenue represents 10 percent of the tuition revenue stream and 100 percent of the fee and other revenues revenue stream, and \$151.1 million of the pledge (principal and interest) remains outstanding.
- \$24.6 million (net) pledged by Colorado Mesa University to secure \$14.9 million of current principal and interest on debt issued to construct auxiliary facilities. The related debt was originally issued in Fiscal Year 2010 and has a final maturity date of Fiscal Year 2045. The pledged revenue represents approximately 55.1 percent of the revenue stream and \$362.6 million of the pledge (principal and interest) remains outstanding.
- \$39.1 million pledged by the University of Northern Colorado to secure \$10.4 million of current principal and interest on debt issued to finance refunding of previous debt and for improvements of auxiliary facilities. The debt issuances had an earliest origination date of Fiscal Year 2008 and furthest maturity date of Fiscal Year 2046. The pledged revenue represents 41.2 percent of the net total auxiliary, extended studies, and student fee revenue streams; 100 percent of gross facility & admin cost recoveries; and 10

percent of gross general fund tuition revenue. \$235.7 million of the pledge (principal and interest) remains outstanding.

- \$11.8 million pledged by the Auraria Higher Education Center to secure \$6.3 million of current principal and interest on debt issued to finance construction of Tivoli Student Union park, coffee lounge, and patio and building parking structures. The debt issuances had an earliest origination date of Fiscal Year 2006 and furthest maturity date of Fiscal Year 2034. The pledged revenue represents 58.4 percent of the net and 100 percent of the gross auxiliary revenue stream. \$86.9 million of the pledge (principal and interest) remains outstanding.
- \$9.1 million (net) pledged by Colorado State University Pueblo to secure \$5.6 million of current principal and interest on debt issued to finance construction, remodeling, and acquisition of the Student Center, recreation facilities and student housing facilities. The related debt was originally issued in Fiscal Year 2008 and has a final maturity date of Fiscal Year 2044. The pledged revenue represents 48.6 percent of the revenue stream, and \$179.5 million of the pledge (principal and interest) remains outstanding.
- \$7.7 million (net) pledged by the Fort Lewis College to secure \$4.1 million of current principal and interest on debt issued to finance construction new residence hall, expansion and renovation of the student center, and various energy conservation improvements. The debt issuances had an earliest origination date of Fiscal Year 2008 and furthest maturity date of Fiscal Year 2038. The pledged revenue represents 35.5 percent of the revenue stream, and \$74.2 million of the pledge (principal and interest) remains outstanding.
- \$17.8 million (net) pledged by the Western State Colorado University to secure \$5.9 million of current principal and interest on debt issued to finance a new student apartment complex and a new sports complex. The debt issuances had an earliest origination date of Fiscal Year 2010 and furthest maturity date of Fiscal Year 2045. The pledged revenue represents 39.8 percent of the revenue stream, and \$171.7 million of the pledge (principal and interest) remains outstanding.

#### Revenue available to meet debt service requirements is shown in the following table:

				Direct	Available						
		Gross	Operating		Net		Debt Service Requirements

### DONOR RESTRICTED ENDOWMENTS

The State's donor restricted endowments exist solely in its institutions of higher education. The policies of individual boards govern the spending of net appreciation on investments; there is no State law that governs endowment spending. Donor restricted endowment appreciation reported by the State's institutions of higher education totaled \$18.4 million.

The University of Colorado reported net appreciation on endowment investments of \$15.7 million that was available for spending. The University reported the related net position in Restricted for Permanent Funds and Endowments – Expendable on the *Statement of Net Position – Proprietary Funds*. The University spends its investment income in accordance with its established spending policy.

The Colorado School of Mines reported \$1.9 million of net appreciation on endowment investments that was available for spending. The School reported the related net assets in Restricted for Permanent Funds and Endowments – Expendable on the *Statement of Net Position – Proprietary Funds*. The School has an authorized spending rate of 4.5% of the rolling 36-month average market value of the endowment investments.

Colorado State University reported \$605,631 of net appreciation on its donor-restricted endowments that was available for spending. The University reported the related net position in Restricted for Permanent Funds and Endowments – Expendable on the *Statement of Net Position – Proprietary Funds*. Expenditures of the University's investment income on endowment earnings held are authorized by the University President and expended in accordance with that authorization. They are also reported to the Board of Governors.

### NOTE 18 – COMPONENT UNITS, SEGMENTS, AND RELATED PARTIES

### COMPONENT UNITS

The State reports ten component units under the requirements of Governmental Accounting Standards Board (GASB) Statement No. 14 – <u>The Financial Reporting Entity</u>, Statement No. 39 – <u>Determining Whether Certain Organizations Are</u> <u>Component Units</u>, Statement No. 61 – <u>The Financial Reporting Entity</u>: <u>Omnibus-An Amendment to GASB Statements No.</u> 14 and No. 34, and Statement No. 80 – <u>Blending Requirements for Certain Component Units</u>. The State's component units are separated into major, nonmajor, and blended below. Financial statements for the major component units are presented in the Basic Financial Statements and for the nonmajor component units in the Supplementary Information Section of the Comprehensive Annual Financial Report.

#### A. MAJOR COMPONENT UNITS

The *Colorado Water Resources and Power Development Authority's* purpose is to initiate, acquire, construct, maintain, repair, and operate, or cause to be operated, projects for the protection, preservation, conservation, upgrading, development, and utilization of the water resources of the State. It is authorized to issue bonds, notes, or other obligations, which constitute its debt and not debt of the State of Colorado. Its primary revenue sources are income from invested bond proceeds, interest on loans made to local governments from bond proceeds, administrative charges on the loans, and EPA grants. The Authority incurred \$9.5 million in expenses for the State during 2016 for two State departments.

The University of Colorado Foundation was incorporated in 1967 and is authorized by the Board of Regents of the University of Colorado to receive, hold, invest, and transfer funds for the benefit of the University of Colorado. The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Service Code and is exempt from income tax on related income. During Fiscal Year 2016-17, the foundation distributed \$139.5 million of gifts and income to or for the benefit of the University of Colorado and other beneficiaries.

The *Colorado State University Foundation* is a not-for-profit tax-exempt organization, as described in Section 501(c)(3) of the Internal Revenue Service Code, and was incorporated in 1970 to assist in the promotion, development, and enhancement of the facilities and educational programs and opportunities of the faculty, students, and alumni of Colorado State University. This is accomplished through receiving, managing, and investing gifts. Principal or income from these gifts and contributions is used for charitable, scientific, literary, or educational purposes, which will directly or indirectly aid and benefit Colorado State University. During Fiscal Year 2016-17, the foundation transferred \$49.1 million to the University.

The *Colorado School of Mines Foundation* is a not-for-profit tax-exempt corporation providing financial resource development and support to the Colorado School of Mines. The majority of the foundation's revenue is derived from contributions and investment income. During Fiscal Year 2016-17 the foundation transferred, \$24.3 million to the University.

The University of Northern Colorado Foundation is a tax-exempt organization incorporated in 1996 to provide program, scholarship and other support to the University of Northern Colorado. The foundation's primary revenue is derived from contributions and investment income. During Fiscal Year 2016-17, the foundation transferred \$9.7 million to the University.

### B. NONMAJOR COMPONENT UNITS

The *Denver Metropolitan Major League Baseball Stadium District* currently includes all or part of the seven counties in the Denver metro area. The district was created for the purpose of acquiring, constructing, and operating a major league baseball stadium. To accomplish this purpose, the General Assembly authorized the district to levy a sales tax of one-tenth of one percent throughout the district for a period not to exceed 20 years. However, the district discontinued the sales tax levy on January 1, 2001, upon the final defeasance of all its outstanding debt.

The *Colorado Venture Capital Authority (VCA)* was established in the 2004 legislative session as a means to create new business opportunities in the State and stimulate economic growth by making seed and early-stage venture capital funds available to small businesses throughout Colorado. The legislation allocated the Authority \$50.0 million of insurance-premium tax credits, which it subsequently sold to insurance companies.

In 2005, the Authority entered into a limited partnership agreement to form Colorado Fund I, LP (Fund I) and committed to provide up to \$21.8 million to Fund I. The period of commitment extends over the term of Fund I, originally ending June 2015 and extended to June 2018, and is for investment in businesses meeting criteria established by the Authority, specifically including businesses in the life sciences, information technology, agritechnology, medical device, and retail

sectors. As of December 31, 2016, the VCA has contributed approximately \$21.8 million, or 100 percent, of its total funding commitment to Fund I.

In 2010 the Authority entered into a limited partnership agreement to form Colorado Fund II, LP (Fund II) and has committed to providing up to \$25.4 million over the term of Fund II (through December 2019 unless otherwise terminated). As of December 31, 2016, the VCA has contributed approximately \$23.9 million, or 94 percent, of its total funding commitment to Fund II.

In August 2010, the Board of Trustees of the Metropolitan State College of Denver (now Metropolitan State University of Denver) established the *HLC @ Metro, Inc.* as a non-profit entity to provide for the financing, construction, operation, and management of the Hotel and Hospitality Learning Center at MSU Denver. The facility, which opened in August 2012, includes a fully functioning hotel and learning laboratory for the University's Hospitality, Tourism, and Events department.

### C. BLENDED COMPONENT UNITS

*University Physicians, Inc. d/b/a CU Medicine*, is a Colorado nonprofit corporation under Section 501(C)(3) of the Internal Revenue Code, organized to perform the billing, collection, and disbursement functions for professional services for CU Anschutz. CU Medicine is the School of Medicine's (SOM) faculty practice plan with approximately 3,000 providers. CU Medicine does not employ physicians or practice medicine directly; it provides business and administrative support for the clinical faculty employed by the SOM. The majority of patients cared for reside within the Denver metropolitan area. The University of Colorado appoints a majority of CU Medicine's governing body, and is able to impose its will. Additionally, CU Medicine exclusively benefits the University of Colorado by providing the services described above. Detailed financial information may be obtained directly from CU Medicine at P.O. Box 111719, Aurora, CO 80042-1719.

Established in 2016 with operations starting in Fiscal Year 2017, the University of Colorado Property Corporation, Inc. (CUPCO) holds, invests, maintains, operated, and administers real and personal property for the benefit of the University. CUPCO is a nonprofit corporation under Section 501(C)(3) of the Internal Revenue Code. The University of Colorado appoints CUPCO's governing body, is able to impose its will on the organization and the organization provides services entirely to the University. Detailed financial information may be obtained directly from CUPCO at 1800 Grant Street, Suite 725, Denver, CO 80203.

### SEGMENT INFORMATION

Segments are identifiable activities reported as or within an Enterprise Fund for which bonds or other debt is outstanding and a revenue stream has been pledged in support of that debt. In addition, to qualify as a segment, an activity must be subject to an external requirement to separately account for the revenues, expenses, gains and losses, assets, and liabilities of the activity. All of the activities reported in the following condensed financial information meet these requirements. The purpose of each of the State's segments aligns with the primary mission of the enterprise in which it is reported; therefore, none of the State's segments are separately reported on the government-wide *Statement of Activities*. The following paragraphs describe the State's segments.

### University of Colorado

CU Medicine, formerly University Physicians Incorporated (UPI), performs the billing, collection, and disbursement functions for professional services rendered as authorized in Section 23-20-114, Colorado Revised Statues 1973.

Campus Village Apartments, LLC (CVA) is organized, operated and dedicated exclusively to the charitable purposes of promoting the general welfare, development, growth and wellbeing of the University, and specifically for the primary purpose of acquiring, constructing, improving, equipping and operating a student housing facility, to include related improvements and amenities.

### Auraria Higher Education Center

The Auraria Higher Education Center's parking segment charges students, faculty and staff fees for the use of parking lots and structures. The Center's student facilities segment charges fees to students for the use of its facilities. This segment is part of the Higher Education Institutions Enterprise.

The following page presents condensed financial information for the State's segments.

### **RELATED PARTIES AND ORGANIZATIONS**

#### **Primary Government**

University of Colorado Denver Anschutz Medical Campus enters into related-party transactions with University of Colorado Health (UCHealth) under contracts that support the University's medical education mission. During Fiscal Year 2016-17, under these contracts, UCHealth paid the University \$86.3 million and the University paid UCHealth \$10.3 million. At June 30, 2017, the University had accounts receivable from UCHealth for \$4.2 million, and had no accounts payable to UCHealth.

The University of Colorado Health and Welfare Trust exists to provide healthcare benefits to employees of the Trust members, who are the University of Colorado, the University of Colorado Hospital Authority, and University Physicians, Inc. The Trust provides healthcare benefits on a self-insured basis where risks are transferred to the pool. The University is not financially accountable for the Trust. During Fiscal Year 2016-17 the Trust paid medical claims on behalf of the University of \$197.1 million. The University contributed \$191.5 million to the Trust and its employees contributed \$25.2 million. At June 30, 2017, the University had accounts receivable from the Trust for \$830,000 and accounts payable to the Trust for \$7.0 million.

Colorado State University Research Foundation (CSURF), a related party, is a not-for-profit Colorado corporation, established to aid and assist the Universities governed by the Board of Governors for the Colorado State University System in their research and educational efforts. Support provided by the Foundation to the institutions (Colorado State University and Colorado State University – Pueblo) includes patent administration and licensing, financing the acquisition of research and educational facilities and equipment, and land acquisition and management. Colorado State University paid CSURF \$1.5 million in Fiscal Year 2016-17 for leased space, and at June 30, 2017 had total future lease obligations for leased space of \$9.6 million. Colorado State University also paid CSURF \$3.9 million during the fiscal year for equipment, vehicles, and buildings and had total future lease obligations for leased equipment, vehicles, and buildings of \$19.2 million.

The Colorado State University – Pueblo Foundation was established to benefit Colorado State University Pueblo. The Foundation transferred \$1.5 million in cash and \$31,896 in in-kind transfers to the University in Fiscal Year 2016-17. At June 30, 2017, the University had an account receivable from the Foundation for \$3.3 million.

The Adams State University Foundation provides scholarships and work-study grants to students, and program development grants to Adams State University. The Foundation provided \$1.5 million in scholarships, grants and operating expense reimbursements during Fiscal Year 2016-17.

The Colorado Mesa University Foundation provides financial assistance to Colorado Mesa University students and assists the University in serving educational needs. In Fiscal Year 2016-17, the Foundation awarded \$1.5 million in scholarship funds directly to students and \$2.7 million in donations and contributions to Colorado Mesa University. In the same year, Colorado Mesa University made operating transfers to the Colorado Mesa University Foundation for \$359,718.

The Colorado Mesa University Real Estate Foundation donated \$6.7 million in property to Colorado Mesa University. The University made operating transfers for \$6.2 million to the Colorado Mesa University Real Estate Foundation.

The Fort Lewis College Foundation exists to support Fort Lewis College. During Fiscal Year 2016-17 the Foundation funded \$894,496 for scholarships and passed through \$1.3 million in gifts and pass-through grants for program support. At June 30, 2017, the College had receivables from the Foundation of \$200,160.

Metropolitan State University of Denver Foundation, Inc. was organized and is operated to promote the general welfare and development of Metropolitan State University of Denver. The foundation provided \$2.8 million of funding to the University in Fiscal Year 2016-17. The foundation also reimbursed the University \$348,420 for services provided by University employees and left un-reimbursed \$340,094 of these services. At June 30, 2017, the Foundation owed the University \$437,206. The University paid the Foundation \$127,547 for the lease and operation of the Center for Visual Arts.

Western State Colorado University Foundation was established to aid Western State Colorado University in fulfilling its educational mission. The Foundation transferred \$4.8 million to the University in Fiscal Year 2016-17.

Most of the State's community colleges have established foundations to assist in their educational missions. With the exception of the Community College of Aurora, the Community College of Denver, Arapahoe Community College, Front Range Community College, Pikes Peak Community College, Pueblo Community College and Red Rocks Community College, none of these foundations made annual transfers to their related community colleges in excess of \$500,000.

In Fiscal Year 2016-17, the Arapahoe Community College Foundation transferred \$659,626 in scholarships and grants to Arapahoe Community College. The College provided the Foundation \$235,332 in in-kind expense, payments of deposits held in custody, and other payments.

The Community College of Aurora Foundation provided the Community College of Aurora with scholarships and grants in Fiscal Year 2016-17 for \$588,081. The College had outstanding receivables from the Foundation of \$79,295 as June 30, 2017. In previous years, the Community College of Aurora made lease payments to the Community College of Aurora Foundation for the CentreTech Campus. The Community College of Aurora purchased the CentreTech campus, which consists of land and three buildings, for \$7.5 million in April 2016.

The Community College of Denver Foundation provided \$636,954 to the Community College of Denver for scholarships and \$172,087 in pass through grant funding and support for other activities. The College provided \$38,145 of staff time to the Foundation in Fiscal Year 2016-17.

Front Range Community College received \$550,411 from the Front Range Community College Foundation for scholarships. Front Range Community College provided \$270,093 in personnel and operating support to the Front Range Community College Foundation.

Pikes Peak Community College Foundation provided \$1.0 million to Pikes Peak Community College in the form of reimbursements for direct expenditures, financial aid support, capital construction support, and grant funds. The College in turn provided \$305,124 of operating support to the Foundation. At June 30, 2017, The College had \$305,379 of receivables from the Foundation.

The Pueblo Community College Foundation provided Pueblo Community College \$904,576 in the form of scholarships, grants, construction funds, program funding and discretionary funds.

The Red Rocks Community College Foundation provided \$904,215 to Red Rocks Community College. Of this amount, \$432,281 was for scholarships, \$172,564 was for the construction of the Arvada Health Professions and Science Building, and \$160,467 was for pass-through grants. The rest of the funds were for other grants, special projects and support of operating expenses. The College provided \$280,938 to the Foundation for operating expenses. At June 30, 2017, The College had receivables of \$138,602 from the Foundation.

The Great Outdoors Colorado Board (GOCO) is a constitutionally created entity whose purpose is to administer the GOCO Program and Trust Fund. The purpose of the program is to promote the wildlife and outdoor recreation resources of the State using funds it receives from the Colorado Lottery. During Fiscal Year 2016-17, the Board funded \$30.5 million of wildlife and parks programs at the Department of Natural Resources. At June 30, 2017, GOCO owed the Department of Natural Resources \$7 million.

Colorado Housing and Finance Authority (CHFA) is a related party to the State in three different activities as follows:

• The Colorado Housing and Finance Authority Bond Program supports existing programs administered by CHFA that provide loans to small businesses, farms and ranches within the State of Colorado. CHFA operates these programs in coordination with the U.S. Small Business Administration, the Farm Service Agency, and the U.S. Rural Business Cooperative Service. The Department of Treasury holds two CHFA bonds with a face value of \$4.3 million as of June 30, 2017. The Department receives monthly payments

from CHFA for all principal payments and interest collected by the Authority. On bond maturity dates of January 1, 2025 and December 1, 2031, the Department of Treasury will receive any unpaid principal balance of the bonds, plus all accrued and unpaid interest.

- CHFA acts as the fiscal agent for the Revolving Loan Fund and Loan Loss Reserve programs that provide loans for energy efficiency or renewable energy projects. The outstanding loan balance at CHFA on June 30, 2017 was \$5.8 million. In Fiscal Year 2016-17, the Energy Office paid CHFA \$19,000 in administrative fees for this service.
- Under CRS 8-77-103.5 CHFA is authorized "...to issue bonds and notes as are necessary to maintain adequate balances in the unemployment compensation fund or to repay moneys advanced to the State from the Federal Unemployment trust fund, or both." On June 28, 2012, as a conduit issuer in an exchange transaction, CHFA issued Colorado Unemployment Compensation Fund Special Revenue Bonds with a par value of \$624.8 million. These bonds were paid in full as of May 2017. The Department of Labor and Employment paid CHFA \$60,000 in administration fees in Fiscal Year 2016-17 for this arrangement.

### **Component Units**

The Colorado Venture Capital Authority (VCA) has Limited Partnership Agreements with Colorado Fund I, LP and Colorado Fund II, LP, and has selected High Country Venture, LLC, to serve as manager and general partner of both funds. The partnership agreements allocate income or loss 20 percent to the general partner and 80 percent to the limited partners in accordance with their respective partnership percentages. As of December 31, 2016, VCA's investments in Colorado Fund I and Colorado Fund II totaled \$21.6 million and \$28.9 million respectively.

### NOTE 19 – COMMITMENTS AND CONTINGENCIES

#### SERVICE CONCESSION ARRANGEMENTS

On February 25 2014, the High Performance Transportation Enterprise (HPTE) and Plenary Roads Denver (PRD) completed the financial close of a 50 year concession arrangement. The concession arrangement is HPTE and CDOT's first public private partnership (P3) project, where public and private sectors work together to provide transportation improvements.

The commercial close of the concession arrangement transferred from HPTE to PRD the operations, maintenance, and revenues related to the existing I-25 High Occupancy Toll (HOT) lanes and the U.S. 36 Phase I project once completed in July 2015. Additionally, PRD assumed HPTE's 50 year \$54 million TIFIA loan at the completion of U.S. 36 Phase I. PRD also financed, designed, and constructed U.S. 36 Phase II. Once completed in March 2016, PRD transferred the Phase II capital asset with an acquisition value of \$88,716,505 to HPTE. PRD subsequently assumed the operations, maintenance, and revenues from U.S. 36 Phase II. PRD has the right to collect tolls and raise rates with permission from the HPTE Board. If the Board does not approve the rate increase, HPTE must compensate PRD for any lost revenue.

HPTE reported deferred inflow of resources related to the arrangement of \$139,455,195 which is included on the *Statement of Net Position*. The table below shows the carrying amount of HPTE's capital assets at fiscal year-end pursuant to the concession arrangement.

Project	Description	Carr	ying Amount
U.S. 36 Phase I	Tolling Equipment and Software	\$	349,076
U.S. 36 Phase I	Managed Lanes		150,198,826
U.S. 36 Phase I	36 Tolling Stations		970,378
U.S. 36 Phase II	Tolling Equipment and Software		319,186
U.S. 36 Phase II	Managed Lanes		99,240,961
U.S. 36 Phase II	36 Tolling Stations	\$	349,143

#### **ENCUMBRANCES**

Most encumbrances are supported by annual appropriations and lapse at year-end. However, the Capital Projects Fund, Institutions of Higher Education, and Colorado Department of Transportation Funds (primarily the Highway Users Tax Fund) include multi-year encumbrances of \$75.5 million, \$101.0 million and \$1.1 billion, respectively, which are related to purchase orders and long-term contracts for the construction of major capital projects and infrastructure.

#### FINANCIAL GUARANTEES

In Fiscal Year 2010-11, Metropolitan State University of Denver's Board of Trustees (formerly the Metropolitan State College of Denver Board of Trustees) approved the incorporation of a special purpose nonprofit corporation to be known as HLC @ Metro, Inc. The HLC @ Metro, Inc., a discretely presented nonmajor component unit of the State, created the Hotel/Hospitality Learning Center (HLC) to enhance the University's Hospitality, Tourism, and Events department. The Metropolitan State College of Denver Roadrunner Recovery and Reinvestment Act Finance Authority issued approximately \$55.0 million in revenue bonds in October 2010, loaning the proceeds to HLC @ Metro, Inc. to construct the HLC. The HLC generates revenue as a facility open to the general public. Should HLC @ Metro, Inc. not fulfill its obligation to pay any and all principal and interest, the University is obligated to make the payment due, and HLC @ Metro, Inc. is obligated to repay all payments made on its behalf. The guarantee remains in effect until there is no remaining outstanding balance on the 2010 bond issuance. As of June 30, 2017, no liability was recorded by the University as HLC @ Metro, Inc. was deemed fully capable of making its debt payments.

#### CONTINGENCIES

The Colorado Governmental Immunity Act (CGIA) sets upper limits on State liability at \$350,000 per individual and \$990,000 for two or more persons in a single occurrence. Judgments in excess of these amounts may be rendered, but the claimant must petition the General Assembly for an appropriation to pay any amount greater than the immunity limits. Judgments awarded against the State for which there is no insurance coverage or that are not payable from the Risk Management Fund ordinarily require a legislative appropriation before they may be paid. Effective January 1, 2012, the Act was amended to waive the State's sovereign immunity for legal proceedings in which the State has been determined to be negligent in conducting prescribed fires.

Numerous court cases are pending in which the plaintiffs allege that the State has deprived persons of their constitutional rights, civil rights, inadequately compensated them for their property, engaged in regulatory misfeasance, or breached contracts. In the aggregate, the monetary damages (actual, punitive, and attorney's fees) claimed in the constitutional and civil rights cases would exceed the insurance coverage available by a material amount. The property compensation and breach of contract suits are generally limited to the appraised value of the property or the contract amount. In the breach of contract suits, the State often files counterclaims. While it is reasonably possible that awards of judgment could occur, it is unlikely that those awards would have a material adverse effect on the State's financial condition.

The State is the defendant in numerous lawsuits involving claims of inadequate, negligent, or unconstitutional treatment of prisoners, mental health patients, nursing home patients, or the developmentally disabled. In some of these suits, plaintiffs are seeking or have obtained certification as a class for a class action suit. Most of these cases seek actual damages that are not material but include requests for punitive damages that may be material. There is also the potential that the courts may rule that the current conditions of confinement, Medicaid coverage, or residential services are unconstitutional, which could result in significant future construction, medical, or residential services costs that are not subject to reasonable estimation.

The State is the defendant in lawsuits by employees accusing the State of various infractions of law or contract. These may include claims related to age and sex discrimination, sexual harassment, wrongful termination, contractual agreements for paying salaries based on parity and equity, and overtime compensation under the Federal Fair Labor Standards Act. The State does not believe that any of these cases are material to its financial operations.

In the event of adverse loss experience, which is defined as a default rate in excess of 9 percent, College Assist could be liable for up to 25 percent, or \$1.9 billion, of the \$7.6 billion outstanding balance of loans in repayment status. An estimated liability of \$132 million is calculated based on a default rate of 6.9% of the \$1.9 billion. The probability of a material loss is remote, and the State's liability is capped at the net position of the College Assist program of \$139 million.

At June 30, 2017, the Lottery Division of the Department of Revenue had outstanding annuity contracts of approximately \$167.9 million in the names of lottery or lotto prizewinners. The probability is remote that any of the sellers of these contracts will default, and thereby require the State to pay the annuity.

The Colorado Department of Revenue routinely has claims for refunds in various stages of administrative and legal review that could result in refunds. Individual claims exceeding \$5.0 million include two claims for income tax refunds of \$13.7 million and \$22.3 million. While the Court of Appeals ruled in the taxpayer's favor in both claims on November 2, 2017 and November 30, 2017, respectively, the State will file petitions in the Colorado Supreme Court and the Department of Revenue will continue to vigorously defend these claims. The likelihood of an unfavorable outcome is uncertain.

Various notes and bonds have been issued by state school districts that may impact the State. Colorado statutes provide that if a district indicates it will not make a required payment to bondholders by the date on which it is due, the State Treasurer shall forward to the paying agent the amount necessary to make the payment. The State shall then withhold state property-tax-equalization payments to the defaulting school district for a period up to 12 months to cover the State's loss. Currently, notes or bonds valued at approximately \$9.1 billion are outstanding. Of this amount, \$729 million is covered by private insurance.

Many state agencies have grant and contract agreements with the federal government and other parties. These agreements generally provide for audits of the transactions pertaining to the agreements, with the State being liable to those parties for any disallowed expenditure. Individually significant disallowances are disclosed in the following paragraphs.

Due to unclear guidance provided by the Centers for Medicare and Medicaid Services (CMS), the Department of Health Care Policy and Financing (HCPF), as well as several other states, may have to repay a portion of the \$38.4 million Children's Health Insurance Program Reorganization Act (CHIPRA) Bonus payments it received from CMS based on an Office of the Inspector General (OIG) audit finding. HCPF strongly disagrees with this OIG audit finding and believes the OIG misinterpreted federal regulations and written guidance related to the CHIPRA bonus calculation. HCFP is prepared to challenge this if repayment is requested by CMS and join other states in disputing this through all available channels including the State and Federal Courts. The likelihood of an unfavorable outcome is uncertain.

The CMS conducted an onsite visit of the Pueblo Regional Center (PRC) and sent HCPF a report of its findings and requested a development of corrective action plan. CMS claimed that HCPF violated federal administrative requirements regarding administration of the Medicaid Home and Community Based Services waiver program for developmentally disabled for approximately 60 individuals. CMS alleged violations of federal rules that involve the provision of services to those individuals between November 1, 2014 and November 2015 and seeks disallowance of payments to HCPF for services provided at PRC. HCPF submitted its proposed corrective action plan on September 26, 2016. HCPF has submitted responses to additional follow-up questions from CMS in March and August 2017. HCPF continues to work to fully respond and implement the CAPs requirements. As of September 13, 2017, HCPF continues to wait for feedback from CMS as to the scope of its determination of non-compliance. HCPF has filed a federal administrative appeal with the Department of Health and Human Services to dispute the scope of the CAP and any proposed remedial sanctions, but that matter is stayed to allow the parties to attempt to negotiate a resolution. The likelihood of an unfavorable outcome is uncertain. There is a possibility that the losses could reach greater than \$5 million.

Two suits were filed in U.S. District Court against HCPF and the Department of Corrections (DOC) in which the plaintiffs seek to expand the coverage of Direct Antiviral Acting (DAA) drugs for treatment of Hepatitis C. One suit enjoins HCPF from implementing any policy or protocol that denies access to DAA drugs to any Medicaid beneficiary who is infected with Hepatitis C; HCPF estimates that it would cost \$200 million to provide DAA drugs to all Medicaid recipients infected with Hepatitis C. The other suit enjoins DOC from delaying or denying this treatment for inmates needing treatment. DOC estimates a cost of \$59.3 million for medications at issue. The original HCPF case was dismissed on February 17, 2017; however on April 13, 2017 a new case was filed by three new plaintiffs on essentially the same grounds, and this new case was further amended on May 9, 2017 to add a fourth plaintiff. Plaintiffs then filed a motion to certify it as a class action; that motion is fully briefed and pending before the court. HCPF will vigorously defend these claims. The DOC case was filed on July 19, 2017. The State filed a motion to dismiss and a motion to stay further litigation. DOC will vigorously defend the case while awaiting a ruling. The likelihood of an unfavorable outcome is uncertain for both cases.

The TABOR Foundation, a not-for-profit entity that is not part of State government, has filed suit in Denver District Court against HCPF alleging that the hospital provider fee is a tax, not a fee, and therefore requires a vote of the people. The plaintiff challenges the fee imposed in Fiscal Years 2011, 2012 and 2013, and seeks a refund of all revenue collected, kept, or spent unconstitutionally, plus interest. Approximately \$5.4 billion has been collected in fees through Fiscal Year 2017. The Complaint was filed on June 26, 2015. HCPF filed a motion to dismiss arguing that the hospital provider fee is a fee and not a tax. The Motion was fully briefed and pending before the District Court for 20 months when plaintiffs filed an Amended Complaint. Per the Court's order, on September 8, 2017, the State filed a supplement to the motion to dismiss adding grounds to dismiss the new claims in the Amended Complaint. The Colorado Hospital Association filed a motion to intervene in the case, which was granted on December 11, 2017. The plaintiff then filed a second Amended Complaint on December 19, 2017, adding the Colorado Union of Taxpayers Foundation and two individuals as plaintiffs, and alleging the fee violates TABOR in that it constitutes a change in tax policy resulting in a net tax revenue to the State. HCPF has objected to this and will continue to vigorously defend these claims. The State is unable to estimate the likelihood of an adverse outcome.

A suit was filed against the Colorado Department of Human Services where the plaintiff seeks \$10.0 million in damages due to suffering life-long injuries from an assault in a Division of Youth Correction facility. A motion to dismiss has been briefed, and the State is awaiting the Court's decision. The Department of Human Services will vigorously defend claims. The State is unable to estimate the likelihood of an adverse outcome.

In January 2015, the United States Supreme Court issued its ruling in the case of The State of Kansas versus The States of Colorado and Nebraska claiming overuse of water supply available under the Republican River Compact.

As a result of that ruling, The State of Nebraska was required to pay Kansas \$5.5 million. The ruling also paved the way for state parties to come to agreement and finalize accounting of the available Republican River water supply and past uses by each state. Currently the accounting is finalized and both Nebraska and Kansas may consider asserting claims against Colorado for its documented overuse. Both states have indicated a strong interest in settling this past debt without litigation; nonetheless they have reserved the right to seek relief against Colorado if a settlement cannot be reached. No specific amount of damages has been determined; however they may exceed \$5.0 million.

Two suits were filed by Heartland Biogas, LLC (Heartland) against The State of Colorado (Departments of Agriculture & Public Health and Environment) where the plaintiff seeks \$100 million in damages in each case due to the voluntary closure of their biogas facility. In the first case the plaintiff alleges the State violated its due process and substantive due process rights. The Defendants filed a motion to dismiss. The Magistrate Judge recommended that the State Defendants' motion to dismiss be granted and that the claims against the State Defendants be dismissed with prejudice. The parties are awaiting the District Court Judges' review of the recommendation. The Defendants also filed a motion to dismiss the second case, where the plaintiff alleges the State is liable under a theory of estoppel and that the State's action constituted a regulatory taking. The State is unable to estimate the likelihood of an adverse outcome.

The National Federation of Independent Businesses (NFIB), has filed suit against the Colorado Secretary of State alleging that §§ 24-21-104 and 24-21-104.5, C.R.S. violate TABOR. These provisions allocate fees collected by the Secretary's Business and Licensing Division to a cash fund, and authorize appropriations from that cash fund to the Secretary's Elections Division and to counties to support election functions. NFIB seeks a refund of allegedly unconstitutionally collected registration fees, and the imposition of penalties, interest, fees, and costs in accordance with Colorado Constitution Article X, § 1. The complaint does not seek a precise monetary award; The State's estimate of exposure is approximately \$20 million. The parties filed cross-motions for summary judgment in Denver District Court. After full briefing and oral argument, on November 3, 2015, the District Court granted summary judgment in the Secretary's favor. The Court did not decide whether the fees are taxes. NFIB has filed a timely appeal to the Colorado Court of Appeals, and the matter is now fully briefed.

In an unpublished decision, the Court of Appeals reversed the trial court's grant of summary judgment in favor of the Secretary and remanded the case for further factual development on the question of whether and to what extent the Secretary's fees have increased post-TABOR's enactment. The parties filed a joint petition for rehearing that was summarily denied, and then each party cross-petitioned for a writ of certiorari. The cross-petitions have been fully briefed and are pending before the Supreme Court. The Secretary will vigorously defend claims. The State is unable to estimate the likelihood of an adverse outcome.

There is a Notice of Claim (NOC) regarding potential claims against the Department of Public Health and Environment (CDPHE). The NOC contends the CDPHE is responsible for the death of a child who died while under the care of a licensed child care provider; compensatory damages in excess of \$5 million are sought. To date, no lawsuit has been filed; should an action be filed, CDPHE will vigorously defend the action. The likelihood of an unfavorable outcome is uncertain.

The State believes it has a reasonable possibility of favorable outcomes for the actions discussed in this Note 19, but the ultimate outcome cannot presently be determined. Except as otherwise noted, no provision for a liability has been made in the financial statements related to the contingencies discussed in this note.

### NOTE 20 – TAX ABATEMENTS

#### Facts and Assumptions

The Governor's Office of Economic Development and International Trade (OEDIT) – through the State Economic Development Commission (EDC) – supports recruitment, retention, and economic growth throughout the State by offering a variety of incentives and tax credits. OEDIT provided significant tax abatements under four programs during the fiscal year: Colorado Enterprise Zone Business Tax Credits, Colorado Enterprise Zone Contribution Tax Credits (included as part of the Enterprise Zone Business Tax Credits program), Job Growth Incentive Tax Credits, and the Regional Tourism Act program.

• The <u>Colorado Enterprise Zone (EZ) program</u> was created under Article 30 of Title 39 of the Colorado Revised Statutes (C.R.S.) to promote a business friendly environment in economically distressed areas by offering state income tax credits that incentivize businesses to locate and develop in these communities. The Enterprise Zone Contribution Credit is a sub-credit of the Enterprise Zone program created under Section 39-30-103.5, C.R.S. The Contribution Credit is issued to taxpayers that contribute to an economic development project initiated by the local zone administrator and approved by the EDC. Taxpayers investing in Enterprise Zones can earn a credit on their Colorado income tax by planning and executing specific economic development activities. The following incentives can be earned by businesses located in Enterprise Zones:

Business Income Tax Credits	Credit Amount	
Investment Tax Credit	3.0 percent of equipment purchases	
Commercial Vehicles Investment Tax Credit	1.5 percent of commercial vehicle purchases	
Job Training Tax Credit	12 percent of qualified training expenses	
New Employee Credit	\$1,100 per new job created	
Agricultural Processor New Employee Credit	\$500 per new job created	
Employer Sponsored Health Insurance Credit	\$1,000 per covered employee	
Research & Development Increase Tax Credit	3 percent of increased R&D expenditures	
Vacant Commercial Building Rehabilitation Tax Credit	25 percent of rehabilitation expenditures	
Additional EZ Incentives	Incentive Amount	
Manufacturing/Mining Sales and Use Tax Exemption	Expanded Sales & Use tax exemption in EZ	
Contribution Tax Credit	25 percent cash/12.5 percent in-kind	

Areas with high unemployment rates (25% above the State average), low per capita income (25% below the State average), and/or slower population growth (less than 25% of the State average in rural areas) may be approved for EZ designation by the EDC.

Each income tax year, a business located in an EZ must apply and be pre-certified prior to beginning an activity to earn any of the business tax credits listed in the table above. When pre-certifying, the business states that the credit is a contributing factor to the start-up, expansion, or relocation of the business. To certify for the credit, the investments and/or new jobs must have been made. At the end of the income tax year, a business must certify that the activities were performed. Contribution Tax Credits are earned by taxpayers making donations to eligible EZ Contribution Projects, and certifying those donations with the project organization or Local Enterprise Zone Administrator. The Commercial Vehicle Investment Tax Credit has a separate online application process.

The provision for recapturing abated taxes would be an income tax return audit conducted by the Department of Revenue.

• The Job Growth Incentive Tax Credit (JGITC) is a performance-based job creation incentive program created under Section 39-22-531 C.R.S., in which businesses must create and maintain permanent new jobs for one year before receiving the tax credit. The JGITC provides a state income tax credit equal to 50% of FICA paid by the business on the net job growth for each calendar year in the credit period. A business must undertake a job creation project for which the State of Colorado is competing with at least one other state for the project. The JGITC must be a major factor in the business decision to locate or

retain the project in Colorado, and a business may not start or announce the proposed project (including locating or expanding in the State, hiring employees related to the project, or making material expenditures for the project) until a final application has been submitted and approved by the EDC.

Businesses have to create at least 20 new jobs (full-time equivalents) in Colorado during the credit period with an average yearly wage of at least 100% of the county average wage based on where the business is located. A business located in an Enhanced Rural Enterprise Zone must create at least five net new jobs (full-time equivalents) in Colorado during the credit period with an average yearly wage of at least 100% of the county average wage based on where the business is located. The credit period is 96 consecutive months.

The provision for recapturing abated taxes would be an income tax return audit conducted by the Department of Revenue.

- The <u>Regional Tourism Act (RTA)</u> program was created under Sections 24-46-301 through 309 C.R.S., and provides Tax Increment Financing (TIF) to support construction of unique and extraordinary large scale tourism and entertainment facilities that will drive net new visitors and revenue to Colorado. A percentage of state sales tax within a geographic area in a given year that exceeds a base year amount is collected by the Department of Revenue and diverted to a project financing entity. The EDC shall not approve any project that would likely create an annual state sales tax revenue dedication of more than \$50 million to all regional tourism projects. A local government will need to submit a regional tourism project application to OEDIT within the application cycle deadline. OEDIT will review the application for general completeness and to make an initial determination regarding whether the application has met the general criteria for a regional tourism project. The EDC will review applications forwarded with OEDIT recommendations and may approve or reject the project based on a demonstration that the following criteria are materially met:
  - The project is of an extraordinary/unique nature and is reasonably anticipated to contribute significantly to economic development and tourism in the State and communities where the project is located.
  - The project is reasonably anticipated to result in a substantial increase in out-of-state tourism.
  - A significant portion of sales tax revenue generated by the project is reasonably anticipated to be attributable to transactions with nonresidents of the zone.
  - The local government has provided reliable economic data demonstrating that in the absence of state sales tax increment revenue, the project is not reasonably anticipated to be developed within the foreseeable future.

Recipients must follow the EDC resolution based on their application, and must build certain required elements and improvements and follow conditions established by the EDC. The provision for recapturing abated taxes is a formal decision by the EDC concluding the project has not commenced within five years.

Information relevant to disclosure of these tax abatement programs for the fiscal year ended June 30, 2017 is as follows:

Tax Abatement Program	Amount of Taxes Abated (in thousands)
Colorado Enterprise Zone Business Tax Credits	\$ 67,023
Colorado Enterprise Zone Contribution Tax Credits	14,711
Job Growth Incentive Tax Credits	12,619
Regional Tourism Act	4,766
Total	\$ 99,119

#### **NOTE 21 – SUBSEQUENT EVENTS**

#### **Primary Government**

#### A. DEBT ISSUANCES AND REFUNDINGS

On July 18, 2017, the State issued General Fund Tax and Revenue Anticipation Notes (GTRAN), Series 2017A. The notes mature on June 27, 2018. The total due on that date includes \$600,000,000 in principal and \$23,353,333 in interest. The GTRAN was issued with a premium of \$18,030,200, an average coupon rate of 4.13%, and a true interest cost of 0.92%.

On July 20, 2017, the State issued Education Loan Program Tax and Revenue Anticipation Notes (ETRAN), Series 2017A. The notes mature on June 28, 2018. The total due on that date includes \$290,000,000 in principal and \$11,266,667 in interest. By statute, interest on the notes is payable from the General Fund. The ETRAN was issued with a premium of \$8,778,650, an average coupon rate of 4.14%, and a true interest cost of 0.90%.

On August 10, 2017, the Colorado School of Mines issued \$27,675,000 with a premium of \$4,509,313 in Institutional Enterprise Revenue Bonds, Series 2017A. The coupon rates of the bonds range from 2% to 5% with final maturity December 1, 2047. Proceeds of the Series 2017A Bonds will be used for financing certain improvements at the Colorado School of Mines as well as the cost of bond issuance.

On August 24, 2017, Keiwit Meridiam Partners (KMP) was selected to be the Central 70 project developer to undertake the \$1,200,000,000 project. On November 22, 2017, Colorado Bridge Enterprise (CBE) and the High Performance Transportation Enterprise (HPTE) Boards approved the Project Agreement and completed the commercial close of the Central 70 project. On December 21, 2017, KMP and CBE completed the financial close of the project that included CBE issuing \$114,660,000 of Private Activity Bonds (PABS) with a premium of \$6,105,426.30 and closing on a TIFIA loan totaling \$416,000,000. Since CBE acted as a conduit issuer for the TIFIA loan and the PABS, CBE has no liabilities to record. The debt will be repaid by KMP. Construction is scheduled to begin in the Fall of 2018.

On September 26, 2017, Auraria Higher Education Center issued Series 2017 Certificates of Participation (COP) in the amount of \$12,560,000 for the purpose of advance refunding \$12,428,458 in Series 2008 Certificates of Participation. Proceeds were placed in an escrow fund and the COPs will be fully redeemed May 1, 2019. The Series 2017 COPs are payable in semiannual installments with annual principal payments ranging from \$1,015,000 to \$1,255,000 and a fixed interest rate of 2.42%.

On October 2, 2017, Colorado State University System sold \$103,810,000 tax-exempt Series 2017A and \$13,800,000 tax-exempt Series 2017B System Enterprise Refunding Bonds. The 2017A bonds were sold as State-Intercept backed bonds and will refund a portion of Series 2012A bonds. The Series 2017B bonds will refund a portion of Series 2013C bonds. Proceeds from the bonds will be used to pay the cost of issuing the bonds.

On December 7, 2017, the State issued Building Excellent Schools Today (BEST) Certificates of Participation (COP), Series 2017J in the amount of \$156,305,000 and Refunding Certificates of Participation, Series 2017K in the amount of \$115,790,000. These BEST COPs were issued as tax exempt bonds with premiums of \$21,344,412 and \$16,938,517, respectively; average coupon rates of 4.77% and 4.97%, respectively; and true interest costs of 3.82% and 2.51%, respectively. Base rents are due semiannually beginning on March 15, 2018, with a final maturity date of March 15, 2042.

On December 12, 2017, the University of Colorado issued \$471,390,000 of tax-exempt University Enterprise Revenue Bonds, Series 2017 A-2 and used the proceeds to refund portions of prior obligations, and to pay certain costs related to the issuance. These special limited obligations are payable solely from the net revenues, as defined. The Series 2017 A-2 bonds have interest rates ranging from 3% to 5% and the bonds mature through June 1, 2046.

On December 12, 2017, the Colorado School of Mines issued \$71,880,000 with a premium of \$13,867,559.55 in Institutional Enterprise Revenue Bonds, Series 2017B. The coupon rates of the bonds range from 4% to 5% with

final maturity December 1, 2047. Proceeds of the Series 2017B bonds will be used for financing certain improvements at the Colorado School of Mines as well as the cost of bond issuance.

On December 13, 2017, the State Board for Community Colleges and Occupational Education (SBCCOE) approved a bond resolution for the issuance of System-wide Revenue Refunding and Improvement Bonds. The Official Statement is dated December 19, 2017. The Series 2017A System-wide Revenue Refunding and Improvement Bonds in the amount of \$34,850,000 will be used to finance the construction at the Arapahoe Community College Castle Rock Collaboration Campus and advance refund the Series 2013 System-wide Revenue Bonds for the Front Range Community College Larimer & Westminster Campus Projects. The Series 2017B System-wide Revenue Refunding Bonds in the amount of \$8,195,000 will be used for the advance refunding of a portion of the 2010B-2 Taxable System-wide Revenue Bonds for the Colorado Northwestern Project and Northeastern Junior College Project. The coupon rates of the Series 2017A bonds range from 2% to 5% while the coupon rates of the Series 2017B bonds range from 3% to 5%.

On December 20, 2017, Colorado State University System sold \$185,245,000 tax-exempt Series 2017C and \$19,465,000 tax-exempt Series 2017D System Enterprise Refunding Bonds. The 2017C bonds were sold as State-Intercept backed bonds and will refund a portion of Series 2013E and 2015E bonds and the Series 2017D bonds will refund a portion of Series 2013C and 2015A bonds. Proceeds from the bonds will be used to pay the cost of issuing the bonds.

On December 21, 2017, the Colorado School of Mines issued \$35,030,000 with a premium of \$3,709,189.20 in Institutional Enterprise Revenue Refunding Bonds, Series 2017C. The coupon rates of the bonds range from 3% to 5% with final maturity December 1, 2042. Proceeds of the Series 2017C bonds will be used for refunding Refunded Series 2012B bonds as well as the cost of bond issuance.

On December 28, 2017, Colorado State University System sold \$35,785,000 tax-exempt Series 2017E and \$19,700,000 tax-exempt Series 2017F System Enterprise Refunding Bonds. The 2017E bonds were sold as State-Intercept backed bonds and will refund a portion of Series 2015E bonds and the Series 2017F bonds will refund a portion of Series 2015A bonds. Proceeds from the bonds will be used to pay the cost of issuing the bonds.

On January 16, 2018, the State issued Education Loan Program Tax and Revenue Anticipation Notes (ETRAN), Series 2017B. The notes mature on June 28, 2018. The total due on that date includes \$375,000,000 in principal and \$6,750,000 in interest. By statute, interest on the notes is payable from the General Fund. The ETRAN was issued with a premium of \$4,612,500, an average coupon rate of 4.00%, and a true interest cost of 1.26%.

### **B. OTHER**

On December 6, 2017 CollegeInvest entered into a 10 year lease agreement with LBA Realty Fund II – WBP IV, LLC. The amount of the lease is \$4,768,000.

On January 16, 2018, the Colorado State University System entered into a floating to fixed interest rate Swap Agreement in connection with the Series 2015D Variable Rate Bonds. The Swap Agreement was entered into with the objective of protecting against the potential of rising interest rates. The Swap Agreement has a notional amount of \$66,655,000, and an effective date (start date) of July 1, 2019 and a termination date of March 1, 2047. The Royal Bank of Canada (RBC) is the counterparty to the Swap Agreement.

Pursuant to a portion of House Bill 15-1344 (collectively, the "Lease Purchase Act"), the General Assembly authorized the execution by the State Treasurer of one or more lease-purchase agreements with a maximum term of 20 years of principal and interest payments for the purpose of financing the construction of certain facilities for Colorado State University at the National Western Center in Denver, Colorado and affiliated facilities on CSU's campus. The Series 2018 Certificates will be payable solely from amounts annually appropriated by the General Assembly to the National Western Center ("NWC") Trust Fund from the General Fund to make payments under the Lease. The Series 2018 Certificates are expected to be issued in March 2018 for approximately \$140,000,000.

Proceeds of the Series 2018 Certificates will be used to finance a portion of the construction costs of Health Education Outreach Center, Equine Veterinary Teaching Hospital, Translational Medical Institute, the Water Resource Center at the National Western Center and purchase the land associated with the National Western Center facilities.

The Board of Governors of the Colorado State University System approved a resolution on August 2, 2017 authorizing the issuance of \$50,000,000 taxable and tax-exempt commercial paper. It is anticipated that the commercial paper will be backed by self-liquidity. The commercial paper note proceeds will be used to bridge finance improvement projects; pay capitalized interest, if any; and pay certain costs relating to the issuance of the notes. The first issuance of the commercial paper notes is expected to be in March, 2018.

#### **Component Units**

The capitalization grants in both the Water Pollution Control Enterprise Fund (WPCRF) and the Drinking Water Revolving Fund (DWRF) programs, both of which are managed by the Colorado Water Resources and Power Development Authority, require that a minimum amount of the grant be used for additional subsidy. Additional subsidy can be grants, principal forgiveness, or negative interest loans. The Authority uses principal forgiveness as the additional subsidy. In the event there are remaining principal forgiveness funds available, which is generally not known or approved until January of the year subsequent to the loan executions, the Authority, with approval and coordination with the Water Quality Control Division, will award the remaining funds to eligible disadvantaged community loans that were executed during the year and reduce the outstanding balance of the loan as of the current year-end. The Authority recorded additional principal forgiveness in 2016 that was approved in 2017 in the WPCRF and DWRF programs of \$551,525 and \$1,439,030, respectively.

The Denver Metropolitan Major League Baseball Stadium District and the Colorado Rockies Baseball Club (CRBC) signed a new Ballpark lease commencing on March 31, 2017 and terminating March 31, 2047 plus three 5-year renewal options. The lease provides for payments by CRBC of \$2.5 million annually, consisting of \$1 million in rent and \$1.5 million contribution to the capital fund. These amounts will be paid in two semi-annual installments in January and September. The lease also contains parking revenue-sharing provisions. Additionally, the new Ballpark lease agreement provides for a 99-year ground lease of the West Lot for which CRBC will make annual payments to the Capital Repairs Fund as follows:

Years	Amount
1- 5	\$7,500,000
6 - 20	5,000,000
21- 30	1,250,000
31-99	100

#### GENERAL FUND SURPLUS SCHEDULE

The General Fund for GAAP purposes is not equivalent to the General Fund for budgetary purposes. The General Fund for GAAP purposes contains activities that are considered cash funds for budget purposes, and includes State Public School, Risk Management, and Other Special Purpose Funds that do not have a sufficient original-source revenue stream to qualify as special revenue funds. The General Purpose Revenue Fund balance represents \$509.8 million of the GAAP General Fund balance of \$1,154.0 million on the *Balance Sheet – Governmental Funds*.

The General Purpose Revenue Fund is the principal operating fund of the State. It is used to account for all governmental financial resources and transactions not legally required to be accounted for in another fund. The general fund surplus is a statutorily defined amount that varies from the fund balance reported in the General Purpose Revenue Fund by revenues and expenditures that have been deferred into the following year for the budgetary basis (see Note RSI-1A).

The schedule on the following page is presented to document compliance with the constitutional requirement for a positive general fund surplus on the budgetary basis. This schedule includes both appropriated and nonappropriated activity. The schedule differs from the General Fund presentation in the *Statement of Revenues, Expenditures, and Changes in Fund Balances* and the *Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budgetary Basis – Budget-to-Actual – General Funded* by the specific purpose revenue funds discussed above and in several other ways as discussed in the following paragraphs.

The total fund balance in the General Purpose Revenue Fund column on the *Combining Balance Sheet – General Fund Components* represents cumulative general-purpose and augmenting revenues in excess of expenditures. The ending general fund surplus is reconciled to the General Purpose Revenue Fund balance on the *Combining Balance Sheet – General Fund Components* presented in the Supplementary Section of the Comprehensive Annual Financial Report.

General-purpose revenues are revenues that are not designated for specific purposes. The following schedule shows the current fiscal year general-purpose revenues and the expenditures, by department, funded from those general-purpose revenues. The excess augmenting revenues shown represent earned revenues that were greater than the related appropriation for specific cash-funded expenditures in the General Purpose Revenue Fund. These revenues in excess of the related expenditures become part of total fund balance.

In order to measure the general fund surplus, encumbrances of the prior year related to approved rollforwards are subtracted from the revised budget and reduce the ending general fund surplus balance in the line item titled "State Controller Approved Rollfowards" because the related balances are not available for subsequent appropriation.

In order to properly state the amounts reverted, most restrictions on the revised budget are not reflected in the amounts shown. Unspent unrestricted appropriations are reported as reversions on the schedule, with the exception of unspent appropriations related to unreleased prior year Medicaid overexpenditure restrictions.

#### SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN GENERAL FUND SURPLUS BUDGET AND ACTUAL - BUDGETARY BASIS FOR THE YEAR ENDED JUNE 30, 2017

### NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

### NOTE RSI-1 – BUDGETARY INFORMATION

#### A. BUDGETARY BASIS

With the implementation of a new financial system, Colorado Operations Resource Engine (CORE), in Fiscal Year 2014-15, the budget schedules are now presented as appropriated and nonappropriated for each category. The appropriated schedules are part of the Required Supplementary Information (RSI) section while the nonappropriated schedules are part of the Supplementary Information.

The three budget-to-actual schedules in the RSI show revenues and expenditures that are legislatively appropriated, excluding informational only appropriations that do not require action of the legislature but are included in the appropriations bills for informational purposes only. These schedules are presented in the budgetary fund structure discussed below.

The budgetary fund types used by the State differ from the generally accepted accounting fund types. The budgetary fund types are general, cash, and federal funds. For budgetary purposes, cash funds are all financial resources received by the State that have been designated to support specific expenditures. Federal funds are primarily made up of revenues received from the federal government. All other financial resources received are general-purpose revenues, and are not designated for specific expenditures until appropriated by the General Assembly.

Eliminations of transfers and intrafund transactions are not made in the budgetary funds if those transactions are under budgetary control. Thus, revenues and expenditures in these funds are shown at their gross amounts. This results in significant duplicate recording of revenues and expenditures. An expenditure of one budgetary fund may be shown as a transfer-in or revenue in another budgetary fund and then be shown again as an expenditure in the second fund.

For budget purposes, depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting with the following exceptions:

- Payments to employees paid on a monthly basis for time worked in June of each fiscal year are made on the first working day of the following month; for general-funded appropriations those payments are reported as expenditures in the following fiscal year.
- Certain payments by state agencies to the Office of Information Technology for information technology services purchased in June using general-funded appropriations are reported as expenditures in the following fiscal year.
- Medicaid services claims are reported as expenditures only when the Department of Health Care Policy and Financing requests payment by the State Controller for medical services premiums under the Colorado Medical Services Act or for medical service provided by the Department of Human Services under the Colorado Medical Services Act. Similar treatment is afforded to nonadministrative expenditures that qualify for federal participation under Title XIX of the federal Social Security Act except for medically indigent program expenditures. In most years, this results in the Department of Health Care Policy and Financing excluding expenditures accrued for services provided but not yet billed.
- Expenditures of the fiscal year in the following three categories that have not been paid at June 30 are reported in the following year: Old Age Pension Health and Medical Care program costs; state contributions required by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003; and financial administration costs of any non-administrative expenditure under the Children's Basic Health Plan.
- Unrealized gains and losses on investments are not recognized as changes in revenue on the budgetary basis.
- Pension expense related to unfunded pension liabilities are not recognized on a budgetary basis.

#### **B. BUDGETARY PROCESS**

The financial operations of the legislative, judicial, and executive branches of the State government, with the exception of custodial funds and federal moneys not requiring matching state funds, are controlled by annual appropriations made by the General Assembly. The Department of Transportation's portion of the Highway Fund is appropriated to the State Transportation Commission. Within the legislative appropriation, the Commission may appropriate the specific projects and other operations of the department. In addition, the Commission may appropriate available fund balance from its portion of the Highway Fund.

The total legislative appropriation is constitutionally limited to the unrestricted funds held at the beginning of the year plus revenues estimated to be received during the year as determined by the budgetary basis of accounting. The original appropriation by the General Assembly in the Long Appropriations Act segregates the budget of the State into its operating and

capital components. The majority of the capital budgets are accounted for in the Capital Projects Fund, with the primary exception being budgeted capital funds used for infrastructure and institution of higher education capital projects.

The Governor has line item veto authority over the Long Appropriations Act, but the General Assembly may override each individual line item veto by a two-thirds majority vote in each house.

Most general and cash funded appropriations, with the exception of capital projects, lapse at year-end unless specifically required by the General Assembly or executive action is taken to rollforward all or part of the remaining unspent budget authority. Appropriations that meet the strict criteria for rollforward are reported in Note 19. Since capital projects appropriations are generally available for three years after appropriation, significant amounts of the capital budgets remain unexpended at fiscal year-end. Cash funded highway construction, maintenance and operations in the Department of Transportation are appropriated as operating budgets, but remain available in future years through action of the Transportation Commission. In Fiscal Year 2016-17, the Department of Transportation capitalized project expenditures of \$532.8 million from all funding sources.

The appropriation controls the combined expenditures and encumbrances of the State, in the majority of the cases, to the level of line item within the State agency. Line items are individual lines in the official budget document and vary from specific payments for specific programs to single appropriations at the agency level. Statutes allow the Judicial and Executive Branches, at year-end, to transfer legislative appropriations within departments for expenditures. The appropriation may be retroactively adjusted in the following session of the General Assembly by a supplemental appropriation.

On the three budget-to-actual schedules, the column titled Original Appropriation consists of the Long Appropriations Act and special bills, excluding informational only appropriations. The column titled Final Spending Authority includes the original appropriation and supplemental appropriations of the Legislature.

Spending occurs outside of the legislative appropriations process primarily for custodial purposes, federally-funded activity for which there is no general-purpose revenue matching requirement, statutory transfers, and other miscellaneous budgetary items. Additional budget-to-actual schedules related to nonappropriated activity are included in the Supplementary Section of the Comprehensive Annual Financial Report.

### C. OVEREXPENDITURES

Depending on the accounting fund type involved, expenditures/expenses are determined using the modified accrual or accrual basis of accounting even if the accrual will result in an overexpenditure. The modified and full accrual basis of accounting is converted to the budgetary basis of accounting as explained in Note RSI-1A. In the General Purpose Revenue Fund and Capital Projects Fund, if earned cash revenues plus available fund balance and earned federal revenues are less than cash and federal expenditures, then those excess expenditures are considered general-funded expenditures. If general-funded expenditures exceed the general-funded appropriation then an overexpenditure occurs even if the expenditures did not exceed the total legislative line item appropriation. Individual overexpenditures are listed in Note 2. Some transactions considered revenues for budgetary purposes, such as intrafund sales, are not considered GAAP revenues. Some events, such as the recognition of unrealized gains/losses on investments, affect revenues on a GAAP basis but not on the budgetary basis. Federal Medicaid revenues related to deferred Medicaid expenditures result in revenues on the GAAP statements but not on the budgetary schedules. These events and transactions are shown in the reconciliation as "Unrealized Gains/Losses" and/or "GAAP Revenue Adjustments".

### D. BUDGET TO GAAP RECONCILIATION

The *Reconciling Schedule – All Budget Fund Types to All GAAP Fund Types* shows how revenues, expenditures/expenses, and transfers under the budgetary basis in the budgetary fund structure and how nonappropriated revenues, expenditures/expenses, and transfers under the budgetary basis in the budgetary fund structure relate to the change in fund balances/net position for the funds presented in the fund-level financial statements.

Certain expenditures on a generally accepted accounting principle (GAAP) basis, such as bad debt expense related to loan activity and depreciation, are not budgeted by the General Assembly. In addition, certain General Purpose Revenue Fund payroll disbursements for employee time worked in June by employees paid on a monthly basis, June general-funded purchases of service from the Office of Information Technology, and Medicaid and certain other assistance program payments (see Section A above) accrued but not paid by June 30 are excluded from the expenditures are not shown on the budget-to-actual schedules but are included in the budget-to-actual reconciliation schedule as "GAAP Expenditures Not Budgeted". Additionally, this line item includes some transactions considered expenditures for budgetary purposes, such as loan disbursements and capital purchases in proprietary fund types, are not expenditures on a GAAP basis.

Some transactions considered revenues for budgetary purposes, such as intrafund sales, are not considered GAAP revenues. Some events, such as the recognition of unrealized gains/losses on investments, affect revenues on a GAAP basis but not on the budgetary basis. Federal Medicaid revenues related to deferred Medicaid expenditures result in revenues on the GAAP

statements but not on the budgetary schedules. These events and transactions are shown in the reconciliation as "Unrealized Gains/Losses" and/or "GAAP Revenue Adjustments."

The inclusion of these revenues and expenditures and the change in nonbudgeted funds along with the balances from the budget-to-actual schedules is necessary to reconcile to the GAAP fund balance.

### E. OUTSTANDING ENCUMBRANCES

The State uses encumbrance accounting as an extension of formal budget implementation in most funds except certain fiduciary funds, and certain Higher Education Institutions Funds. Under this procedure, purchase orders and contracts for expenditures of money are recorded to reserve an equivalent amount of the related appropriation. Encumbrances do not constitute expenditures or liabilities. They lapse at year-end unless specifically brought forward to the subsequent year.

#### NOTE RSI-2 - THE STATE'S DEFINED BENEFIT PENSION PLAN

#### A. PROPORTIONATE SHARE OF PENSION LIBILITY AND CONTRIBUTIONS

#### **Proportionate Share:**

The State's defined benefit pension plan is administered by the Public Employees' Retirement Association (PERA). The plan is a cost-sharing multiple-employer plan. The schedule below presents the State's (primary government's) proportionate share of the net pension liability for its retirement plan. The amounts presented for each Division for each fiscal year were determined as of the calendar year-end that occurred within the fiscal year. Significant changes in assumptions are discussed in Note 6. Additionally, information is not available prior to Fiscal Year 2014.

# **B. SIGNFICANT CHANGES IN ASSUMPATIONS OR OTHER INPUTS AFFECTING TRENDS IN ACTUARIAL INFORMATION**

Changes in assumptions are discussed in Note 6.

#### NOTE RSI-3 – OTHER POSTEMPLOYMENT BENEFIT INFORMATION

As required by GASB Statements No. 43, <u>Financial Reporting for Postemployment Benefits Plans Other Than</u> <u>Pension Plans</u> and No. 45, <u>Accounting and Financial Reporting by Employers for Postemployment Benefits Other</u> <u>Than Pensions</u>, the following is the State's Schedule of Funding Progress for its other postemployment benefit plans. Under the standards, the State must disclose the funding progress of the other postemployment benefit plans for the most recent and two preceding actuarial valuations. See Note 7 for additional information regarding the plans listed in the schedule.

Annual money-weighted rate of return net of	3.4%
investment expense	

# SUPPLEMENTARY INFORMATION

# **GENERAL FUND COMPONENTS**

GENERAL PURPOSE REVENUE	This fund is the general operating fund for state operations and is used unless another fund has been established for a particular activity. The fund consists of general purpose revenues from various tax collections the largest being income and sales taxes.
SPECIAL PURPOSE REVENUE	The State Public School fund is a statutory fund that distributes substantially all of its resources to school districts each year; most of the funds' resources are transfers into the fund from the General Purpose Revenue Fund.
	The Risk Management fund accounts for the State's liability, property, and worker's compensation insurance activities; its revenues are primarily from charges to State agencies.
	The Other Special Purpose Fund comprises all other funds without sufficient original source revenues to qualify as Special Revenue Funds. Included in this category is the Building Excellent Schools Tomorrow (BEST) program that provides grants and funds for public school construction, Lottery proceeds held by the Division of Parks and Wildlife for parks and outdoor recreation projects, the Charter School Institute, as well as over thirty smaller funds.

# **CAPITAL PROJECTS FUND COMPONENTS**

REGULAR CAPITAL PROJECTS	This fund accounts for projects that are either fully or partially funded with general-purpose revenue that is transferred from the General Purpose Revenue Fund. It also includes cash-funded or mixed funded projects.
SPECIAL CAPITAL PROJECTS	This fund accounts for certain projects that are not funded with any general-purpose revenue. This includes projects funded with the proceeds of certificates of participation such as the Colorado History Center and the Ralph L. Carr Justice Center, federal projects in the Department of Military Affairs, Lottery-funded projects in the Department of Natural Resources, and several smaller projects.

# **SPECIAL REVENUE FUNDS**

LABOR	This fund accounts for injured workers' medical benefits provided by statutes when the injury is not covered by workers' compensation benefits.					
GAMING	This fund accounts for operations of the Colorado Gaming Commission and its oversight of gaming operations in the State. It also accounts for the preservation activities of the Colorado Historical Society related to the revenues it receives from gaming.					
TOBACCO IMPACT MITIGATION	This fund accounts for receipts directly from the tobacco litigation settlement, earnings on those funds, and the expenditures of programs funded by the tobacco master settlement agreement. In addition, it accounts for tax revenues received from an additional State tax on cigarettes and tobacco products approved by State voters in the 2004 general election and the expenditure of those tax revenues.					
RESOURCE MANAGEMENT	This fund accounts for receipts from licenses, rents, and fees related to managing the water, oil and gas resources of the State. Most of the related programs are managed by the Colorado Department of Natural Resources.					
ENVIRONMENT AND	This fund accounts for a large number of individual programs managed					
HEALTH PROTECTION	primarily by the Department of Public Health and Environment. The programs are primarily designed to regulate air, water, and other forms of pollution, control the spread of diseases, and regulate activities that impact the health of the citizens of Colorado.					
UNCLAIMED PROPERTY	This fund reports the escheats funds managed by the State Treasurer that are not held in trust for claimants. The receipts of the fund are from bank accounts, investment accounts, and insurance proceeds that are placed with the State when the owners of the assets cannot be located. Per statute, the owner's legal rights to the asset are protected in perpetuity; however, historically not all of the assets are claimed. The assets ultimately expected to be claimed and paid are reported as Net Position Held In Trust in the Unclaimed Property Trust Fund, a nonmajor Fiduciary Fund.					
OTHER SPECIAL REVENUE	This fund category represents a collection of 325 individual active funds created in statute that have a wide variety of purposes. Funds in this category also have a broad diversity of revenue types. (See page 261 for a detail listing of these funds that have net position/fund balance in excess of \$200,000.)

# **PERMANENT FUNDS**

STATE LANDS	This fund consists of the assets, liabilities, and operations related to lands granted to the State by the federal government for educational purposes. This fund also includes unclaimed assets from estates or trusts with unknown beneficiaries. Per statute, these assets become property of the State after 21 years.
OTHER PERMANENT TRUST	This fund category represents several minor permanent funds including Wildlife for Future Generations Fund and the Veterans Monument Preservation Fund.

# **OTHER ENTERPRISE FUNDS**

These funds account for operations of State agencies that provide a majority of their services to the public on a user charge basis; most of them have been designated by statute as enterprises. The major activities in these funds are:

PARKS AND WILDLIFE	Expenses of this fund are to preserve the State's parks, wildlife and promote outdoor recreational activities, while revenues are from hunting and fishing license fees as well as various fines.
COLLEGE ASSIST	This fund records the activities of College Assist, which guarantees Colorado and certain nationwide loans made by private lending institutions in compliance with operating agreements with the U.S. Department of Education to students attending postsecondary schools. It also includes loan programs for Colorado residents that are not reinsured by the federal government.
STATE FAIR AUTHORITY	The State Fair Authority operates the Colorado State Fair, and other events, at the State fairgrounds in Pueblo.
CORRECTIONAL INDUSTRIES	This activity reports the production and sale of manufactured goods and farm products that are produced by convicted criminals who are incarcerated in the State prison system.
STATE NURSING HOMES	This activity is for nursing home and retirement care provided to the elderly at the State facilities at Fitzsimons, Homelake, Walsenburg, Florence, and Rifle.
PRISON CANTEENS	This activity accounts for the various canteen operations in the State's prison system.
PETROLEUM STORAGE TANK	This activity accounts for grants, registration fees, environmental response surcharges, and penalties associated with the regulation and abatement of fire and safety issues related to above and underground petroleum storage tanks.
TRANSPORTATION ENTERPRISE	This fund consists of the Bridge Enterprise and the High Performance Transportation Enterprise in the Department of Transportation. The bridge and highway construction activity is financed through bond issuances and user fees. Before Fiscal Year 2010-11 these enterprises were reported as Other Enterprises.
OTHER ENTERPRISE ACTIVITIES	The other enterprise activities includes the State and CollegeInvest. The State includes the Business Enterprise Program, which is staffed by the visually impaired and manages food vending operations in State buildings; the Enterprise Services Fund of the Colorado Historical Society, which sells goods at State museums; and various smaller enterprise operations.

# **INTERNAL SERVICE FUNDS**

These funds account for operations of State agencies that provide a majority of their services to other State agencies on a user charge basis. The major activities in these funds are:

CENTRAL SERVICES	This fund accounts for the sales of goods and services to other State agencies. The sales items include mail services, printing, quick copy, graphic design, microfilming, fleet, and motor pool.
STATEWIDE FINANCIAL INFORMATION TECHNOLOGY SYSTEMS CASH FUND	This fund accounts for information technology maintenance and upgrades as well as direct and indirect costs of the department in connection with Statewide financial and human resources information technology systems.
INFORMATION TECHNOLOGY	This fund accounts for computer and telecommunications services sold to other State agencies.
CAPITOL COMPLEX	This fund accounts for the cost and income related to maintaining State office space in the complex surrounding the State Capitol. Only certain capitol complex capital assets are reported in this fund, and other capitol complex capital assets are reported on the government-wide financial statements.
HIGHWAYS	This fund is used to account for the operations of the Department of Transportation print shop.
PUBLIC SAFETY	This fund accounts for aircraft rental to State agencies by the Department of Public Safety.
OFFICE OF ADMINISTRATIVE COURTS	This fund accounts for the operations of the Office of Administrative Courts in the Department of Personnel & Administration.
LEGAL SERVICES	This fund accounts for the Attorney General's services to State agencies in the Department of Law.
OTHER INTERNAL SERVICE ACTIVITIES	This fund primarily accounts for the activities of the Central Collections Unit within the Department of Personnel & Administration. The unit collects receivables due to State agencies on a straight commission basis.

### FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the State in its governmental capacity on behalf of local governments, citizens, and other external parties. Pension and Other Employee Benefits Trust Funds and Private Purpose Trust Funds are included in this category. The major components of the fiduciary funds are:

### PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

STATE EMPLOYEE BENEFIT PLANS	This fund was established for the purpose of risk financing employee and state-official medical claims. The fund includes several medical plan options ranging from provider of choice to managed care and wellness activity. The State uses a self-funded approach for certain employee and state-official medical claims.
COLORADO STATE UNIVERSITY OTHER POST-EMPLOYMENT BENEFITS TRUST	Colorado State University administers four employee defined benefit healthcare plans as part of a single qualifying trust. The plans provide post-employment subsidies for medical premiums, supplemental prescription benefits and income replacement benefits for long-term disability. The University's Board of Governors has the authority to establish and amend benefits provisions for all plans.
PRI	VATE PURPOSE TRUST FUNDS
TREASURER'S	This fund primarily includes moneys managed by the State Treasurer on behalf of qualified charter schools (those charters schools meeting specific statutory requirements) to finance capital construction with bonds guaranteed by the moneys in this fund. Qualified charter schools choosing to participate in this program make annual payments to the fund that may be used by the Treasurer to make debt service payments if any of the qualified schools is unable to do so.
UNCLAIMED PROPERTY	This fund comprises a portion of the escheats funds managed by the State Treasurer. The receipts of the fund are from bank accounts, investment accounts, and insurance proceeds that are placed with the State when the owners of the assets cannot be located. The owner's legal rights to the asset are protected in perpetuity. The fund reports Net Position Held in Trust for the amount ultimately expected to be claimed and paid based on analysis of the history of claims paid versus collections. The remaining unclaimed assets are reported in the Unclaimed Property nonmajor Special Revenue Fund.

COLLEGE SAVINGS PLAN	The College Savings Plan (commonly referred to as the Scholars Choice Fund) authorized in statute is used to record the deposits, withdrawals, and investment returns of participants in the college savings program. The moneys in the fund are neither insured nor guaranteed by the State.
COLLEGE OPPORTUNITY FUND	The College Opportunity Fund (COF) began operations in Fiscal Year 2005-06. It receives stipends appropriated by the Legislature and distributes them to qualified institutions on behalf of students attending public and certain private institutions of higher education in the State. The appropriated amounts are held in trust in the COF until the institutions apply for the stipend on behalf of the students. Any unused stipends remain in the COF and do not revert to the State.
OTHER	This fund primarily accounts for receipts collected from racetracks and simulcast facilities for distribution to horse breeders and associations who participate in state-regulated parimutuel horse racing.

#### AGENCY FUNDS

These funds are held in custody for others. Major items include litigation settlement escrow accounts; contractor's performance escrow accounts; sales taxes collected for cities and counties; deposits held to ensure land restoration by mining and oil exploration companies; amounts held for the trustee related to Certificates of Participation or revenue Bonds for Higher Education Institutions, Building Excellent Schools Today (BEST), the Bridge Enterprise program; and assets invested for the Colorado Water Resources and Power Development Authority (a discretely presented component unit).

# **CAPITAL ASSETS**

The following schedule presents the capital assets, net of accumulated depreciation, used in governmental activities by function and by department. The schedule includes the capital assets of the Internal Service Funds because those funds primarily sell to governmental activities. This treatment matches the presentation of the capital assets on the government-wide *Statement of Net Position*. Except for the Internal Service Fund capital assets, the assets on this schedule are generally not reported on the fund-level financial statements.

# **OTHER FUNDS DETAIL**

In the combined and combining statements several fund categories show a column titled "Other". The schedule on the following pages provide a summary of assets, liabilities, and net position/fund balance of the individually significant funds that comprise the columns titled "Other". Most of the funds shown in the schedule are Special Revenue Funds that are statutorily authorized.

#### COMBINING SCHEDULE OF INDIVIDUAL FUND ASSETS, LIABILITIES, AND NET POSITION/FUND BALANCE FOR OTHER PERMANENT, PRIVATE PURPOSE, ENTERPRISE, INTERNAL SERVICE FUNDS, AND SPECIAL REVENUE FUNDS JUNE 30, 2017

(Dollars in Thousands)

# NON-APPROPRIATED BUDGET SCHEDULES

The schedules on the following pages provide, by department, nonappropriated budget-to-actual activity. The budgets are based on a variety of sources that are not subject to appropriation by the General Assembly that generally include most federal awards, custodial agreements, and Colorado statutes. In Higher Education Institutions informational only appropriations for tuition and certain fees contained in the State's legislative appropriations act are not controlling. Therefore, expenditures may exceed recorded budgets in these appropriations.

# NOTES TO THE TABOR SCHEDULE OF REQUIRED COMPUTATIONS

### NOTE 1. PURPOSE OF THE SCHEDULE OF REQUIRED COMPUTATIONS

The purpose of the Schedule of Required Computations is to determine and document compliance with Title 24 Article 77 of the Colorado Revised Statutes, which is the implementing statute for Article X Section 20 of the State Constitution (TABOR). The report is required to include at a minimum State fiscal year spending, reserves, revenues, and debt. The schedule also includes a calculation of the limit on fiscal year spending, a calculation of the excess State revenues cap under Referendum C (See Note 9), and the amount required to be refunded or the amount of excess revenue retained by law, as well as all related adjustments.

TABOR has many provisions including a requirement for a vote of the people for new taxes or tax rate increases and a limit on the amount of fiscal year spending. Fiscal year spending is defined as District expenditures and reserve increases except those expended from exempt sources, such as gifts, federal funds, damage awards, property sales, reserves, and other items. This definition, while focused on spending is essentially a limitation on revenue retention because reserve increases are unspent revenues. Therefore, the terms fiscal year spending and nonexempt revenue are used interchangeably throughout these notes.

The limit on revenue retention is based on an allowable growth percentage (See Note 12) applied to the lesser of the prior year's revenues or the prior year's limit. Revenues in excess of the limit are required to be refunded to taxpayers unless voters approve retention of the excess. In the 2005 general election, voters approved Referendum C, which allowed the State to retain revenues in excess of the limit for a five-year period. Beginning in Fiscal Year 2010-11, under Referendum C provisions, revenues are refunded only when they exceed the excess State revenues cap (See Note 9).

### NOTE 2. BASIS OF ACCOUNTING

Pursuant to Article 77 of Title 24, Colorado Revised Statutes, this report is prepared in accordance with generally accepted accounting principles (GAAP) for governmental entities except where an irreconcilable difference exists between GAAP, and State statute or the provisions of Article X Section 20 of the State Constitution (TABOR).

The accounting principles used by the State are more fully described in the State's Comprehensive Annual Financial Report available from the Office of the State Controller.

# NOTE 3. DEFINITION OF THE DISTRICT

TABOR defines the District as "the State or any local government, excluding enterprises." It further defines an enterprise as "a government-owned business authorized to issue its own revenue bonds and receiving under 10 percent of annual revenue in grants from all Colorado state and local governments combined."

The General Assembly, for the purpose of implementing TABOR, stated in C.R.S. 24-77-102(16)

(a) that "State" means the central civil government of the State of Colorado, which consists of the following:

- (I) the legislative, executive, and judicial branches of government established by Article III of the State Constitution;
- (II) all organs of the branches of government specified in subparagraph (I) of paragraph (a) of this subsection (16), including the departments of the executive branch; the legislative houses and agencies; and the appellate and trial courts and court personnel; and
- (III) State institutions of higher education.
- (b) "State" does not include:
  - (I) any enterprise [including an institution or group of institutions of higher education that has been designated as an enterprise];
  - (II) any special purpose authority;
  - (III) any organization declared to be a joint governmental entity.

The General Assembly has designated the following as enterprises excluded from the District:

- State Lottery,
- College Assist,
- CollegeInvest,
- Division of Parks and Wildlife,
- State Nursing Homes,
- Division of Correctional Industries,
- Petroleum Storage Tank Fund,
- State Fair Authority,
- Division of Brand Inspection,
- Clean Screen Authority,
- Capitol Parking Authority,
- Statewide Transportation Enterprise,
- Statewide Bridge Enterprise,
- Unemployment Insurance Enterprise,
- Electronic Recording Technology Fund.

It further established a statutory mechanism that allows the governing boards of institutions of higher education to designate certain auxiliary operations as enterprises, which are also exempt from TABOR. Senate Bill 189 enacted in the 2004 legislative session expanded the authority for each governing board of State institutions of higher education to designate the entire institution as a TABOR exempt enterprise. The Board of Regents of the University of Colorado designated the entire University of Colorado as an enterprise during Fiscal Year 2004-05, and the remaining boards designated their institutions as enterprises in Fiscal Year 2005-06. The Auraria Higher Education Center Board of Directors did not designate all of its activities as a TABOR enterprise, but it continues to have selected activities designated as a TABOR enterprise.

Although the General Assembly and governing boards have designated certain enterprises as exempt from TABOR, those enterprises must continue to meet the criteria of a government-owned business

authorized to issue its own revenue bonds and to receive less than 10 percent of its revenue in grants from all Colorado state and local governments combined. The State Fair Authority remained disqualified for Fiscal Year 2016-17.

### NOTE 4. DEBT

Certificates of Participation, which are used by the State for long-term lease purchases, are not considered debt of the State for purposes of this report as provided by C.R.S. 24-30-202(5.5).

In interrogatories submitted by the General Assembly regarding House Bill 99-1325, the Colorado Supreme Court ruled that Transportation Revenue Anticipation Notes (TRANS) issued by the Colorado Department of Transportation do not constitute debt of the State as defined in Article XI Section 3 of the State Constitution. However, the Supreme Court ruled that the TRANS are a multiple-fiscal year obligation as defined by Article X Section 20 of the State Constitution, thus requiring an approving election before issuance.

### NOTE 5. EMERGENCY RESERVES

TABOR requires the reservation, for declared emergencies, of three percent or more of fiscal year spending, excluding bonded debt service payments. This requirement for FY 2016-17 totals \$386,749,704. At June 30, 2017, the net assets of the following funds were designated as the reserve, up to the limits set in the Long Appropriations Act:

- Major Medical Fund \$83,000,000. Only \$78,401,470 of this fund's balance was restricted since, at June 30, 2017 its net assets were less than \$83 million. The assets restricted were net cash of \$66,645,034 and investments, excluding unrealized gains, of \$11,756,436.
- Wildlife Cash Fund \$34,000,000.
- Perpetual base account of the Severance Tax Fund \$33,000,000.
- Colorado Water Conservation Board Construction Fund \$33,000,000.
- Controlled Maintenance Trust Fund \$68,328,000. Only \$49,967,282 of this fund's net assets were restricted, all of it cash, since at June 30, 2017 its net assets were less than \$68,328,000. During the fiscal year, \$20,125,000 was transferred from the Controlled Maintenance Trust Fund to the Disaster Emergency Fund, through four executive orders, to pay for the costs of fighting wildfires across the State.
- Unclaimed Property Tourism Promotion Trust Fund \$5,000,000.

The 2016 legislative session Long Appropriations Act designated up to \$142,272,000 of State properties as the remainder of the Fiscal Year 2016-17 emergency reserve.

The estimate of the needed reserve was based on the December 2016 revenue estimate prepared by Legislative Council. Because the revenues subject to the TABOR reserve requirement were more than estimated and designated in the Long Appropriations Act, or available in the designated funds as detailed above, the amount restricted for the reserve was \$11,108,952 less than required by the State Constitution. There is no process by which the General Assembly can adjust the designated reserve after the end of the legislative session when the total TABOR revenues are finally known. In the event

of an emergency that exceeds the financial assets in the reserve, the designated Wildlife Cash Fund capital assets and general capital assets would have to be liquidated to meet the constitutional requirement.

### NOTE 6. STATUS OF REFUNDING

When refunds are required they are distributed to individual State taxpayers based on a statutory mechanism as discussed in Note 16. The Department of Revenue makes distributions of the TABOR refund through the income tax refund process using estimates of the number of taxpayers expected to qualify for the TABOR refund. Because the exact number of qualifying taxpayers cannot be known in advance, the estimates may result in over or under distribution of the required refund throughout the four-year period allowed for amended tax returns.

As required by statute, under-distributions of refunds are carried forward to subsequent years and added to the required refund in the future year when revenue is over the spending limit. Over-distributions of refunds are also carried forward to subsequent years and are used to offset any future refund liability. The statute requires the over/under refund carry forward to be applied in the year following the year in which the refund is required to be made, which results in a two year lag between the recording of the excess revenue and the adjustment for over or under refunds of those excess revenues.

At the beginning of Fiscal Year 2016-17 the State had an outstanding TABOR refund liability of \$31,358,300. During the year \$9,204,688 was refunded to tax payers from the Fiscal Year 2014-15 liability, when revenue exceeded the spending limit. Also in Fiscal Year 2016-17, adjustments to 2014-15 revenue were identified that reduced the liability by another \$346,219. The resulting liability at June 30, 2017 was \$21,807,393, to be refunded in the next refund year.

### NOTE 7. OTHER SOURCES AND ADDITIONS

The \$806.7 million reported in this line item primarily comprises: \$380.1 million of pension and other employee benefit trust fund investment earnings and additions by the State and participants; \$150.6 million of accounts payable reversions, reimbursements of prior year expense, revenue from in-kind match expenditures and other miscellaneous revenues; \$142.5 million of proceeds from issuing certificates of participation; \$113.5 million of permanent and trust fund additions; and \$17.6 million of local government expenditures recorded by the State as revenues and expenditures to meet grant matching-funds requirements.

### NOTE 8. VOTER APPROVED REVENUE CHANGES

When State voters approve a revenue change, the resulting revenues are exempt from the TABOR limit on fiscal year spending. The following revenue changes were approved by voters:

• In the 1998 general election, voters approved a citizen-initiated law, C.R.S. 25-8-501.1 – Regulation of Commercial Hog Facilities, which instituted a permit fee. The State collected \$59,142 and \$56,305 from this exempt source in Fiscal Years 2016-17 and 2015-16, respectively.

- In the 2000 general election, voters approved a citizen-initiated amendment that added Section 14 to Article XVIII of the State Constitution. This amendment allowed the use of marijuana for medical purposes and authorized the Department of Public Health and Environment to charge a fee for the issuance of a permit for such purpose. The State recorded \$1,425,668 and \$1,641,029 including interest and unrealized gains/losses from this revenue source in Fiscal Years 2016-17 and 2015-16, respectively.
- In the 2000 general election, voters approved a citizen-initiated amendment that added Section 17 to Article IX of the State Constitution. This amendment created the State Education Fund and diverted the revenues from a tax of one-third of one percent on taxable income of individuals, corporations, estates, and trusts from the General Fund to the State Education Fund. It also exempted the revenue from TABOR. The amendment was effective January 1, 2001, and resulted in \$542,028,380 and \$528,630,773 of tax revenues, interest, and unrealized gains/losses, being excluded from fiscal year spending in Fiscal Years 2016-17 and 2015-16, respectively.
- In the 2004 general election, voters approved a citizen-initiated amendment that added Section 21 to Article X of the State Constitution. The amendment authorized additional cigarette and tobacco taxes (3.2 cents per cigarette and 20 percent of manufacturer's list price for other tobacco products) effective January 1, 2005. The amendment specified the use of the tax revenue generated for specific health related programs, and it exempted the revenue from the TABOR limitations. The State recorded \$147,216,201 and \$148,097,981 of tax revenues, interest, transfers, and unrealized gains/losses from this exempt source in Fiscal Year 2016-17 and 2015-16, respectively.
- In the 2005 general election, Colorado voters approved Referendum C a measure referred to the voters by the Legislature. The referendum allowed the State to retain revenues in excess of the TABOR limit for a period of five years, and it stated that the excess revenue retained qualified as a voter approved revenue change. However, in order to determine the amount retained, the Schedule of Required Computations includes the retained amount as nonexempt revenue. Therefore, the retained amount is not reported in this note as a voter approved revenue change (See Note 9).
- In the 2008 general election, voters approved an amendment required to implement locally approved changes to the parameters for Limited Gaming under Section 9(7) of Article XVIII of the Colorado Constitution. This amendment allowed the residents of Central City, Black Hawk, and Cripple Creek to vote to extend casino hours, approve additional games and increase the maximum single bet limit. It required distribution of most of the gaming tax revenue that resulted from the new gaming limits to Colorado community colleges and to gaming cities and counties, and it exempted the new revenue from state and local revenue and spending limits. The State collected \$15,419,142 and \$15,275,218 of extended limited gaming revenue in Fiscal Year 2016-17 and 2015-16, respectively.
- In the 2013 general election, Colorado voters approved Proposition AA, a measure referred to the voters by the Legislature. The proposition authorized a 15 percent state excise tax on the average wholesale price of retail marijuana, and, in addition to the existing 2.9 percent state sales tax, an additional 10 percent state sales tax on retail marijuana and retail marijuana products, effective January 1, 2014. The amendment specified the use of the excise tax revenue generated for public school construction (for the first \$40.0 million collected) with any additional excise revenue generated to be used for marijuana regulation.

For the additional state sales tax, 15 percent of the revenues generated are allocated to the cities and counties that allow retail marijuana sales to consumers. The measure was silent as to the use of the revenue by cities and counties. In addition, the remaining amount of sales tax revenue generated is to be used for health, public safety, and education costs, in addition to funding the regulatory structure. The excise tax and additional sales tax revenue are exempted from the TABOR limitations.

The State recorded \$71,915,551 in state excise tax and \$98,343,634 of additional state sales tax revenues from these exempt sources in Fiscal Year 2016-17. In the prior fiscal year, the State recorded \$42,667,419 and \$67,336,023, respectively, from these two sources.

### NOTE 9. REFERENDUM C

Referendum C was placed on the ballot by the General Assembly and was approved by the voters in the November 2005 election. It contained the following provisions:

- The State was authorized to retain and spend all revenues in excess of the limit on fiscal year spending after July 1, 2005, and before July 1, 2010 (five fiscal years). The authorization constituted a voter approved revenue change.
- After July 1, 2010, the State is allowed to retain revenues in excess of the limit on fiscal year spending up to a newly defined excess State revenues cap (ESRC). The excess State revenues cap is the highest population and inflation-adjusted nonexempt revenue amount in the period from July 1, 2005, to June 30, 2010, also adjusted for qualification and disqualification of enterprises. This provision effectively disabled the ratchet down provision of TABOR during the five-year period. (The term "ratchet down" is used to describe the TABOR provision that requires each year's base for calculating the limit to be the lesser of the prior year's revenues or the prior year's limit.)
- A General Fund Exempt Account was created within the General Fund to consist of the retained revenues for each fiscal year of the retention period. The Legislature appropriates money in the account for health care, education (including related capital projects), firefighter and police pension funding (for local governments), and strategic transportation projects.
- The Director of Research of the Legislative Council is required to report the amount of revenues retained with a description of how the retained revenues were expended.
- The State Controller's annual report demonstrating compliance with the statutes implementing TABOR is required to include the amount of revenues that the State is authorized to retain and expend.

With the end of the Referendum C five-year excess revenue retention period, the State was subject to an ESRC starting in Fiscal Year 2010-11. Calculation of the original TABOR limit continues to apply, but the ESRC replaces the previous TABOR limit for triggering taxpayer refunds.

Since the inception of Referendum C in Fiscal Year 2005-06 the State has retained \$16,903,416,153 --\$3,593,602,662 during the initial five-year revenue retention period, and an additional \$13,309,813,491 due to the ESRC exceeding the Fiscal Year Spending limit in Fiscal Years 2010-11 through 2016-17.

### NOTE 10. DISTRICT RESERVES

District reserves are the cumulative fund balances of the State reported in the State's Comprehensive Annual Financial Report at the fund level rather than the government-wide level. District reserves therefore exclude capital assets, liabilities that are not recorded in governmental funds at the fund level (primarily long-term liabilities), as well as net assets of the TABOR enterprises. The majority of these funds include balances not available for general appropriation due to legal and contractual restrictions.

# NOTE 11. PRIOR PERIOD DISTRICT FUND BALANCE ADJUSTMENTS AND ACCOUNTING CHANGES

Total prior period District fund balance adjustments decreased the TABOR District fund balances in total by \$5,198,714.

- PRIOR PERIOD ADJUSTMENTS The Department of Public Health and Environment decreased the district's beginning net assets by \$5,198,714 by writing off prior year uncollectible accounts receivable directly to fund net position.
- ACCOUNTING CHANGES In Fiscal Year 2016-17, there were no accounting changes affecting prior period TABOR District fund balances.

### NOTE 12. SOURCES OF TABOR GROWTH LIMIT

The allowable percentage increase in State fiscal year spending equals the sum of inflation and the percentage change in State population in the calendar year ending six months prior to the start of the fiscal year. Inflation is defined in C.R.S. 24-77-102(8) as "the percentage change in the consumer price index for the Denver-Boulder-Greeley Consolidated Metropolitan Statistical Area For All Urban Consumers, All Goods, as published by the U.S. Department of Labor."

The 3.1 percent allowable growth rate comprises a 1.9 percent increase for population growth (census date population for 2015 compared to census date population for 2014) and a 1.2 percent increase for inflation.

### NOTE 13. SPENDING LIMIT ADJUSTMENTS FOR PRIOR YEAR ERRORS

With the addition of the Excess State Revenue Cap, spending limit adjustments only impact the calculation of the Fiscal Year Spending Limit.

The Fiscal Year 2016-17 spending limit was adjusted upward by \$29,906,915 to correct an error in the June 30, 2016 Schedule of Computations. In that schedule, the Fiscal Year 2014-15 spending limit was reduced by \$28,646,470, after application of allowable growth rates, to adjust for prior year revenue recording errors going back to Fiscal Year 2011-12. Although prior year revenue recognition errors had occurred, the fiscal year spending limit had been lower than nonexempt revenue in each year between Fiscal Years 2011-12 and 2014-15. Therefore, the spending limit adjustment in the June 30, 2016 Schedule of Computations was unnecessary. The \$29,906,915 increase to the fiscal year spending

limit on the Fiscal Year 2016-17 Schedule of Computations is a reversal of the \$28,646,470 error plus the prior year growth rate of 4.4%.

Otherwise, in Fiscal Year 2016-17, there were no prior year revenue recognition errors impacting the fiscal year spending limit.

### NOTE 14. ENTERPRISE QUALIFICATION AND DISQUALIFICATION

The TABOR amendment to the State Constitution specifies that qualification and disqualification of enterprises shall change the District base. In order to ensure comparability between the base and current year nonexempt revenue, when an activity qualifies as an enterprise the base is reduced by the activity's prior year nonexempt revenue offset by revenue that would have been counted as nonexempt due to the activity's interaction with other State agencies. When a TABOR enterprise becomes disqualified, its current year nonexempt revenue is added to the base after application of the population and inflation growth adjustment and its prior year payments to other State agencies are removed from the base (before application of the allowable growth rate).

In Fiscal Year 2016-17, Fort Lewis College re-qualified as a TABOR enterprise upon receiving less than ten percent of its revenues directly from the State and local governments. (See Note 3.) In the prior fiscal year, Fort Lewis had been nonexempt from TABOR spending limits.

To neutralize the effect of the change in enterprise status in computing both the Fiscal Year 2016-17 spending limit and the Excess State Revenues Cap, \$20,702,634 was deducted from the Fiscal Year 2015-16 spending limit and the Excess State Revenues Cap before application of the current year 3.1% allowable growth rate. This amount was Fort Lewis College's nonexempt District revenue from Fiscal Year 2015-16.

The fiscal year spending limit and the Excess State Revenues Cap were also adjusted by adding \$1,275,693 before application of the 3.1% growth rate. This is the amount that Fort Lewis College paid to non-TABOR enterprises in Fiscal Year 2015-16 that would have crossed the District boundary had Fort Lewis College been a TABOR enterprise in the prior year.

The Qualification/Disqualification of Enterprises line in the Computation of District Fund Balance Changes section shows a decrease in fund balance of 116,373,425 – an adjustment to the prior year District fund balance for the re-qualification of Fort Lewis College as a TABOR enterprise. The adjustment is necessary because the funds of TABOR enterprises are not included in the TABOR District. (See Note 3.)

### NOTE 15. TREATMENT OF AMOUNTS HELD FOR FUTURE REFUND

CRS 24-77-103.5 requires that errors in the amount to be refunded be corrected in the year they are discovered. In Fiscal Year 2016-17, \$346,219 related to an asset account was discovered as having been booked as revenue in Fiscal Year 2014-15, the most recent refund year. Had the amount been booked correctly, nonexempt revenue would have been \$346,219 less than originally reported. Therefore, the TABOR refund liability was reduced by this amount in the current year.

Fiscal Year 2014-15 excess revenue refundable to taxpayers at June 30, 2016 was \$31,358,300. After refunds of \$9,204,688 paid during Fiscal Year 2016-17 and the adjustment for \$346,219, the remaining refund payable at June 30, 2017 was \$21,807,393 (See Note 6.)

### NOTE 16. FUTURE REFUNDS

In the 2010 legislative session, Senate Bill 212 removed all prior alternative mechanisms for refunding TABOR revenues in excess of the fiscal year spending limit except for the earned income tax credit refund mechanism. Also passed in the 2010 session, House Bill 1002 created a temporary income tax rate reduction, applicable beginning in Fiscal Year 2010-11, as an additional refunding mechanism.

On October 1, 2015, the Department of Revenue reported that after 2015 tax year, the Earned Income Tax Credit would become permanent and would no longer be a TABOR refund mechanism.

After application of a temporary income tax rate reduction from 4.63 percent to 4.50 percent and the earned income tax credit mechanism, any remaining amount is distributed to all full-year Colorado residents 18 years and older as a refund of sales taxes. When the refund is estimated to be under \$15 for each qualified taxpayer, an identical amount is refunded to each qualified taxpayer. When the sales tax refund is estimated to be over \$15 for each qualified taxpayer, a fixed amount is set for each of six tiers of federal adjusted gross income. The Department of Revenue calculates the amount of the individual refund for each tier as a statutory percentage of the total sales tax refund divided by the number of anticipated taxpayers in each tier.

# STATISTICAL SECTION

This section of the State of Colorado's Comprehensive Annual Financial Report presents detailed current and historical information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

FINANCIAL TRENDS	These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time at both the entity wide and fund-level perspectives.
REVENUE CAPACITY	These schedules contain information to help the reader assess the factors affecting the State's ability to generate and retain major revenue streams including income and sales taxes.
DEBT CAPACITY	These schedules present information to help the reader assess the sustainability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.
DEMOGRAPHIC AND ECONOMIC INFORMATION	These schedules offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.
OPERATING INFORMATION	These schedules contain information about the State's operations and resources to help the reader understand how the information in the State's financial report relates to the services the State provides and the activities it performs.

<sup>1</sup> – See additional debt service information including principal and interest components and a ratio of total debt service expenditures to total noncapital expenditures on page 310.

 $^{2}$  - In Fiscal Years 2008-09 and 2009-10, Unclaimed Property activity was partially converted from a Private Purpose Trust Fund to a Special Revenue Fund and therefore is not included in this schedule prior to the conversion.

<sup>3</sup> – Beginning in Fiscal Year 2010-11 the Supplemental Nutrition Assistance Program (SNAP) expenditures are reported in the Social Assistance line. In previous years it was reported as Intergovernmental payments in the Counties line.

<sup>1</sup> – Expenditures in this schedule are reported on the modified accrual basis (GAAP basis) rather than the budgetary basis, which defers certain payroll, Medicaid costs and related revenues, and other statutorily defined expenditures to the following fiscal year. Certain expenditures are shown in the department that makes the external payment rather than being shown in the department that receives the original general-funded appropriation.

 <sup>1</sup> - This amount results from a \$458.1 million year-end transfer into the General Fund from various cash funds to prevent a deficit fund balance.
 <sup>2</sup> - The implementation of Governmental Accounting Standards Board Statement No. 54 in Fiscal Year 2010-11 resulted in a significant change in the State's fund balance classifications.

FISCAL YEAR REFUND	\$ - \$	-	\$ 173,346	\$ -

1 - Large adjustments to the prior year limit are primarily related to activities qualifying as TABOR enterprises, after which the activity's revenues and expenditures are no longer shown in the district amounts. <sup>2</sup> – Beginning in Fiscal Year 2010-11, with the expiration of the Referendum C retention period, Fiscal Year Refunds are based on the Excess State

Revenue Cap rather than the Fiscal Year Spending Limit.

<sup>1</sup> - General Obligation Debt is prohibited by the State Constitution except to fund buildings for State use, to defend the State or the U.S. (in time of war), or to provide for unforeseen revenue deficiencies.
 <sup>2</sup> - Colorado State Constitution requires multiple year obligations to be approved by voters; therefore, there is no specific legal debt limitation.

<sup>3</sup> - Decline was related to the CollegeInvest sale and retirement of bonds previously issued to support purchase and origination of student loans.
 <sup>4</sup> - Beginning in Fiscal Year 2013-14 debt liabilities are not offset by unamortized refunding gains or losses. With GASB Statement No. 65, these balances became deferred inflows and or outflows.

<sup>1</sup> – Pledged revenues supporting the Governmental Funds TRANs include primarily federal grants under agreement with the Federal Highway Administration (FHWA). Before Fiscal Year 2009-10, pledged revenue also included a portion of sales and use tax revenues of the General Fund diverted to the Highway Users Tax Fund and the Highway Users Tax Fund revenues. Pledged revenues supporting the Enterprise Funds' borrowings, excluding Higher Education, were primarily student loan repayment amounts at CollegeInvest, which were used to make the required debt service payments. CollegeInvest's loan portfolio was sold in Fiscal Year 2009-10 and related bonds were sold or redeemed. Pledged revenues supporting Higher Education Institutions' borrowings are primarily auxiliary fees related to student housing and tuition. Pledged revenues supporting Unemployment Insurance bonds are from assessments on employers.

<sup>2</sup> – At the close of Fiscal Year 2009-10, neither CollegeInvest nor State Fair had any outstanding revenue bonds requiring pledged revenues amount to be reported. In Fiscal Year 2011-12, Unemployment Insurance issued revenue bonds requiring pledged revenues.

Classified employees are those holding positions within the State Personnel System. Non-classified employees are excluded from the State Personnel System and are not subject to the rule-making authority of the State Personnel Director. Non-classified positions are found primarily in the Judicial Branch, the Legislative Branch, the Governor's cabinet and office staff, the Department of Law, the Department of Education, and as administrators and faculty in the Department of Higher Education.

# COLORADO STATE HIGHWAY SYSTEM

Source: Colorado Department of Transportation

<sup>1</sup> - Centerline miles measure roadway miles without accounting for the number of lanes.

<sup>2</sup> - Lane miles measure the total distance of all roadway lanes, and are therefore a better indicator of actual maintenance requirements.

<sup>3</sup> - In 2013, CDOT changed the overall metric by which pavement condition is measured. The new measure is based on Drivability Life, which identifies how long a pavement will last until the user experience becomes unacceptable. In 2015, the Statewide pavement condition was rated as 82 percent High/Moderate.

#### COLORADO STATE-OWNED BRIDGES BY FUNCTIONAL CLASSIFICATION 2008 to 2017

#### **OTHER COLORADO FACTS**

#### **Important Dates**

- 1803 The United States purchases land, including what is now most of eastern Colorado, from France in the Louisiana Purchase.
- 1806 Lt. Zebulon M. Pike and a small party of U.S. soldiers sent to explore the southwestern boundary of the Louisiana Purchase discover the peak that bears his name but fail in their effort to climb it. However, they do reach the headwaters of the Arkansas River near Leadville.
- 1848 By the Treaty of Guadalupe Hidalgo, Mexico cedes to the United States most of that part of Colorado not acquired by the Louisiana Purchase.
- 1858 Gold is discovered along Cherry Creek near present day Denver.
- 1861 Congress establishes the Colorado Territory with the boundaries of the present State and chooses its name from the Spanish word for "colored red." President Lincoln appoints William Gilpin as the first territorial governor. The State Supreme Court is organized. The first assembly meets and creates 17 counties, authorizes the University of Colorado, and selects Colorado City as the territorial capital.
- 1867 Denver is established as the permanent seat of the territorial government by the legislature meeting in Golden.
- 1870 The Denver Pacific Railroad is completed to Denver.
- 1876 Colorado is admitted to the Union as the 38<sup>th</sup> state. John L. Routt is elected the first governor.
- 1877 The University of Colorado opens classes at Boulder with two teachers and forty-four students.
- 1894 The State Capitol Building, designed by Elijah E. Meyers, is completed at a cost of \$2.5 million. Colorado becomes the second state, after Wyoming, to extend suffrage to women.
- 1906 The U.S. Mint at Denver issues its first coins.
- 1958 The U.S. Air Force Academy's permanent campus opens near Colorado Springs.
- 1992 TABOR amendment is added to the State Constitution.

#### Geography

Area: 103,718 square miles.

Highest Elevation: Mt Elbert – 14,433 feet above sea level.

Lowest Elevation: Along the Arikaree River in Yuma County – 3,315 feet above sea level.

Colorado has the highest average elevation of all fifty states -6,800 feet above sea level.

#### **State Symbols and Emblems**

State Motto – Nil Sine Numine – Nothing Without the Deity	State Songs – "Where the Columbines Grow" and "Rocky Mountain High"
State Nickname – Centennial State	State Gemstone – Aquamarine
State Animal – Rocky Mountain Bighorn Sheep	State Grass – Blue Grama Grass
State Bird – Lark Bunting	State Insect – Colorado Hairstreak Butterfly
State Fish – Greenback Cutthroat Trout	State Mineral – Rhodochrosite
State Flower – White and Lavender Columbine	State Reptile – Western Painted Turtle
State Folk Dance – Square Dance	State Amphibian – Western Tiger Salamander
State Fossil – Stegosaurus	State Rock – Yule Marble
State Pet – Shelter and Rescue Dog and Cat	State Tree – Colorado Blue Spruce
	State Cactus – Claret Cup

#### **APPENDIX D**

#### **Certain State Economic and Demographic Information**

The following information was prepared and provided by Development Research Partners, Inc. to give prospective investors general information concerning selected economic and demographic conditions existing in the State as of the dates indicated. See also "INTRODUCTION – State Economic and Demographic Information." The statistics have been obtained from the referenced sources and represent the most current information available as of June 2017 from the sources indicated; however, since certain information is released with a significant time lag, the information in some cases will not be indicative of existing or future economic and demographic conditions. Further, the reported data has not been adjusted to reflect economic trends, notably inflation. Finally, other economic and demographic information concerning the State not presented herein may be available, and prospective investors may want to review such information prior to making their investment decision. *The following information is not to be relied upon as a representation or guarantee of the State or any officer or employee of or advisor to the State.* See also "Appendix A – THE STATE GENERAL FUND – Revenue Estimation; OSPB Revenue and Economic Forecasts."

#### **Overview**

Colorado, the most populous state in the Rocky Mountain region, has three distinct geographic and economic areas. The eastern half of the State consists of the eastern plains, which are flat, open, and largely devoted to agriculture. The Front Range lies along the eastern base of the Rocky Mountains and contains most of the State's metropolitan areas. The western half of the State – which includes the Rocky Mountains and the Western Slope – includes many acres of national park and forest land and significant reserves of minerals, natural gas, and other resources.

The State's population and wealth are concentrated in the Front Range, principally in four major metropolitan areas: Fort Collins/Greeley, Denver/Boulder, Colorado Springs, and Pueblo. Denver, the State's capital, is the economic center of the State and the Rocky Mountain region. About 56 percent of the State's population and 62 percent of its jobs are located in the Denver/Boulder metropolitan area, which is a hub for transportation, communication, financial activities, and professional and business services. The aerospace, bioscience, and energy industries are also key contributors to economic activity in the Denver/Boulder metropolitan area and the State as a whole.

The State's economic performance depends heavily on economic performance at the national level. See also "**Appendix A** – THE STATE GENERAL FUND – Revenue Estimation; OSPB Revenue and Economic Forecasts."

#### **Population and Age Distribution**

The following table provides population figures for Colorado and the United States for the past 10 years.

	Population Estimates (as of July 1)										
	Colora	do	United States								
	Population	%	Population	%							
	(millions)	Change	(millions)	Change							
2007	4.8	1.7%	301.2	1.0%							
2008	4.9	1.7%	304.0	0.9%							
2009	5.0	1.5%	306.7	0.9%							
2010	5.1	1.5%	309.3	0.9%							
2011	5.1	1.4%	311.6	0.7%							
2012	5.2	1.4%	314.0	0.8%							
2013	5.3	1.5%	316.2	0.7%							
2014	5.4	1.6%	318.6	0.8%							
2015	5.4	1.8%	321.0	0.8%							
2016	5.5	1.7%	323.4	0.7%							
2017	5.6	1.7%	325.7	0.7%							

Note: Figures for 2007 through 2016 are estimates. The U.S. 2017 count is an estimate, and the 2017 count for Colorado is a forecast. Sources: Colorado Division of Local Government, State Demography Office; U.S. Census Bureau, Population Estimates Program.

The following table provides the age distribution for the most recent year available for the State's population and the population nationwide.

		Age Distribution, July 1								
	Colorado	, 2017	United States, 2016							
_	Population		Population							
	(millions)	% of total	(millions)	% of total						
Under 18	1.27	22.5%	73.64	22.8%						
18 to 24	0.55	9.8%	30.84	9.5%						
25 to 44	1.60	28.5%	85.15	26.4%						
45 to 64	1.43	25.4%	84.25	26.1%						
65+	0.78	13.8%	49.24	15.2%						
Total	5.63	100.0%	323.13	100.0%						
Median Age	37.2		37.9							

Note: Totals may not add due to rounding. The U.S. 2016 count is an estimate, and the Colorado 2017 count is a forecast. Sources: Colorado Division of Local Government, State Demography Office; U.S. Census Bureau, Population Estimates Program.

#### Income

The following table provides annual per capita personal income figures for Colorado, the Rocky Mountain Region, and the United States.

	Per Capita Personal Income in Current Dollars <sup>1</sup>										
	Color	rado	Rocky Moun	tain Region <sup>2</sup>	United States						
	Income	% Change	Income	% Change	Income	% Change					
2012	\$45,120		\$41,119		\$44,283						
2013	\$46,869	3.9%	\$42,196	2.6%	\$44,489	0.5%					
2014	\$50,021	6.7%	\$44,564	5.6%	\$46,486	4.5%					
2015	\$51,956	3.9%	\$46,392	4.1%	\$48,429	4.2%					
2016	\$52,097	0.3%	\$46,848	1.0%	\$49,204	1.6%					
2017	\$53,504	2.7%	\$48,017	2.5%	\$50,392	2.4%					

<sup>1</sup>Per capita personal income is total personal income divided by the July 1 population estimate.

<sup>2</sup>The Rocky Mountain Region includes Colorado, Idaho, Montana, Utah, and Wyoming.

## **Colorado Sales and Use Tax Net Collections**

Source: Colorado Department of Revenue.

The following table provides retail sales totals by industry for the State for the most recent five years and year-to-date available. Retail sales data is only available through February 2016 as the Colorado Department of Revenue is currently experiencing a system problem that prevents the Retail Sales Reports from being produced. The Department is working to resolve the issue as soon as possible.

Source: U.S. Census Bureau.

#### **Residential Foreclosures**

The following table provides a five-year history of foreclosure filings and sales in Colorado. The foreclosure filing is the event that begins the foreclosure process. In general, a borrower who is at least three months delinquent will receive a filing notice from the Public Trustee for the county in which the property is located. At this point, the property is in foreclosure.

Because a foreclosure filing can be cured or withdrawn before the home is sold at auction, not all filings result in foreclosure sales. Foreclosure sales at auction generally proceed between 110 and 125 days after the initial filing. Once a foreclosure sale is completed, the eviction process begins.

	1 of closu	ite i migs and bales in colorado								
		Foreclosure								
	Foreclosure	%	Sales at	%						
	Filings <sup>1</sup>	Change	Auction	Change						
2013	15,333	-46.3%	9,318	-41.4%						
2014	11,235	-26.7%	6,003	-35.6%						
2015	8,241	-26.6%	4,209	-29.9%						
2016	7,666	-7.0%	3,128	-25.7%						
2017	6,680	-12.9%	2,100	-32.9%

#### **APPENDIX E**

#### STATE PENSION SYSTEM

PERA has published its Comprehensive Annual Financial Report for the Plan Year ended December 31, 2017, which can be accessed by visiting https://www.copera.org/investments/pera-financial-reports.

The information included in this Appendix is based on information compiled and presented in the Public Employees' Retirement Association ("PERA") Comprehensive Annual Financial Report for the Plan Year ended December 31, 2016 (the "PERA 2016 CAFR"). The PERA 2016 CAFR was prepared by PERA staff employees and the firm of Cavanaugh Macdonald Consulting, LLC, PERA's independent actuary, and audited by CliftonLarsonAllen LLP, PERA's independent public accounting firm. The valuations and other assessments of PERA constitute forward looking information as described in the preliminary notices in this Official Statement because they are based on assumptions about future events. The assumptions underlying the valuations and assessments to reflect actual results and future projections as additional information becomes available. The State takes no responsibility for the accuracy, validity or completeness of such information, valuations and assessments. The PERA 2016 CAFR is not incorporated in this Official Statement by reference or otherwise, and the State makes no representations regarding the accuracy of the information in the PERA 2016 CAFR.

The information in this Official Statement and in the State's Fiscal Year 2016-17 CAFR regarding PERA is derived from the PERA 2016 CAFR. PERA implemented GASB Statement No. 67, "Financial Reporting for Pension Plans—An Amendment of GASB Statement No. 25" ("GASB 67"), beginning with the PERA Comprehensive Annual Financial Report for the Plan Year ended December 31, 2014 (the "PERA 2014 CAFR"), as discussed in "Implementation by PERA of GASB 67" below. See also "Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB 68" in this appendix.

#### **General Description**

**Overview.** The State of Colorado, like most other state and local governments, provides postemployment benefits to its employees based on their work tenure and earnings history. By statute, the State created PERA, which administers cost sharing, multiple-employer defined benefit plans to provide retirement, death and disability benefits through the State Division Trust Fund (generally for State employees) (the "State Division"), the School Division Trust Fund (for employees of school districts), the Local Government Division Trust Fund (for employees of numerous municipalities and other local governmental entities), the Judicial Division Trust Fund (for judges in the State) and the Denver Public Schools Division (for employees of DPS). The defined benefit plan for the State Division is referred to herein as the "State Division Plan."

As described in more detail under the caption "—Funding of the State Division Plan" below, the State Division Plan is funded with payments made by the State and by each employee, the amounts of which are determined and established by statute. Benefits provided through the State Division Plan are paid from the State Division Trust Fund. State employees hired after 2005 may, in lieu of participating in the State Division Plan, elect to participate in a defined contribution plan (the "State Division DC Plan") which is also administered by PERA. However, the majority of State employees participate in the State Division Plan. The State has no obligation to make contributions or fund benefits in Divisions other than the State Division and Judicial Division of PERA. See Notes 1 and 8 to the financial statements in the PERA 2016 CAFR for a discussion of the membership in the State Division Plan and the State Division DC Plan, respectively. See also Management's Discussion and Analysis and Notes 6, 7 and 8 to the financial statements in the

State's Fiscal 2016-17 CAFR appended to this Official Statement for a description of the State Division Plan and the State Division DC Plan.

Because the majority of State employees participate in the State Division Plan and not in the State Division DC Plan, and the number of judges employed by the State that participate in the Judicial Division is relatively small in comparison to the number of other State employees, the disclosure in "DEBT AND CERTAIN OTHER FINANCIAL OBLIGATIONS—Pension and Post-Employment Benefits" in the body of this Official Statement and in this Appendix relates only to the State Division Plan.

The State does not participate in the federal Old-Age, Survivors and Disability Insurance (Social Security) program.

**PERA**. PERA is a legal entity created by statute in 1931 that is separate from the State as further described in Article 51 of Title 24, C.R.S. (the "PERA Act"). Management of PERA is vested in a 16 member Board of Trustees (the "PERA Board"). PERA has fiduciary responsibility for several separate divisions, including the State Division, the School Division, the Local Government Division, the Judicial Division and the Denver Public Schools Division. The State represents the majority, but not all, of the State Division employers and employees. Each Division operates as a separate legal trust. PERA also operates two cost-sharing, multiple-employer post-employment benefit plans through the Health Care Trust Fund and the Denver Public Schools Health Care Trust Fund that provide health care premium subsidies to participating PERA benefit recipients who choose to enroll in one of PERA's health care plans. PERA's financial statements, which include all of its Divisions and trusts, may be obtained by writing to PERA at P.O. Box 5800, Denver, Colorado 80217-5800, by calling the PERA Infoline at 1-800-759-7372 or by visiting http://www.copera.org.

The above references to PERA's website are included herein for informational purposes only, and information available on such website or in PERA's financial statements, or any other information provided by PERA, is not incorporated in this Official Statement by reference or otherwise, nor does the State make any representations regarding the accuracy of any such information.

#### **Basic Provisions of the State Division Plan**

Members of the State Division Plan who meet minimum age and service requirements are eligible to receive a monthly retirement benefit based on their employment and earnings history with the State. Calculation of retirement benefits, and eligibility requirements, differ depending on the employee's original hire date. In response to funding challenges, the General Assembly has enacted changes to State Division Plan benefits at various times. Some of such changes have been applied prospectively to newly hired employees. As a result, there are several tiers of employee benefits and related provisions that are based on employee hire dates and other factors. See Notes 6, 7, and 8 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement, the PERA 2016 CAFR and the PERA Act for a discussion of eligibility requirements and the various tiers of benefits under the State Division Plan. See also the Statistical Section of the PERA 2016 CAFR for various statistics regarding members, retirees, survivors and benefit payments for the State Division Plan.

#### **Implementation by PERA of GASB 67**

In 2012, GASB issued Statement No. 67, "Financial Reporting for Pension Plans—An Amendment of GASB Statement No. 25" ("GASB 67"), which establishes new standards for financial reporting and note disclosure by defined benefit pension plans administered through qualified trusts, and note disclosure requirements for defined contribution pension plans administered through qualified trusts. GASB 67 is effective for accounting periods beginning after June 15, 2013, and, accordingly, PERA implemented GASB 67 beginning with the PERA 2014 CAFR.

The objective of GASB 67 as stated therein is to improve financial reporting by state and local governmental pension plans. The requirements of GASB 67 are intended to improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information. A related statement, GASB Statement No. 68, "Accounting and Financial Reporting for Pensions," applies to governmental employers as reflected in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement. See "—Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB 68" below.

GASB 67 establishes a shift in financial disclosure requirements from a funding-based approach to an accounting-based approach. Implementation of GASB 67 requires the preparation of two actuarial valuations, one for funding purposes and one for accounting and financial disclosure purposes. The purpose of the funding valuation is to guide the PERA Board's actions necessary to ensure the long-term sustainability of PERA's trust funds. The funding valuation aids this action by allowing PERA to assess the sufficiency of the current statutory contribution rates and analyze the sufficiency of future contributions to meet current and future benefit obligations. The actuarial valuation for accounting purposes emphasizes the obligation an employer incurs to employees through the employment-exchange process. The primary purpose of the valuation for accounting purposes is to provide a consistent, standardized methodology that allows comparability of amounts and increased transparency of the pension liability across U.S. pension plans complying with this new reporting standard. To accomplish this, GASB 67 requires a different approach for determining net pension liability as compared to the previously disclosed unfunded actuarial accrued liability,<sup>1</sup> or "UAAL." Net pension liability is to be measured as the total pension liability<sup>2</sup> of the plan less the amount of the plan's fiduciary net position.<sup>3</sup>

Another major change in the new standard is the rate used to discount projected benefit payments. The new standard states the long-term expected rate of return on the investments of the plan should be applied only to available plan assets that are expected to be invested using a strategy to achieve that return. If there comes a point in the projections when plan fiduciary net position and contributions related to active and inactive employees are no longer projected to be greater than or equal to projected benefit payments related to those employees and administrative expenses (crossover point), then from that point forward the plan will be required to discount the projected benefit payments after the crossover point using a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of "AA/Aa" or higher (or equivalent quality on another rating scale).

GASB 67 also enhances the standards for footnote disclosure and required supplementary information for pension plans, including, among other things, disclosing the plan's net pension liability, ratio of fiduciary net position to total pension liability and actuarial methods and assumptions.

#### **Actuarial Valuations**

Many of the measures used to determine and evaluate the financial condition and funding status of the State Division Plan are based on actuarial valuations. An actuarial valuation is the determination, as of the actuarial valuation date, of the service cost, total pension liability and related actuarial present value of projected benefit payments for pensions performed in conformity with Actuarial Standards of Practice unless otherwise specified by GASB. Actuarial valuations involve estimates of the value of reported amounts and

<sup>&</sup>lt;sup>1</sup> Actuarial accrued liability ("AAL") is the excess of the present value of a pension fund's total of future benefits (payable to the plan participants) and fund administration expenses over the present value of the future normal cost of those benefits. Unfunded actuarial accrued liability is the difference between the AAL and the valuation assets of the fund

 $<sup>^2</sup>$  Total pension liability is the portion of the actuarial present value of projected benefit payments that is attributed to past periods of plan member service in conformity with the requirements of GASB 67. For purposes of application to the requirements of GASB 67, AAL is the equivalent of total pension liability.

<sup>&</sup>lt;sup>3</sup> Fiduciary net position equals assets plus deferred outflows of resources and less liabilities and deferred inflows of resources at the end of the plan's reporting period.

assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial valuations for each of PERA's defined benefit plans, including the State Division Plan, were prepared by PERA's actuaries as of December 31, 2016, based on a set of actuarial methods and assumptions that by State law are the responsibility of the PERA Board. The valuations for the State Division Plan examine the assets of the Plan compared to actuarial liabilities, compare past and future trends and determine the net pension liability of the Plan. The actuarial valuation for funding purposes applies an asset valuation method that recognizes a four-year smoothed market value of assets for purposes of determining the UAAL, while the actuarial valuation for accounting and financial reporting purposes applies the fair value of assets (determined in conformity with GASB standards) to determine the net pension liability. See the Actuarial Section of the PERA 2016 CAFR for a discussion of other actuarial methods and assumptions used in the actuarial valuations of the State Division Plan.

The PERA 2016 CAFR states that the PERA Board studies all economic and demographic actuarial assumptions at least every five years and approves changes to those assumptions. Recently, the PERA Board has reviewed the economic assumptions on a more frequent basis. The PERA Board last completed an experience study in 2016, and the next experience study is planned in 2020.

No assurance can be given that any of the assumptions underlying the actuarial valuations of the State Division Plan will reflect the actual results experienced by the Plan. Variances between the assumptions and actual results may cause an increase or decrease in the actuarial value of Plan assets, the net pension liability of the Plan and other valuation and performance measures determined on the basis of such actuarial valuations.

#### Funding of the State Division Plan

*Statutorily Required Contributions*. The State Division Plan is funded with payments made by the State and by each eligible employee as provided in the PERA Act. The State's contributions to the Plan are based on percentages of employee wages and are set by statute. These contribution percentages are referred to herein as the statutorily required contribution, or "SRC," of the State. The baseline SRC that is made by the State for most State employees is 10.15% of the employee's salary. The State has consistently contributed the full amount of the SRC to the State Division Plan. See Note 6 and the Required Supplementary Information to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a summary of the SRC percentages payable, and percentage amount of the SRC paid, by the State for the last three Fiscal Years, as well as total PERA plan contributions made by the State for each of the past ten Fiscal Years.

As required by statute, State employees contribute 8.0% (except for State Troopers and Colorado Bureau of Investigation officers, who contribute 10%) of their wages to the State Division Plan, although per SB 10-001, for Fiscal Years 2010-11 and 2011-12 the employee contribution percentage was increased to 10.5% of the employee's wages. The 2.5% increase in contribution percentage by employees offset a 2.5% reduction in the State contribution for those Fiscal Years. The employee contribution rates reverted to pre-Fiscal Year 2010-11 levels effective July 1, 2012, and the State returned to paying the 10.15% SRC.

The General Assembly enacted legislation in 2004, 2006 and 2010 to gradually increase employee contributions to the State Division Plan by authorizing the Amortization Equalization Disbursement, or "AED," and the Supplemental Amortization Equalization Disbursement, or "SAED," in order to shorten the amount of time over which the unfunded liability of the Plan is amortized. Both the AED and the SAED are paid by the State as contributions to the State Division Plan as a percentage of employee wages, but the SAED payment comes from moneys that would otherwise have been used to provide market-based salary

increases to employees. The AED applicable to the State Division Plan was effective as of January 1, 2006, and was initially payable at the rate of 0.5% of total covered payroll, with annual increases in the contribution rate through 2017. The AED rate applicable to the State Division Plan was 4.2% in 2015, 4.6% in 2016 and is 5.0% in 2017. The SAED applicable to the State Division Plan was effective as of January 1, 2008, and was also initially payable at the rate of 0.5% of total covered payroll, with annual increases in the contribution rate through 2017. The SAED applicable to the State Division Plan was effective as of January 1, 2008, and was also initially payable at the rate of 0.5% of total covered payroll, with annual increases in the contribution rate through 2017. The SAED rate applicable to the State Division Plan was 4.0% in 2015, 4.5% in 2016 and is 5.0% in 2017. The total SRC applicable to the State Division Plan will be equal to 20.15% of employee wages. See Note 6 to the State's fiscal Year 2016-17 CAFR appended to this Official Statement and Note 4 to the financial statements in the PERA 2016 CAFR for a further discussion of the AED and SAED.

Changes to the statutorily required contributions to the State Division Plan by the State and its employees, or to other provisions of the Plan, could be made by the General Assembly through future legislative action, which changes could impact the SRC, the funding status and/or the financial condition of the Plan as described herein. The State cannot predict if or when any such legislative changes might be enacted or the impact that any such changes, if enacted, might have on the State Division Plan or the State's funding obligations with respect to the Plan.

Because the State's annual contributions with respect to the State Division Plan are set by statute and funded in the State's annual budget, such contributions are not affected in the short term by changes in the actuarial valuation of Plan assets or the funded ratio of the Plan. Any changes in the SRC would require legislative action by the General Assembly. See also "—Funding Status of the State Division Plan" below.

While PERA has a pension funding policy as discussed in "—Change in PERA Funding Policy" hereafter, the State does not have a formal or established policy or procedure for managing its pension liability. PERA annually provides a briefing to State officials and members of the General Assembly as to the status of the State Division Plan and occasionally may pursue legislation pertaining to changes in contribution and/or benefit provisions in furtherance of PERA's funding policy. Legislative proposals to modify the contributions, benefits, eligibility and other provisions of the State Division Plan also are introduced in the General Assembly from time to time independent of a request therefor from PERA.

The SRC is paid from the State General Fund as well as from certain federal funds and State cash funds and is typically paid from the same funding source as the employee's salary and other benefits. Although the rate of the SRC is set by statute, payment of the SRC nevertheless is subject to annual appropriation through the State budgeting process as described in "STATE FINANCIAL INFORMATION—Budget Process and Other Considerations" in the body of this Official Statement.

Actuarially Determined Contribution. As a result of the shift in financial disclosure requirements under GASB 67 from a funding-based approach to an accounting-based approach, the historical disclosure and use of the annual required contribution,<sup>1</sup> or "ARC," as a funding benchmark by PERA is no longer required. Rather, this philosophical shift necessitates the development and use of a plan specific actuarially determined contribution ("ADC") benchmark against which to gauge the adequacy of the SRC for the State Division Plan. The ADC represents the amount needed to fund benefits over time, and constitutes a target or recommended employer contribution for the reporting period determined in conformity with Actuarial Standards of Practice based on the most recent measurement available when the contribution for the

<sup>&</sup>lt;sup>1</sup> Prior to 2014, PERA used the annual required contribution, or ARC, as a funding benchmark against which to gauge the adequacy of the SRC for the State Division Plan. The ARC is the actuarially determined amount that would be required if the State were to fund each year's normal cost (i.e., the present value of the benefits that the State Division Plan projects to become payable in the future that are attributable to a valuation year's payroll) in the State Division Plan plus an annual amortization of the UAAL assuming that the UAAL will be fully funded over a maximum 30-year period. The difference between the ARC and the SRC constitutes either a contribution deficiency or excess contributions. For historical information regarding the ARC, see PERA's Comprehensive Annual Financial Report for calendar year 2013.

reporting period was adopted. An ADC deficiency arises when actual employer contributions are less than the ADC, and interest accrues on the ADC deficiency at the plan's expected long term rate of return. See "— Historical ADC and State Contributions" below.

*Change in PERA Funding Policy*. In response to the new GASB 67 standards, the PERA Board adopted a revised pension funding policy in March 2015 with regard to its trust funds to update and replace the prior funding policy dated November 2007. The purpose of the revised funding policy, as stated in the PERA 2016 CAFR, is to: (i) define the overall funding benchmarks of PERA's defined benefit pension trust funds; (ii) assess the adequacy of the contribution rates which are set by the General Assembly by comparing these rates to an ADC rate; and (iii) define the annual actuarial metrics that will assist the PERA Board in assessing the sustainability of the plan. The results of these three items are intended to guide the PERA Board when considering whether to pursue or support proposed legislation pertaining to changes in plan contribution and/or benefit provisions. See "—Statutorily Required Contributions" above.

*Historical ADC and State Contributions*. The following table sets forth for each of the years 2007-2016 (i) the ADC for the State Division Plan, (ii) the annual contribution deficiency and (iii) the actual contribution as a percentage of covered employee payroll. The State annually contributes the full amount of the SRC to the State Division Plan; however, these amounts have been less than the applicable ARC or ADC. During this period the State has not made any contributions to the State Division Plan in excess of the SRC.

The ADC rates, as a percentage of pensionable payroll, used to determine the ADC amounts in Table 1 below are calculated as of December 31 two years prior to the end of the year in which the ADC amounts are reported. The following actuarial methods and assumptions (from the December 31, 2014, actuarial valuation) were used to determine contribution rates reported in the table for the year ended December 31, 2016: (i) the actuarial cost method is based on the entry age of participants; (ii) the Plan's UAAL is amortized as a level percent of payroll, on a closed, layered basis over a 30-year period; (iii) for valuation purposes the actuarial value of assets is based on gains and losses smoothed in over a four year period as permitted by GASB standards; (iv) price inflation is assumed to be 2.80%; (v) real wage growth is assumed to be 1.10%; (vi) salary increases (including assumed wage inflation of 3.90%) are projected to range from 3.90% to 10.85%; (vii) the long-term investment rate of return (net of pension plan investment expense, including price inflation) is assumed to be 7.50%; and (viii) cost of living adjustments for pre 2007 hires are assumed to be 2.00% per year and cost of living adjustments for post 2006 hires are assumed to be financed by the Annual Increase Reserve described in footnote 2 to the table. Other assumptions include, without limitation, future retiree participation and contribution rates and mortality rates. For further information, see Note 3 to the required supplementary information for the Division trust funds and the Actuarial Section in the PERA 2016 CAFR.

#### TABLE 1

#### **Employer Contributions** State Division (dollar amounts in thousands)

Calendar Year	ADC Rate <sup>1</sup>	Covered Employee Payroll	Annual Increase Reserve Contribution <sup>2</sup>	ADC Contribution <sup>3</sup>	Contributions in Relation to the ADC	Annual Contribution Deficiency	Actual Contribution As a Percentage of Covered Employee Payroll
2016	22.31%	\$2,710,651	\$12,838	\$617,584	\$521,804	\$ 95,780	19.25%
2015	22.35	2,641,867	11,400	601,857	484,005	117,852	18.32
2014	20.45	2,564,670	9,984	534,459	444,372	90,087	17.33
2013	20.01	2,474,965		495,241	393,218	102,023	15.89
2012	16.52	2,384,934		393,991	328,055	65,936	13.76
2011	13.63	2,393,791		326,274	277,122	49,152	11.58
2010	18.93	2,392,080		452,821	282,640	170,181	11.82
2009	17.91	2,384,137		426,999	293,234	133,765	12.30
2008	18.45	2,371,639		437,567	267,533	170,034	11.28
2007	17.23	2,236,518		385,352	231,909	153,443	10.37

<sup>1</sup> See the discussion preceding this table regarding the actuarial methods and assumptions used in determining the ADC rates.

<sup>2</sup> The Annual Increase Reserve, or "AIR," was established in 2007 and is used to provide post-retirement benefit increases for members hired on or after January 1, 2007. The AIR is financed by an allocation from employer statutory contributions made on behalf of such members equal to 100% of pensionable payroll and through an allocation of purchase of service dollars. For further information see the PERA 2016 CAFR. <sup>3</sup> The ADC contribution equals the sum of (i) the ADC rate times the covered employee payroll, plus (ii) the AIR. Source: PERA 2016 CAFR

The Management's Discussion and Analysis in the PERA 2016 CAFR states that, using the funding policy approved by the PERA Board in March 2015 and the 2015 actuarial funding valuation based on an assumed 7.50% investment rate of return and discount rate, the 2017 ADC for the State Division Fund needed to meet the layered, 30-year closed amortization period will be 22.71%, and that using such funding policy and the 2016 actuarial funding valuation based on an assumed 7.25% investment rate of return and discount rate, the 2018 ADC for the State Division Fund needed to meet the layered, 30-year closed amortization period will be 26.30%.

For historical information regarding employer contributions based on the ARC, see Note 6 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement.

#### **Funding Status of the State Division Plan**

The State Division Plan currently is significantly underfunded. As discussed in "-Funding of the State Division Plan-Statutorily Required Contributions" above, the AED and SAED were implemented in 2006 and 2008, respectively, and other changes were made to the Plan design by SB 10-001, all in an effort to improve the funding status of the State Division Plan. In addition, investment returns on Plan assets have recently decreased following the negative effects of the global economic downturn that began in 2008. The actuarial assumptions as to the investment rate of return on Plan assets and the discount rate on actuarially accrued liabilities were lowered by the PERA Board from 8.50% to 8.00% in 2009, from 8.00% to 7.50% at the end of 2013 and from 7.50% to 7.25% as of December 31, 2017, and other economic assumptions, including the amortization period, have been changed over this period as well, to reflect actual results and new estimates about the future. For further information, see Management's Discussion and Analysis in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement, as well as

Management's Discussion and Analysis, Note 10 to the financial statements, Note 2 to the required supplementary information for the Division trust funds and the Actuarial Section in the PERA 2016 CAFR.

The PERA 2016 CAFR reports that at December 31, 2016, the actuarial value of assets of the State Division Plan was approximately \$14.0 billion and the AAL of the Plan was approximately \$25.7 billion, resulting in a UAAL of approximately \$11.6 billion and a funded ratio (i.e., the actuarial value of Plan assets divided by the AAL) of only 54.6%. This UAAL would amortize over a 65-year period based on contribution rates as of the date of calculation (i.e., contributions equal to the SRC) and future increases in the AED and SAED, as well as an investment rate of return and discount rate for actuarially accrued liabilities of 7.25%.

The actuarial value of assets of the State Division Plan is determined by using an asset valuation method of smoothing the difference between the market value of assets and the actuarial value of assets over a four-year period to prevent extreme fluctuations that may result from short term or cyclical economic and market conditions. Accordingly, the full effect of recent fluctuations in assets of the State Division Plan as a result of economic and market conditions is not reflected in the funded ratio. Based on the market value of assets of the State Division Plan, the PERA 2016 CAFR reports that at December 31, 2016, the UAAL of the Plan was approximately \$12.1 billion and the funded ratio was 52.7%.

Table 2 below sets forth for each of the years 2007-2016 the UAAL, the funded ratio and related information for the State Division Plan based on the actuarial value of Plan assets, and Table 3 below sets forth such information based on the market value of Plan assets.

The total pension liability for the State Division Plan was determined by actuarial valuations as of December 31, 2015, and accepted actuarial procedures were applied to roll forward the total pension liability to December 31, 2016. When calculating the AAL of the State Division Plan in Tables 2 and 3 below, the following actuarial methods, assumptions and inputs, among others, were used: (i) price inflation is assumed to be 2.40%; (ii) real wage growth is assumed to be 1.10%; (iii) salary increases (including assumed wage inflation of 3.50%) are projected to range from 3.50% to 9.17%; (iv) the long term investment rate of return (net of pension plan investment expense, including price inflation) and discount rate are assumed to be 7.25%; and (v) cost of living adjustments for pre-2007 hires are assumed to be 2.00% per year compounded annually, and cost of living adjustments for post 2006 hires are assumed to be financed by the AIR. Other assumptions include, without limitation, future retiree participation and contribution rates and mortality rates. For further information, see Note 10 to the financial statements and the Actuarial Section in the PERA 2016 CAFR.

Source: PERA Comprehensive Annual Financial Reports for calendar years 2006 through 2015

Since contribution rates to the State Division Plan are fixed by statute, unless changes are made to such rates or changes are made to Plan provisions to reduce benefit payments, improvements in the funding status of the State Division Plan are expected to come primarily from increases in investment returns on Plan assets or changes in the actuarial assumptions used to determine the value of Plan assets and the AAL.

Changes to contribution rates or other Plan provisions, or the use of alternative Plan funding strategies, would require legislative action by the General Assembly, of which there can be no assurance.

#### Fiduciary Net Position of the State Division Plan

The Statement of Fiduciary Net Position of the State Division Plan as of December 31, 2016, is included in PERA's basic financial statements set forth in the Financial Section of the PERA 2016 CAFR. The following table sets forth for each of the years 2007-2016 the changes in fiduciary net position of the State Division Plan.

#### Net Pension Liability of the State Division Plan

As noted above, GASB 67 requires a different approach for determining net pension liability as compared to the previously disclosed UAAL, and also requires disclosing the plan's net pension liability and ratio of fiduciary net position to total pension liability. The schedule of net pension liability presents multi-year trend information about whether the fiduciary net position is increasing or decreasing over time relative to total pension liability.

The following table sets forth for the years 2013-2016 (the only years for which information is available) the net pension liability and related information regarding the State Division Plan. The required supplemental information in the PERA 2016 CAFR includes a schedule showing the sources of the changes

in net pension liability for 2014-2016 (information for 2013 is not available). See also "—Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB 68" hereafter.

# TABLE 5 Net Pension Liability State Division<sup>1</sup> (dollar amounts in thousands)

	For the Year Ended December 31,						
	2016	2015	2014	2013			
Total pension liability <sup>2</sup>	\$31,994,311	\$23,991,569	\$23,420,461	\$22,888,431			
Plan fiduciary net position	13,626,180	13,460,536	14.013.947	13.980.460			
Net pension liability	\$18,368,131	\$10,531,033	\$ 9,406,514	\$ 8,907,971			
Net pension liability as a percentage of total							
pension liability	42.59%	56.11%	59.84%	61.08%			
Covered employee payroll	\$2,710,651	\$2,641,867	\$ 2,564,670	\$ 2,474,965			
Net pension liability as a percentage of covered		200 (20)	266 770	250.000			
employee payroll	677.63%	398.62%	366.77%	359.92%			

<sup>1</sup> Information for years prior to 2013 is not available.

<sup>2</sup> The total pension liability for the State Division was determined by actuarial valuations as of December 31, 2015, and accepted actuarial procedures were applied to roll-forward the total pension liability to December 31, 2016. The actuarial valuations as of December 31, 2016, used the key actuarial methods, assumptions or other inputs discussed in "—Funding Status of the State

Division Plan" above, except that the fair value of assets, rather than a four-year smoothed market value of assets, was used to determine the net pension liability.

Source: PERA 2016 CAFR

#### **Investment of State Division Plan Assets**

State law authorizes the investment of PERA's funds by the PERA Board, subject to the following limitations:

- The aggregate amount of investment trust shares, corporate stocks, corporate bonds and convertible debentures cannot exceed 65% of the book value of the fund.
- Neither common nor preferred stock of a single corporation can exceed 5% of the book value of the fund.
- The fund cannot acquire more than 12% of the outstanding stocks or bonds of a single corporation.

See Note 5 to the financial statements and the Investment Section of the PERA 2016 CAFR for additional discussion of PERA's investment responsibilities and investment policies.

## **Implementation of Changes in Pension Accounting Standards Applicable to the State—GASB** 68

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" ("GASB 68") is a GASB pronouncement that is related to GASB 67 and applicable to governmental entities, such as the State, that provide their employees with pension benefits. GASB 68 is effective for fiscal years beginning after June 15, 2014, and accordingly has been implemented beginning with the State's Fiscal Year 2014-15 CAFR. GASB 68 revises and establishes new financial reporting requirements for governmental entities,

and, among other things, requires cost-sharing employers participating in defined benefit plans to record their proportionate share of the unfunded pension liability. PERA reports that the State Division had a UAAL of approximately \$9.7 billion as of December 31, 2013, \$9.9 billion as of December 31, 2014, \$10.2 billion as of December 31, 2015, and \$11.6 billion as of December 31, 2016.

The State reported a liability in the State's Fiscal Year 2016-17 CAFR of approximately \$17.8 billion, consisting of approximately \$17.5 billion for the State Division and \$0.3 billion for the Judicial Division, at June 30, 2017, compared to a reported liability in the State's Fiscal Year 2015-16 CAFR of approximately \$10.3 billion, consisting of approximately \$10.1 billion for the State Division and \$0.2 billion for the Judicial Division, at June 30, 2016, for its proportionate share of the net pension liability. The amounts presented for each Division were determined as of the calendar year-end that occurred within the Fiscal Year. See Note RSI-2 to the Required Supplementary Information and also Note 6 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement for a description of the methodology utilized to determine these amounts.

There is a difference between the net pension liability for the State reported by PERA and the State in their respective financial statements. The difference results from PERA's inclusion of employers in the State Division and the Judicial Division which are not included in the State's financial statement reporting entity. The PERA Board has statutory authority to assign employers to the State Division and Judicial Division that are not part of the State's financial statement reporting entity as defined by GASB Statement No. 14, as amended by GASB Statements No. 39 and 61. Examples of these employers in the State Division include Pinnacol Insurance, Fire and Police Pension Association and District Attorneys. Denver County Courts is the only Judicial Division employer that is not part of the State's financial statement reporting entity. The State includes in its financial statements a percentage of the net pension liability reported by PERA in its financial statements for each Division to determine the State's proportionate share in accordance with requirements of GASB 68. Additional information concerning the State's reporting entity can found in Note 1 to the State's Fiscal Year 2016-17 CAFR appended to this Official Statement, and additional information concerning the proportionate share calculation can be found in Note 6 to the State's Fiscal Year 2016-17 CAFR.

The State's proportionate share of the net pension liability at the end of Fiscal Years 2013-14 through 2016-17 in accordance with requirements of GASB 68 is set forth in the following table.

[Remainder of page intentionally left blank]

#### TABLE 6

#### State's (Primary Government's) Proportionate Share of the Net Pension Liability\* (dollar amounts in thousands)

	Fiscal Yea State Division	r 2016-17 Judicial Division	Fiscal Year State Division	2015-16 Judicial Division	Fiscal Yea State Division	r 2014-15 Judicial Division	Fiscal Yea State Division	r 2013-14 Judicial Division
State's proportion of the net pension liability (asset)	95.49%	94.17%	95.71%	93.98%	95.85%	93.60%	95.86%	93.44%
State's proportionate Share of Net Pension liability (asset)	\$17,539,72	\$239,423	\$10,079,249	\$172,828	\$9,015,773	\$129,500	\$8,539,181	\$102,756
State's covered-employee	. , ,	. ,	. , ,		. , ,	. ,		
payroll State's proportionate share of the net pension liability (assets) as a percentage of its covered-employee	\$2,751,094	\$46,320	\$2,687,152	\$44,159	\$2,586,800	\$40,114	\$2,570,286	\$37,203
payroll Plan fiduciary net position as a	637.55%	516.89%	375.09%	391.38%	348.53%	322.83%	332.23%	276.20%
percentage of the total pension liability	42.59%	53.19%	56.11%	60.17%	59.84%	66.88%	61.08%	71.26%

<sup>\*</sup>The amounts presented for each Fiscal Year were determined as of the calendar year-end that occurred within the Fiscal Year and were calculated as described in Note 6 to the and Note RSI-2 to the Required Supplementary Information in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement. Source: State Fiscal Year 2016-17 CAFR

A 10-year history of the State's contribution to PERA for the State and Judicial Divisions is also included in Note RSI-2 to the Required Supplementary Information in the State's Fiscal Year 2016-17 CAFR appended to this Official Statement. See also "—Overall Financial Position and Results of Operations" in the Management's Discussion and Analysis, and Notes 1 and Notes 6-8 to the State's Fiscal Year 2016-17 CAFR.

#### Effect of Pension Liability on the Series 2018 Notes

For a discussion of the State's current pension liability, see the Management's Discussion and Analysis in the Financial Section of the State's Fiscal Year 2016-17 CAFR appended to this Official Statement under the caption "CONDITIONS EXPECTED TO AFFECT FUTURE OPERATIONS— Pension Plan Contributions." No assurances can be given that the assumptions underlying the State's current plan to address its pension liabilities will be realized or that actual events will not cause material changes to the pension data presented in this Official Statement including this Appendix. The PERA Board of Trustees has initiated discussion of reforms by proposing a series of recommendations which would impact most PERA membership. Other proposals will likely be made as interested parties seek to address PERA's risk profile and funding status. The State Legislature and Governor are ultimately responsible for passing any legislation which would make material changes to the PERA retirement plan. No assurance can be given that any legislative changes will be enacted in the 2018 legislative session. The State's current pension liability or any increase in the State's pension liability may have a material adverse effect on the State's ability to fully pay its obligations, including the Series 2018 Notes. (THIS PAGE INTENTIONALLY LEFT BLANK)

#### **APPENDIX F**

#### **DTC BOOK-ENTRY SYSTEM**

The information in this Appendix concerning DTC and DTC's book-entry system has been obtained from DTC and contains statements that are believed to describe accurately DTC, the method of effecting book-entry transfers of securities distributed through DTC and certain related matters, but the State takes no responsibility for the accuracy or completeness of such statements. Beneficial Owners should confirm the following information with DTC or the DTC Participants.

None of the State, the State Treasurer, the Deputy Treasurer, the Chief Financial Officer of the Department of the Treasury, the State Controller or the Financial Advisor has any responsibility or obligation to any Beneficial Owner with respect to (i) the accuracy of any records maintained by DTC or any DTC Participant, (ii) the distribution by DTC or any DTC Participant of any notice that is permitted or required to be given to the Owners of the Series 2018 Notes under the Authorizing Resolution, (iii) the payment by DTC or any DTC Participant of any amounts received under the Authorizing Resolution with respect to the Series 2018 Notes, (iv) any consent given or other action taken by DTC or its nominee as the owner of Series 2018 Notes or (v) any other related matter.

DTC will act as securities depository for the Series 2018 Notes. The Series 2018 Notes will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Series 2018 Note certificate, in the aggregate principal amount of the Series 2018 Notes, will be issued and deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has an S&P rating of "AA+." The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at http://www.dtcc.com and http://www.dtc.org. The State undertakes no responsibility for and makes no representations as to the accuracy or the completeness of the content of such material contained on such websites as described in the preceding sentence, including, but not limited to, updates of such information or links to other internet sites accessed through the aforementioned websites.

Purchases of Series 2018 Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2018 Notes on DTC's records. The ownership interest of each Beneficial Owner is in turn recorded on the records of Direct and Indirect Participants. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2018 Notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2018 Notes is discontinued.

To facilitate subsequent transfers, all Series 2018 Notes deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2018 Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2018 Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2018 Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2018 Notes may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2018 Notes, such as redemptions, defaults and proposed amendments to the Authorizing Resolution. For example, Beneficial Owners of Series 2018 Notes may wish to ascertain that the nominee holding the Series 2018 Notes for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Series 2018 Notes unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2018 Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments with respect to the Series 2018 Notes will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the State or the State Treasurer on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participants and not of DTC, the paying agent or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments with respect to the Series 2018 Notes to Cede & Co., or to such other nominee as may be requested by an authorized representative of DTC, is the responsibility of the State or the paying agent, disbursement of such payments to Direct Participants is the responsibility of DTC and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series 2018 Notes at any time by giving reasonable notice to the State. Under such circumstances, in the event that a successor securities depository is not obtained, Series 2018 Note certificates are required to be printed and delivered to the appropriate Owners of the Series 2018 Notes.

The State may at any time decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository) with respect to the Series 2018 Notes. In that event, Series 2018 Note certificates will be printed and delivered to DTC.

(THIS PAGE INTENTIONALLY LEFT BLANK)

#### **APPENDIX G**

#### FORM OF OPINION OF BOND COUNSEL

July 19, 2018

Treasurer of the State of Colorado 200 E. Colfax Avenue Room 140 State Capitol Building Denver, Colorado 80203

#### State of Colorado General Fund Tax and Revenue Anticipation Notes Series 2018

Ladies and Gentlemen:

We have acted as Bond Counsel to the Treasurer of the State of Colorado (the "Treasurer") in connection with the issuance of its "State of Colorado, General Fund Tax and Revenue Anticipation Notes, Series 2018" in the aggregate principal amount of \$600,000,000 (the "Notes"), pursuant to the resolution of the Treasurer (the "Resolution") adopted and approved on July 19, 2018. In such capacity, we have examined the certified proceedings relating to the Notes and such other documents and such law of the State of Colorado (the "State") and of the United States of America as we have deemed necessary to render this opinion letter. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them by the Resolution.

Regarding questions of fact material to our opinions, we have relied upon the certified proceedings relating to the Notes and other representations and certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based upon such examination, it is our opinion as Bond Counsel that:

1. The State is duly created and validly existing as a body corporate and politic with power to issue the Notes and perform its obligations contained therein.

2. The Notes are valid and binding special, limited obligations of the State, enforceable against the State in accordance with their terms, payable solely from the Pledged Revenues, as provided in the Notes and the Resolution.

3. Pursuant to the Fund Management Act of 1986, part 9 of article 75 of title 24, Colorado Revised Statutes, as amended, the Resolution creates a valid lien on the Note Payment Account and the Pledged Revenues deposited therein for the security of the Notes, to the extent provided in the Notes and the Resolution and subject to the rights of the owners of Additional Notes, if any. Except as described in this paragraph, we express no opinion regarding the priority of the lien on the Pledged Revenues and on the Note Payment Account created by the Resolution.

4. Under existing statutes, regulations, rulings and court decisions, subject to the assumptions stated herein, interest on the Notes is excludable from gross income for federal income tax purposes. Furthermore, interest on the Notes is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. Federal legislation enacted in 2017 eliminates

alternative minimum tax for corporations for taxable years beginning after December 31, 2017. For taxable years beginning before January 1, 2018, corporations should consult their tax advisor regarding alternative minimum tax implications of owning the Notes. Bond Counsel will express no opinion regarding other federal tax consequences resulting from the ownership, receipt or accrual of interest on, or disposition of the Notes.

5. Bond Counsel is further of the opinion that under State of Colorado statutes as presently enacted and construed, to the extent interest is excluded from gross income for federal income tax purposes, such interest is excluded from income for State of Colorado income tax purposes.

The opinions expressed in this opinion letter are subject to the following:

In rendering the opinions set forth in Paragraphs (4) and (5) above, we have assumed the accuracy of the certifications and representations of the State and the continuing compliance by the State with the requirements of the Internal Revenue Code of 1986, as amended, and applicable regulations thereunder that must be met after the delivery of the Notes in order that interest on the Notes be and remain excludable from gross income for federal income tax purposes. The failure by the State to meet such requirements may cause interest on the Notes to be included in gross income for federal income tax purposes retroactively to the date of delivery of the Notes. The State has covenanted to take the actions required by the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Notes.

Except as stated in Paragraph (4) and (5) above, we express no opinion as to any other tax consequences regarding the Notes.

The obligations of the State pursuant to the Notes and the resolution are subject to the application of equitable principles, to the reasonable exercise in the future by the State and its governmental bodies of the police power inherent in the sovereignty of the State, and to the exercise by the United States of America of the powers delegated to it by the Federal Constitution, including, without limitation, bankruptcy powers.

In this opinion letter issued in our capacity as Bond Counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy, or completeness of the Official Statement or any other statements made in connection with any offer or sale of the Notes or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Notes, except those specifically addressed herein.

This opinion letter is issued as of the date hereof, and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Respectfully submitted,
